Importance: High

Dear Sir/ Madam,

As per policy w.e.f. 01/03/2017, it was communicated that DESIGNATION BASED SSOIDs should not be used for SSO Login but still people are using them for SSO Login. Hence, as per directions from PS-ITC, all designation based SSOIDs are being blocked for SSO Login. However, you can continue using them for EMAIL purpose (if EMAIL is enabled on them) but not for SSO Login.

Please remove/ unmap all DESIGNATION based SSOIDs from your applications running under SSO and get them replaced with NAME based SSOIDs ASAP. Mapping/ allowing DESIGNATION based SSOIDs for application access shall be the sole responsibility of the respective application OIC only. Also, for security reasons, application should not have its own LOGIN page but should re-direct to SSO Login page only.

Kindly note that duplicate AADHAAR is also not allowed i.e. same AADHAAR cannot be linked with multiple SSOIDs.

Feel free to mail/ call me for clarifications required, if any.

Regards,

RAJEEV GUJRAL
