# State Level Environment Impact Assessment Authority, Rajasthan

4, Institutional Area, Jhalana Doongri, Jaipur-302004 Phone: 0141-2705633, 2711329 Ext. 361

No: F1(4)/SEIAA/SEAC-aj/Sectt/Project/Cat.8(a)B.(288)/09-10

To.

Mr. Manoj Mittal, Chairman. Anand Education and Research Trust, D-40, Shanti Path, Jawahar Nagar, Jaipur.

T-5.0%

Jaipur, Dated:

6 OCT 2010

Sub: EC for proposed "Anand International College of Engineering", at 814, Kanota Agra Road, Jaipur

Sir.

This has reference to your application dated 14.5.10 to Government of India seeking environmental clearances for the above project under EIA Notification 2006. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification 2006 on the basis of the mandatory documents enclosed with the application viz. the questionnaire, EIA, EMP and additional clarifications furnished in response to the observation of the State Level Expert Committee Rajasthan, in its meeting held on 24/25.6.10.

#### Brief details of the Project: 2.

1.	Item No.(in the list of Schedule/ Category	8(a) / B-2	provinsi vector Dis district generators whe its be
2.	Location	Jaipur-Agra Road, Jaipur	and a second of the second
3	Total Plot Area Expected Cost:	1. Total land area =   2. Built up area (I Phase) =   3. Total buildup area =   4. Parking area =   5. The total area provided for parking is   6. Landscape area =   7. Foot print area =   8. Height =   9. FAR (propose) =   Rs. 98.00 crores. =	49319.4 m2 15,449.32 m2 26,023.18 m2 12,856.13 m2 12,856.13 m2 13,509.50 m2 17261.79 m2 15 m 0.52%
5 6. 7.	Fuel & Energy Water Requirement & Source: Other Points:	(a) During construction 30 KW (b) Post construction 1200 KW D.G. sets 2 nos = with the cumulation of the state of the set	
		Thus it is a violation case.	nas taken place.

The SEAC Rajasthan after due considerations of the relevant documents submitted by the project 3. proponent and additional clarifications/documents furnished to it have recommended for Environmental Clearance with certain stipulations. The SEIAA Rajasthan after considering the proposal and recommendations of the SEAC Rajasthan hereby accord Environmental Clearance to the project as per the provisions of Environmental Impact Assessment Notification 2006 and its subsequent amendments, subject to strict compliance of the terms and conditions as follows:

### PART A: SPECIFIC CONDITIONS I. CONSTRUCTION PHASE

i.

ii.

Consent to Establish" shall be obtained from RPCB before start of any further construction work at the site and submit the following document to RPCB at the time of applying for CTE:

Identification of re-cycling plant with its process.

- For conservation of electricity and to reduce energy losses the management should ensure that the electrical voltage is stepped down from 33 KV to 11 KV and distributed at this level and finally brought to 440 volts. The PP shall ensure to obtain permission from the SE, JVVNL regarding power demand, during construction 30 KW and iii.
- The PP shall provide a System for composting of MSW within the campus and its use/disposal. The PP shall provide a System for BMW management. iv.
- V.
- The PP shall abide by NAC/ AICTE guidelines for setting up the Institute and ensure its follow up.

- The PP shall provide STP based on SBR technology. Provision for expansion in the capacity of STP shall be kept vi. to cope up with the increase in number of students/staff members.
- The PP shall use proper systems for rain water harvesting.
- The PP shall take measures to ensure 10% reduction of overall power demand which should be met by solar vii. system. In this regard solar heaters on terrace top of all hostels and solar street lighting may be provided. viii.
- The PP shall review and specify employment opportunities (direct /indirect numbers) to local persons. ix.
- The PP shall ensure implementation of CSR activities, initially spending 1% of the capital cost and thereafter 1% of annual profit in the balance as recurring cost may be provided. Confirmation for the same be communicated to x. SEIAA within 15 days of issue of letter of environmental clearance.
- The PP shall ensure implementation of fire fighting plan as per NBC Code requirements for Educational xi.
- Provision shall be made for the housing of construction labor within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. xii. The housing may be in the form of temporary structures to be removed after the completion of the project.
- All required sanitary and hygienic measures shall be in place before starting construction activities. The safe disposal of waste water and solid waste generated during the construction phase should be ensured. xiii.
- Adequate drinking water facilities shall be provided for construction workers at the site. Provisions should be made for the supply of fuel (kerosene or cooking gas); energy saving utensils to the xiv. xv.
- labourers. All the labourers engaged for construction should be screened for health and adequately treated before engaging xvi.
- them to work at the site. For disinfection of waste water, appropriate tertiary treatment may be given.
- All the topsoil excavated during the construction should be stored for use in horticulture / landscape development xvii. xviii. within the project site.
- Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of the people, only in xix. approved sites with the approval of competent authority.
- Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate water courses and the dump sites for such material must be secured so that they do not leach into the XX. ground water.
- The diesel generator sets to be used during the construction phase shall be low- sulphur-diesel type and should xxi. conform to Environment (Protection) Rules for air and noise emission standards.
- Vehicles hired for bringing construction material and labourers to the site shall be in good conditions and should conform to applicable air and noise emission standards and should be operated during non-peak/approved hours. xxii.
- Ambient noise levels shall conform to residential standards both during day and night. Incremental pollution loads xxiii. on the ambient air and noise quality should be closely monitored during construction phase.
- Fly ash shall be used as building material in the construction as per the provisions of Fly Ash notification of September, 1999 and amended as on August, 2003 (The above condition is applicable only if the project is within xxiv. 100 km of Thermal Power Station).
- Ready mixed concrete shall be used in building construction.
- XXV. Storm water control and its re-use as per CGWA and BIS standards for various applications.
- xxvi. Water demand during construction should be reduced by the use of pre-mixed concrete, curing agents and other xxvii. best practices.
- Permission to draw ground water shall be obtained from the CGWA / CGWB prior to construction/operation of the xxviii.
- Separation of grey and black water should be done by the use of dual plumbing line for separation of grey and project. xxix. black water.
- Treatment of 100% grey water by decentralized treatment should be done. XXX.
- Adequate measures shall be taken to reduce air and noise pollution during construction keeping in mind CPCB xxxi. norms on noise limits.
- A First Aid Room will be provided in the project both during construction and operation of the project.
- xxxii. Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms xxxiii. with necessary authorization of the Rajasthan Pollution Control Board.
- The approval of the competent authority shall be obtained for structural safety of the buildings due to earthquake, xxxiv. adequacy of fire fighting equipments, etc as per National Building Code 2005 including protection measures from lightening etc.
- Regular supervision of the above and other measures for monitoring should be in place through out the XXXV. construction phase, so as to avoid nuisance to the surroundings.
- Approved building plans from competent Authority. xxxvi.
- Guidelines issued by concerned ministry for water scarce area may be followed. xxxvii.
- Composting of biodegradable waste shall be carried out with in the campus. xxxviii.
- Provision of solar water heating /chilling etc shall be explored. xxxix.
- Review and revise the requirement of DG set capacities for 100% power back up through to optimization of power xl. back up in case of power failure and emergency.

#### **OPERATION PHASE** II

An independent expert shall certify the installation of the Sewage Treatment Plant (STP) and a report in this regard i. shall be submitted to the RPCB, before the project is commissioned for operation. Discharge of treated sewage shall conform to the norms & standards of the Rajasthan State Pollution Control Board.

C:Documents and Settings\Administrator\Desktop\S. Prasad\SEIAA-SEAC\(EC Files)SEIAA\SEIAA EC from April 2010.doc

ii.

- For conservation of electricity and to reduce energy losses the management should ensure that the electrical voltage is stepped down from 33 KV to 11 KV and distributed at this level and finally brought to 440 volts. Rain Water harvesting (RWH) for roof top run-off and surface run-off, as planned shall be implemented. Before iii.
- recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease. The RWH iv.
- The solid waste generated shall be properly collected & segregated before disposal to the City Municipal Facility. The in-vessel bio-conversion technique may be used for composting the organic waste. Any hazardous waste including biomedical waste shall be disposed of as per applicable Rules & norms with v.
- necessary approvals of the Rajasthan State Pollution Control Board. vi.
- The green belt design along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open space inside the plot should be suitably landscaped and covered with vegetation of indigenous variety. The D.G. sets shall be operated with stack height as per RPCB norms. vii
- viii.
- Incremental pollution loads on the ambient air quality noise and water quality shall be periodically monitored after Install dual plumbing system to ensure maximum recycling of water ix.
- Fixtures for showers, toilet flushing and drinking shall be of low flow either by use of aerators of pressure reducing xi.
- Use of glass may be reduced by up to 40% to reduce the electricity consumption and load in air-conditioning. If necessary, use high quality double glass with special reflective coating windows. xii.
- Roof shall meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal xiii.
- Opaque walls should meet prescriptive requirement as per Energy Conservation Building Code for all airconditioned spaces, whereas, for non-air-conditioned spaces, by use of appropriate thermal insulation material to xiv.
- Application of solar energy should be incorporated to illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating. A hybrid system or fully solar system for a portion XV.
- Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized. xvi.
- A Report on the energy conservation measures confirming to energy conservation norms finalized by Bureau of Energy Efficiency should be prepared incorporating details about building materials & technology, R & U Factors xvii.
- Proper system of channelizing excess storm water shall be provided. xviii.
- The power factor should be maintained near unity. xix,
- For implementing CSR activities, initially 1% of the capital cost and thereafter 1% of annual profit in the balance as recurring cost. Confirmation for the same be communicated to SEIAA within 15 days of issue of letter of environmental clearance. Item wise break up in this regard may be submitted to RPCB at the time of applying for CTE. XX.
- Trees and shrubs of local species should be planted to allow habitat for birds with appropriate distance from the xxi
- No puzzle parking shall be allowed. xxii.
- Re-cycled water to match standards for cooling water. xxiii.
- Adequate measures should be taken to prevent odor from solid waste processing and STP.

### Part B – GENERAL CONDITIONS

- The environmental safeguards contained in Form 1-A shall be implemented in letter and spirit. 1. 2.
- Six monthly monitoring reports shall be submitted to Rajasthan and Rajasthan State Pollution Control Board. Officials of the RPCB, who would be monitoring the implementation of environmental safeguards, shall be given 3. full cooperation facilities and documents/data by the PP during their inspection. A complete set of all the documents submitted to SEIAA, Rajasthan shall be forwarded to the DoE, Rajasthan and Rajasthan State Pollution
- 4. In case of any change(s) in the scope of the project, the PP requires a fresh appraisal by SEIAA/SEAC, Rajasthan.
- 5. The SEIAA/SEAC, Rajasthan reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environment (Protection) Act-1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- All the other statutory clearances such as the approvals for storage of diesel from the Chief Controller of Explosives, Fire department, Civil Aviation Department, Forest Conservation Act, 1980 and Wildlife (protection) Act, 1972 etc. shall be obtained, as may be applicable, by PP from the competent authority. 7.
- The PP shall ensure advertising in at least two local news papers widely circulated in the region, one of which shall be in vernacular language that, the project has been accorded environmental clearance and copies of the clearance letters are available with SEIAA, Rajasthan and the Rajasthan State Pollution Control Board and may also be seen on the website of the Board at www.rpcb.nic.in. The advertisement shall be made within 7(seven) days from the

C:\Documents and Settings\Administrator\Desktop\S. Prasad\SEIAA-SEAC\(EC Files)SEIAA\SEIAA EC from April 2010.doc

date of issue of the environmental clearance and a copy shall also be forwarded to the SEIAA, Rajasthan and Regional Office, Jaipur(S) of the Board.

- These stipulations would also be enforced amongst the others under the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment
- (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification'06. Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the proponent, if
- it was found that construction of the project has been started without obtaining environmental clearance. 9.
- 10. Environment clearance is subject to final order of the Honb'le Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition(Civil) No. 460 of the year 2004 as may be applicable to this project.

Yours faithfully,

(Sankatha Prasad) **Member Secretary SEIAA** Rajasthan

## Copy to following for information and necessary action:

- Secretary, Ministry of Environment and Forest, Govt. of India, Paryavaran Bhavan, CGO Complex, Lodhi Road, New Delhi. The SEAC, Rajasthan has observed that significant construction work of the proposed project has been 1. completed and recommended for legal action against the proponent for violation of Environment (Protection) Act, 1986. Hence, legal action may be started against the proponent.
- 2. Principal Secretary, Environment Department, Rajasthan, Jaipur. The SEAC, Rajasthan has observed that significant construction work of the proposed project has been completed and recommended for legal action against the proponent for violation of Environment (Protection) Act, 1986. Hence, legal action may be started against the proponent.
- Shri S.C. Derashri, Chairman, SEIAA Rajasthan, 90, Geejgarh Vihar, Hawa Sarak, Jaipur. 3.
