No. F1 (4)/SEIAA/SEAC-Raj/Sectt/Project / Cat. 1(a)/B1/(392)/11-12  
Jaipur, Dated: 5 JUL 2013

To,
Shri Manoj Kumar Khandal  
S/o Shri Prabhu Dayal Khandal,  
Village – Bhonawas, Via- Paota,  
Tehsil Kotputli,  
Dist. Jaipur – 303 106

Sub: E.C. for proposed Quartz and Feldspar Mine (ML No. 45/05, Area 7.7263 ha), n/v Kaliba Ki Dhani, Tehsil – Kotputli, District Jaipur, Rajasthan

Sir,

This has reference to your application dated 28.07.11 seeking environmental clearances for the above project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification 2006 on the basis of the mandatory documents enclosed with the application viz. the questionnaire, EIA, EMP and additional clarifications furnished in response to the observation of the State Level Expert Committee Rajasthan, in its meeting held on 21.05.13

2. Brief details of the Project:

Source: - Bore Well (As per letter dt. 07.12.2011 of the P.P.)

8. Fuel & Energy:-  
HSD Required = 120 liters / day (As per letter dt. 07.12.2011 of the P.P.)  
As and when required trucks, air compressor, tractor mounted, with Jackhammer hydraulic loader / excavator will be deployed on hiring basis.

9. Approval of Mining Plan: -  
The mining plan has been approved vide order no. SME/JP/MP/117/10 dated 27.12.2010. The mining will be carried out by open cast semi-mechanized method.

3. The SEAC Rajasthan after due considerations of the relevant documents submitted by the project proponent and additional clarifications/documents furnished to it have recommended for Environmental Clearance with certain stipulations. The SEIAA Rajasthan after considering the proposal and recommendations of the SEAC Rajasthan hereby accord Environmental Clearance to the project as per the provisions of Environmental Impact Assessment Notification 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

**A - SPECIFIC CONDITIONS**

i. This Environmental clearance is granted for annual production capacity 39,000TPA of quartz & Feldspar.

ii. Before starting the Mining operations, the proponent will obtained prior CTE and CTO under Air Act and Water Act from RPCB and effectively implement all the conditions stipulated by the RPCB.

iii. The mining operations shall not intersect groundwater table. In case of working below groundwater table, prior approval of the Central Ground Water Authority shall be obtained.

iv. Topsoil shall be stacked temporarily at earmarked sites only and it shall not be kept unutilized for a period more than three years; it shall be used for land reclamation and plantation in mined out areas.

v. The project proponent shall ensure that no natural water course/water body shall be obstructed due to any mining operations.

vi. That the grant of this E.C. is issued from the environmental angle only, and does not obsolete the project proponent from the other statutory obligations prescribed under any other law or any other instrument in force. The sole and complete
responsibility, to comply with the conditions laid down in all other laws for the
time-being in force, rests with the project proponent.

vii. The over burden generated shall be stacked at earmarked dump site(s) only and it
shall not be kept active for long period of time. The maximum height of the already
existing waste dumps shall not exceed 5 meters in single terraces and the slope
angle shall not exceed 28°.

viii. The dumping site selected and proposed shall be used for OB dump at the
designated site as per the approved mine plan. In no case over burden will be
dumped out side the lease area.

ix. The benches height and slope shall be maintained as per the DGMS approval.

x. Waste dump shall be terraced. The height of the dump and its slope shall not exceed
than suggested/DGMS requirements. A retaining wall shall be constructed at the toe
of the dump.

xi. Garland drains shall be constructed to prevent the flow of the water in the dumps.

xii. Check dams shall be constructed in the seasonal rivulets to prevent the flow of fines
to low lying areas during rains.

xiii. The PP shall not obstruct the natural drains in the area.

xiv. The total waste generated in the present plan period shall be as envisaged, which
shall be accommodated in old dumpsite in addition to the waste already dumped.
Monitoring and management of rehabilitated areas shall continue until the vegetation
becomes self-sustaining. Compliance status shall be submitted to RPCB and MoEF
Zonal Office, Lucknow on six monthly bases.

xv. Permission from the competent authority shall be obtained for drawl of ground
water, if required.

xvi. Drills shall either be operated with dust extractors or equipped with water injection
system.

xvii. The higher benches of excavated void/mining pit shall be terraced and plantation
done to stabilize the slopes. The slope of higher benches shall be made gentler for
easy accessibility by local people to use the water body. Peripheral fencing shall be
carried out along the excavated area.

xviii. Catch drains and siltation ponds of appropriate size shall be constructed for the
working pit, OB dumps and mineral dumps to arrest flow of silt and sediment. The
water so collected shall be utilized for watering the mine area, roads, green belt
development etc. The drains shall be regularly de-silted, particularly after monsoon,
and maintained properly.

xix. Garland drains, setting tanks and check dams of appropriate size, gradient and
length shall be constructed both around the mine pit and over burden dumps and
sump capacity shall be designed keeping 50 % safety margin over and above peak
sudden rainfall (based on 50 years data) and maximum discharge in the area
adjoining the mine site. Sump capacity shall also provide adequate pits shall be
constructed at the corners of the Garland drains and de-silted.

xx. Dimension of the retaining wall at the toe of dumps and OB benches within the
mine to check run-off and siltation shall be based on the rainfall data.

xxi. Green belt should be developed in 33% of total area including the proposed
plantation in 2.549 ha. Plantation should be carried out in phased manner in three
years. The green belt should be developed in the safety zone around the mining
lease by planting the native species around ML area, OB dumps, backfilled and
reclaimed around water body, roads etc. in consultation with the local
DFO/Agriculture Department.

xxii. Regular water sprinkling shall be carried out in critical areas prone to air pollution
and having high levels of SPM and RPM such as haul road, loading and unloading
point and transfer points. It shall be ensured that the Ambient Air Quality
Parameters conform to the norms prescribed by the CPCB.

xxiii. The project authority shall implement suitable conservation measures to augment
ground water resources in the area in consultation with the Regional Director,
Central Ground Water Board.
Regular monitoring of ground water level and quality shall be carried out in and around the mine lease. The monitoring shall be carried out four times in a year - pre monsoon (April- May), monsoon (August), post monsoon (November); winter (January) and the data thus collected may be sent regularly to MoEF Regional Office, Lucknow; CGWA and Regional Director CGWB, Jaipur.

Data on ambient air quality and stack emissions shall be submitted to Rajasthan State Pollution Control Board once in six months carried out by MOEF/NABL/CPCB/Government approved lab.

Vehicular emissions shall be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. The vehicles shall be covered with a tarpaulin and shall not be overloaded.

Blasting operation shall be carried out only during the daytime. Controlled blasting shall be practiced. The mitigation measures for control of ground vibrations and to arrest fly rocks and boulders shall be implemented. Drilling & blasting to be carried out at per prevailing norms.

Take all safety measures as per the various mining regulations specifically pertaining to Underground mines.

The project proponent shall take all precautionary measures during mining operations for conservation and protection of endangered fauna, if any, spotted in the study area. A plan for conservation shall be drawn and approved by the State Wildlife Department. Necessary allocation of funds for implementation of the conservation plan shall be made and the funds so allocated shall be included in the project cost. All the safeguard measures brought out in the wildlife conservation plan so prepared specific to the project site shall be effectively implemented. A copy of action plan may be submitted to the RPCB and MoEF, Regional Office, Lucknow within 3 months.

As envisaged, the P.P. shall invest at least an amount of Rs. 1 lacs as capital cost & Rs. 50000 as annual recurring cost for implementing various environmental protection measures.

A sum of Rs 1 lacs as capital cost & Rs. 50000 as annual recurring cost per years shall be earmarked by the P.P. for investment as CSR on socio economic upliftment activities of the area particularly in the area of habitat, health or education, training programme of rural women & man provide the kit for employment generation. The proposal should contain provision for toilets for girls in nearby schools. Details of such activity along with time bound action plan be submitted to RSPCB at the time of applying for CTE.

Budgetary provision for the labours working in the Mine should be submitted for all necessary infrastructure facilities such as health facility, sanitation facility, fuel for cooking, along with safe drinking water, medical camps, and toilets for women, crèche for infants. The housing facilities should be provided for mining labours. This should be as proposed in the letter dated 21.05.2013, submitted during presentation,(Rs60000 capital cost, Rs 40000 recurring cost)

A final mine closure plan along with details of corpus fund shall be submitted to the MoEF 5 years in advance of final mine closure for approval.

The water reservoir, which would be created/available during post closure (all pits), shall be provided with suitable benches and fencing to provide the access to the water body and safety purposes.

The PP shall ensure that, the EC letter as well as the status of compliance of EC conditions and the monitoring data are placed on company's website and displayed at the project site.

Group Insurance is to be provided.

The SEIAA, Rajasthan reserve the right to add new conditions, modify/ annul any condition and/or to revoke the clearance if implementation of any of the aforesaid condition/other stipulations imposed by competent authorities is not satisfactory. Six monthly compliance status reports on project along with implementation of
environmental measures shall be submitted to MoEF, Regional Office, Lucknow, SEIAA Rajasthan & RPCB.

B. GENERAL CONDITIONS
1. Any change in mining technology/scope of working shall not be made without prior approval of the SEIAA.
2. Any change in the calendar plan including excavation, quantum of mineral and waste shall not be made.
3. Periodic monitoring of ambient air quality shall be carried out for PM$_{10}$, PM$_{2.5}$, SPM, SO$_2$ and NO$_x$ monitoring. Location of the stations (minimum 6) shall be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring shall be decided in consultation with the Rajasthan State pollution Control Board (RPCB). Six monthly reports of the data so collected shall be regularly submitted to the RPCB/CPCB including the MoEF, Regional office, Lucknow.
4. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM etc. shall be provided with earplugs/muffs.
5. Industrial waste water (workshop and waste water from the mine) shall be properly collected & treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May '93 and 31st December 1993 (amended to date). Oil and grease trap shall be installed before discharge.
6. Personnel working in dusty areas shall wear protective respiratory devices they shall also be provided with adequate training and information on safety and health aspects.
7. Occupational health surveillance program of the workers shall be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.
8. The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year wise expenditure shall be reported to the RPCB and the Regional office of MoEF located at Lucknow.
9. The RPCB and MoEF, Regional Office, Lucknow shall monitor compliance of the stipulated conditions. The project authorities shall provide a set of a filled in questionnaire and EIA/EMP report to them and extend full cooperation to the above office(s) by furnishing the requisite data/information/monitoring reports.
10. The project proponent shall submit six monthly reports on the status of the implementation of the stipulated environmental safeguards to the RPCB, CPCB and MoEF, Regional Office, Lucknow.
11. A copy of the clearance letter will be marked to the concerned Panchayat/local NGO, if any, from whom suggestions/representations were received while processing the proposal.
12. The PP shall display a copy of the clearance letter at the Regional Office, District Industry Center and Collector/Tehsildar’s office for 30 days.
13. The SEIAA, Rajasthan reserves the right to add new conditions, modify/annul any of the stipulated conditions and/or to revoke the clearance if implementation of any of the condition stipulated by SEIAA, Rajasthan or any other competent authorities is not satisfactory.
14. Failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
15. The above conditions will be enforced, inter alia, under the provisions of the Water (Prevention & Control of Pollution) Act, 1974 the Air (Prevention & Control of Pollution) Act 1981, the Environment (Protection) Act 1986 and the Public Liability Insurance Act 1991(all amended till date) and rules made hereunder and also any other orders passed by the Hon'ble Supreme Court of India/High Court of Rajasthan and any other Court of law relating to the Subject Matter.
16. Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred within a period of 30 day.
17. The PP shall ensure advertising in at least two local news papers widely circulated in the region, one of which shall be in vernacular language that, the project has been accorded
environmental clearance and copies of the clearance letters are available with SEIAA, Rajasthan and the Rajasthan State Pollution Control Board and may also be seen on the website of the Board at www.rpcb.nic.in. The advertisement shall be made within 7(seven) days from the date of issue of the environmental clearance and a copy shall also be forwarded to the SEIAA, Rajasthan and Regional Office, Jaipur(S) of the Board.

18. All the other statutory clearances such as the approvals for storage of diesel from the Chief Controller of Explosives, Fire department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (protection) Act, 1972 etc. shall be obtained, as may be applicable, by PP from the competent authority.

19. These stipulations would also be enforced amongst the others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification’ 06.

Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the proponent, if it was found that construction of the project has been started without obtaining environmental clearance.

Yours faithfully,

(Sankatha Prasad)
