Office Order

As per prevailing policy, State Board is insisting all industries which are disposing their hazardous waste through land-filling to divert it for recycling or dispose it through co-processing in cement industries.

However, it has been observed that some of the industries which has been authorized to dispose the hazardous waste through co-processing are disposing the waste through land-filling which is not as per the policy adopted by the State Board.

The issue has been examined by the State Board and it has been decided that henceforth, the industries which has been authorised to dispose their hazardous waste through co-processing will co-process the waste in cement plants only except under un-avoidable circumstances such as rainy season or closure of the cement plants due to maintenance etc. in which land disposal of hazardous waste through TSDF will be allowed after intimation to the concerning Regional Officer in writing. Further, industries generating significant quantities of hazardous waste and presently disposing the same through land filling will make efforts to divert the same to recycling or co-processing.

This bears approval of the competent authority.

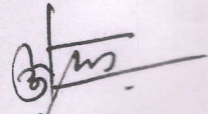

(Anand Mohan)
