**RAJASTHAN STATE INDUSTRIAL DEVELOPMENT AND
INVESTMENT CORPORATION LIMITED
UDYOG BHAWAN, TILAK MARG, JAIPUR-5**

No.: IPI/Tech./ 1005

Date : 02 December, 2015

CIRCULAR

I

State / Central Government has initiated cleanliness drive under "Clean India" for better habitation and environment friendly condition in all places. Management has also considered that a special drive should be initiated in all the industrial areas/offices of the Corporation so that a better ambiance is achieved. Accordingly, all Unit offices are directed to initiate a cleanliness drive in their respective industrial areas / offices under their jurisdiction.

II

It has come to notice of the Management that a large percentage of water meters installed at the premises of allottees are non-functional and accordingly minimum charges are being levied from the entrepreneurs. This has badly affected the economics of the water supply schemes of the industrial areas.

All Unit heads are directed to initiate a drive for informing all those allottees for replacing their defective water meters within 2 months period, otherwise suitable penalty for non-replacement of water meter may be imposed by the Corporation.
