No: F1 (4)/SEIAA/SEAC-Raj/Sectt/Project/ Cat.1(a)B1(353)/08-09

To,
M/s Binani Cement Ltd., 17-A,
Old Fatehpura, Near Sewa Mandir,
Udaipur-313004

Sub: EC for proposed 120 MW Pit head, Captive Power Plant by M/s Binani Cement Ltd. at Village- Nimbri, Tehsil-Degana, District-Nagaur

Sir,

This has reference to your application dated 19.4.08 to MoEF, Government of India seeking environmental clearances for the above project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification 2006 on the basis of the mandatory documents enclosed with the application viz. the questionnaire, EIA, EMP and additional clarifications furnished in response to the observation of the State Level Expert Committee Rajasthan, in its meetings held on 23.5.11, 25/26.7.11 & 26.9.11.

2. Brief details of the Project:

1. Item No. in the list of Schedule / Category: 1(d), B1
2. Location of Project: Near Village-Nimbri, Tehsil-Degana, District-Nagaur
3. Total Plot Area: 23.00 ha. (Government Grazing / Charagah land)
4. Product & Capacity: Power Generation; 120 MW
5. Total Project Cost: Rs. 480 Crores
6. Water Requirement & Source:
   (a) Gross Water Requirement : 7,050 m³/day
   (b) Less Recycled water to be used : 1,050 m³/day
   (c) Net Fresh Water Requirement : 6,000 m³/day
   (d) Source :- Mine pit water to be abstracted from proposed Nimbri Chandrawatan Lignite Mine during its operation.
7. Fuel & Energy:
   (1) Lignite (at 80% Boiler efficiency) : 8.25 lakh TPA (i.e. approx 2,500 TPD)
   (2) HSD/LDO : 340 KL/Annum
8. Environment Management Plan

   Provision for Environmental Protection Measures (Lakh Rs.)

Funds to be provided for social welfare activities in the area is Rs. 45.00 lakh/year (approx)

9. Socio-economic/ C.S.R. activities

The SEAC Rajasthan after due considerations of the relevant documents submitted by the project proponent and additional clarifications/documents furnished to it have recommended for Environmental Clearance with certain stipulations. The SEIAA Rajasthan after considering the proposal and recommendations of the SEAC Rajasthan hereby accord Environmental Clearance to the project as per the provisions of Environmental Impact Assessment Notification 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:
i. This EC is granted for 120 MW (Configuration 1 X 50 MW, 2 X 25 MW & 1 X 20 MW) lignite based Thermal Power Plant.

ii. All the conditions stipulated by Rajasthan State Pollution Control Board in the letter of C.T.E and C.T.O. shall be strictly implemented.

iii. Ash and sulphur contents in the lignite shall not exceed 28% & 1.4% respectively.

iv. Circulating Fluidized Bed Combustion (CFBC) boilers with lime injection shall be used.

v. As envisaged, stack of 76 m height in the 1 X 50 MW, 2 X 25 MW plants and stack of 56 m height in the 1 X 20 MW plant, based on worst lignite firing (GCV2700-3200 kcal/kg) with highest sulphur (1%) content (and 90% sulphur removal in the boiler when limestone is added), according to emission guidelines of CPCB shall be provided with continuous on-line monitoring system. Data collected shall be analyzed and submitted regularly to the Regional office of the MoEF at Lucknow and R.O., RPCB, Bikaner.

vi. Total fresh water (ground water) requirement shall not exceed 6,000 m³/day. No discharge of effluents directly or indirectly shall be done out side the plant boundary.

vii. As envisaged, the P.P. shall draw the required quantity of water from the mine pit water to be abstracted from proposed Nimibri Chandrawatavan Lignite Mine during its operation. The required N.O.C in this regard shall be obtained from the CGWA and copy of N.O.C shall be submitted by the P.P. to the RPCB at the time of applying for C.T.E and C.T.O.

viii. Closed circuit cooling with cooling towers shall be provided.

ix. The PP shall provide Ash pond - 25 years for bottom ash and 10 years for fly ash.

x. The PP shall ensure that, treated waste water may be used for ash quenching and any balance volume for horticulture.

xi. The PP shall obtain clearance from Ministry of Defense, particularly for providing stack of the proposed height vis-a-vis the requirements of the IAF and also from the Air port Authority of India.

xii. The PP shall provide CGWA clearance for abstraction of groundwater.

xiii. The PP shall provide disinfection on domestic waste water treatment line.

xiv. The PP shall explore the feasibility for dry condensers in place of wet condensers.

xv. The PP shall provide pollution control system right from lifting of lignite from mine; fugitive emissions at all identified points.

xvi. The PP shall take urgent steps to reduce water consumption.

xvii. The PP shall provide the copy of PPA document (25 years).

xviii. The PP shall provide status of land acquisition with a clear certificate that no litigation is pending in this regard.

xix. The P.P. shall get the land use of the project site converted for industrial use from the competent authority.

xx. Fly ash shall be collected in dry form and ash generated shall be used in a phased manner as per provisions of the notification on Fly Ash Utilization issued by the Ministry in September, 1999 and its amendment. By the end of 9th year full fly ash utilization shall be ensured.

xxi. Ash pond shall be lined with impervious layer to avoid leachate.

xxii. The Proponent shall obtain prior Consent to Establish and Consent to Operate from Rajasthan State Pollution Control Board under Water (Prevention and Control of Pollution) Act, 1974 and Air (Prevention and Control of Pollution) Act, 1981.

xxiii. As proposed in REIA, the management shall install air cooled condenser system to cut down fresh water demand.

xxiv. Continuous stack monitoring facilities to monitor gaseous emissions from all the stacks shall be provided to control emissions within limits by installing adequate air pollution control system like bag filters, dust collectors, ESP etc. Interlocking facility shall be provided in the pollution control equipment so that in the event of the pollution control equipment not working, the respective unit(s) is shut down automatically.

xxv. As envisaged, the Industrial wastewater generated (1050 m³/day coming from Filter backwash, DM regeneration and blow down unit) shall be treated in ETP(Effluent Treatment Plant). Out of this, 700 m³/day will be recycled and used for cooling purpose and the remaining in green belt and dust suppression. No discharge of effluents directly or indirectly shall be done outside plant boundary.

xxvi. As estimated, the Bottom Ash (5,000 TPA) and Fly Ash (1.0 lakh TPA) generated from the plant shall be collected in dry form, in "Ash Silo" (from boiler, economizer, air pre-heater and ESP) and shall be handled as proposed and sent to utilize in clinker grinding unit of Binani cement Ltd., located at Neem Ka Thana, District Sikar. The Ash shall be disposed of in environment-friendly manner as per provisions of the notification on Fly Ash Utilization issued by the Ministry in September, 1999 (amendment till date). The project proponent shall enter into long term contracts with cement manufactures / brick manufacturers prior to start of the work. Ash disposal would be done through high concentration slurry disposal system on the lined pond. Fly ash utilization plan shall be submitted to the RPCB within six months. Ash generated shall be used in a phased manner. By the end of 7th year full fly ash utilization shall be ensured; however in line the provisions under Fly Ash Notification 1999(extended till date).

xxvii. Electrostatic Precipitator (ESP) with 99.9% efficiency shall be installed to control particulate emission within the prescribed limit up to 100 mg/Nm³. The ESP will be interlocked with the boiler so that, in the
event of non-functioning of ESP, the power plant shuts down instantly. As proposed, the ESP shall be connected with the ash handling system.

xxviii. Fugitive dust emissions shall be controlled as per CPCB guidelines on Fugitive Dust Emissions. The PP shall make elaborate fugitive dust emission control plan at all areas including closed storage areas, closed transportation systems, mechanical material handling systems, and wherever possible conversion of non-point source emissions to point source emissions through creation of vacuum or suction.

xxix. The hazardous waste generated shall be disposed in accordance with provisions under the “Hazardous Wastes (Management, Handling and Trans boundary Movement) Rules 2008 (amended till date).

xxx. Plantation shall be carried out in an area of 9 ha (total 13,500 trees to be planted). The peripheral plantation shall be carried out in minimum two rows (in staggered manner) to minimize the affects of air pollution. Every year due care shall be taken to replace the causalities.

xxxi. The management shall provide an effective rainwater harvesting system and optimise the cost of conservation. Central Groundwater Authority/Board shall be consulted for finalization of appropriate water harvesting scheme/structures within a period of three months from the date of clearance.

xxxii. Infrastructure facilities including sewage treatment and its sanitary disposal, first aid and shall be made for the project personnel/contract labour and drivers during construction phase.

xxxiii. Regular monitoring of the air quality shall be carried out in and around the power plant and records be maintained. All air, water and other monitoring shall be carried out through a MOEF/NABL/CPCB/Government approved laboratories. Six monthly reports shall be submitted to the RPCB and the Regional Office of this Ministry at Lucknow.

xxxiv. Regular monitoring of the air quality shall be carried out in and around the power plant (mostly in the down wind directions) and records be maintained. Six monthly reports shall be submitted to the RPCB and the MoEF, Regional Office at Lucknow. The PP shall make concrete efforts to reduce CO₂ emission to the atmosphere (calculated at the rate of 997 gms of CO₂/kWh of power generated).

xxxv. Regular monitoring of ground water in and around the ash disposal area shall be carried out, records maintained.

xxxvi. Carry out regular analysis of ash for mercury content, the mercury content shall be less than 25 ppm.

xxxvii. Leq of noise level shall be limited to 75 dB (A) and regular maintenance of equipment is undertaken. For people working in the high noise area, earplug shall be provided.

xxxviii. For controlling fugitive dust, regular sprinkling of water in lignite storage area and other vulnerable areas of the plant shall be ensured.

xxxix. As proposed, effective fire fighting system shall be provided and mock drills be carried out as per fire & safety rules.

xl. As stated, the P.P. shall year mark and spend an amount of Rs. 1,072 lakhs towards initial capital component and Rs. 12 lakh annum towards recurring cost of implementing the Environmental Management Plan.

xli. As stated, the P.P. shall year mark and spend an amount of Rs. 45 lakhs per year for implementing the social welfare and community development schemes under C.S.R. activities.

xlii. The project proponent shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the vernacular language of the locality concerned, informing that the project has been accorded environmental clearance and copies of clearance letters are available with the SEIAA, Rajasthan and RPCB.

xliii. A separate environment monitoring cell with suitable qualified staff shall be set up for implementation of the stipulated environmental safeguards.

xliv. Educational and Skill mapping shall be carried out by the PP on the basis of secondary data and submitted to RPCB and the MoEF, Regional Office at Lucknow.

xlv. Post project monitoring shall be carried out as proposed and half yearly report on the status of implementation of the stipulated conditions and environmental safeguards shall be submitted to the RPCB/CPCB and the MoEF, Regional Office at Lucknow.

xlvi. Regional Office of the MoEF located at Lucknow and RPCB shall monitor the implementation of the stipulated conditions. A complete set of documents including Environmental Impact assessment Report and Management Plan shall be forwarded to these organizations for use during monitoring.

xlvii. Full monitoring shall be extended to the Officers of RPCB/CPCB/MoEF Regional Office at Lucknow, who would be monitoring the compliance of environmental status.

xlviii. The environmental clearance is subject to any litigation pending before any courts of law/tribunal/legal body in the State/Country, if any.

1 The SEIAA, Rajasthan reserves the right to add new, annul/modify existing stipulated conditions, and/or revoke the clearance if these conditions are not implemented to its satisfaction, in the interest of environment protection.

2 The environmental clearance accorded shall be valid for a period of 5 years from the date of start of operation by the power plant.
3 In case of any deviation or alteration in the proposed project from that submitted for clearance, a fresh reference shall be made to the SEIAA, Rajasthan to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.

4 Necessary permission shall be obtained from the Chief Controller of Explosives and Factory Inspectorate for the Storage of lignite.

6 Document to be provided at the time of applying to RPCB for Consent to Establish/Operate:
   - Environmental clearance from the MoEF (GoI) for lignite source ("Nimbri Chandrawat Lignite Block" mine) of the project proponent-M/s Binani Cement Ltd.
   - Approval of competent authority to the proposed Fire Fighting Plan.
   - The PP shall obtain and submit copy of approval/N.O.C. of competent authority in CGWA for using ground water, for the project.
   - Source and period of Socio Economic data used in the report to be provided.
   - Details of flora and fauna in the study area duly authenticated by the concerned DFO.
   - Source of data and date of collection to be as per the TOR.

7 A voluntary commitment of the Social responsibility activities to be undertaken by the project proponent and the budgeted amount proposed for such activity.

Yours faithfully,

(Sankatha Prasad)
Member Secretary
SEIAA Rajasthan
