1.2. GENERAL

Bhilwara is well establish and world famous as a "Vastra Nagari" in the manufacturing of Synthetics and Cotton mix fabric and Synthetic Yarn. Presently 80-85 Cr. Meter fabric manufacturing in 425 units having 17000 looms. These units exporting Rs. 15 cr. Yarn per year and giving employment to 90360 persons. Presently 877000 spindles are installed in 14 spinning units, 19 process houses and 8 dye houses are in working. In service and manufacturing, there are 5936 industrial units registered under MSME Act-2006 in the district.

Reserved land allotment for industrial development in Panchayat Samitees is as follows:-

Asind - 181.1818, Banera - 111.18, Hurda - 408.10, Jahajpur - 208.13, Kotdi - 55.07, Mandalgarh- 89.06, Raipur - 86.02, Shahpura - 594.06 and Suwana - 7.09 Bigha (Total Reserved land - 1688.02 Bigha)

New possibilities:-

- 1- **Ceramic industries:** - Raw material for ceramic industries Quartz, Feldspar and China Clay is available so 250 grinding units working in the district. 525.05 Bigha land in Unkhaliya allotted RIICO by State Govt. for Gas Authority of India Ltd. and Gujarat State Petronet Ltd. gas pipe line. Proposal for ceramic zone in Mod Ka Nimbahera (102.62 Hec.) sent to State Govt. on 16-03-2016 by letter of District Collector, which will developed by M/s Imperial Tex Ind. Park Pvt. Ltd. & RIICO.
- 2- **Iron & Steel Industries:-** M/s Jindal Saw Ltd. acquired 200 Acre land and investing Rs. 1000 cr. in steel plant, which produce employment for 2500 persons.
- 3- **Sand Stone Industries:-** Appropriate quantity of sand stone is available in Bijoliya region. To develop the industries State Govt. allotted land in Bijoliya (200 Bigha) and Kanakpura (200 Bigha) to RIICO.

1.3. GEOGRAPHICAL AREA

Bhilwara district lies on the southeastern part of Rajasthan. It extends from 25.0⁰ to 27.5⁰ north latitude and from 74.03⁰ to 75.25⁰ east longitude. The district is bounded in the North by Ajmer district, in the North-West, West and South-West by Udaipur and Rajasamand districts, in the South and South-East by Chittorgarh district, in the East and North-East by Bundi and Tonk districts. The total length of the district from West to East is 144 Km. While the breadth from North to South is 104 Km approximately. The total Geographical area of the district is 1050885 Hectares and covers approx. 3.05% area of the State.

1.4. LAND USE PATTERN IN THE DISTRICT

The economy of Bhilwara district is predominantly agrarian. It is providing employment to 76.93% of the working population. The land utilization pattern in the district is shown in table 1.2 hereunder:

Table 1.2
Land Use Pattern 2015-16

S. No.	Description	Area in Hectares
1.	Geographical Area	1050885
2.	Forest	75427
3.	Not available for cultivation	212080
4.	Other Uncultivated and Excluding Fallow Land	94382
5.	Fallow Land	112081
6.	Net Area Sown	435901
7.	Total Cropped Area	600440
8.	Double Cropped Area	164539

Source: District Land Record Section, Bhilwara

1.5. PHYSIOGRAPHIC

The district generally consists of an elevated plateau. The eastern position of the district is a cluster of hills. The district is intersected by the Aravali ranges at several places. There is a range of hills in the north – east corner of the district which extends right up to Jahajpur town. These ranges are predominant in the south-east in Mandalgarh tehsil and in the north east in Jahajpur tehsil. The soil of the district varies from sandy loam to heavy loams. The District Bhilwara has a hot dry summer and bracing cold winter. The cold season is from December to February and is followed by hot summers from March to the last week of June. The South-West Monsoon season which follows, last till about mid-September. The period from mid-September to about the end of November constitutes the post monsoon season.

1.6. ADMINISTRATIVE SETUP

After the formation of Rajasthan, a uniform pattern was evolved for the administration of the entire Rajasthan State and it is divided into seven divisions. Bhilwara district is included in Ajmer division. The entire division is in the charge of a Divisional Commissioner.

The District collector is the head of district's general administration. He is assisted by three Additional collectors. The Additional Collector (City) is responsible for law & order in Bhilwara city. The Additional Collector (Administration) is responsible for routine and institutional administration. The Chief Executive Officer (CEO- Zila Parishad) is respectively responsible for developmental administration.

The district is now divided into sixteen sub-divisions; each sub-division is under the charge of sub divisional magistrate. These sub-divisions are further sub divided into sixteen Tehsils, Bhilwara, Banera, Mandal, Mandalgarh, Bijoliya, Kotri, Shahpura, Jahajpur, Sahada, Raipur, Asind, Hurda, Phuliyakalan, Badnor, Kareda and Hamirgarh with eleven sub-tehsils.

Details of Sub-Divisions, Tehsils and Sub-Tehsils are given in table 1.3 below:

Table 1.3

Details of Sub- Division and Tehsils in Bhilwara District

S. No.	Sub-Division	Tehsil	Sub-Tehsil	Town
1.	Bhilwara	Bhilwara (Suwana)	Karoi	Bhilwara

16.	Hamirgarh	Hamirgarh	-	-

1.7. CLIMATE & RAINFALL

The climate of the district is moderate. The summer is dry and the winter is severe. The rainy season is from June to mid-September. The average rainfall in the district during 2015-16 is 460 mm. The minimum temperature is 3.50⁰ C and maximum temperature is 47⁰ C.

1.8. FOREST FLORA & FAUNA

The District is lagging behind in forest resources out of total area of 1050885 Hec. the forest area is mere 75427 Hec., the forest fall under the subsidiary and dry tropical category, the principal species of wood found in the district Dhokra, other types of species are Babool, Khair etc.

RESOURCES

.....

2.1. HUMAN RESOURCES

The Total Population of the district as per 2011 census is 24.09 lacs, out of which No. of males is 12.21 lacs and that of female is 11.88 lacs. The density of population in the district 230 persons per Sq. Km. The number of female per 1000 male is 973.

As per 2011 census of the total population 18,95,869 i.e. in 78.72% in rural areas and remaining 5,12,654 i.e. 21.28% lives in urban areas. The district has 9 towns. These are Bhilwara, Shahpura, Jahajpur, Mandal, Bijoliya, Asind, Mandalgarh, Gangapur and Gulabpura.

2.2. WORKING FORCE & OCCUPATIONAL PATTERN

According to the 2011 census the total working population of the district was 11,48,165 representing 47.67% of the total population. The occupational pattern of this working force as per 2011 census is given in table 2.1 hereunder:

Table 2.1
OCCUPATIONAL PATTERN OF WORKING FORCE

S. No.	Occupation	Male	Female	Total	% Age to total
1.	Cultivators	289259	265909	555168	48.35

4.	Other works	305026	94770	399796	34.82

Source: District STATISTICS Office, Bhilwara

2.3. WATER & IRRIGATION RESOURCES

There are 2 working divisions under Water Resources Circle Bhilwara, One is Water Resources Division-First (WRD-1) Bhilwara and the other one is Water Resources Division-Second (WRD-2) Bhilwara. In working area of WRD-1 Bhilwara, there are 34 Dams/Ponds of Tehsils Banera, Shahpura, Hurda, Asind, Raipur, Sahada, Kotri, Jahajpur and some part of Mandal. And in working area of WRD-2 Bhilwara there are 26 Dams/Ponds of Tehsils Mandalgarh, Mandal and Bhilwara.

- (a) **Major Rivers and Lakes**: The main rivers are Banas, Berach, Kothari, Khari, Mansi in the jurisdiction of this District.
- (b) **Ground Water Resources**: The water level in the area of Jurisdiction of this District is comparatively high namely between 11 to 16 M. The ground water is fresh and potable.

2.3.1. DRINKING WATER

The water level in the district is fairly high. Hence adequate quantity of water can be obtained for domestic and industrial use by digging new wells. The water in the entire district is potable.

Table 2.2
Water Resource Bhilwara

S. No.	Avg. Rainfall	Avg. Temperature	Month
1	460 MM	Min. 3.50 Degree C Max. 47 Degree C	Yearly

Dams and Groundwater is the major resources of drinking water in the district.

2.4. IRRIGATION FACILITIES

- (1) **Major Irrigation Project**: - At present there is 1 Major (Meja Irrigation Project) project in jurisdiction of WRD-2.
- (2) **Medium Irrigation Project**: - There are 6 medium Irrigation projects under WRD-1. The cultivable area from these tanks is 36161 Ha. and normal irrigation is 24705 Ha. Storage capacity of these tanks is 7459 Mcft. These tanks are Khari, Sareri, Arwar, Nahar Sagar, Kothari Stage-II, and Ummed Sagar. And there are 3 medium Irrigation projects under WRD-2.
- (3) **Minor Irrigation Projects**: - There are 28 Minor Irrigation tanks under WRD-1. The cultivable area from these tanks is 214975 Ha. and normal irrigation is 11621, Storage capacity of these tanks is 3541 Mcft. And there are 22 Minor Irrigation projects under WRD-2.

Thus total Irrigation tanks in WRD-1 are 34, total cultivable Irrigation area is 57658 Ha. and normal irrigation is 36326 Ha. and storage capacity is 11000 Mcft. 306 Nos. tanks (CCA upto 300 Ha.) of Shahpura, Asind, Mandal (Kareda Section) Hurda, Banera, Kotri, Jahajpur, Raipur, Sahada tehsils has gross storage capacity of 5448 Mcft. CCA 33458 Ha. and ICA 18157 Ha. transferred to Panchayat/Panchayat Samities, which is not included in the total number of tanks. And total Irrigation tanks in WRD-2 are 26, storage capacity of these projects is 8230.32 Mcft, useful storage capacity is 7906.23 Mcft, CCA34884 Ha. and ICA 20199 Ha.

3. AGRICULTURE- AREA & PRODUCTION OF MAJOR CROPS

3.1. MAJOR CROPS

There are two crop seasons, viz Rabi and Kharif. The principal crops of the two seasons are as under:

Rabi Season: Wheat, Barley, Gram and Mustard etc.

Kharif Season: Maize, Jowar, Moong, Urad, Chilies and Sesamum (Til) etc.

The area under crops and the production depend much upon the vagaries of nature specially the monsoon. The area and production of main crops during 2015-16 is given in table 2.8 hereunder:

Table 2.8
Area and Production of Main Crops during 2015-16

S. No.	Name of the Crop	Area in Hectares	Production in M.T.
1.	Wheat	89640	257805
2.	Bajra	2170	1823
3.	Maize	162797	116612
4.	Jowar	43047	10789
5.	Barley	16641	39912

Source: District Land record Section, & DD Agriculture(Ext.) Bhilwara

3.5. HORTICULTURE

Orange, Aonla and Guava are the major horticulture crops which are picking up the district.

4. VETERINARY FACILITIES

4.1. LIVESTOCK

The details of the livestock population are given in the table 2.9 here under:

Table 2.9
Tentative Livestock Population in the district as per Census 2012

S. No.	Particulars	Numbers
1.	Cows & Bullocks	717894
2.	Buffaloes	452320
3.	Sheep	405505
4.	Goat	846696
5.	Horse and Pony	2256
6.	Donkeys	1160
7.	Camels	4655
8.	Pigs	14542
9.	Dogs	7408
10.	Rabbits	303
11.	Poultry	117005
Total		2569744

4.1.1. Veterinary Centre & Hospitals

Care has been taken by the administration to provided facilities for health care and improvement in the quality of livestock in the district through veterinary facilities as given in table in 2.8 hereunder:

Table 2.10
Veterinary Facilities in Bhilwara District (As on 31st March 2016)

S. No.	Type of Veterinary Facilities	Numbers
1	Veterinary Polyclinic	01
2	A-Grade Veterinary Hospital	38
3	District Disease Diagnostic Lab	01
4	Veterinary Hospital	68
5	District Mobile Unit	01
6	Tehsil Level Mobile Unit	16
7	Veterinary Dispensaries	10

8	Sub Center	108
9	Sheep Migration Check Post	06
	Total	249

Source: Office of Joint Director, D.A.H., Bhilwara, these organizations provide Veterinary and surgical facilities and distribute free medicines, provide vaccination and artificial insemination facilities.

5. PRODUCTS OF ANIMAL HUSBANDRY

5.1. AVAILABILITY OF DAIRY PRODUCTS

In the district there are 1043 Co-Operative Dairy Societies. A unit of *Rajasthan Co-Operative Dairy Federation, Bhilwara-Zila Dugdh Utpadak Sahkari Sangh Ltd. Bhilwara* is also established with 67 milk collection centers. The total milk supply during 2015-16 estimated RMG/NMG milk 155.05 (Lac/Kg.)

Year 2015-16

1. Total Procurement (Average Per Day) : 226465 Kg.
2. Total Milk Marketing (Average Per Day) : 131271 Ltr.
3. Total No. of Out lets for Milk Sale : 640
4. Parlors : 23

Total production of Milk is 48045212 Ltr. with the value of 17713.17 Lacs and Ghee is 1232505 Kg. with the value of 4128.89 Lacs during the year 2015-16.

5.2. WOOL AVAILABILITY

As mentioned in table 2.9 above there are 405505 sheep in the district. Most of them are Sonali, and Malpura breed and some of these is Marwari breed. There is no. of sheep and wool development centers in the district. Sheep are used mainly for wool and meat. As per the Animal Husbandry Department, Bhilwara a sheep gives an average 1.34 Kg. of wool per annum. Accordingly, the total production of wool works out to approx. 543377 Kg. per annum. The wool is partly used for manufacture of Blankets but the major part is being exported to other districts of the state.

5.3. MEAT AVAILABILITY

Assuming an average slaughter rate of 25% for Sheep and Goats the average yield of meat works out to 8.167 Kg. for Sheep and 9.274 Kg. for Goats. The annual availability of meat in the district is estimated at 2716076 Kg. approx.

5.4. LEATHER AVAILABILITY

Hides are available from dead animals. Taking into account to death rate of 10% p.a. the no.

of Hide available from the animals listed in table 2.9 (other than sheep and goat) is estimated 117487. Assuming an average of 25 Sq.ft. of hide per animals a total of approx. 29.37 lac Sq. ft. of hides are available in the district. However, no organized tannery exists in the district.

5.5. BONES

Taking a death rate of 10% p. a. and 12 Kg. per animal, approx 1409844 Kg. of bones are likely to be available per annum

6. GEOLOGY & MINERALS

Pre-Aravali rocks comprising metamorphism and gneiss were originally deposited in a number of cycles. There were subsequently intruded by basic acidic rocks. Later the rocks of vindhyan age comprising sandstone shale and limestone are deposited between 600 and 1000 million years ago. Recent to subsequent deposits are seen along river causes and their flood plains.

6.1 MINERAL RESOURCES

Bhilwara district occupies an important place in the mineral map of Rajasthan. The main minerals are Lead Zinc, Soap Stone, China Clay, Feldspar, Quartz, Mica, and Garnet. The details of various minerals are given hereunder:

Lead Zinc

Deposits of lead Copper and Zinc have been located in Pur-Banera and Agucha village belt in pre Araveli extending over a length of 30 Km. And a width of 5 Km. The Pur-Dariba block contains an estimated reserve of 1.65 M.T. with 1.02% Copper while the Banera block contains an estimated reserve of 2.98 million tones with 1.05% Copper Samodi, Dedwas and Denpura Block carry reserves of the order of 14.0 million tons of low grade ore of 1.5 to 2% Zinc and 1.2% Lead. There is an open cast mine in village Agucha in Hurda tehsil. This being operated by the public sector unit *M/S Hindustan Zinc Ltd.*

Soap Stone and China Clay

There are deposits of good quality Soapstone and China Clay in the district. They are located mainly in tehsil Kotri and Jahajpur, The Soapstone produced in Chainpura and Ghevaria is of good talc quality. 335772 M.T. of Soapstone produced during 2015-16.

Mica

District Bhilwara has always been in the forefront for production and export of mica, but for the last 18 years there has been a continuous fall in its production for which the main reason is recession in mica trade. However many alternative sources for mica have been discovered. Moreover the mines have become quite deep on account of which the cost of production has gone up very high. This mineral is found primarily in Mandal, Asind and Bhilwara tehsil.

Granite

Sometime back deposit of granite was discovered in Asind, Raipur and Mandal Tehsil four lease pattas have been issued for its exploitation. 18 granite tile plants have been established in the district at Bhilwara, Gangapur and Badnor. More plants are likely to come up.

Lime Stone

There is good reserve of lime stones around Mandalgarh area in Bhilwara district. They are estimated to be approx. 6600 M. Tones. 5000 M.T. of Lime Stone produced during 2015-16.

Marble

Marble is mostly found in Jahajpur and Kotri tehsil of the district. The reserves are estimated to be around 11000 M.Tones.

Clay

It is found at Mandalgarh, Kotri, and Jahajpur. The Clay is of Garish White colour. It is of cream colour at 1300^o C. The total reserves available are estimated at 175445 M. Tones.

Asbestos

Asbestos occurs in basic ultra-rocks near Banas, It is used mainly for manufacture of Asbestos Cement Sheet, Tiles, Pipes and other product where heat insulation is required.

The mineral production in the district in 2015-16 is given in table 2.11 hereunder:

Table 2.11
Mineral Production as on March 2016

7. FOREST RESOURCES

The District is lagging behind in forest resources out of total area of 1050885 Hec. the forest area is mere 75427 Hec., the forest fall under the subsidiary and dry tropical category, The principal species of wood found in the district Dhokra, other types of species are Babool, Khair etc.

8. TOURISM

Bhilwara is essentially an industrial town popular for its textiles industries. BHILWARA is also called "Zoo of Minerals" for its huge stores of mica, soapstone, copper, feldspar, quartz, white clay and Garnet.

Amongst the most checkouts in Bhilwara are the fort of Badnor, there is a fortress and the palace of the Ex-Jagirdars of Benera.

Revealing the rich and prosperous tradition and culture of Bhilwara are its many fairs and festivals including Ganesh Mela, Dhanop Mataji Mela, Ramdev Ji Ka Mela and Badnor Pashu Mela.

Main Tourist Destination are :- Harni Mahadev - Bhilwara, Badnore Fort, Pur Udan Chatri, Adhar Sheela Mahadev - Pur, Chamunda mata Mandir - Bhilwara, Samriti Van - Bhilwara, Ramniwas Dham - Shahpura, Tilesva Mahadev Mandir - Bijoliya, Mandakini Mandir - Bijoliya, Swaibhoj Temple - Asind, Meja Dam etc.

EXISTING INFRASTRUCTURAL FACILITIES

Essential facilities like Adequate supply of Water, Power, Land, Provision of Road and Rail connection, Communication, Educational/Training and Banking Facilities are pre-requisites for the industrial development of an area. Bhilwara though declared as a backward district has many infrastructural facilities which are proved helpful in rapid industrialization of the district. The structure of such facilities available in the district is briefed in subsequent paragraphs.

9.1 POWER RESOURCES

Power supply source of Bhilwara:- Supply in Bhilwara District is made from 400 KV GSS at Bhilwara & 220 KV GSS Bhilwara & Gulabpura. From which 132 KV GSS Suwana, Bijoliya, Kareda, Data, Bigod & Mandalgarh are connected. 132 KV GSS Asind is connected from 220 KV GSS Beawar & 132 KV GSS Raila, Gulabpura & Shahpura are connected to 220 KV GSS Gulabpura. 132 KV GSS Hamirgarh is fed from 220 KV GSS Chittorgarh & 132 KV GSS Jahazpur is fed from 220 KV GSS Dooni.

9.2 Rural Electrification/Grid Station

Bhilwara District is 100% electrified i.e. all 1834 villages are electrified up to the year 2015-16, 2184 no. of Agriculture connections are released during the FY 2015-16.

9.3 Electricity Consumption Pattern

Table 3.1
(As on Date 31.03.2016)

S.no.	Category	No. of Connection (Regular + P.D.C.)	Consumption in Million Units

11.3 Other Institutional Network

There is a branch of RFC through Banks and Khadi and village industries commission (K.V.I.C.) is also financing for cottage industries in the district in rural areas through Banks.

11.4 D.I.C. AND OTHER CONCERN INSTITUTIONS

District Industries Centers has been established at Bhilwara to promote industrial development of the district, especially for the small scale industries, cottage and village sectors of the industries.

12 INDUSTRIAL AREAS

RIICO has developed in 11 industrial areas having 1561 Industrial plots. Out of these 1328 plots have been allotted to industrial units, 233 plots were still vacant as on 31st march 2016 .The details are given in table 3.8 & 3.9 hereunder:

***SPECIAL FEATURE OF GROWTH CENTER:**

The Government of India has launched industrial Growth Centers to accelerate industrialization at selected districts of the country. All Infrastructural facilities like Industrial Plots, Residential Plots, Roads, Power, Water, Hospital, Bank, Post-Office, Telecommunication facilities etc. should be made available at one place. Accordingly Govt. of India has declared Growth center at Hameergarh, Bhilwara on dated 18/12/97. In which the total area of Growth Center is 725.08 acre and 525 industrial plots have been planned. Besides RIICO, DIC is also providing undeveloped plots in the departmental industrial areas. Details are being given in table 3.10 appended below:

Industrial Area Bijoliya

Planning of industrial area has been approved & development works started. The area is planned to open for allotment in Financial Year 2016-17.

EXISTING INDUSTRIAL SCENARIO

13.1 EXISTING INDUSTRIAL SCENARIO

Bhilwara district has made an important place for itself in the industrial map of the state. During the last decade the textile industry of the district has developed into a leading place in the country.

Bhilwara has developed as one of the largest textile center in Rajasthan State, producing cotton yarn, polyester/viscose blended yarn & fabrics, denim & other textile products. It is fully modernized weaving hub having about 17,000 looms. It is the largest P/V blended suiting manufacturing hub in the World.

Bhilwara has been granted Status of Town of Export Excellence by the Ministry of Commerce, Govt. of India.

Apart from the textile industry Hindustan Zinc Limited of Vedanta Group is the largest producer of Lead, Zinc and Silver in the Country. It's mines at Rampura Agucha in Bhilwara District is known to be the largest Mine of Lead and Zinc in the World.

The District is the major producer of sand stone which is exported to many European Countries.

Recently, Iron ore deposits have been found in the district and Jindal group has started mining and ore dressing activities with investment of approx. Rs 10 Billion in Bhilwara. The Railways is establishing a MEMU Railway wagon manufacturing unit in the District with an investment of Rs 10 Billion.

13.2 EXISTING INDUSTRIAL STATUS

There are about 105 Large and Medium Scale Units are working with an investment of Rs. 9369 Crores approx. and employing about 40038 persons. List of these units is given in table 4.1 hereunder.

13.3 Export Potential Items

Bhilwara District has opened new field for export of textile goods during 2002-2003. The main items exported during 2015-16 are given in table 4.2 appended hereunder:

Bhilwara District has opened new field for export of textile goods like Polyester, Viscose and Woolen Blankets and Cotton Fabric, Cotton Yarn, Woolen Shoddy Yarn and Wool Tops.

Table 4.2
Exporting Units and Products
(As on 31st March 2016)

S.No.	Unit	Exported Items

POTENTIAL INDUSTRIES AND OTHER CONTRIBUTORY FACTORS

.....

14.1 Potential Industrial & Other Contributory Factor

14.2 Resources

Bhilwara is classified as one of the centrally situated & backward district in Rajasthan. Important economic resources both human and material are abundantly available. It is endowed with sufficient quantity of rich minerals such as Mica, Marble, Granite, Zinc, Soap-Stone, Garnet, Lime-Stone etc. which offers good potentiality for industrial development. Main crops Barley, Maize and Cotton also offer scope for agro-based units. The Livestock population of 25.70 lacs includes Sheep and Goat numbering 12.52 lacs offer scope for tannins and other leather based units.

14.3 Infrastructure

The infrastructure as a Power, Roads, Communications, Water and Training Facilities etc. are available at Bhilwara District.

14.4 Strategy Suggested

As mentioned above the major weakness for further industrial development is in the area of infrastructural facilities. It is only through an improvement in Power, Rail and Road network communication, Water and Training facilities and augmentation of the social amenities like Education, Medical, Housing and Hotel Accommodation, Banking Services, Telephone and Mobile Phone Services etc. So that industries can further develop in the district. These are further discussed hereunder.

14.5 Potential Industries/Agro Based

Based on Various mineral , Agriculture, Livestock and Manpower resources available in the district and the demand for various products, a list of industrial units that have a potential for being set up has been prepared and is given in table 5.1 appended below. The list is divided in 2 parts. Part A consist of resources based units and part B consists of demand based units based on demand.

The Justification for setting of some of the major units is given here under

- (a) **Starch from Maize:** Maize is one of the principal crops of the district, at present it is sent to other states i.e. Maharashtra, Gujarat etc. for processing into different products and brought

back into state for various industrial applications. Starch is used in Textile, Paper, Pharmaceutical and Food Industries. In Rajasthan there are more than 50 textile mills scattered all over the district but Bhilwara has maximum density of these. As Maize is one of the major crop of the district a unit with capacity of 15000 tones p. a. is recommended to be set up at Bigod near Mandalgarh. This will offer more remunerative price to the cultivators through direct purchase of maize for processing in the plant. It will involve a capital to investment amounting Rs. 1250 lac and provide employment for about 500 persons.

- (b) **Synthetic Fabric Units**: Bhilwara emerged as textile city; there is still ample scope for establishment of new synthetic fabric units of imported Sulzer looms. Besides the new units the process of Replacement /Modernization will be type going on in the next five years. It is hoped that in the future say within five years old & traditional loom will be replaced by imported Sulzer looms. Inland Container Depot will also play vital role to boost up the volume of export of textile goods.
- (c) **Process House**: As discussed earlier, increasing production of cloth will need new process houses. Bhilwara has a scope of two new process houses. These will lead a capital investment of about Rs. 395 lac and provide employment to about 185 persons. Suitable area for erection of process house may be around the Bhilwara city. Bhilwara has 19 working process houses at present.
- (d) **Cotton Based Industries**: Bhilwara is one of the prominent Cotton growing district in Rajasthan, as mentioned earlier in table 2.9 the district has a production of 27990 M.T. Bales of cotton during 2015-16. There is a scope for establishment of 2 cotton ginning units in Gulabpura and Gangapur based on this production, 2 units for production of Cotton seed Oil, one unit to produce surgical cotton , 2 units for production of cotton hosiery, one unit for sanitary napkins and about 1 unit for production of Cattle feed.
- (e) **Engineering Based Industries**: There are nearly 17000 looms installed in the Bhilwara district. Repairing and maintenance requirement of these textile industries will need new engineering units. Hence there is vast scope of setting up new engineering service centers like Lathe/Machine work shop etc.
- (f) **Foundry Units**: As discussed above beside engineering units there is also scope for establishment of foundries and casting units at Bhilwara to provide spare parts of looms and other textile machineries.

- (g) **Washing Soap**: Washing soap occupies an important place in the domestic items requireble for daily use. Since the washing soap is available at cheaper price as compared to other synthetic detergents the scope of installation of washing soap unit is quite encouraging. For these units proposed sight may be at Bhilwara, Shahpura, Jahajpur and Gangapur. For these units the basic raw material for washing shop is Oil, Caustic-soda and Sodium silicate.
- (h) **Plastic Polythene Bags**: Increasing demand of consumer goods at textile Industries have created good scope of packing material like P.P.Bags. At least two units of Plastic Polythene Bags can be set up in the district at Bhilwara and Gulabpura to fulfillment of need.
- (i) **Wooden Furniture**: Wood is obtained from fallen trees of forest like Salar, Babul, and Neem etc. for making Wooden Chairs, Tables, Doors, Windows, Carts and Bullock Carts etc. In rural and urban areas, modern furniture units can also be set up at Bhilwara, Shahpura, Gangapur and Jahajpur.
- (j) **OffSet Printing Press, Screen Printing and Computer Designing**: The Scope of Computerized Textile Designing and off-set printing press for advertising material will be required in future. New computer Designing Centre, Screen Printing and Off-Set Printing Press can be set up at Bhilwara, Shahpura, and Gulabpura etc.
- (k) **Mineral:-** The huge production of Iron Ore and Iron Balls in the district by big mineral plants like Jindal Saw Ltd. generate new possibilities for industries in related fields. Presently, in Chanderiya Zink & Led processing plant of Hindustan Zink Ltd. is working, which produces Sulfuric Acid in huge Quantity. In that case there is also a big scope for Sulfuric Acid based Chemical industries in these areas or other industries that can consume this Sulfuric Acid as raw material etc.

Quartz, Feldspar, China Clay etc. are also available in big quantity in the district, because of this availability of these minerals a big possibility also rises in related areas to develop new industries. And when ongoing GAS pipe line project will complete it produce and open many doors for GAS based industries like Ceramic industries etc. New Possibilities in Granite are discovered in Asind, Kareda & Raipur Tehsil, work is in progress by some of mining units, and so there is also a possibility for a cluster of Granite processing units.

Send stone in Bijoliya Area and Badnor Stone in Badnor Area are also available in good quantity which proceeds to develop new Industrial Area by RIICO, so that the processing units of these minerals can establish in local level.

- (l) **Cement:-** A high Possibility is also seeing to establish Cement Industries & Cement based industries in Mandalgarh Area because of good availability of Lime.
- (m) **Wheat & Spices:-** Bhilwara district is also have good potential in Wheat & Spices processing units like Atta & Spice Mills, Bakery etc. Bhilwara and its neighbor district Chittorgarh, Pratapgarh, Udaipur, and Rajsamand, are big producers of Makka. Upermal area in Bhilwara produces Garlic, Turmeric, Ginger and Methi, Jeera; Onion etc. in district provide high potential for related industries.

Production of Oranges in Mandalgarh Area and Pomegranates in Asind-Banera Area is increasing continuously and Animal Fermi has been started as an important activity in Asind-Mandal area and Raipur Tehsil, which providing a good quantity of Milk and offers potentials of Milk based Industries like Skimmed Milk Powder, Table Butter, Dairy Ghee, Butter Milk and other like products.

- (n) **Textile** Being a major center of textiles, it offers opportunities of investment in Readymade Garment Industries, if Latest technology and training will available at local level then this sector can have much potential and show more progress. Hosiery & Niwar Industries also have much potential under new demands of market.

Further processing in readymade garments like Latest Apparel Designing, Embroidery, Kashidakari, Acid wash etc. are also has opportunities to invest.

- (o) **Service** More Availability of Textile industries and new possibilities in related sector like Training Centre, Machinery Servicing, and other service sector like Medical, Panchkarm, Ayurved, Neturopethi, Vehicle Servicing etc. offers good opportunities for investment in the district.

14.6 Proposed Augmentation of Industrial Areas:

Table 5.1
Resources Based Potential Industries

S. No.	Name of Industry	Capacity with Unit	No. Of Units	Capital Investment (Rs. In Lac)	Direct Employment (Nos.)	Possible Location	Reasons
1.	Mineral Grinding	300T	4	18.00	12	Jahajpur, Bigod, Asind, Raisinghpura	Availability of raw Material
2.	Stone Grit (Stone Soils)	25000 TDP	4	15.00	10	Ranikpura (Baneda), Mujras, Samodi	--Do--

8.	Tyre Retreading	20 TPA	1	25.00	15	Bigod, Gulabpura	--Do--
9.	Roller Floor Mill	30 TPD	1	100.00	40	Bhilwara, Gulabpura	--Do--
10.	Bakery & Confectionary	80 Lac	4	15.00	20	Bhilwara, Gulabpura	--Do--
11.	Grease Lubricant Oil Reprocessing	-----	1	15.00	15	Bigod , Raila, Jahajpur	--Do--

14.7 Strategy for Artisan/Handloom Weaver Up gradation:

Beside the industries suggested in table 5.1 above there is large scope for installation of small scale cottage industries and tiny units for grain grinding, Spices grinding, Oil Ghanies, Wooden Furniture and other Wooden Artisans, Stone Cutting Screen Design, Lathe Work, Repairing and Servicing, Welding Works, Production of Soap etc. Good opportunity for employment generation also exists in the field of Handicrafts and Artisan Units for Black Smithy & Carpenters etc. Such Artisans are spread all over the district. Such units are already being encouraged and financed under the various schemes of NABARD. However further development in this sector can be possible only through:

- (a) Training for skill up-gradation through mobile training centers and common facility centers.
- (b) Provision of adequate finance.
- (c) Proper and adequate channels to sell the goods produced by these Artisans by setting up of show rooms by RSIC, RHDC & Bunker Sangh etc. and through common facility centers.
- (d) Supply of raw material at reasonable rates through common facility centers.
- (e) Training through Rural Entrepreneurship Development Programs for developing entrepreneurship skill especially in SC/STs and Women etc.
- (f) Formation of Co-operative Societies of artisans for supply of raw material as well as for marketing with active co-operation and help from the Government Agencies like RSIC, DIC, KVIB and RHDC, who are specialist in related fields.

This would need:

- (a) Provision of Institutional Support.
- (b) Encouragement of artisans to take up independent production and marketing if possible.
- (c) Development of artisans units to produce quality products through adequate training and skill development programs.

14.8 Export from District

The following Large & Medium Scale Units have exported their products to various countries as appended in table 5.3 hereunder:

Table 5.3
Export From Large & Medium Scale Industries

S.No	Unit	Name of Product(s)	Export During Year 2015-16		Countries

14.9 Suggestion

District Administration need to take initiative for availability of Gas Supply (uttermost need for ceramic industry), Railway Container Depo. by government or PPP mode should be started, since export of cloth, yarn, sand stone etc. are presently done from Kandla port. Polluted drain water from process house make available to Jindal and other upcoming steel plants. If polluted drain water get treated by Jindal and other steel plant and use than both the problem get solved. Facilitate with air services to district for industrial development.

HANDLOOM

15.1 Area of Handloom Work

Irans, Dholi, Jaitpura & Jhaberkia in Asind tehsil, Bhadwon Ki kotri & Shahpura in Shahpura tehsil and Bhilwara city & Pur-Bhilwara are the main areas of Handloom work. The manufactured products are Khes, Dhoti, Cotton Plain Cloth, Synthetic Cloth, Bed Sheet, Towel and Chaddar etc.

15.2 Handloom Units Nos.

There are approx. 205 Handloom Units in the district.

15.3 Society in Handloom Sector Nos.

Number of Society in Handloom Sector is 06 in the district.

15.4 Handloom Cluster

There is a Handloom cluster in Shahpura, which is under Rajasthan Rajya Bunker Sahkari Sangh.

15.5 Natural Dye & Block Printing Cluster

There is no Natural Dye & Block Printing cluster in district.

15.6 Total Number of Handloom Weaver Card Holder

In district there are 75 Handloom Card Holders.

HANDICRAFT

16.1 Handicraft Workers Nos. in District

In the district there are 150 Handicraft workers.

16.2 Registered UAM up to 31st March, 2016

Number of UAM registered in the district up to 31st March, 2016 are 2156.

16.3 Different Handicraft Cluster Nos.

There is no any Handicraft Cluster in district but, Ummedpura village in Sahara tehsil, Bhilwara have potential to become a cluster in Stone Carving. The proposal for it is under process.

16.4 Number of Artisan Cards Issued

In the district 350 numbers of Artisan Cards are issued.

SUMMARY OF FINDINGS AND RECOMMENDATION

17.1. RESOURCES

Bhilwara is classified as one of the centrally situated & backward district in Rajasthan. Important economic resources both human and material are abundantly available. It is endowed with sufficient quantity of rich minerals such as Mica, Marble, Granite, Zinc, Soap-Stone, Garnet, Lime-Stone etc. which offers good potentiality for industrial development. Main crops Barley, Maize and Cotton also offer scope for agro-based units. The Livestock population of 25.70 lacs includes Sheep and Goat numbering 12.52 lacs offer scope for tannins and other leather based units.

17.2. INFRASTRUCTURE

The infrastructure as a Power, Roads, Communications, Water and Training Facilities etc. are available at Bhilwara District.

17.3. ENTREPRENEURSHIP

People in the district are laborious and have shown initiatives. In a short period, Bhilwara has made an important place in textile industries in the country. However entrepreneurship needs to be developed through Entrepreneurship Development Program and Skill Upgradation Programs.

17.4. RECOMMENDATIONS

- (1) Additional transmission and distribution lines be set up to meet increased requirement of power for the proposed units. It is matter of great satisfaction that government has provided prime importance in setting up new Grid-Sub-Station which will improve quality of power and decrease transmission losses.
- (2) Water supply be augmented by digging additional tube wells.
- (3) Central Fax and Telex facilities are set-up in every industrial area.
- (4) Mapping, Sample/Drilling, Core logging etc. be undertaken to edict information about the quantity and quality of mineral reserves. Department of Mines and Geology should take steps in this field so that new mineral based industries can be set up in the district.

- (5) To cater for the increased requirement of man-power for the suggested industries Technical Training Institution should increase their intake M.L.V. textile institute providing facility to textile unit, by supplying of skilled and semi-skilled technician but these are not sufficient. MLVTI should undertake short term training courses to gap-up technically sound personnel to be available for the textile industries.
- (6) The list of Industries suggested in table 5.1 be included in the working plan of the District Industries Centers and the annual credit plan being prepared by the BOB, being the Lead Bank for provision of required finance for the industries.
- (7) The Availability of houses near industrial area is limited and needs to be augmented to meet the increased demand. A provision of colony with MIG and LIG type of houses be made at Bhilwara, Gathilakhera and Kanyakheri, where new industrial areas have been suggested.
- (8) Establishment of Co-Operative societies of Artisans be encouraged for supply of raw material as well as for marketing with active co-operation and help from the Govt. Agencies like RSIC, DIC, KVIB and RHDC.
- (9) Common Facility Centre be set-up at block level to provide Raw material, Up-gradation of Technology, Development of quality consciousness Development of new marketing channels for rural crafts man and artisans RUDA should come forward to cater the need of such training centers which may be set-up at block levels.
- (10) Mobile training centers be established.
- (11) Rural Entrepreneurship Development Programs be conducted to develop entrepreneurship. Special programs be organized for women and Scheduled Cast/Scheduled Tribes.

CONCESSION AND FACILITIES

District Industries Centre Program was launched in May 1978 to provide assistance as an escorting agency to establish industries in small industries sectors.

Concession and facilities provided at present to the industries are appended below:

18.1 SINGLE WINDOW CLEARANCE SYSTEM

The Government of Rajasthan is committed to promote the Ease of Doing Business by enabling entrepreneurs to establish and operate their business in the State in a hassle free manner. The Government of Rajasthan has introduced Advanced Single Window Clearance Portal <http://swcs.rajasthan.gov.in> to facilitate businesses in the State.

The advanced portal provides a single point (online) interface and a time-bound clearance system by acting as a one-stop information/ registration/ approval/ tracking centre for clearances/approvals.

In addition the portal provides an electronic-based transparent system for online submission and tracking of applications including e-Payments. It will also provide updated information relating to relevant rules, regulations, orders and policy initiatives and schemes for guidance of investors.

With the introduction of investor friendly Single Window Ordinance/Act/ Rules 2016 and advanced portal will only catalyse setting-up and operationalizing projects and investment proposals in the state in a speedy, unperturbed and hassle-free manner.

Following are the departments whose services can be applied through SWCS:

1. Industries Department for Provisional Registration as SSI
2. RIICO for Land
3. Rajasthan State Pollution Control Board
4. Department of Factories and Boilers
5. Local Self Government
6. Ajmer Vidhyut Vitran Nigam Ltd. for Power Connection
7. Department of Revenue for Land Conversion
8. Public Health & Engineering Department
9. Urban Development and Housing
10. Tourism
11. Labour

All above facilities are provided under time bound program through High Power Committee. DIC plays vital role as Nodal Agencies.

18.2 RAJASTHAN INVESTMENT PROMOTION SCHEME

In order to promote investment in the State of Rajasthan, and to generate employment opportunities through such investment, the State Government of Rajasthan, in public interest, hereby issues "The Rajasthan Investment Promotion Scheme, 2014" (**RIPS-2014**).
