ORDER

The present appeal has been preferred by M/s Govinshaa Autowheels LLP against the Refusal Order dated 12.08.2026 passed by the Regional Officer, Rajasthan State Pollution Control Board, Kishangarh, whereby the Appellant's application for Consent to Operate was refused under the provisions of the Water (Prevention and Control of Pollution) Act, 1974 and the Air (Prevention and Control of Pollution) Act, 1981.

The Appellant submitted that, in response to the deficiency show cause notice issued by the RSPCB, he submitted a detailed reply dated 10.07.2026 which was not duly considered by the Respondent Board and that one of the show-cause notices addressed to him was not served upon him ever and had denied the receipt. In support of his argument he submitted the reply given to him under RTI dated 20.08.2026 by RSPCB, which has been mentioned of non-confirmation of service of notice.

The learned counsel for respondent RSPCB submitted that the main grounds on which the impugned order of CTO refusal was issued due to the fact that the appellant did not deposit the full fees as required and has deposited 1,10,000 rupees instead of 1,26,000 rupees. Further, at the time of inspection dated 29.06.2026, the appellant had not installed ETP with oil/grease trapping system besides several other serious non-compliances.

Both the parties were heard.

Having considered the submissions made by the parties, the present status of the unit with regard to compliance and adequacy of PCMs in view of extant environmental laws, rules and directions and points raised in the show cause notices issued by the respondent Board needs to be verified by the respondent Board.
