PALI DISTRICT AT A GLANCE

1. Area	:	12387 Sq. Km.
2. Population:		
(I) Total Population	:	2037573
(ii) Density	:	164 Persons per Sq. Km.
(iii) Literacy - Male	:	667381
- Female	:	418312
- Total	:	1085693
3. (i) No. of Towns	:	09
(ii) No. of Municipalcouncil	:	01
(iii) No. of Municipalities	:	8
4. (i) No. of Villages inhabited	:	1012
(ii) Gram Panchayats	:	320
(iii) Panchayat Samities (Nos.)	:	10
(iv) No. of Tehsil	:	10
(v) No. of Sub-Divisions	:	10
5. Total Working Force	:	842327
6. Agriculture		
(i) Total Agriculture cultivated Area	:	162686 Hectares
(ii) Main Crops	:	Maize, Cotton, Wheat, Bajra Jawar, Oilseed, Pulses, Cumin Mehandi.
7. Irrigation		
(i) Total irrigated area	:	162686 Hectares
8. Total Livestock	:	23.85 Lac.
Population (No.)		
9. Area under forest	:	962.94 Sq. Km.
10. Minerals Resources	:	Lime Stone, Quartz & Felspar, Mica, China Clay, Lime Stone (Burning Purpose), Reiolite, Marble Block, Granite Block, Massonary Stone, Khanda, Patti, Katle, Brick Soil, Stone Pieces (Zikra), Massonary Stone (Grit) Sand, Ordinary Sand
11. Average Rain fall	:	992.3 M.M.

12. Total No. of Industrial Areas

RIICO	:	16
Private/Co-operative Sector	:	3
(i) No. of Plots Planned	:	2610
(ii) No. of Plots allotted	:	2056
(iii) No. of Plots Vacant	:	554

13. No. of Villages Electrified : 940

14. Transport & Communications :

(i) Total Road Length	:	5613.89 Kms.
(ii) Total Railway line	:	1232 Kms.
(iii) No. of Telephone Exchange	:	136
(iv) No. of Post Office	:	318
(v) No. of Vehicle registered	:	40528
(vi) No. of Bank Branches	:	258

15. Education facilities Number of

• Colleges	:	29
• Technical Collage	:	25
• Sr. Secondary	:	420
• Secondary Schools	:	262
• Primary	:	686
• Middle School	:	1341
• I.T.I.S	:	14

16. Existing Industrial

(I) No. of large scale units.	:	5
(ii) No. of Medium scale units.	:	6
(iii)No. of SSI, MSE and Udhyog Aadhar units	:	17827
(iv) Investment in Plant & Machinery (Rs. In lacks) in SSI,MSME & Udhyog Adhar sector	:	74351.04 Lacs
(iv) No. of employment generated By SSI,MSME & Udhyog Adhar sector	:	78112

AN OVERVIEW**1.1 GENERAL**

Pali is one of 33 districts of Rajasthan. Before the formation of Rajasthan this district was a part of Jodhpur State. The district takes its name from the town of Pali which is also the headquarter of the district administration.

1.2 LOCATION AND AREA

The district is located between 24.45 to 26.29 North latitudes and 72.47 and 74.18 East longitudes. It shares a common border with 8 districts of Rajasthan. In North it is bordered by Nagaur and Jodhpur districts, on the south-east by Udaipur and Rajasmand district, -on the north east by Ajmer district, in west Barmer district, Sirohi and Jalore are on south and west respectively. The district has a total geographical area of 12387 Sq. Km.

1.3 PHYSIOGRAPHY

The district resembles an irregular triangle and has generally undulated plains with scattered hills here and there and the area may be called mountainous. The Aravali range runs along the eastern side of the district from south-west to north-east. Its highest peak in the district is 1099 meters height. The area in the west is plain with isolated hills. Pali is situated at a height of 212 meters above the M.S.L.

1.4 CLIMATE AND RAINFALL

The climate of the district is extreme in nature i.e. Hot and dry in summer and cold in winter. The average maximum temperature recorded was 34.24°C and average minimum temperature was 19.01°C. The maximum temperature of 49.1°C was recorded on 20.05.2016 and the minimum of -0.6°C was recorded on 11.01.2017 in the year 2016-17. Total of 992.3 mm rainfall was received during April 2016 to March 2017.

1.5 GEOLOGY

The geological set up of the district is presented by different sedimentary metamorphic and igneous rocks. The rock out crops and exposed mostly in the eastern parts of the district and occupy nearly 16 % the area. The rocks in the north eastern parts are of Pre-Aravali group with highly banded granite gneisses of pink and grayish white in color but coarse in texture, the central and southern parts of the district are of Aravali group with variegated states, phyllited schists, argillaceous, sandstones, sandquartzites near the eastern border of the district are Delhi group of rocks with quartz, mica, phyllite and marble (impure). The south eastern parts of the district have Erinpura ricks with granite, which is generally medium to coarse grained in texture, and good deposited of Felspar south of Pali has a few outcrops of Jalore granite generally pink in colour, Malani Rhuolites (volcanic) cover a small area south-west of Pali and at places contain quartz and feldspar, Limestone, Dolomites and Sandstone are also

available from the Trans-Aravali Vindhya rocks. The rocks of the Marwar Super Group occur near Sojat and certain Limestone. The deposits recent to sub recent age consist of dune and sand alluvium. The thickness of alluvium cover increases from east to west.

1.6 FOREST, FLORA AND FAUNA :-

The forest are scattered over a large area, mostly in hills and ridges. Those in the plains are grassland or trees. The forests are generally open and poorly stocked except in forest blocks of Desuri range and Sadri range. The requirements of the Local people in respect of timber, firewood and other forest produce have been increasing at a faster rate than the forest can withstand. The damage done by illicit felling and clearing is uncontrollable. The logging damage done is rampant in all the blocks of Sadri and Desuri ranges. Famine has also been responsible for the destruction of the forests.

The wild life is poor except in the forest of Desuri range. Big animals like Panther, Sloth Bear, Sambhar, Deer etc. are mostly confined to the forest of the remote hills. Small animals such as fox, jungle cat, jackal, porcupine, langur, squirrel and reptiles like lizard and snakes are common throughout the forest area.

The common birds are blue rock pigeon, partridge, sandgrouse quails, jungle fowls, peafowls, sparrows etc.

Fish is plentiful in the Jawai Bandh, Bankli Bandh, Raipur Bandh and Nadi Sojat.

1.7 ADMINISTRATIVE SET-UP

There are Ten Sub-division in the district namely Pali, Bali, Sojat, Jaitaran, Sumerpur, Rohat, Marwar Junction, Raipur & Desuri Rani as given in the table 1.1 below.

TABLE 1.1
ADMINISTRATIVE SET-UP

S. NO.	SUB DIVISION	TEHSILS	PANCHAYAT SAMITI

2.	ROHAT	ROHAT	ROHAT
3.	BALI	BALI	BALI
4.	SOJAT	SOJAT	SOJAT
5.	MARWAR JUNCTION	MARWAR JUNCTION	MARWAR JUNCTION
6.	JAITARAN	JAITARAN	JAITARAN
7.	RAIPUR	RAIPUR	RAIPUR
8.	SUMERPUR	SUMERPUR	SUMERPUR
9.	DESURI	DESURI	DESURI, RANI
10.	RANI	RANI	RANI

RESOURCES

Pali district is not included in the list of backward districts of Rajasthan. It has important mineral and agriculture resources, the district has a potential to become prosperous if these resources are properly harnessed and exploited. Various resources are described in the following paragraphs.

2.1 HUMAN RESOURCES**2.1.1 POPULATION**

According to the Provisional Census figures of 2011 the total population of the district was 20.38 lacs. The population density of the district is 164 persons per Sq. Km.

2.1.2 LITERACY

As per census figure of 2011 District Total Literacy Rate 62.4 percent of the total population.

2.1.3 RURAL AND URBAN POPULATION TEHSIL WISE

As per census of 2011 the population of urban & rural area of Pali district is as under :-

S. NO.	TEHSILS	POPULATION
1.	Pali	368386
2.	Bali	263900
3.	Sumerpur	198125
4.	Desuri	234337
5.	Marwar Junction	198978
6.	Rohat	120963
7.	Sojat	220854
8.	Raipur	205254
9.	Jaitaran	226776
	TOTAL	2037573

As Per Census 2011.

2.1.4 WORK FORCE AND OCCUPATIONAL PATTERN

The total work force in the district is estimated at 842327 numbers representing 41.34% of the total population. The occupation distribution of the work force is given in Table 2.1 below :

TABLE 2.1

WORK FORCE AND OCCUPATIONAL LEVEL 2011

S.NO.	OCCUPATION	POPULATION			% AGE
		Male	Female	Total	
1.	Cultivators	151269	92222	243491	28.9
2.	Agriculture Labours	93142	144138	237280	28.2
3.	Household Industry	17223	8896	26119	3.1
4.	Others	261443	73994	335437	39.8
	Total	523077	319250	842327	100

As Per Census 2011.

It would be clear from para 2.1.4 above that agriculture is the main activity in the district providing employment to 57.19% of the working population.

TABLE 2.2

LAND USE PATTERN 2015-2016

S.NO.	PARTICULAR	AREA IN HECT. (2015-2016)
1.	Forest	86809
2.	Land not fit for Agriculture	230081
3.	Cultivable Barren	202484
4.	Land for other non Agriculture use	59467
5.	Fallow Land	49544
6.	Cultivated Area irrigated	162686
7.	Un Irrigated	442008
	Total	1233079

Source : Land Record Collectorate, Pali

2.3 WATER AND IRRIGATION RESOURCES

(a) Major Rivers and lakes :

There is no perennial river in the district four tributaries viz, lilri, Sukri, Bandi and Jawai discharge their water in river Luni which passes through the district. There is no lake in the district. However, there are number of tanks and seven small dams in the district for irrigation purpose.

(b) **Ground Water Conditions, Resources and Availability :**

Note on industrial development possibilities during the year 2017-2018 in Pali district.

DISTRICT : PALI

It covers an area of 12387 sq. kms. and falls in semi arid region with normal annual rainfall of 485.36 mm physiographically the area is characterized by undulating topography with scattered hills but its south eastern boundary forms the Aravalli Range. The main river flows in the district area Sukri, Lilri, Bandi, jawai & their tributaries which are ephemeral in nature forming water shed of Luni River System.

(1) **Hydrogeology:**

The main hydrogeological formations encountered in the district are Alluvium, Phyllis, Schist, Granite, Gneiss, Limestone & Sandstone, Alluvium and Limestone forms productive aquifer whereas other formations form poor aquifer.

(2) **Depth of Water Table:**

Depth to water level along Aravalli hills generally found shallow is, i.e. less than 25 mts whereas in coeternal part of district it varies from 25 to 40 mts. Deep water levels are observed in NW part of Jaitaran block and also in part of Sojat & Raipur block which ranges from 40 to 80 mts below ground level.

(3) **Water Level Trend:**

Blockwise change in ground water between period 2004-2016 (pre-monsoon period) is given below :

S. NO.	Block	Change in Water levels (in mts.)
1.	Bali	0.65
2.	Desuri	3.37
3.	Jaitaran	(-)4.41
4.	Marwar Junction	5.98
5.	Pali	1.72
6.	Raipur	(-) 1.29
7.	Rani	2.13
8.	Rohat	0.79
9.	Sojat	(-) 0.50
10.	Sumerpur	(-) 2.03

Source : Under Ground Water Department.

(4) Ground Water Resources:

Water resources of the district has been computed for year 2013, it is observed that 7 blocks are in “Over-exploited” category whereas 1 blocks fall in “Critical” category. and two blocks fall in " semi critical" category

Block wise Ground Water Resources are as under:

S.No.	Block	Net G.W. availability (Recharge) mcm	Gross G.W. Draft (mcm)	Stage of G.W. Dev. In (%)	Category of Block
1.	Bali	42.3581	42.8090	101.06	Over Expl.
2.	Desuri	27.3605	31.3180	114.46	Over Expl.
3.	Jaitaran	54.4889	70.1702	128.78	Over Expl.
4.	Marwar Junction	33.9909	52.9547	155.79	Over Expl.
5.	Pali	9.6535	6.7763	70.19	Semi-Critical
6.	Raipur	18.4530	26.0976	141.43	Over Expl.
7.	Rani	27.4003	32.7000	119.34	Over Expl.
8.	Rohat	4.3288	3.4432	79.54	Semi Critical
9.	Sojat	31.9301	38.8619	121.71	Over Expl.
10.	Sumerpur	44.6543	43.7154	97.90	Critical
	TOTAL	294.6185	348.8462	118.41	Over Expl.

(5) Availability of Ground Water for Future Development of Industries :

Looking to the availability of ground water resources it is not advisable to develop more industries in Pali district mainly those which depends on water Pali district is facing severe scarcity of water for drinking purpose.

Source :-Ground Water Resources Department

(c) MEDIUM IRRIGATION PROJECTS

Irrigation plays a major part in the agriculture production Most of the agricultural production is dependent on monsoon. The river Luni which enters Pali district is main river flowing through the district. The chief tributaries of Luni are Lilri, Sukri, Bandi and Jawai. But none of these river are perennial and due to uncertain rains are mostly dry. The dam at Sardar Sammand, Hemawas, Jawai, Raipur, Kurki, Nimaj, Baniawas and Kharada irrigates considerable areas. Jawai is the biggest irrigation project. It provides water to Jalore and Pali Distts.

2.4. MAJOR OF CROPS

The main Rabi Crops are wheat, Barley and oilseed, while Jawar, Maize, Bazra and cotton are the main Kharif crops. Farmers are progressive and a large number of them are adopting mechanized method of farming. Though most of the small and marginal farmers use bullocks for farming. There is a good demand for tractors as well as for bullocks, pesticides, fertilizers and improved quality of seeds. The production of various crops for 2016-17 is given below.

There has been a substantial increase in production of mustard, chillies, barley, wheat and gram. It was informed that only about 60% of the production of these crops is being used in the industries in the district and the balance is being sent outside the district. There is scope for establishment of more industrial units based on the above items.

2.5 LIVE STOCK RESOURCES

2.5.1 MAIN LIVE STOCK ANALYSIS

From the live stock point of view, Pali can be considered one of the well developed district of Rajasthan. The district has a large population of livestock. The total population is about 23.85 lacs. The climate is specially suitable for sheep. Hence sheep population was about 8.50 lacs. The details of total population of the livestock as per 2012 survey are as follows.

TABLE 2.5
LIVE STOCK POPULATION IN THE DISTRICT

S. No.	Live Stock Type	Population
1.	Cattle	355537
2.	Buffaloes	311691
3.	Sheep	850596
4.	Goat	767468
5.	Camels	8319
6.	Donkey	2066
7.	Horses/Mules	1203
8.	Pigs	5290
9.	Dogs	11366
10.	Hare/Rabbits	114
11.	Poultry Birds	71444
	Total	2385094

Source : Dy. Director Animal Husbandry Pali As per 2012 Census

As per the information supplied by the dairy department the milk collection during the year 2016-17 was 108654Kg. per day and the annual collection of the milk was 39658710Kg.

2.5.2 AVAILABILITY OF WOOL

Sheep are mainly reared for wool and meat. Wool clipping is done twice or thrice a year. On an average an yield of 500 gms. Of wool per clipping is obtained which works out and average of 1.00 Kg. wool per sheep per year. The 8.50 lacs sheep in the district would given yield of 8.50 lacs kg. wool in the year 2012. The wool is generally of medium grade suitable for carpet yarn. Presently, there is no woollen industry and market in the district.

2.5.3 MEATAVAILABILITY

According to the integrated sample survey report estimated of live stock products, 2012 by the animal husbandry department, Government of Rajashtan, the average slaughter rate is 15% at present with an average yield of 15 Kg. per sheep and 16 Kg. per goat.

According the annual availability of meat can be placed at round 9401 Kg/a day. As most is surplus and is exported outside the district to Gujrat and Bombay. A modern slaughter house-cum-meat processing plant can be established in the district.

The cattle and buffalo are not slaughter for meat. The hides are available from dead animals. Assuming a mortality rate of 10% is small animal 3-4% in lafge animal it is estimated

that about Nos. 3,28,002 hides are likely to be available per annum. A chrome tannery can be established in the district.

2.5.4 AVAILABILITY OF HIDES

The cattle and buffalo are not slaughtered for meat. The hides are available from dead animals. Assuming a mortality rate of 10% in small animal 3-4% in large animal it is estimated that about Nos. 3,28,002 hides are likely to be available per annum. A chrome tannery can be established in the district.

2.5.5 AVAILABILITY OF BONES

In small Animal an average of 12 kg. bones are available per animal and in large animal 40-60 kg. bones. The availability of bones is estimated to be around 46,09,906 per annum. Bone crushing units can be set up in addition to the crushing units in the district.

2.5.6 LEATHER AVAILABILITY

S.No.	Live Stock Type	Population
1.	दुधारु पशु	11,01,081
2.	मीट व चर्म उत्पाद	2,42,709
3.	वूलन उत्पादन पशु	8,50,596
4.	अन्य पशु	-
	कुल योग	2194386

Leather Based manufacturing Artisans are functioning in various areas of Pali district. Jaitaran is big cluster of Leather Artisans. Leather is available from the local animal hides as well as from the adjoining districts.

2.5.7 VETERINARY FACILITIES

The veterinary facilities available in the district are given in table 2.6 below as on 2016-17.

TABLE 2.6

S.No.	CATEGORY	NUMBERS
1.	Poly Clinic Hospital, Pali	01
2.	First Grade Hospital	26
3.	Hospitals	65
4.	Dispensary	05
5.	Distt. Diagnostic Laboratory	01
6.	Goshalas	176
7.	Sub Centers	99
8.	District Mobile Unit	03

Source : Dy Director Animal Husbandry Pali

Pali district is one of the few districts of Rajasthan possessing wide variety of both metallic and non-metallic minerals. However, commercial exploitation for metallic mineral has given encouraging results.

Among non-metallic minerals, limestone, magnesite, calcite, quartz, felsper, china clay, ball clay asbestos etc. are the mineral which being exploited for last so many years. cement grade limestone of Ras belt has attracted many entrepreneurs for setting up of major cement plants recent discoveries in the district include blockable granite, wollastonite, scheelite, wolframite and indication of gold mineralization. A brief description of each occurrence is given below.

Metallic Minerals

1. Base metals

Occurrences of base metals have been reported in chittar, Nayakhera, Kalabar, Birantiya, Kantaliya, Jaitpura, Bar, Sandarada, Punagarh, Sandela etc.

(a) Chittar:- Department of mines & geology has investigated copper deposit near chittar 10 Km from Sendra. A well developed gossan zone extends for about 2 kms strike length with average width of 1.5 to 2.0 mts. it shows variegated shades of yellow brown, maroon, red and vermillion colours. Department has proved 0.26 million tones of average 1% copper reserves in this area.

(b) Naya Khera:- A "L" shaped gossan body extends for about 800 mts. strike length with variable width 1 to 15 mts. In delhi super group of rocks near naya khera about 18 kms from sendra. Drilling was carried out by the department in the year 1973-76 and proved .18 million tones reserves having 28% sulphur, 0.5% copper and 1.76% zinc. The mineralization mainly consist of pyrite with subordinate amount of pyrrhotite, chalcopyrite and sphalerite.

(c) Biranthiya khurd:- on the basis of geological investigation taken up by G.S.I. massive sulphide mineralization hosted by felsic volcanic unit (quartz mica schist) has been reported in this area. A 250 mts. Long lensoid ore zone has been established in the north block having small reserves of 44906 tonnes with an average grade of 4.6% Cu, 5.15% Pb and 10.6% Zn. In south block ore bodies are small and impersistent both in strike and dip. Indications of gold have also been noticed in north block. Samples have shown 150 to 1000 ppb of Au.

(d) Kalabar:- massive and stringer sulphide mineralization is found in kalabar area. The rock type are assemblage of differentiated intermediate meta basic (amphibolites) chlorite schist, calc granulite etc. ancient mining is evidenced by gold working. slags and mine dumps occurring in echelon pattern over cumulative strike lengths of 335 mts. Test drilling done by G.S.I. below the oxidized zone has proved the presence of pyrite, pyrrhotite, sphalerite and chalcopyrite. besides Zn and Cu significant value of Ag (5-42 ppm), Se (1-50 ppm) Hg (245-4000 ppm) and Au (63-177 ppm) have also been obtained. 1.25 million tonnes reserves of massive sulphide zone having 6.76% Zn and 0.39% Cu and 0.19 million tonnes of stringer sulphide zone having 0.66% Cu and 28% Zn have been estimated between 400-285 M.R.L. G.S.I is continuing investigation in this area.

- 2. Tungsten:-** occurrences of scheelite have been reported from Bar-Babra area and these areas have been explored by G.S.I. intermittent mineralization has been traced for 10 kms strike lengths in bar area and 8 kms in babra area, width varies from 2 to 10 mts. Scheelite mineralization in the skarns shows wide variation in grade. exploratory drilling by G.S.I. has proved persistence of mineralization down to 5 mtr. It has average grade of 0.2% WO_3 . scheelite mineralization has also been reported by department near bar, sendra, nana, bera areas. the nana areas have been explored by drilling and persistence of scheelite up to depth 132 mtr. have been observed.

Non metallic minerals

The major deposits of non-metallic minerals being exploited in Pali district are limestone, Clay, quartz-feldspar, dimensional stones (granite & marble), masonry stone & rhyolite. Details of these minerals are as follows:-

1. **Limestone :-** limestone is one of the important minerals because of its use in cement, chemical, metallurgical, industries. Pali district has extensive limestone belonging to Delhi Super Group and Marwar Super Group of rocks. Cement grade as well as chemical grade limestone are found in the district. Major lime stone deposits are described below :

(a)Ras limestone belt:- this deposit is located about 25 km west of Beawar and belongs to Delhi Super Group. Earlier it was classified as railo formation. It extends from kurki in the NE to tunkra-moriya in south-west . it occurs in form of paraller bends exposed in an area of about 36 sq.km . it is crystalline in nature and occurs in the form of steep linear ridges. Limestone is cement grade to high grade and at places is traversed by numerous pegmatite veins and calc-genisses .detailed investigation in selected area of 90 hectares carried out by the department has proved 45 million tones of cement grade limestone reseeves upto 15 mtr.

(b) Deoli Hulan-Guriya belt:- it is in the strike continuity of Ras belt and is exposed between Deoli Hulan and Guriya villages having 9 kms lengths. About 100 million tones reserves of cement grade limestone have been assessed on the basis of preliminary investigation carried out by the department.

(c)Thandi Beri-Sirava Deposits:- this deposit is northen extension of amli-pindwara belt of sirohi area. It belongs to Kumbhalgarh group of Delhi Super Group. This belt extends from Thandi Beri to north of bharla village for about 9 kms lengths having average width of 2.7 kms northen part of this beltis sillceous. Limestone around kakodara, kararavav,bhil colony contains cement grade and high grade limestone.

About 8 million tonnes reserves have been inferred on the basis of department prospecting.

(d) Sojat-Atbara-Rundia Deposit:- This deposite is a part of sojat-Gotan-Mundwa belt belonging to Marwar Super Group of rocks. Limestone is extensively mined out and calcined around Mandla , Sojat ,Atbara ,Rundiya ,Sinla, Digrana ,Nimbol villages in Pali district. This deposit contains cement grade, chemical grade and flux grade limestone associated with dolomitic limestone and cherty limestone .the thickness of high grade band varies from 0.5 m to as much as 6 mtr. Department has carried out prospecting near Sojat –Biralra were proved ,while in rundia area 14 million tonnes reserves of limestone having 45% to 54% cao were proved. According to G.S.I. total reserves in this belt are 64 million tonnes. Limestone of this belt is used as sweetner in making cement , hydrated lime and is sent to many other industries.

Other Limestone Occurrences :- small intermittent bands of limestone are also noticed near village Murkasni-jhak, the- Bilara and jaitaran, dist jodhpur and pali having reserve 13.719 Mt, ballpura, west of naya Kheda, it is associated with calc silicates.

2. **Clays:-** occurrences of china clay /ball clay are found in Litariya ,Kharadi , village in Jaitaran tehsil scattered over more than 2 sq.km area. It is colour is grayish white and has fair degree of plasticity. It has 32-34% Al_2O_3 , 0.06% to 1.5% Fe_2O_3 . It occurs ata depth of 10-15 mts. And it is grit and sand . Number of mining lease and prospecting licenses have been granted in this area. Mineral so excavated is being sent to many manufactures outside Rajasthan for making clay bricks ,ceramic and also inrubber, paper industries clay extends upto Indawar, Luniyas ,Badagoan area of Nagaur district.

Clay occurrences have also been reported from Jaitpura ,Shyamgarh ,area and also various parts of Raipur ,Jaitran ,and Desuri tehsil.

3. **Quartz-felsper:-** These mineral have extensive use in ceramic, glass, enamel etc industries. Both of these minerals are found in pegmatites. Quartz veins containing off white to white quartz have also been found in different parts of the district. The important localities where quartz/felsper are being mined are samel, karpura, bhanwariya, paten, chang chittar, sendra, shyampura, makarwali, bar, birantiya, haripur, asan, kalaliya, bheo, partapgarh, kalakot, nimaj, bijaji ka guda, sardar samand, patriya, phulad, khemal, nana, sindru, etc. the district is very rich in quartz/felsper deposits and most of the area are sanctioned under ML/PL. The major part of these mineral produced is sent to beawar which has become the leading trade center for these minerals.

4. **Decorative stone / Building stones:-** building stones and decorative stone are reported from many localities in Pali district. Sandstone, rhyolite, siliceous limestone, calc-gneiss are utilized for masonry purposes. Sandstone of masonry use are quarried near Sojat city, rhyolite suitable for chip making and road ballast are found near Manihari, Punagarh, Bhakriwala Gaon etc. Calc gneisses are also being quarried for making ballast at few places. Slate & Schist near Bar, Kanuja, Ballupura, Girri, Biranthiya Khurd & Lawecha are being excavated and locally used as roofing stones.

Granite and Marble are the main two decorative stones which are being mined in Pali district. With the implementation of new policies of the state new leases particularly of granite is granted in Kharda Ki Dhani Desuri, Khimel areas of Pali district.

5. **Granite:-** Granite of blockable nature occurs in large area of Pali district around NE (Bar, Sendra), Netra, Khiddargaon (the. Sumerpur) & southern part (Bali-Desuri-Sumerpur-Nana) of the district, it is mainly Erinpura granite. However granite suitable for block mining are also found associated with Malani igneous suite near Kharda, Kharda Ki Dhani, Dharamidhari, Jitra, Jawariya.

6. **Marble:-** Search for marble in Pali district. Began during 1960 when first deposit was explored at Bheru ka Bariya near Bar. The marble of this district has varied colours and is figurative at places. Regional scanning for marble was done in different parts of the district which helped in locating deposits near Nandana, Ramgarh, Hemadai, Bhilda, Balwantgarh, Gurha In Raipur and Jaitaran tehsils and near Jedri, Sindru, Diyana, Banki, Khiwandi, Siriyari, Anna, Kantaliya, Vinpura, Sarangwas etc. in Bali, Desuri, and Kharchi (Marwar Junction)

Most of the marble deposits of Pali district are siliceous in nature. The variegated colour is important due to presence of ferruginous contents, thin bands of the district. Colours are attractive but the presence of irregular closely spaced fractures are creating problem in extracting big block and accordingly marble industries in Pali district has been severely affected. Except two, three localities i.e Hemadai, Siriyari, Bhilda, in the most of the areas mining is being done for sending the materials to cement industries. The crystalline limestone is suitable for cement manufacture. Recently calc-silicate rocks which are hard, compact & occur as sheets have attracted few entrepreneurs for its extraction as blocks as marble near village Asan and Samel in the district.

7. **Rhyolite:-** Rhyolite of Pali district is mostly reddish brown, grayish black in colour and is aphanitic as well as porphyritic. It is being worked near Medi Bhaker, Singhari, Rohat and Kharda Ki Dhani, where 9 leases are in operation. Besides, Rhyolite occurrences are reported from Punagarh, Manihari, Bambolai, Gura Partap Singh, Bhakriwala Gaon etc. in Pali tehsil. These can only be utilised as road ballast or for chip making.

The minor occurrences of non metallic minerals are as follows:-

8. **Asbestos:-** This mineral mainly finds application in making cement pipes, sheet, fireproof clothing etc. the asbestos deposits in Pali district are located near Sendra, Mala ka Guda, Chhagri ki Bhagal, Patariya, Goriya, Kanotiya, Ramgarh, Dhanbarli, Ballupura, Ranakpur, Shyampura, Alipura, etc. most

of the asbestos is tremolite variety but at place thin veins of chrysotile asbestos are also found. Mining of asbestos is known for many years in Pali district. These days new mining leases for asbestos are banned as per central government directives because it has been considered hazardous mineral for mine & factory workers. The important occurrences are described below:-

- (a) **Dhel Malaji Ka Guda:-** asbestos occurs as thin veins with an average thickness of 13 cm. the area has been extensively prospected and 130 tonnes reserves have been estimated upto depth of 1 mtr.
 - (b) **Chariya ki bhaga patriya:-** asbestos of tremolite variety occurs in slip fibers veins. the vein are short, irregular and discontinuous. the reserves have been estimated to be 6550 tonnes upto a depth of 20 mtr.
 - (c) **Goriya:-** Tremolite asbestos occurring here is generally a cross fiber type 265 tonnes of reserves have been estimated upto 9 mtr. Depth.
 - (d) **Dhan Barli:-** asbestos occurs as thin cross fiber veins having 2-3 cms thickness. The reserves are 1,15,440 tonnes. a few thin criss-cross veins of chrysotile have also been observed.
9. **Calcite:-** calcite occurrences are located at bara guda, Budha Lalwa, Kalab, Kapil ki Bhagel, Khemal, Alipura, Kharol, Patan, Dayalpura, Nimaj, Kurki, Sardhana, Patariya, Sumel etc. These areas mainly fall in Raipur, Jaitaran and Bali tehsil. Most of these occurrences are pocket type deposit.
 10. **Garnet :-** The mineral has been exploited in the past near Devkhedi and Karanpura villages of Raipur tehsil. it is found in garnet –mica schist and is also in skarns associated with wollastonite, epidote, quartz and calcite. It is found at number of places in Raipur and Kharachi tehsil. it is mainly of abrasive quality.
 11. **Graphite:-** Small occurrences of graphite are located near Bar railway station & Desuri. Preliminary investigation by the department have shown that it has very low carbon content (6-8%).
 12. **Gypsum :-** it has been worked in part near Khutani villages. Gypsum occurs in about 1 sq.km area with an average thickness of about 1 mtr.
 13. **Magnesite:-** the mineral is carbonate of magnesium occurring as hard white earthy lumps in ultrabasic rock. When free from silica & iron it is highly valued for its refractory properties. Small 8 Magnesite occurrences are found near Koyalvav, Bhimana, Talao, Charria ki Bhagel, Bhilan, Phulad, Siriyari. it occurs as thin veins & stringers in ultrabasic rocks like peridotites, pyroximate etc.
 14. **Barytes:-** small occurrences of barites are found in Punagarh hill in the form of small veins. It has off white to cream colour and grade is also low. Barytes have also been reported from Biranthia Khurd by G.S.I. it overlies the lenses of massive sulphides along the contact of quartz-mica schist having intermittently exposed outcrops of about 280 mts. Strike lengths and 1 to 3 mts. Thickness it is of low grade.
 15. **Soap Stone:-** small occurrences of soapstone are reported from Kanuja, Halwat, Shyampura, Khormal, Manpura, Kotri, Nandana, Kanotiya, Asan etc. these are six mining leases of soap stone in the district.

16. Red ocher/ Red Oxide:- it is observed near botha ki dhani in Raipur tehsil where it was being exploited by private parties. Red oxide and clays are also being found around jaitpura and shyampura and have also been worked in past.

17. Wollastonite: - this mineral is mainly used in ceramics. It is also used in polymers, rubber, paints, plastics, mineral wood etc. it has become important substitute of asbestos. Good qualities of Wollastonite are found in belka pahar, kheravparla areas of sirohi and Udaipur districts. These also extend in pali district. It is being worked by M/S Wolkern India pvt.ltd. it is associated with calcite. Both the mineral are being mined out.

Recently department has located low grade Wollastonite along the border of ajmer and pali districts. Wollastonite bearing skarns containing 20% Wollastonite along with epidote, garnet, quartz, calcite, occur as detached bodies. These extend from pisangam-gola in ajmer district to alipura, rawaniya, rampura, gopalpura, karanpura , sodpura , ramawas etc. for more than 80 kms strike length beneficiation studies conducted by IBM laboratory, ajmer have indicated encouraging results. Drilling conducted in three area of pali district namely Rawaniya, Rampura, soupura and Gopalpura has proved 79696 metric tonnes of Wollastonite.

18. Beryl:- It is an important source of beryllium metal and also finds extensive use in atomic reactors. It occurs in many pegmatite bodies of Raipur tehsil. Recently department has also discovered beryl mineralization near Nadol in Desuri tehsil. It occurs as large crystals (15-30 cms) and contain upto 13% .rate element have also been discovered during chemical analysis.

2.6.1 MINERAL PRODUCTION

The production of major and minor minerals in the district during 2016-17 was a given in the table below.

TABLE PRODUCTION OF MAJOR MINERALS IN MT.

S. No	Name of Minerals	Production MT. 2016-17	Place
1.	Lime Stone (Cement Grade)	19602154	Jaitaran
4.	Wollastonite	-	Desuri
5.	Megnesite	-	Bali

TABLE PRODUCTION OF MINOR MINERALS IN MT

1.	Reiolite	26385	Rohat, Pali
2.	Marble Block	0	Marwar Junction, Desuri Etc.
3.	Granite Block	379032	Pali, Rohat, Sumerpur, Bali, Desuri
4.	Massonary Stone	1159869	Pali District
5.	Bajari	3874966	Pali, Desuri, Sojat, Sumerpur
6.	Quartz & Felspar,	6983	Sojat, Jaitaran, M.J., Desuri
7.	China Clay	1137540	Jaitaran
8.	Lime Stone (Burning)	-	Sojat, Jaitaran

Source : ME Sojat City

2.7 FOREST RESOURCES :-

The total Forest area under the district is 962.94 Sq. Km. out of which 618.81 Sq. km. comes under supervision of Conservator of Forest (Wild life), Rajsamand. Forest area of the district is 7.77% of the total area of the district. The forest resources are very meager. The

industrial potential based on forest resources can be for small artisan unit for manufacturing of wooden articles, toys etc.

The Total forest area of this district :-

Office	Classification of Forest Land (Sq. Km)			
	Reserve	Protected	Unclassed	Total
D.C.F. Pali	200.00	141.92	2.21	344.13
Dy. C.F.(Wild Life) Rajsamand				
Tadgragh Ravali	274.18	-	-	274.18
Kumbhalgarh	342.55	2.08	-	344.63
Total	816.73	143.70	2.21	962.94

Source : Deputy conservator of Forest Pali.

2.8 TOURISM AT A GLANCE OF PALI DISTRICT

Pali town can be considered as a big chain of towns in Indian History. In treeta yug this town was called “PARA-NAGAR” and in Dwaper yug this town was known “PEPAWATTI” People here were mainly the Paliwal Brahman’s and were all businessman. This town was very rich in culture. But again and again the town was destroyed and even the old fort. Once there was also a great wall around the city. Today we neither see the fort nor the wall. But we still have the name of the gates like suraj pole, mela ka darwaja, pani ka darwaja, jalori darwaja, kariya darwaja are important with the time the fort was destroyed. But still one can see the main entrance of the fort near juni dhan mandi.

At the time also pali had a democratic system. They had a panchayat and the head of panchayat used to solve the problems of the town.

Thus pali finally came under the jurisdiction of British, From then on the area covered by the present pali district be came part of jodhpur state until Indian independence.

SIGHT SEEING TOURIST

There are many tourist places in Pali district which attract local peoples as well as foreigners. People from different cities of India come to Pali to visit Ranakpur, Jawai Dam, Parshuram Mahadev Temple, Jain Aashram etc. Some of the famous tourist places are as follows :

Tehsil Pali

Navalakha Temple: - Built in 10th century, this Parshwanath temple is located in Pali city. This temple is famous for its architecture.

Lakhotia Garden: - It is situated in the heart of Pali city and surrounded by a pond, lakhotia (Also known as city tank). One beautiful temple of Lord Shiva is also situated in the middle of garden.

Somnath Mandir: - It is famous for its historical background and Shilp Art. It is situated in the middle of Pali city. It was constructed by then King of Gujrat Kumarpal Solanki in the Vikram Samvat 1209. It is the temple of Lord Shiva. In the premises of temple there are many small temple of other Devi Devta.

Bangur Museum: - It is situated in the Pali city at old bus stand. Many old historical and artistic items like dresses, coins, arms etc. are kept here.

Shanidham Aashram: - It is situated in Pali tehsil of Pali district and hardly 10 km from Pali. (Click on hyperlink for more information)

Parshwanath Temple (Manpura Bhakri, Pali) : - As per local resources this temple is about 300 years old. Here fairs are being held on Pausha Shukla Dasami and Kartik Purnima every year.

Tehsil Rohat

Peer Dulheshah: - An old renowned place of Muslim pilgrims situated near village Chotila.

Jaanrai Temple and Kubaji Samadhi, Jhitra: - An old and beautiful temple of Radha-Krishna on the banks of village pond.

Rao Shiho Samadhi: - situated near village Bithu, visited by almost everyone. Rao Shiho was the founder of the clan Rathore.

Khutani Khetalaji Bheru Temple: - Situated in village Khutani, this temple is widely worshiped by people of Marwar and Godwar.

Tehsil Desuri

Rankpur festival (Rankpu) Distt. Pali: -

It is organized jointly by the District Administration, Pali and Rajasthan Tourism.

Main attractions:

Jeep Safari: From Shilpi (Ranakpur) to Khumbhalgarh Sarangwas Organised by Forest Department.

Classical Dance Performance

Fir Dance & Siddhi Dhamal

Horse & Camel Safari

Vargowda ceremonial procession (By Sonana Khetliyaji Trust)

Horse race, Tug of war, different acrobatics by Marwari Houses

‘Best of Rajasthan’ folk performances by renowned folk artists of Rajasthan

Fireworks display

Bhajan, Keertan (By Sonana Khetliya Trust)

Rock Climbing

Ghair Dance Performances by different groups of Ghair (from different parts of Rajasthan)

Marwari Horses Dance Show

Ranakpur Jain Temples: It is famous for its magnificent Jain temple built during the reign of Rana Kumbha of Mewar in 15th Century. Ranakpur temple complex is known for its Architectural and natural beauty. It has 24 halls containing 1440 pillars, each one is different from other and each covered with intricate, yet delicate, carvings. The Central temple dedicated to the Jain Thirthankara Adinath ji, is called Chaumukha (four-faced.) Since last two years Department of Tourism organized Festival there to promote rural tourism.

How to reach: One can easily reach at Sadari by bus from all over Rajasthan. At Sadari, local taxi and jeeps are available to reach at Ranakpur.

Nimbo ka Nath: It is situated between Falna-Sanderav route. Myth goes that pandavas stayed here with mother kunti during the exit. Kunti used to worship shiva at this place Pandvas also established Navdraga at this place.

How to reach: One can easily reach at Sadari by bus from all over Rajasthan. At Sadari, local taxi and jeeps are available to reach at pond. Now from Pond there is 2 km walking distance through hilly narrow path to reach at top, and then from top there is around 400 narrow steps to reach at natural cavern.

Tehsil Sumerpur

Jawai Dam: - One of the biggest dam of western Rajasthan. It is situated in sumerpur tehsil of Pali district. It has a capacity of 6000 million cubic feet. It is the main water supply Source of Jodhpur and Pali districts. Besides this, many villages of Jalore and Pali are irrigated through this Dam.

Charbhuj Temple, Khangri: Every year a fair organized by Department of Tourism & Trust of Temple i.e. Ghanchi Samaj on Ram Navmi. More than 05 thousand people of Ghanchi Samaj and others coming here to worship & participate in fair.

Food Craft Institute, Sumerpur: For establishment of F.C. I. near village Sindroo on highway 15 Kms. From Sumerpur for the same land already allotted. Construction of the building funds will be rehire by Ministry of Tourism, Govt. of India.

Tehsil Marwar Junction

Jadan Aashram: - It is situated in Marwar Junction tehsil of Pali district and hardly 20 km from pali.

Tehsil Jaitaran

Ma Durga Temple, Nimaj: -Nimaj boasts of a temple built in 9th century AD. It was dedicated to goddess. Ma Durga. It also covers a unique art gallery showcasing some master pieces of sculptural art, adorned with in natural surroundings.

EXISTING INFRASTRUTURE FACILITIES**3.1 POWER RESOURCES**

Infrastructure facilities like power, banking, transport, education, health, communication etc. Play vital role in the promotion and development of industries in an area. A brief account of such infrastructure facilities availability in Pali district is given in the following paragraphs.

3.2 RURAL ELECTRIFICATION/GRID STATION

The district does not have any power generating station. It gets power from Bhilwara, Bilara and Beawar through 132 KV transmission lines. There two of 220 KV GSS and 9 Nos. Numbers of Grid Sub-Station of 132 KV and 127 Nos. of 33 KV sub-station and 24099 Nos. of 11 KV sub- station in the district.

TABLE 3.1
LINGTH OF DIFFERENC TYPES OF LINES 2016-17

S.No.	Type		Length
(a)	Transmission Lines	33 KV Single Circuit	1746.585
		Double Circuit	71.9
(b)	Transmission Lines	11 KV Single Circuit	11743.3377
(c)	L. T. Lines		10734.287

3.2.2 ELECTRICITY CONSUMPTION PATTERN :

The consumption of electricity in 2016-17 was as given in table 3.2 below.

S. No.	Type of Consumers for sale of Electricity	Total No. of Consumers 2016-2017		
		31-03-16	During 2016-17	Total
1	Domestic	431176	19716	450892
2	Non-Domestic	46530	1976	48506
3	Industrial	0	0	0
	a) Small	8538	227	8765
	b) Medium	1389	64	1453
	c) Large	218	52	270

3.3 SURFACE WATER

The Luni river is the only major river in the district. This is not perennial river and dries up during summer. According to survey the ground water storage is good in the district. But due to draught in the last phase of this decade, the water level has gone down. According to the 2015-16 the number of wells and tube wells have been 136222 Availability of surface water in Pali District in 2015-16 given below in the table.

3.3 TABLE

S.No.	Name of Tank	Gross Capacity Mcft.	Water Recd. During the year 2016-17 in M.C.F.T

Table 3.9.2
Co-Operative Sector Industrial Area

Sr.	Name of Ind. Area	Land Acquired	Planned		Allotted		Vacant		Rate Sqm .
			Plots	Area	Plots	Area	Plots	Area	
1	Harish Chandra Mathur, Industrial Estate, Falna	-	169	-	134	-	35	-	-
2	Co-operative Society, Rani	-	50	-	50	-	-	-	-
3	Laxmi Industrial Estate Co-operative Society Ltd., Jawadia	-	72	-	72	-	-	-	-
	Total	-	291	-	256	-	35	-	-

It would also be seen that plots at Pali in phase I and III, Sojat I and at Marwar Jn. Are almost fully allotted phase IV of Pali is developed. Maximum concentration of units is at Pali and Sojat. Besides RIICO industrial areas, there are industrial estate at Falna and Rani. In Falna one joint stock company had build sheds. The estate was assisted by the Life Insurance Corporation of India and the state government. At Rani and Jawaria the industrial estate has been organized on cooperative basis.

3.9.3 NEXTZEN TEXTILE PARK (P) LIMITED

NextGen Textile Pvt. Ltd. had developed an integrated textile park at sardar Samand Road, Pali Under the scheme of Integrated Park Of Ministry of Textiles, Government of India. Toatal park's total land area is 235 bighas (94 acres) and there will be 52 planned textile & processing.

As pali is a hub of printing & Proceessing industries, so as to cater to such industries in eco friendly way, we had constructed & developed a state of part zero liquid discharge (ZLD) common Effluent Treatment palnt, CTEP, with Reverse Osmosis & Multi effect evaporating system (MEE), with 95% recycling of water.

To save every drop of precious water, we had constructed huge Rain Water Harvesting System to collect,save & store the rain water of the entire park.

To tap the unlimited & abundant solar Energy, the park has installed a 500KWA solar power system

Progress of Units at a Glance

1. Total Area of the park	94 Acres
2. Total Factory Area of the Park	1,71,778 Sq. Mtr
3. Total Number of Plots in the Textile Park	52 Plots
4. Civil & Construction Work almost Completed	22 Units in 33 Plots
5. Trial Production Underway	19 Units
6. Vacant Plaots	19 Plot

EXISTING INDUSTRIAL SCENARIO OF PALI**4.1 EXISTING INDUSTRIAL STATUS – GERERAL COVERAGE
INDUSTRIAL SCENARIO**

The area constituting present Pali district has been known for a number of industries, Though the chief occupation of the people has been agriculture and pasture, various industries flourished as traditional crafts. These not only met the small requirement of the average cultivator, but also provided means of livelihood to the artisans. Pali was best known for weaving of coarse cottonj and woolen cloth, made mostly from locally produced fiber and dyeing and printing cotton fibers also developed in Pali, Pali prints found their market extending well beyond the boundaries of the them Marwar State the dying and printing of cotton fabrics constituted a highly specialized industry and the dyers and printers thrived in consequence of their ability to gratify the love of colour or rather the well designed combination of colour which were very popular among either sex in Rajputana. Turbans for men and scarves for women were dyed and prepared with much labour by Chandwas and Khattris and an embroidered silk knitted thread for wearing on the turban by patwas (for pat meaning silk) Bagri in Sojat Pargana had lacqueware as its special product while ivory turning was pusued in Pali.

Other important industries were the addle and bride industries of Sojat and marble articles manufacturing in all the parts. Through these industries were purchased mainly as cotton crafts severa industrial units has been established during the first quarter of the present century which employed steam power and small machine also. The state helped in the development of the small and cottage industries, textile, lacquenware, leather goods, wood work, pulp and paper work, metalware, cutlery, oils and scent were the industries which developed with the state patronage. A state run tannery was started in 1897 at Pali, but was closed down in 1904. Two private wool and cotton presses were established at pali. Beside these the traditional arts of the weaver, the potter and blacksmith and the shoemaker etc. satisfied need throughout area.

Pali has a good mineral reSource also & slowly mineral based industries are being developed here. Ambuja cement (Previously D.L.F.) and Ras Cement unit of Shri Cement has come up in Jaitaran Tehsil due to abundance of Limestone in the region. Lime, Hydrated line, granite, stone cutting & polishing stone crusher and mineral grinding industries graph rising here The world fame Mehandi Udhyog in Sojat, Umbrella & Electronics in Falna, Textile, Bangles, Guargm in Pali, Agriculture implements in Rani, Aluminium Foils in Pipaliya, are the products which have made their mark in the world of industry.

4.1.1 LARGE AND MEDIUM SCALE INDUSTRIES

There are 11 industrial units in the district which falls in the large and medium sector. M/s Maharaja Shree Umaid mills is in the large sector M/s Maharaja Shree Umaid Mill is located at Pali. It entered its production in the year 1941. The production of the mills is synthetic blended yarn cotton fabrics. The other units M/s P.G. Foils Ltd. Is manufacturing Aluminium foils. There are only four such units in the country. M/s Shree Cement (Unit Ras Cement Project) Ras Teh. Jaitaran, M/s. Ambuja Cement Ltd. Rabariwas, tehsil jaitaran And Nirma Ltd. Nibol Teh. Jaitaran is producing cement. M/s HOTEL MANA (A UNITE OF SHEEVAM COMFORT HOTEL PVT.LTD.) RANAKPUR ROAD SADARI DISTT. PALI it is the medium unit in the district. M/s Sarda Bio Polymers Pvt. Ltd. Pali is Production Gwar Gum Powder And M/s Total Oil India Pvt.Ltd. At Singari Tehsil Rohat is Production PMB CRMB And Bitumen Emulsion, Mrs. Shiv Agrico Implements Ltd. Falna is Producing Rolling, Forging, Fabrication Products. it is the medium sector unit in the district.

4.1.2 Pollution Control Measures

Para 4.1.2 of the above survey forwarded by this office may kindly be replaced by the following:

With the constant efforts of the State Pollution Control Board, As according to survey during Sept. 2015, there are a 561 small scale textile processing water polluting operational units in pali in clusters. The trade effluent arising from these units contains high value of pH, TSS, COD& Oil GReas, Colour, The trade effluent, thus needs proper treatment before discharge so that it is brought in conformity to the prescribed standards. These units being small and in cluster do not have their individual Effluent Treatment plant (ETP). Nonetheless, the trade effluent plants (CETPs) set up at pali. The textile processing units at pali have provided Six CETPs, collectively, for the treatment of 5.2 MLD of trade effluent. Another CETP at Mandia Road Industrial Area, Pali was also set up in the year 1997 with the treatment capacity of 8.4 MLD. The textile processing units capacity of 9.08 MLD. In addition to this CETP Plant no IV has been commissioned by the CETP Trust located at Punayata Industrial Area, Pali in the year 2009 having treatment capacity 12MLD. Beside the above CETPs, one no of CETP named CETP plant no-5 is under construction at Mandia Road Industrial Area, Pali having treatment capacity of 12MLD

As according status upto July, 2016 out of 06 nos of CETP, 01 no. of CETP plant no-V is under construction and CETP no. 1 was closed. Remaining 04 nos. of CETP plant(s) II, III, IV & V were operational having total capacity of 41.48 MLD.

The Board had taken various steps to control the problem like, rotational closure of the unit, operation of the plant with 50% capacity to ensure to proper treatment of waste water up to the conforming limit of the prescribed standards. Details of CETPs are as under:-

Sr. No	CETP situated at location	Year of Commissioning Year	Capacity	Project Cost	Consent Issued on	Consent Status	Source of Air Pollution	Treatment Type
1.	Pali Water Pollution Control & Research Foundation Trust, Mandia Road (CETP-I), Pali	1983 upgraded in April 2007	5.2 MLD	2.79 Crore	29-04-2014	Expired on 31-03-2017 and applied for renewal	D.G. Set (320 KVA)	Physico Chemical followed by ASP
2.	Pali Water Pollution Control & Research Foundation Trust, Mandia Road (CETP-II) Pali	1997 upgraded in April 2007	8.4 MLD	7.46 Crore	29-04-2014	Expired on 31-03-2017 and applied for renewal	D.G. Set (600 KVA)	
3.	Pali Water Pollution Control & Research Foundation Trust, Mandia Road (CETP-III) Pali	1999 upgraded in April 2007	9.08 MLD	8.05 Crore	07-04-2014	Expired on 31-03-2017 and applied for renewal	D.G. Set (600 KVA)	
4.	Pali Water Pollution Control & Research Foundation Trust, Mandia Road (CETP-IV) Pali	Dec. 2009	12 MLD	11.75 Crore	07-04-2014	31-03-2017	D.G. Set (600 KVA)	
5	Pali Water Pollution Control & Research Foundation Trust, Mandia Road (CETP-V) Pali	Under Construction	12 MLD	15.1 Carore	19-10-2011	Under Construction	D.G. Set	
6	Pali Water Pollution Control & Research Foundation Trust, Punayata Road (CETP-VI) Pali	2015 (Under Commissioning)	12 MLD	26.0 Carore	23-03-2015	31-01-2018	D.G. Set(600 KVAx02/CTE Granted)	SBR

The matter of pali pollution problem related with the writ petition filed by kisan paryavaran sangarsh samite Vs State of Raj. & others and Gautam Chand Chopra Vs State of Raj & others under case no. 33/2014, M.A. Filed by PWPCTRF pali no. 1117/2016, of matter is subjudice with Hon'ble national Green Tribunal Presently order is reserved by the Hon'ble Tribunal during the hearing on dated 20.04.2017.

The Board has also issued detailed guidelines for the operation and maintenance of CETPs by registration as spv under provisions of Company Act, 2013

Source :- R.P.C.B. Pali

4.1.3 SMALL SCALE / TINY / SSSBE / ARTISAN /MSME AND UDHYOG ADHAR ACT 2006

There was total 17827 SSI, MSME, Artisan and Udhog Adhar are registered in the DIC. employing about 78,112 persons with total investment of Rs. 74,351.04 lacs as on 31st March 2017. These includes units for textile printing and dyeing and manufacturing of transistors, umbrellas, steel furniture, Disc Agg. Imp, Heena, Food products, Chemical grinding units artisan etc. The details of the units are given at Table no. 4.1.8

4.1.4 TEXTILE DYEING AND PRINTING

Textile dyeing, printing, bleaching and processing is the most prominent industry of the district. This is a traditional industry and has come up at Pali due to availability of Cheap and skilled dyers in large number. It is said that one of the reasons for concentration of these units in Pali is that the water in this place has some ingredient to help in good color matching. And good quality maintan, Dyed& Printed Cloths marketed in all states of India From Pali.

4.1.5 MEHANDI

Sojat tehsil in the district is famous for production for mehandi. The main reason for its concentration in this area is the soil and cultivation. There are 125 units with an investment of about Rs. 2900.70 lacs and 875 Employment.Aprox. Manufacture of mehandi which is sold throughout the country.

4.1.6 STEEL FURNITUE, AGRICULTURE IMPLMENTS AND FABRICATION

A number of units have come up in Rani, Sumerpur and Falna for furniture. Steel cots, chair manufacturing and agricultural implements i.e. Pickaxe, Showels and spade are supplied throughout India and are exported to Dubai, Jordan, USA.

4.1.7

In the district Limestone is found in Sojat, Raipur and Jaitaran Tehsills. So maximum lime stone units are concentrated here. They are producing lime and hydrated lime. The lime stone is mostly consumed in the district. It is also sent to Gujrat and Madhya Pradesh.

4.1.8

The break-up of exiting SSI and MSMEand Udhog Adhar registered with the district industries given in Table Below:

TABLE 4.1.8

**GROUPWISE DETAILS OF SSI AND MSME REGISTERED UNITS

4.2 Artizen Unit status

Local cottage craft traditionally practiced by artisans in the district are described below.

4.2.1 WOOD WORK

Wood work is also practiced by the carpenters (Khati) community mostly as a family craft, through small furniture workshops have also copped up in towns and bigger villages manufacturing common articles like tables, chairs, teapots cup-boards, sine boards etc. At Bagri, handicraft of a very high order are manufactured which have been found suitable for export to foreign countries.

4.2.2 LEATHER WORK

The items manufactured are ordinary and / western type of shoes and Jodhpuri juties which have reputations for workmanship. Embroidered Juties with rich ornamentations with gold and silver thread are also sometime manufactured. Skilled artisans manufacturing articles for export outside the district are concentrated at Sojat, Sojat Road, Pali, Bagri, Gadwara, Gundoj, Jaitaran, Raipur, Giri Jojawar, Auwa etc.

4.2.3 SMITHY

Gold and silver is essential a hereditary craft of the Sunar community. Blacksmith again is a hereditary trade of the Lohars. Gadolia Lohars keep moving from place to place to place in search of work and shelter. They commonly prepare buckets and utensils like Chalinies, Tavas, Kadais etc.

4.2.4 OTHER ARTISAN

Other artisans units in the district produce ivory goods, pottery, tanned leather, handloom fabrics, soap, basket, plough and mudhas Arra-Tari work.

4.2.5 EXPORTED ITEMS

Sojat tehsills is famous for the preparation of Mehndi which is even exported to other countries. A few of the units in Falna export established in Rani, Sumerpur and Falna export agriculture equipments like Pickaxe Spade etc. Similarly guar gum, Aluminium foils, cables and conductors, food products are also exported to France, Turkey, Japan, Oman Naiziria, Dubai U.S.A.

4.2.6 NAME AND LOCATION OF ARTISAN

S.No.	NAME OF CLUSTER	LOCATION
1.	Embroidereds and Crocheted goods (AARI TARI WORK)	Dhakri, Kherwa, Banta, Jojawar
2.	Leather Crafts (Leather Juti, Lether Embroidery)	Jojawar, Banta, Gadwara, Auwa, Raipur, Sojat Road, Sojat City, Jaitaran, Gundoj, Takhatgarh.
3.	Carpet and other floor coverings	Diwandi
4.	Wooden Handicrafts	Koliwara, Bagri Nagar
5.	Handloom weaving crafts, (Khes, Twal, Pattu, Gamchha)	Sojat, Bilawas, Bagri Nagar

5.1 FACILITIES OF STATE GOVT. & CENTRAL GOVT. TO THE INDUSTRIES

Presently the state Govt. / Central Govt. is providing the following facilities to the industrial units.

निवेशकों के लिये
सिंगल विण्डो

— सरल पारदर्शी त्वरित —

राजस्थान सिंगल विण्डो एनेबलिंग एण्ड क्लीयरेंस एक्ट – 2011
जिले में 1 दिसम्बर 2011 से 1 करोड़ से 10 करोड़ के निवेश के लिये भी लागू

- ❖ 1 करोड़ से अधिक के निवेश प्रस्ताव हेतु अधिनियम के प्रावधान अब जिले में लागू।
- ❖ प्रस्तावों पर स्वीकृतियों निर्धारित समय अवधि में प्रदान करने की सुविधा।
- ❖ संबधित अधिकारी के निर्धारित समय अवधि में निर्णय नहीं लेने पर 1 करोड़ से 10 करोड़ के निवेश प्रस्ताव पर जिला सक्षम समिति द्वारा निर्णय।
- ❖ इच्छुक निवेशक अपने आवेदन पत्र/प्रस्ताव कहीं से भी इलैक्ट्रानिक फॉरमेट में ऑन लाइन प्रस्तुत कर सकते हैं।
- ❖ निवेशक को आवेदन पत्र के साथ वांछित दस्तावेजों को स्व-प्रमाणीकरण करने की सुविधा।
- ❖ अधिसूचित विभागों के आवेदन पत्र ऑनलाइन उपलब्ध।
- ❖ संलग्न किये जाने वाले दस्तावेजों की चैक लिस्ट ऑनलाइन उपलब्ध।
- ❖ आवेदन की ऑनलाइन ट्रेकिंग सुविधा।
- ❖ निवेशक आवेदन पत्र पर लिये गये निर्णय से संतुष्ट नहीं होने पर 30 दिन के अन्दर अपील प्रस्तुत कर सकता है।

समस्त निवेश प्रस्तावों हेतु निवेशक ऑनलाइन **www.swcs.rajasthan.gov.in** पर आवेदन कर सकते हैं।

5.1.2 सूक्ष्म-लघु-मध्यम विकास अधिनियम-2006

उद्यमों का वर्गीकरण इस प्रकार किया गया है –

क्र.सं.	श्रेणी	प्लाण्ट एवं मशीनरी में विनियोजन
1	सूक्ष्म सेवा उद्यम	10 लाख तक
2	सूक्ष्म निर्माण उद्यम	25 लाख तक
3	लघु सेवा उद्यम	10 लाख से 2 करोड़ तक
4	लघु निर्माण उद्यम	25 लाख से 5 करोड़ तक
5	मध्यम सेवा उद्यम	2 करोड़ से 5 करोड़ तक
6	मध्यम निर्माण उद्यम	5 करोड़ से 10 करोड़ तक

सूक्ष्म: लघु और मध्यम उद्यम

भरत सरकार की अधिसूचना दिनांक 18.09.2015 से उद्योगों के पंजीकरण में सरलीकरण करते हुए ऑनलाईन “उद्योग आधार ” जारी किये जायेंगे।

उद्यमी द्वारा वेबसाइट <http://udhyogaadhar.gov.in> उद्योग आधार ऑन लाईन फाईल करने पर उद्योग आधार ज्ञापन पावती सुजीत की जा सकेगी। साथ ही उक्त उद्योग आधार ज्ञापन वर्तमान में स्थापित उद्योग को ही प्राप्त किया जाना आवश्यक है।

5.1.3 राजस्थान निवेश संवर्धन योजना 2014 , (2014RIPS)

राज्य में नये निवेश प्रोत्साहन एवं अतिरिक्त रोजगार सृजन हेतु राजस्थान निवेश प्रोत्साहन योजना 2014 राज्य में नये निवेश प्रोत्साहन एवं अतिरिक्त रोजगार सृजन हेतु, राजस्थान निवेश प्रोत्साहन योजना, 2014[Rajasthan Investment Promotion Scheme - 2014 (RIPS - 2014)], इस योजना के मुख्य बिन्दु निम्नानुसार हैं:-

(i) योजना आदेश जारी होने की दिनांक 08/10/2014 से 31/03/2019 तक प्रभावी है

(ii) योजना के अन्तर्गत नये उद्यम की स्थापना या विद्यमान उद्यम के विस्तार के लिये किये जाने वाले नवीन निवेश पर प्रोत्साहन दिया गया है।

(iii) योजना के अन्तर्गत विनिर्माण करने वाली इकाइयों को सामान्यतः निम्न लाभ उपलब्ध होंगे: -

- 30 प्रतिशत निवेश अनुदान (जमा कराये गये वैट एवं सीएसटी का)
- 20 प्रतिशत तक रोजगार सृजन अनुदान (जमा कराये गये वैट एवं सीएसटी का)
- 50 प्रतिशत विद्युत शुल्क में छूट
- 50 प्रतिशत मंडी शुल्क में छूट
- 50 प्रतिशत भूमि कर में छूट
- 50 प्रतिशत स्टाम्प ड्यूटी में छूट
- 50 प्रतिशत भू – रूपांतरण शुल्क में छूट

(iv) विनिर्दिष्ट सेवाओं, जिनमें प्रारम्भ में स्वास्थ्य, शिक्षा, कौशल विकास, औद्योगिक पार्कों के विकास, होटल व मनोरंजन संबंधी सेवाओं के उद्यम सम्मिलित हैं, को योजना के अन्तर्गत सामान्यतः निम्न लाभ उपलब्ध होंगे: -

- 50 प्रतिशत तक पूंजीगत माल के क्रय पर चुकाये गये वैट का पुर्नभरण (होटल एवं लाँजिंग के लिए 25 प्रतिशत छूट)
 - 50 प्रतिशत तक विद्युत शुल्क में छूट (होटल एवं लाँजिंग के लिए 25 प्रतिशत छूट)
 - 50 प्रतिशत मनोरंजन कर में छूट
 - 100 प्रतिशत विलासिता कर में छूट
 - 50 प्रतिशत भूमि कर में छूट
 - 50 प्रतिशत स्टाम्प ड्यूटी में छूट
 - 50 प्रतिशत भू – रूपांतरण शुल्क में छूट

(v) रोजगार सृजन अनुदान की राशि महिला/एससी/एसटी/शारीरिक रूप से अक्षम व्यक्तियों के लिये 30 हजार तथा अन्य के लिये 25 हजार प्रति वर्ष होगी। इस राशि में प्रति वर्ष 5 प्रतिशत वृद्धि होगी।

(vi) महिला/एससी/एसटी/शारीरिक रूप से अक्षम विनिर्माता उद्यमियों के लिये दस प्रतिशत अतिरिक्त निवेश अनुदान प्रदान किया गया है तथा सेवा क्षेत्र के उद्यमियों के लिये पूंजीगत माल के क्रय पर चुकाये गये वैट का 10 प्रतिशत अतिरिक्त पुनर्भरण का लाभ दिया गया है।

(vii) पिछड़े क्षेत्र में स्थापित होने वाले सेवा क्षेत्र के उद्यम को पूंजीगत माल के क्रय पर चुकाये गये वैट का 10 प्रतिशत अतिरिक्त पुनर्भरण का लाभ दिया गया है।

(viii) अति पिछड़े क्षेत्र में स्थापित होने वाले विनिर्माता उद्यमों (सीमेंट को छोड़कर) को 20 प्रतिशत अतिरिक्त निवेश अनुदान दिया गया है तथा ऐसे क्षेत्रों में स्थापित होने वाले सेवा क्षेत्र के उद्यम को पूंजीगत माल के क्रय पर चुकाये गये वैट का 20 प्रतिशत अतिरिक्त पुनर्भरण का लाभ दिया गया है।

-निम्न विशिष्ट क्षेत्रों (Thrust Sectors) के लिये भी अधिक अनुदान के प्रावधान किये गये हैं: -

- सेरेमिक और ग्लास क्षेत्र

- डेयरी क्षेत्र

- इलेक्ट्रॉनिक सिस्टम डिजाइन एंड मैनुफैक्चरिंग (ESDM) क्षेत्र

- इंडस्ट्रियल गैस क्षेत्र

- फार्मास्टिकल क्षेत्र

- पावरलूम क्षेत्र

- प्लास्टिक से पेट्रोल विनिर्माण क्षेत्र

- टैक्सटाइल क्षेत्र

-पर्यटन क्षेत्र

-डिफेन्स सेक्टर

-कोटा स्टोन मार्बल एण्ड ग्रेनाइट सेक्टर

-आई. टी सेक्टर

(ix) सीमेंट इकाइयों को छोड़कर रु. 500/- करोड़ से अधिक निवेश या 500 व्यक्तियों से अधिक रोजगार देने वाले उद्योगों अथवा 100 करोड़ से अधिक विशिष्ट खनिज आधारित उद्योगों के लिये कस्टमाइज्ड पैकेज राज्य सरकार द्वारा राज्य सशक्त समिति की अभिशंषा के आधार पर दिये जाने की व्यवस्था की गयी है।

(x) सामान्यतया योजना के अन्तर्गत लाभ 7 वर्ष के लिये देय है परन्तु राज्य सरकार द्वारा अधिसूचित किये जाने वाले पिछड़े एवं अति पिछड़े क्षेत्रों के लिये यह लाभ 10 वर्ष के लिये देय होगा।

(xi) योजना में ई - गवर्नेंस के प्रावधान भी किये गये हैं। दिनांक 01.04.2016 से उद्यम को

www.rips.grnarsoft.com पर online आवेदन प्रस्तुत करना होगा।

(xii) यह भी प्रावधान किये गये हैं कि योजना के अन्तर्गत लाभ प्राप्त करने वाले उद्यमी को राज्य में किये गये सभी निवेशों से जनित लाभ के अनुपात में कार्पोरेट सोशल रिसपॉन्सिबिलिटी (CSR) के लिये चिन्हित कोष में से राज्य में लाभ प्राप्त करने की अवधि में व्यय करना होगा।

(xiii) योजना के अन्तर्गत, उद्यम को केन्द्रीय/राजस्थान राज्य प्रदूषण नियंत्रण मण्डल की consent to operate (जिन उद्यमों के लिए आवश्यक हो) के प्रभावी रहने की अवधि में ही लाभान्वित किया जायेगा।

(xiv) योजना के अन्तर्गत अनुदान की अधिकतम सीमा "पात्र स्थायी पूंजी निवेश" (EFCI) के बराबर होगी।

(xv) निम्न उद्योगों को योजना की पात्रता से बाहर रखा गया है: -

(1) तम्बाकू उत्पाद, जर्दायुक्त पान मसाला और गुटखा विनिर्माण करने वाले उद्यम।

(2) ऑयल रिफाइनरी वाले साॅल्वेंट एक्सट्रैक्शन प्लांट को छोड़कर खाद्य तेल विनिर्माण करने वाले उद्यम।

(3) मदिरा और बीयर विनिर्माण एवं बोटलिंग करने वाले उद्यम।

(4) मदिरा एवं बीयर की बोटलिंग करने वाले उद्यम या पानी या एरियेटेड ड्रिंक की बोटलिंग/पैकेजिंग करने वाले उद्यम।

(5) 5 प्रतिशत तक वैट दर वाली वस्तुओं का विनिर्माण करने वाले उद्यम, जिन्हें राज्य सरकार द्वारा विनिर्दिष्ट किया जाये। परन्तु अति पिछड़ा क्षेत्र में 250 करोड़ से अधिक निवेश करने वाले एवं उक्त वस्तुओं (क्र.सं. (1) एवं (4) को छोड़कर) का विनिर्माण करने वाले प्रथम उद्यम को पात्र माना जायेगा।

(xvi) यह योजना आदेश जारी होने की तिथि से 31.03.2019 तक प्रवर्तन में रहेगी।

5.1.4 प्रधानमंत्री रोजगार सृजन कार्यक्रम :-(A)

सूक्ष्म उद्यम श्रेणी में रोजगार

सृजन की दृष्टि से वित्त प्रदान करने हेतु उक्त योजना का संचालन 2008-09 से किया जा रहा है। योजना के तहत निर्माण हेतु अधिकतम 25 लाख रुपये तथा सेवा कार्य हेतु अधिकतम 10 लाख रुपये का ऋण का प्रावधान है। उक्त ऋण पर ग्रामीण एवं शहरी क्षेत्रों तथा आरक्षित/अनारक्षित श्रेणी के आवेदकों के अनुरूप अलग-अलग अनुदान दिये जाने का प्रावधान है। योजना हेतु 18 वर्ष से अधिक आयु का कोई भी भारतीय नागरिक आवेदन कर सकता है। ऋण खादी बोर्ड/खादी आयोग तथा जिला उद्योग केन्द्र के माध्यम से वाणिज्यिक बैंको द्वारा प्रदान किये जाते हैं। यह योजना अब ऑनलाईन कर दी गई है। इस योजना में ऋण लेने वाले अभ्यर्थी अपना आवेदन पत्र ऑनलाईन पर ही भरेंगे। जिसकी वेबसाइट (<http://kviconline.gov.in/pmegpeportal>)

(B) भामाशाह रोजगार सृजन योजना

भामाशाह रोजगार सृजन योजना के अन्तर्गत पंजीकृत युवाओं द्वारा उद्योग, सेवा, एवं व्यापार के अन्तर्गत स्वयं का रोजगार स्थापित करने हेतु बेहतरीन अवसर।

1) योजना के अन्तर्गत पात्रता

- आवेदक राजस्थान राज्य का निवासी हो
- आवेदक की न्यूनतम आयु 18 वर्ष एवं अधिकतम 50 वर्ष हो।
- आवेदक के परिवार में कोई भी सदस्य केन्द्रीय/राजकीय रोजगार मूलक अनुदान योजना के विगत 5 वर्षों में लाभान्वित न हो,।
- परिवार के सदस्य किसी भी वित्तीय संस्थान के दोषी न हो।
- परिवार की वार्षिक आय छः लाख रुपये से अधिक न हो इस हेतु प्रार्थी को निर्धारित प्रपत्र में शपथपत्र प्रस्तुत करना होगा। परिवार से आशय स्वयं, स्वयं के पति/पत्नि, माता- एवं बच्चों से है। (विवाहित महिला के मामलों में माता-पिता के स्थान पर सास-ससुर होंगे)

2) वित्तीय सहायता की मात्रा एवं प्रकृति:

क्र. स.	आवेदक की श्रेणी	सेवा, व्यापार, उद्योग क्षेत्र		उद्योग क्षेत्र	
		ऋण सीमा (राशि रु. में)	ब्याज अनुदान की दर	ऋण सीमा (राशि रु. में)	ब्याज अनुदान की दर
1	पंजीकृत बेरोजगार *	10,00,000	8 प्रतिशत	10,00,000 से 25,00,000 / -	8 प्रतिशत
2	महिला	2,00,000	8 प्रतिशत	-	-
3	शिक्षित बेरोजगार महिला **	10,00,000	8 प्रतिशत	10,00,000 से 25,00,000 / -	8 प्रतिशत
4	अनुसूचित जाति/अनु.जन जाति शारीरिक विकलांग	10,00,000	8 प्रतिशत	10,00,000 से 25,00,000 / -	8 प्रतिशत

*पंजीकृत बेरोजगार से अभिप्राय राज्य सरकार के रोजगार कार्यालय में पंजीकृत अभ्यर्थी से है।

** शिक्षित बेरोजगार महिला से अभिप्राय: राज्य/ केन्द्रसरकार के माध्यमिक शिक्षा बोर्ड से न्यूनतम हॉयर /सीनियर सैकेण्डरी परीक्षा उत्तीर्ण बेरोजगार महिला अभ्यर्थी से है।

3) आवेदन करने हेतु जानकारी

- प्रार्थी को ऑनलाईन पोर्टल पर स्वयं के साधनो द्वारा या अधिकृत ई-मित्र केन्द्र के माध्यम से प्रस्तुत करना होगा। आवेदन पत्र भरने की दर 30/- सूचना प्रौद्योगिकी एवं संचार विभाग द्वारा निर्धारित कर दी गयी है। ऑनलाईन पोर्टल "<https://sso.rajasthan.gov.in/signin>" पर आवेदन पत्र के साथ शैक्षणिक प्रमाण पत्र, रोजगार पंजीयन प्रमाण पत्र, जन्म तिथि प्रमाण पत्र एवं प्रोजेक्ट रिपोर्ट अपलोड किये जा सकेंगे। शेष दस्तावेज जाति प्रमाण पत्र, जन्म तिथि प्रमाण पत्र, प्रशिक्षण प्रमाण पत्र एवं भामाशाह कार्ड की प्रति साक्षात्कार के समय स्वयं द्वारा प्रमाणित प्रतियां प्रस्तुत करनी होगी।

4) अपात्र गतिविधियाँ

- कृषि सम्बन्धी गतिविधियाँ (पशु पालन एवं डेयरी को छोड़कर)।
- मादक पदार्थ का निर्माण व उनसे बने उत्पादों का निर्माण व विक्रय।
- मांस की पैकेजिंग व मांस से बने उत्पाद का निर्माण व विक्रय।
- तम्बाकू उत्पाद का निर्माण व उनका विक्रय।
- विस्फोटक पदार्थ।
- परिवहन(ओटो रिक्शा, लोडिंग रिक्शा,साईकिल रिक्शा एवं टैक्सी कार/ जीप वैन)जिसकी अधिकतम कीमत 7 लाख रु.तक हो, को छोड़कर)
- 20 माईक्रोन से कम मोटाई वाली पालिथीन की थैलियों का विनिर्माण और पुनः चक्रित प्लास्टिक से बने थैले या कन्टेनर या ऐसे उत्पाद जो पर्यावरण को नुकसान पहुँचा सकते हैं व राज्य सरकार द्वारा समय-समय पर प्रतिबंधित उत्पाद।
- भारत सरकार/ राज्य सरकार द्वारा समय समय पर प्रतिबन्धित उत्पाद/ गतिविधियाँ।

5.1.5 राजकीय क्रय में लघु उद्यमों हेतु उत्पादों का आरक्षण एवं प्राथमिकता :-

राज्य में लघु उद्यमियों को मार्केटिंग में मदद देने की दृष्टि से सामान्य वित्त एवं लेखा नियमों में राजकीय विभागों द्वारा क्रय में लघु उद्यमों के उत्पादों को प्राथमिकता देने तथा सुरक्षा राशि व अर्नेस्ट मनी में छूट देने का प्रावधान रखा गया है। सरकारी खरीद में 50 प्रतिशत क्रय राजस्थान की एमएसएमई इकाईयों से खरीदना आवश्यक। (विस्तृत विवरण हेतु देखें वेबसाइट

[http://finance.rajasthan.gov.in/gf & ar/gfr.II/pdf](http://finance.rajasthan.gov.in/gf&ar/gfr.II/pdf))

5.1.6 चर्म प्रशिक्षण कार्यक्रम :- जिन स्थानों पर चर्म रंगाई अथवा चर्म उत्पादन निर्माण कार्य पूर्व से किया जा रहा है उनकी तकनीक में सुधार तथा नयी प्रक्रियाओं की जानकारी की दृष्टि से दो माह का चर्म प्रशिक्षण कार्यक्रम उद्योग विभाग की ओर से संचालित किया जाता है।

5.1.7 फर्म पंजीयन :- जिला मुख्यालय में रजिस्ट्रार ऑफ फर्मस द्वारा जिले में भागीदारी फर्मों का पंजीयन इण्डियन पार्टनरशीप एक्ट 1932 के अन्तर्गत किया जाता है। फर्म पंजीयन में फोर्म "ए" की फीस 300 रु. निर्धारित है। जिले में महाप्रबंधक, जिला उद्योग केन्द्र को भागीदारी फर्म का पंजीयन करने के अधिकार राज्य सरकार द्वारा प्रदत्त किये गये हैं।

5.1.8 बुनकरो के लिये कल्याणकारी योजना

(1) महात्मा गांधी बुनकर बीमा योजना :- बुनकरों को जीवन बीमा का लाभ दिये जाने की दृष्टि से भारतीय जीवन बीमा निगम के माध्यम से समूह बीमा योजना क्रियान्वित की जा रही है। योजनान्तर्गत बुनकर से 40 रु. अंशदान लेकर प्रीमियम की शेष राशि भारतीय जीवन बीमा निगम को सरकार द्वारा दी जाती है। योजनान्तर्गत बीमित की सामान्य अथवा प्राकृतिक मृत्यु की दशा में उसके आश्रित उत्तराधिकारी को 60,000 रुपये दिये जाने का प्रावधान है साथ ही बुनकर के दो बच्चों को 300 रुपये तक प्रति त्रैमासिक छात्रवृत्ति दिये जाने का भी प्रावधान है। (<http://handlooms.nic.in/>)

(2) बुनकर पुरस्कार योजना :- बुनकरों एवं बुनकर समितियों को जिला स्तरीय पुरस्कार दिये जाने का प्रावधान है। जो निम्न अनुसार है जिला स्तरीय पुरस्कार में प्रथम पुरस्कार 5100 रु., द्वितीय 3100 रु., तृतीय 2100 रु., सान्त्वना पुरस्कार 1100 रु. नकद पुरस्कार राशि का प्रावधान है।

5.1.9 हस्तशिल्पियों के लिए कल्याणकारी योजनायें

(1) शिल्पियों हेतु बाजार सहायता योजना :- आर्टीजन, हस्तशिल्पियों व बुनकरों को मेले व प्रदर्शनियों में भाग लेने व उनके बाजार विकास के लिए प्रात्साहित करने हेतु उक्त योजना प्रारम्भ की गई है, जिसमें कार्यरत आर्टीजन, हस्तशिल्पी और हाथकरघा बुनकर व उनके स्वयं सहायता समूह/ कलस्टर में कार्यरत **SPV** एक वित्तीय वर्ष में अधिकतम 5 मेला/प्रदर्शनियों में भाग लेने पर निम्न सहायकता देय होगी।

क्र.स.	सहायता का विवरण	ग्रामीण व शहरी हाट	राज्य में अन्य स्थल	राज्य के बाहर
1	स्टाल किराया	50 प्रतिशत	50	50

2	दैनिक भत्ता (प्रतिदिन)	350	350	450
3	यात्रा भत्ता	द्रुतगामी बस या द्वितीय शायिका श्रेणी हेतु निकटतम दूरी का वास्तविक किराया		

(<http://rajsico.gov.in>)

उपभोक्ताओं के हितों की रक्षा हेतु किए जाने वाले कार्य

PALI DISTRICT

The map illustrates the Pali District, showing its extensive network of roads and the distribution of its population across various towns and villages. The district is characterized by its strategic location and well-developed infrastructure.

1. **चर्म आधारित हस्तशिल्पः**—जिले में अधिकांश रूप से चर्म आधारित उद्योग अन्तर्गत कशीदाकारी सूती एवं चमड़े बेग का निर्माण कार्य ग्राम जैतारण, रायपुर, गुन्दोज सोजत, बांता, जोजावर के गाँवों में प्रमुख रूप से लेदर आर्टिकल का उत्पाद व विक्रय पिछले 50 वर्षों से परम्परागत रूप से कार्य किया जा रहा है। चर्म जूती हस्तशिल्प अन्तर्गत कच्चे माल के रूप से चमड़ा जोधपुर जिले के गाँवों से शिल्पियों द्वारा खरीदा जाता है। तथा चमड़े को पानी में भिगोकर नर्म किया जाता तथा लोहे के औजारों से चमड़े को जूती का रूप प्रदान किया जाता है। जिस पर महिलाओं द्वारा आकर्षित कशीदाकारी का कार्य हाथ से किया जाता है। जिले के हस्तशिल्पियों द्वारा बनाई जूतियाँ ग्रामीण क्षेत्र के लोग अपनी परंपरागत संस्कृति के अनुरूप जूती पहने के काम में लेते हैं ताकि एक क्षेत्र विशेष की पहचान इन लोगों द्वारा बनाई गई है। उपरोक्त हस्तकला का भौगोलिक रूप से ग्राम जैतारण, गुन्दोज, बांता, रायपुर, जोजावर, सोजत में कार्य करते हैं। चर्म जूती हस्तशिल्प उत्पाद को स्थानीय बाजारों में एवं राज्य व राष्ट्रीय स्तर पर आयोजित होने वाले मेला/प्रदर्शनी में हस्तशिल्पी भाग लेकर अपने उत्पाद का विक्रय व प्रचार करते हैं।

2. **लकड़ी आधारित हस्तशिल्पः**—जिले में अधिकांश रूप से ग्राम कोलीवाड़ा, सोजत सिटी, पाली फालना इत्यादि स्थानों पर वुड कार्विंग का कार्य पिछले 20 वर्षों से किया जा रहा है। वुड कार्विंग अन्तर्गत शीशम, सागवान, बबुल, चीर, रोहिड़ा लाली इत्यादि लकड़ी का इस्तमाल किया जाता है। वुड कार्विंग कार्य के लिए हस्तनिर्मित लोहे के औजारों से लकड़ी पर कार्विंग का कार्य किया जाता है। जिले में ग्राम बगड़ी नगर में लकड़ी के पात्र, ग्राम कोलीवाड़ा में लकड़ी के दरवाजे पर चांदी एवं

सोने की नक्काशी का कार्य किया जाता है। वुड कार्विंग फर्नीचर का व्यापार स्थानीय एवं राष्ट्रीय स्तर व अन्तराष्ट्रीय स्तर पर किया जाता है तथा अपने उत्पाद का विक्रय भी इन स्थानों पर किया जाता है।

3. **पत्थर आधारित हस्तशिल्प:**—जिले में अधिकांश रूप से स्टोन कार्विंग का कार्य ग्राम मालनु में किया जा रहा है। जो कि परम्परागत रूप से पिछले 30 वर्षों से किया जा रहा है। कच्चे माल के रूप संगमरमर राजसंमन्द व मकराना से एवं लाल पत्थर जोधपुर से मंगाया जाता है तथा उन्हे तराशा जाता है। व नई शिल्प से सजाया जाता है। कारीगरों द्वारा लोहे के औजारों से हस्त का उपयोग कर नक्काशी की जाती है। स्टोन कार्विंग के उत्पाद को आवासीय मकान, झरोके, मन्दिरों में एवं भगवान की मूर्तियां बनाने में उपयोग लिया जाता है। जिले के ग्राम मालनु (बाली)

में स्टोन कार्विंग का कार्य किया जाता है। उत्पाद का विक्रय स्थानीय /राज्य/राष्ट्रीय स्तर पर मांग के अनुसार विक्रय करते हैं।

4. **जिले मे पर्यटन के महत्व की गतिविधियां:**—जिले में हस्तशिल्पियों को बढ़ावा देने के लिए पर्यटन स्थल रणकपुर में रणकपुर महोत्सव में स्टॉल लगाये जाते हैं जिसमें देशी/विदेशी पर्यटकों द्वारा जिले की हस्तशिल्प वस्तुओं की खरीद एवं जानकारी उपलब्ध करायी जाती है।
5. **महिला सशक्तिकरण:**—जिले की अधिकांश महिलाएँ चर्म कशीदाकारी का कार्य करती हैं। जिसमें चर्म जूती कशीदाकारी/पर्स/बैग सलमा सितारा का कार्य कर अपना रोजगार प्राप्त कर रहे हैं। जिसमें महिला आत्मनिर्भर होकर सशक्तीकरण की भूमिका निभा रही हैं। जिससे विशेषकर प्लास्टिक बैग्स पर नगीना कार्य प्रमुख है।

6. **हैण्डिक्राफ्ट विकास व निर्यात:**—जिले में हस्तशिल्पियों के विकास हेतु अरबन हॉट को विकसित किया जावे जिसके लिए अरबन हॉट बाजार का निर्माण किया जावे। हस्तशिल्पियों को अपने हस्तनिर्मित उत्पाद से स्वरोजगार के अवसर प्राप्त हो रहे तथा हस्तशिल्प को बढ़ावा देने के लिए हस्तशिल्पियों को कम ब्याज दर पर कार्यशील पूंजी विभाग द्वारा उपलब्ध कराये जाने का योजनान्तर्गत भी प्रावधान किया गया है। जिले के बुड कार्विंग द्वारा निर्मित उत्पाद को विदेशों में निर्यात किये जाने का अच्छा अवसर हस्तशिल्पियों को प्राप्त हो रहा है। जिससे उनकी आय में बढोतरी होकर स्वरोजगार प्राप्त कर आत्मनिर्भरता की ओर अग्रसित हो रहे हैं।

5.1.11 इलेक्ट्रिकल एप्लाइसेंस कन्ट्रोल आर्डर के तहत कार्यवाही:- आई. एस. आई. मार्का युक्त विद्युत उपकरणों के इस्तेमाल को बढ़ावा देने तथा संरक्षण देने हेतु इलेक्ट्रिकल एप्लाइसेंस कन्ट्रोल आर्डर के तहत निरीक्षण एवं अभियोग की प्रभावी कार्यवाही की जाती है।

5.1.12 हैण्डलूम आरक्षण अधिनियम/नियमों के तहत निरीक्षण एवं अभियोग:- पावरलूम इकाईयों द्वारा हैण्डलूम उत्पादन बनाये जाने की प्रवृत्ति पर रोक लगाये जाने की दृष्टि से हैण्डलूम

इकईयों का नियमों के तहत निरीक्षण यिका जाता है एवं दोषी व्यक्तियों के विरुद्ध अभियोग दर्ज किये जाते हैं।

5.1.13 नए उद्यम हेतु राजकीय योजनाओं, उपलब्ध संसाधनों व अवसरों के बारे में मार्गदर्शन प्रदान करना:— जिले में नये उद्यम स्थापित करने के इच्छुक उद्यमियों को उद्यम स्थापना के संबंध में उचित मार्गदर्शन प्रदान किया जाता है। मार्गदर्शन के तहत जिले में वर्तमान औद्योगिक स्थिति, उपलब्ध संसाधन, विभिन्न राजकीय योजनाओं के तहत उपलब्ध छूट एवं अनुदान आदि से अवगत कराया जाता है।

5.1.14 औद्योगिक प्रोत्साहन शिविर आयोजित करना:— शिक्षित युवाओं व समाज के अन्य व्यक्तियों को नये उद्यम स्थापना हेतु प्रेरित करने की दृष्टि से विभिन्न पंचायत समितियों, शहरों तथा शैक्षणिक संस्थाओं में औद्योगिक प्रोत्साहन शिविर आयोजित किये जाते हैं जिसमें उद्यम स्थापना हेतु प्रेरित करने के साथ सभी विभागों द्वारा अपनी योजनाओं व सुविधाओं से अवगत कराया जाता है।

5.1.15 औद्योगिक विकास से संबंधित मूलभूत आंकड़े व सूचनाएं प्रदान करना :— जिले एवं राज्य के औद्योगिक विकास की योजनाओं को लागू करने की दृष्टि से विभिन्न राजकीय संस्थाओं को विकास से संबंधित मूलभूत आंकड़े व भावी सूचनाएं उपलब्ध करवाई जाती है। उद्यमियों की सहायता हेतु जिले का औद्योगिक संभावना सर्वेक्षण भी तैयार किया जाता है।

CHAPTER – VI

POTENTIAL INDUSTRIES AND OTHER CONTRIBUTORY FACTORS

6.1 AN OVERVIEW

The district occupies an important place in the state from the point of view of industries and offers a fairly good scope for further development, possessing as it does the infrastructure for mineral based as well as agro-based and market oriented industries. The district is fairly well connected by road and rail. Fourteen industrial areas have also been set up as mentioned in chapter – III Moreover a sizeable section of people are from Marwari and Jain communities which are well known for enterprising spirit.

6.1.1 WEAKNESSES

A) Shortage of water.

- B) Shortage of Electricity.
- C) In textile raw material is costly & Pollution problems.
- D) Tough Marketing competition.

These constraints could be removed by suitable Governmental measures.

6.1.2 STRENGTHS

The strength of the district are its enterprising population, developed infrastructure, sound industrial base and a variety of mineral resources. These factors could be exploited by adopting suitable strategy for industrial development of the district.

6.2 SUGGESTED STRATEGY

The following strategy is suggested to promote industrial in Pali district.

6.2.1 PROMOTION OF NEW INDUSTRIAL AREAS / ESTATES

In view of the congestion in the existing industrial areas at Pali, Sumerpur, Bar, Saradhana, Rabariwas, Pipliya Kalan and Marwar Jn. It is suggested that new industrial areas/ estate could be established at Pali, Rohat, Rani and Bali as metioned below :

A) JAITARAN

In this area the lime stone is available in huge quantity and due to this clin hydrated lime and cement units are established. If an industrial area is set up in Jaitaran the potentiality of such units will be more and the future of these will be bright. This area is situated near Sendra railway station. If this area is connected to the railwayline the market facilities will increase definitely.

B) ROHAT

In Rohat area, a piece of land measuring 38 bigas is under consideration for setting up an industrial area. In this proposed industrial area here is good scope of setting up a mineral based, cattle feed and oil based units. In addition to this there is also good scope of Gypsum based unit. The Gypsum is available in large quantity in village Khutani of Rohat Panchayat Samiti.

C) RANI

Keeping in view the availability of raw material locally there is good scope for setting up of oil based and cotton ginning units RIICo has resently proposed to setup one industrial area in near Rani. A part from this there is also good scope for stone/marble and steel furniture units.

D) BALI

In this proposed industrial area there is good scope for development of agriculture implements, oil based and mineral based units. Due to the nearby Falna railway station this industries area may be developed. New industireal area can be setup by the local muncipal othourity Takhatgarh (Sumerpur). Sadri (Bali)

6.2.2 EFFLUENT TREATMENT

There are six CETP, 5 are running and one is proposed CETP in Pali. The administrations of these plants are under the direct control for supervision of the chairman of the trust. The trust is formed for the control pollution and to treat the effulent water discharged by the Textile units.

6.2.3 POWER LOOMS

The district has a spinning mill and a total of about 900 units engaged in textile related operation, grey cloth for which comes from the power looms of Maharashtra and other cities. Power looms therefore have a good potential for development. Pali has requirement of 180 crore meters of grey cloth. This grey cloth comes from Ichhalkaranji and Bhiwandi. Now Powerloom industry is being established in Naya Gaon area of Pali. Riico is developing this new area. Presently allotment of 448 plots is in progress.

6.2.4 RAILWAY LINE

A railway line linking Jodhpur and Beawer via Pali and Marwar Jn. Would go a long way in opening up the market for products manufactured in the district.

6.2.5 INCENTIVE

The incentives and concession available for setting up industrial units are adequate to attract entrepreneurs to Pali district.

6.3 POTENTIAL INDUSTRIES IN THE DISTRICT

Taking into consideration the availability of human, agriculture, livestock and mineral resources and the infrastructure in the district and needs of the local population, potential exists for setting up of a number of industries in the district. These have been suggested below after taking into consideration the policy of the government regarding pollution and the needs of the local population etc.

TABLE 6.3
LIST OF POTENTIAL INDUSTRIES :- PART- I

Sr.	Type of the industry	Capacity per unit	No. of unit	Total capacity investment (Rs.Crore)	Total direct employment	Location
1.	Oil Extraction	25 TPD	2	3 Crore	60	Sumerpur
2.	Quartz and	200 TPD	25	12 Crore	625	Nr. Bar
3.	Agriculture Impliments	50 TPD	25	12.50 Crore	450	Sumerpur, Falna, Rani
4.	Marble, Kota stone Cutting & Polishing	11000 Mtrs.	5	2.50	125	Sendra, Falna, Raipur, Pali

5.	Marble Crazy &chips	15000 T	4	1.40	80	Sendra, Falna, Pali/Rani
6.	Textile Dyes	10 T	1	1.80	30	Mandia Road, Pali
7.	Hydrated Lime	2400 T	5	4 Crore	150	Sojat Road, SojatCity
8.	Lime Kiln	5000 T	2	2 Crore	40	Sojat Road, Sojat , Raipur
9.	Spices (Chilly powder)	150 T	5	5 Crore	100	Bali, Raipur, Pali, Sumerpur
10.	RCC Pipes Irrigation	2000 T	10	5 Crore	180	Jiataran, Falna, Pali
11.	Stone Curshing	6000 Cft. P. Day	8	800	250	Raipur, Falna, Sumerpur
12.	Granite Tiles and slabs	20000 Sq.Ft.	4	5 Crore	90	Sendra, Pali
13.	Guar Gum Split/ Powder	3000	2	11.20	90	Sumerpur, Pali, Falna
14.	Mustard Powder	3000	1	1.40	15	Raipur
15.	Cumins Cutting & Processing	1200 Mt.	4	1.80	60	Jaitaran
16.	Food Based units		5	5 Crore	75	Sumerpur, Pali

TABLE 6.3.1
Demand Based Units :- Part II

1.	Power Looms (Cotton)	75 Crore Mtrs.	250	700 Crore	12000	Pali
2.	Agricultural Hand Tools	300 T	100	25 Crore	1000	Rani, Sumerpur, Jaitaran, Pali
3.	Plastic Moulded Products	100 T	130	40 Crore	1300	Falna, Pali, Sojat, Sumerpur
4.	Bakery & Confectionery	1000 loaves per day	30	10.50 Crore	300	Pali, Falna, Rani, Sumerpur
5.	Agro Service	-	100	30 Crore	1200	Sumerpur, Rani, Marwar Jn.
6.	Tyre Retreading	200 p.d.	10	6 Crore	140	Sojat, Pali, Sumerpur,
7.	Steel Fabrication	150 T	40	12 Crore	400	Sumerpur, Falna, Rani
8.	Bleaching Powder	450 T	10	3 Crore	60	Sojat, Pali
9.	Phenyl	300 T	5	1.30 Crore	50	Pali
10.	Detergent Powder	300 T	20	4 Crore	200	Pali
11.	Rubber Moulded Goods	60 T	5	2 Crore	60	Falna, Pali
12.	Corrugated Boxes	3 lacs	5	5 Crore	100	Pali
13.	Mehndi(Heena) Powder	300 T	60	18 Crore	780	Sojat city, Marwar Jn.
14.	M.S. Bangles	-	40	10 Crore	400	Jaitaran, Sojat, Pali
15.	Vermiculture Fertilizer	-	5	3 Crore	60	Jaitaran, Raipur
16.	Aurvedic Medical as like Sonamukhi	-	10	4 Crore	120	Sumerpur, Sojat
17.	Mashrum Processing	-	10	6 Crore	100	Jaitaran, Sojat

6.3.2 OIL EXTRATION AND REFINNIG

The district is producing about 1123 Kg. per hectare of mustard An Oil extraction plant of 25 TPD capacity is suggested to be set up at Sumerpur.

6.3.3 JUSTIFICATION FOR POTENTIAL UNITS

As mentioned in the Table No.6.1 above the availability of human, Agriculture, Live Stock, Mineral resources and infrastructure in the district needs the potential exists for setting up of number of industries. These have been suggested after taking into consideration the policy of Govt. regarding pollution and needs of the local population.

6.3.4 SUGGESTED INDUSTRIES IN MSME SECTOR

6.3.4.1

A list of industries that can be established in the MSME sector with capital investment unit is given in table 6.3 above. The list is divided in two parts. Part -I consists of units that have been suggested on the basis of resources and Part – II is demand based. The suggested capacity, capital investment, the direct employment likely to be generated and suggested locations are also given in the table. This list of resources based industries consists of marble cutting and polishing production chilly powder, and granite tiles and stone crushing etc. The suggested demand based units include power looms, sizing and wrapping, manufacture of agricultural hand tools, plastic moulded products, bakery and confectionery item, cotton hosiery, tyre retreading, steel fabrication bleaching powder, phynyl, detergent powder and rubber moulded goods justification for some of the important industries is given here under.

6.3.4.2 TEXTILE DYES

dye for the basic number of textile units establish in Pali are mostly from Ahmedabad and Mumbai, hence a few such units can be established in Pali district.

6.3.4.3 LIMESTONE BASED UNITS

As mentioned in para 2.7.1.4 huge deposit o lime stone are available as Ras in Jaitaran tehsil and Sojat tehsil. As such a number of hydrated lime and lime kiln can be established at jaitaran, Bar and Sradhana.

6.3.4.4 POWER LOOMS

As mentioned earlier, the large number of textile units set at up Pali obtain their requirements of cloth from Bhiwandi and Ichhalkaranji in Maharashtra state, this could be supplied locally if power looms are set up. It is suggested that at least 10 units could be setup.

6.3.4.5 QUARTZ AND FELSPAR UNITS

As mentioned earlier 35 quartz & Felspar Mineral grinding set up at Industrial Area Saradhana near Beawar these Units setup at Saradhana because the Raw material is easily available on by Area in huge quantity.

6.3.4.6 SIZING AND WRAPPING UNITS

To support looms, it would be essential to have a sizing and wrapping unit.

6.3.4.7 OTHER DEMAND BASED INDUSTRIES

These products are required by the local population and exiting industries and there would not be any problem in marketing of these products with in the district.

6.3.4.8

Encouragement should be given to tiny, cottage and rural industries by provision of adequate finance, required marketing support, infrastructure for upgrading of technology, provision of raw material, new marketing channels etc.

6.3.4.9 EMPLOYMENT BY EMPLOYMENT OFFICE

TOTAL PEOPLE:

Sr.	Year	Name of Department/Institute	Employed for Post	No. of Employment
1.	2015-16	P.N.B. Jodhpur	Class IV	2

SUGGESTION STRATEGIES FOR ARTISAN

UPGRADATION

Besides the industries suggested in para 5.3 above, there is a large scope for establishment of tiny units for grain grinding, spices grinding, oil ghanies, wooden furniture and other wooden articles stone cutting, screen design, lathe work, repair and servicing, welding work, production of soap etc. Opportunities of employment generation also exist in the field of handicrafts and artisan units for blacksmithy carpenters, cobblers, etc. Such artisans are spread all over the district. No. concentration was noticed of artisans of particular trade at particular place justifying establishment of shilpbaries. Such unit are already being encourage and financed under the various schemes of NABARD. However, further development can be possible only through :

- (a) Training for skill upgradation mobile training centres and common facility centres.
- (b) Provision of adequate finance.
- (c) Proper and adequate channels to market the goods produced by these artisans by setting up of show rooms by RSIC, RHDC, Bunkar Sangh, etc. and through Common facility Centres.
- (d) Supply of raw materials at reasonable rates through common Facility Centres.
- (e) Training through Rural Entrepreneurship Development Programmes for developing entrepreneurial skill specially in SC/STs, Women etc.
- (f) Formation of Co-operative Societies of the artisans for supply of raw materials, as well as for marketing with active co-operative and help from the Government agencies like RSIC, DIC, KVIB and RHDC who are specialists in various related fields.

SUGGESTION

- (a) Provision of Institutional Support
- (b) Encouragement to artisans to take up independent production and marketing if possible.
- (c) Development of artisans units to produce quality products through adequate training and skill development programmes.

PROPOSED AUGMENTATION OF INDUSTRIAL AREAS

As mentioned in Para 6.2.1 new industrial areas/estates be established at Sendra, Bar, Rohat, Falna and Bali.

SUMMARY ON THE FINDINGS & RECOMMENDATIONS

District Pali has a good scope for development of industries provided the constraints mentioned in part 6.2.1 are removed and the strategy as suggested in para 6.2 is followed. For this, it is recommended that following steps be taken by the concerned authorities.

- (a) Easy availability of Industrial Land through allotments and conversions at District level.
- (b) Effective steps be taken for augmentation of the availability of power in the district to cater for the power requirement of new industries suggested in Chapter VI. This would need enlargement of the capacity of the existing sub-stations.
- (c) To help in the uninterrupted power supply to industrial units, the supply of power to industrial units be made through 'industrial Feeders' instead of by 'Rural Feeders'
- (d) In view of the congestion in the existing industrial areas at Pali, Sojat and Marwar Jn. Where more than 90% of the plots developed have already been allotted, new industrial areas/estate be established at Sendra, Bali, Rohat, Rani and Sadari.
- (e) Provision of common Telefax facilities be made available in all RIICO industrial area.
- (f) Detailed mineral prospecting including the geological mapping, sampling, drilling, core logging etc. be undertaken to have adequate information about the quantity and quality of mineral reserves.
