Date: 10/9/21

## Office Order

State Board had earlier issued directions to textile and other units in the State to install and configure OCEMS with the State Board portal. The State Board has received representations from various industries to rationalize the mandate and purview of OCEMS.

The matter has been deliberated at the State Board and it has been decided that all Textile and industries of any other sector with effluent generation more than 100 KLD must install and configure the parameters of OCEMS with the State Board's portal within six month of the issuance of this office order according to the following conditions:

- a) *In case of ZLD, the unit shall install and configure both PTZ camera & Flow Meter. It may be noted that industry will be considered under Zero Liquid Discharge (ZLD) only when its entire treated effluent is being reused in process/ utilities. Any likely discharge on land or underground shall not be considered as ZLD including the use of such effluent in ash quenching.*
- b) *In case unit does not achieve condition of ZLD, the unit must install and configure all the OCEMS parameters (pH, TSS, BOD & COD) along with PTZ camera & Flow Meter.*

All Regional Officers are directed to identify such units and inform Online Monitoring Cell, Central Laboratory, Jaipur by 10.09.2021 for further needful in the matter.

This bears approval of the competent authority.

Yours sincerely,

- 11 -  
(Anand Mohan)  
Member Secretary
