#### **LETTER OF OFFER**

To

AGM (EIS),

The Small Industries Rajasthan Small Industries Corporation Ltd, (RSIC) Udyog Bhawan
TilakMarg, C-Scheeme,
Jaipur (Rajasthan) – 302005

Sub: Supply, Installation, Integration, Testing & Commissioning of Dual View X-Ray Baggage Inspection systems & Explosive Trace Detector (ETD) with one year on-site Warranty and Five years Comprehensive Annual Maintenance Contract withspares" at Air Cargo Complex, Airport, Jaipur.

#### Dear Sir,

Having visited the site and examined the contract documents, specifications and schedule of quantities, I/we hereby submit our offer for Supply, Installation, Integration, Testing & Commissioning of Dual View X-Ray Baggage Inspection systems & Explosive Trace Detector (ETD) and its annual maintenance contract. I/we herewith submit duly filled in tender signed by authorized signatory along with Earnest Money Deposit of Rs.1,80,000/-( 2% of estimated value) as per the terms of tender. In the event of my/our tender being accepted, I/we agree to execute the necessary contract agreement required by you. I am/we are aware that the RSIC intends to complete the entire work as covered in the scope of this tender within scheduled completion period with time being essence of the contract. As required by you, I/we are submitting herewith the tender documents duly signed by us at each page in token of our acceptance of the provisions in the documents. Should this tender be accepted, I/We hereby agree to abide by and fulfill the terms and provisions of the said conditions of contract annexed hereto and the rates are quoted in the schedules price bid (Part II).

Thanking you,

Yours faithfully,

**Signature** 

(Name of the Authorized signatory) Name of the Bidder Seal:

Address:

Place & Date:

# TERMS & CONDITIONS WITH SPECIAL INSTRUCTIONS

- 1 The item rates agreed at the time of acceptance of tender will remain valid throughout currency of contract and fluctuations in the prices of any material, equipment, labor etc. except will neither be considered at any stage during currency of contract nor be compensated.
- 2 If the Bidder fails to accept the work order issued at the rates originally quoted by him in bid (and negotiated subsequently, if any), the Earnest Money shall be forfeited.
- 3 Bidder shall sign all pages and wherever provided in the tender failing which the tender shall be liable for rejection. Tenders which do not contain DD towards tender cost of Rs. 2000/-(included GST) in favor RSIC and processing fee Rs 1000/- in favor of MD RISL and DD of Rs 1,80,000 as EMD ( 2% of estimated value) in favor of RSICand that do not fulfill any of the conditions mentioned herein will be rejected.
- 4 The tender shall be submitted only in the prescribed tender documents. Scanned copy of DD for the Earnest Money deposited Tender cost and processing fee shall be submitted (uploaded) with the tender form.
- 5. The Bidder should study all the tender documents carefully and understand the same including all instructions, conditions and specifications, etc. before quoting the rates. If there are any doubts, they should get clarification in writing but, this shall not be a justification for submission of late tender or extension of opening date. Tender should be submitted strictly in accordance with the specifications and other tender documents.
- **6.** Please note that all the rates for the items will be inclusive of any taxes which may be applicable and inclusive of handling, transportation, unloading and any other relevant charges. These rates would remain firm during the contract and no escalation under any circumstances would be admissible
- 7. The quoted rates should be inclusive of all equipment, lift, materials, labour, octroi, duties, GST, turnover tax, customs duty, etc. required in connection with the completion of work tothe entire satisfaction of the client and consultants. All the material are to be supplied by the Bidder unless otherwise stated. No claims for upward revision of rates will be allowed on account of any increase in tax, duty, etc. The selected contractor is required to produce the proof of payment of various taxes, if desired by RSIC.
- 8. All taxes and duties shall be paid by Bidder including works contract tax, and octroi.
- 9. Variation in taxes, if any, shall not be paid / recovered during the period of contract.
- 10. Every page of the tender document shall be signed by the Bidder at the end of last entry thereon.

Signature of the Bidder

- 11. All entries in tender document should be in English and readable. All corrections should be attested under full signature of the Bidder. Corrections where necessary should be made by scoring the wrong words/figures by drawing a line across them and attesting these with full signature of the tBidder. These shall not be erased or overwritten.
- 12. The tenders shall be valid for period of 120 days from the date of submission of the tender. No upward revision of rates will be accepted after opening of the tender. If the tender fails to accept the work order, if placed at his originally quoted rates, or subsequently negotiated rates, as the case may be, the Earnest Money shall be forfeited once the tender is accepted and the Work Order is placed on the successful Bidder the rates shall be valid till the entire contract (100%) is completed.
- 13. If RSIC decides to place Work Order for Additional scope of work in the same premises or to amend the original work for additional scope of work in the same premises, the Bidder shall be bound to accept the same at rates contained in the original work order; provided such work order or amended is issued prior to completion of the work contained in the original work order.

#### 14. copy of partnership Deed/ MOA

A self certified copy of partnership Deed/ Memorandum of Article association should be sent along with the tender. Power of Attorney of authorized signatories is also required to be submitted with tender (Technical Bid).

#### 15. Acceptance of Tender

Incomplete tenders, conditional tenders, tenders received through courier / post or late or tender not confirming to the terms and conditions prescribed in the tender documents or not accompanied by the requisite Tender fee, Processing fee and earnest money will be rejected. Requests for adjustment of pending bills or any other amount towards Earnest Money Deposit will not be entertained.

# 16. Acceptance of Letter Of Intent (LOI) by Tenderer

**a.** After communicating the RSIC acceptance of the tender, if the Bidder fails to return the duplicate copy of Letter of Intent duly signed in token of their acceptance within 7 working days from the date of issue of LOI, the Earnest money Deposit will be forfeited assuming no interest in the work shown by the Bidder.

#### b. AMC (Annual Maintenance Contract)

The RSIC reserves rights to enter in to comprehensive AMC after the expiry of comprehensive warranty of the equipment under consideration. The supplier also undertakes support and ensures spares availability for the equipments under supplies of at least a period of 8 years from the date of commissioning. Proportionate payment for AMC charges shall be made yearly after successful completion.

Signature of the Bidder

#### 17. Execution of Work

- a. The responsibility of safety and security of equipment brought or installed by the Bidder (till they are handed over to the client) will remain with the Bidder and any claim whatsoever nature due to any loss or otherwise will not be entertained. The Bidder will have to hand over complete job in its entirety of Work Order.
- **b.** The Bidder is not entitled for any sort of compensation towards materials procured / stored in excess of the actual required / measured quantities, if any.
- c. The Bidder shall carry out works as per directions in the tender/ work order. The Bidder shall not undertake on his own any changes in the specifications mentioned in the tender documents and work orders. In case of doubt, the Bidder will refer the matter in writing to the RSIC and Bidder shall carry out the item of works as per clarifications given in writing.
- d. The RSIC reserves the right to increase or decrease the tendered quantity of any or every item and delete any item at any stage of work. Bidder shall execute the increased quantity at the accepted tender rates. The Bidder's claim for compensation or damages on account of these shall not be entertained.
- e. If the performance of the successful Bidder is found to be unsatisfactory, the RSIC reserves the right to cancel in part or whole of the contract and get the works executed through alternative means at the entire risk and cost of the contractor on whom the order was first placed by giving 7 days notice. In such cases, the Bidder should make good all losses that the RSIC may incur due to this.
- **f.** If the Bidder does not complete the contract within the prescribed time limit given in the LOI / Tender documents, the RSIC may give from time to time such extension of time limit for completion of work without prejudice to the RSIC right to recover liquidated damaged as per the terms and conditions given in the contract.
- g.The RSIC reserves the right to reject any or all of the tenders received without assigning any reason thereof. Further, the RSIC reserves the right to avoid any component of the work, split the work to two tender or to award the entire work to one Bidder
- h.The Bidder shall carry out & complete the work in every respect in accordance with this contract and with the direction of and to the satisfaction of RSIC.
- I. The Bidder shall provide everything necessary for the proper execution of the works according to the true intent and meaning of the drawing, specification and schedule of quantities taken together whether the same may or may not be particularly shown or described therein, provided that the same can be inferred there from and if the Bidder finds any discrepancy in the drawings or between the drawings, specifications and schedule or quantities be shall immediately refer the same in writing to the RSIC, and the decision of the RSIC shall be final and binding on all parties.
- **j.** Time shall be considered as essence of the contract. The RSIC reserves the right to terminate the contract if the Bidder fails to execute the job within the specified period.
- **k.** In all matter of dispute arising on the work, the decision of Managing Director, RSIC shall be taken as final and will be binding on the Bidder.
- L. No extra work shall be executed by the Bidder without written permission of the RSIC. For execution of any extra item Bidder shall submit rate analysis with necessary documents/quotation/bills etc.

18. As the work is to be executed in the Air Cargo complex at Airport, Jaipur a unit of the RSIC, the Bidder should maintain necessary decorum while installation of the equipments. He shall also co ordinate with the RSIC's in charge of unit as also arrange for proper cleaning and removal of debris from site if any. Any misbehavior/ non compliance in the matter will be reviewed seriously and suitable action viz., removal of his labor, termination of contract; penalty etc would be initiated at the discretion of the RSIC.

#### 19. Inspection

Post delivery and installation, Site Acceptance Test (SAT) will be done by the constituteCommittee by RSIC with following members.

- A. One officer from RSIC,
- B. Technical Expert deputed from AAI, Jaipur
- C.BCAS certified Airline scanner

This Committee will check the details of the technical parameters claimed by the Bidder.

## 20. Security Deposit

- i) The successful Bidder shall furnish a Security Deposit of Rs 3,00,000/- (Rupees three lacs) (5% of estimated value) before commencement of the contract, failing which the Earnest Money Deposited mentioned above will be forfeited in full and the Contract shall be liable to be cancelled at his risk and cost subject to such other remedies as may be available to the Corporation under the terms of the Contract. This amount shall be deposited with the Corporation in the form of a bank draft, FD and inform of Bank Guarantee drawn in favor of "The Rajasthan Small Industries Corporation Limited" payable at Jaipur. The Earnest Money will be adjusted against the Security Deposit.
- ii) If the successful **Bidder**had previously held any contract and furnished Security Deposit, the same shall not be adjusted against this Contract and a fresh Security Deposit will be required to be furnished.
- iii) Any amount of dues of the Corporation standing against the Contractor shall be deducted from the Security Deposit, or from any other amount payable to the Contractor, including other contracts. In the event of the Security Deposit being found insufficient or if the Security Deposit has been wholly forfeited, the balance of the sum recoverable, as the case may be, shall be deducted from any sum then due or which at any time thereafter may become due to the Contractor under this or any other contract with the Corporation. Should that sum, also be not sufficient to cover the full amount recoverable, the Contractor shall pay to the Corporation on demand the remaining balance due.
- iv) Whenever the Security Deposit falls short of the specific amount, the Contractor shall make good the deficit so that the total amount of the Security Deposit shall not at any time be less than the specified amount.
- v) The Security Deposit may be forfeited if the Contractor leaves the Contract before the expiry of the Period of Contract or if he puts the Corporation to a financial or other loss by his conduct or otherwise or if he breaches any of the terms and conditions of the Contract or for any other reason by which he renders himself persona *non grata for* the Corporation.

- vi) The Security Deposit shall be refunded to the Contractor six months after the successful completion of the Contract and issuance of a "No Dues Certificate" by the RSIC, Incharge, Air Cargo Complex, Jaipur. However, even if there is any delay in refunding the Security Deposit, the Contractor will not be entitled to any interest.
- vii) No interest shall be paid on the Security Deposit or any other amount withheld for any reason or lying with RSIC in any form under the Contract.

#### 21 Validity of Bids

Each Bid shall be considered to be a firm offer and further, that the offer shall remain valid and open for a period of not less than 90 days from the last date of "submission of Tenders". Any prospective Bidder cannot withdraw his offer.

## 22 Rejection of Bids

Offers submitted by **Bidder**/s shall be rejected where the prospective Bidder or someone on behalf of such prospective Bidder directly or indirectly offers any monetary or other inducement to influence the members of the Evaluation Committee or any other authority with a view to securing the Contract, make false or misleading statements to influence RSIC in any way in the process of examination, clarification, evaluation and comparison of offers or questioning RSIC's decisions concerning the award of the Contract.

#### 23Payment Schedule

After Site Acceptance Test (SAT) recommendation of Constitute Committee 90% payment will be made by RSIC. Rest 10% amount will be released after warrantee Period.

#### 24 Settlement of Disputes and Adjudication

- 1. All disputes and differences arising out of or in any way concerning financial and /or accounting matters shall be referred within a period of 3 months and resolved by a dispute settlement committee constituted by the Managing Director for the purpose.
- 2. All disputes and differences arising out of or in any way concerning this Contract shall be referred to the Managing Director himself, herself or his or her nominees for the sole arbitration/adjudicator for adjudication. There will be no objection to any such appointment on the ground that the person so appointed is an employee of the Corporation, that he has dealt with the matters to which the Contract relates and that in the course of his duties. Matter referred to the arbitrator shall not be more than the value of Rs. 25 Laces in case of value of more than Rs.25 Laces matter will be referred to the jurisdiction court as per law. As such arbitration shall be final and binding on the parties to the Contract. If the person to whom the matter was originally referred to for arbitration becomes unable to function on account of vacation of office, transfer, resignation, retirement from services, suspension or for any other reason whatsoever, the Managing Director shall nominate another person to take over his function as soon as possible. Such person shall proceed further from the stage where the matter was left by his predecessor. The arbitrator shall give reasons for the award.

- 3. Any demand for arbitration in respect of any claim(s) of the Contractor shall be in writing and made within one year of the date of termination or expiry of the Contract or the arising of disputes or differences, failing which the claim(s) of the Contractor shall be deemed to have been waived and absolutely barred and the Corporation shall be discharged and released of the liabilities under the Contract.
- 4. The venue of arbitration shall be Jaipur.
- 5. The work, under the Contract shall, if not impossible continue during the arbitration proceedings and no payment due or payable to the Contractor shall be withheld on account of such proceedings.
- 6. The provisions of the Arbitration and Conciliation Act, 1996 shall apply to the Arbitration proceedings under this Clause.
- 7. The cost of Arbitration shall be borne by the parties as per the decision of the Arbitrator.
- 8. It is agreed between parties that In case of dispute the jurisdiction of court cases shall be Jaipur only.

	I / We hereby declare that I / We have read and understood the above instructions and the
Same will remain	binding upon me / us in case the work is entrusted to me / us.

Supply, Installation, Integration, Testing & Commissioning of Dual View X-Ray Baggage Inspection systems & Explosive Trace Detector (ETD) atAir Cargo Complex, Airport, Jaipur.

# Technical Bid (Part-1)

(A) - Format for submitting Eligibility Criteria : (To be filled by the Tenderer with necessary documents)

<u>Sr.</u> <u>No.</u>	ELGIBILITY CRITERIA	REMARKS & Page number of the relevant document submitted for easy reference.	
		<u>DESCRIPTION</u>	<u>REMARKS</u>
1.	(a) Only Original Equipment Manufacturers		
	(OEM), their authorized dealers and Indian		
	agents along with current valid authorization		
	certificate (To be attached) (i.e. experience of SITC		
	of X - Ray baggage scanner system and Explosive		
	Trace Detector( ETD).		
	(b) Agency should have supplied and installed		
	at least three X - RAY Baggage Scanner systems, and		
	Explosive Trace Detector( ETD) at any Indian		
	Airport.		
	(c) Have a minimum at least yearly turnover of Rs.1		
	Crore during last <u>3 years</u> (2015 -16, 2016-17 and		
	2017-18)		
	(d) Have the <u>authorized service set up in Jaipur</u>		
	for rendering after sales service.		
2	OEM's certificate certifying that availability of spares		
	during service contracts, warranty and AMC period		
	will be their responsibility.OEM shall furnish a		
	certificate that the offered model shall not be obsolete		
	as on date and ensure the availability of spares up to8		
	years from the date of installation		
3	Composition of the Bidder - copy of the Articles of		
	Association / Power of Attorney on stamp paper of		
	Rs.100/-in the name of authorized signature of tender.		

	10
4	Work experience & Completion certificate of similar
	works during the specified period.
	These certificates may be duly attested and issued by
	the end-user agencies for whom the works have been
	carried out and shall be endorsed by the bidder,
	clearly indicate the following:
	a) Name & scope of work
	b) Date & No. of contract/order
	c) Contract value/quantity
	d) Date of completion of work
	e) Contact Details like Email/Phone No./Fax No.  f) Certificate that the supplied & installed
	systemshaveperformed satisfactorily after
	commissioning.
5	Turn over during the specified period (Indicate
	turnover for threeFYs- 2015-16,2016-17 and 2017-
	18) attach supporting documents.
6	Name(s) and address(es) of the costumers to whom X-
	Ray Scanner and Explosive Trace Detector(ETD)
	has been supplied and their present contact details of End users
7	Name and address of Local office and service centre
'	at Jaipur ( If any)
8	EMD Rs (2% of estimated value)
	LIVID Rs (270 of estimated value)
9	Cost of the Tender FORM, Non-Refundable payment
	of Rs.2000/- (included GST) per and in cash /
	Demand Draft.

# (C) OTHER TERMS & CONDITIONS

For stating **Compliance**: Write "C" in the third column below.

For stating **Non-compliance**: Write "**NC**" in the third column below.

For stating Partial compliance or conditional compliance: Write "PC" in the third column below. Details of Compliance and Highlighted reference Page No. & Clause No. of attached document must be submitted along with Technical Bid.

S.	REQUIREMENT	Statement of
No.		compliance
1.	LIQUIDATED DAMAGES	
i.	In case of delay in completion of the contract or each milestone of contract for supplies, SAT and training attributed to contractor, liquidated damages (L.D.) shall be levied @ 1% of the total value of the uncompleted portion of work per week (part of week to be treated as one week) subject to a maximum of 10% of total contract value.	
ii.	RSIC, if satisfied that the works can be completed by the bidder firm within a reasonable time after the specified time for completion, may allow further extension of time at its discretion with or without the levy of L.D. In the event of extension granted with levy of L.D, RSIC shall be entitled without prejudice to any other right or remedy available in that behalf, to recover from the bidder firm an agreed compensation amount calculated @ 1% of the total value of the uncompleted portion of work per week or part thereof subject to a maximum of 10% of total contract value.	
iii.	Extension of Time: In case of work getting delayed beyond the stipulated	
	date of completion of the work, then firm may apply for Extension of Time to keep the contract alive, well before the actual stipulated date of completion. Authority shall issue provisional Extension of Time up to the expected date of completion. This provisional extension of time will be granted without prejudice to the right of RSICto recover the liquidated damages in accordance of provision of relevant clause of agreement.	
2.	TIME: THE ESSENCE OF CONTRACT	
	The time and date of completion of the works, as contained in the tender and as agreed to contractually, shall be final and binding upon the contractor, except in the event of Force Majeure as described under clause 3of this section and delay in site readiness. It must be understood that the bidder has made the proposal after fully considering all such factors which may have any bearing on the time schedule of the contract, and no extension in the schedule whatsoever shall be permitted on these accounts by RSIC.	
3.	FORCE MAJEURE	
i.	RSIC may grant an extension of time limit set for the completion of the work, in case the timely completion of the work is delayed by force majeure beyond the RSIC/bidder firm's control, subject to the following terms:  Force majeure is defined as an event of effect that cannot reasonably be anticipated such as acts of God (like earthquakes, floods, storms, etc.), acts of	

	10	
	states, the direct and indirect consequences of wars, hostilities, national	
	emergencies, civil commotions and strikes (only those which exceed a	
	duration of ten continuous days) at bidder firm manufacturing premises, etc.	
	The bidder firm's right to an extension of the time limit for completion of the	
	work in above mentioned cases is subject to the following procedures:	
ii.	That within TEN days after the occurrence of a case of force majeure but	
	before the expiry of the stipulated date of completion of the milestone, the	
	bidder firm informs the RSIC in writing that the bidder firm considers	
	himself entitled to an extension of the time limit.	
iii.	That the bidder firm produces evidence of the date of occurrence and the	-
	duration of the force majeure in an adequate manner by means of documents	
	drawn up by responsible authorities.	
iv.	That the bidder firm proves that the said conditions have actually been	
	interfered with the carrying out of the Contract.	
٧.	That the bidder firm proves that the delay occurred is not due to his own	
٧.	action or lack of action.	
\ di		
vi.	Apart from the extension of the time limit, force majeure does not entitle the	
	bidder firm for any relaxation or to any compensation of damage or loss	
	suffered.	
4.	PRICE	
i.	The bidder firm shall confirm that quoted prices shall be firm and fixed and	
	subject to no escalation whatsoever till the validity period of the	
	tender/contract.	
ii.	The foreign bidder firm & Indian Bidder firm shall bid on supply at site basis	
	i.e. supply at site for foreign/Indigenous supplies.	
iii.	For works involving Installation, Testing and Commissioning services, the	
	bidder firm/service providers shall separately and clearly indicate the GST	
	component, if any.	
iv.	Only normal rates of GST shall be considered. Bidder firm shall be	
	responsible for quotes of GST at wrong rates and shall defend itself at its own	
	cost with government/Tax authorities.	
٧.	In case of no GST quote is indicated in the price bid then the bidder price	
	quoted shall be loaded at current applicable rates for evaluation of bid. The	
	payment of GST shall be released to the Contractor against submission of	
	documentary proof of payment of GST.	
5.	VALIDITY OF TENDER	
3.	The tender must remain valid for a minimum of <b>ONE HUNDRED EIGHTY</b>	
	days from the last date of submission of tender.	
6.	PAYMENT TERM:	
	Payment to the bidder firm shall be made in the following manner:-	
	90 % amount of purchase order price for supply cost of equipment &	
	accessories including documentation, installation, testing, commissioning and	
	training charges, upon successful completion of SAT, against submission of	
	the following documents in <b>ORIGINAL</b> :	

20

i. Certificate of completion of successful SAT and Training, issued by authorized representative of RSIC.

All Payments shall be released after adjusting any compensation for delay which firm might have rendered themselves liable as per provisions of contract and applicable income tax and any applicable deductions.

Rest 10% amount will be released after warrantee Period.

#### 7. GUARANTEE/WARRANTY

- i. All goods or material shall be supplied strictly in accordance with the specifications. No deviation from such specifications of these conditions shall be made without RSIC agreement in writing, which shall be obtained before any work against the order is commenced. All materials furnished by the bidder firm pursuant to the Order are required to be guaranteed to be of the best quality of their respective kinds (unless otherwise specifically authorized in writing by RSIC and shall be free from faulty design to the extent such design is not furnished by RSIC. The goods/material used by the bidder firm and its workmanship shall be of proper quality so as to fulfill in all respects, the operating conditions and other requirements specified in the order.
- ii. If any trouble or defect originating from the design, materials, workmanship or operating characteristic of any materials arise at any time prior to TWELVE calendar months from the date of successful SAT at site, and the bidder firm is notified thereof, the bidder firm at his own expense and at no cost to RSIC, make such alterations, repairs and replacements at the site within 48 hours as may be necessary to permit facilitate the functioning of the equipment in accordance with the specifications.
- iii. Warranty period of the system, unit-wise, shall be extended by one week per week of unserviceability, (part of week to be treated as one week), for each default, in case of failure to set right the system to the satisfaction of RSICEngineer in-Charge within 48 hours of the lodging of complaint by RSIC to company.

#### 8. | SITE ACCEPTANCE TEST (SAT) & COMMISSIONING

- i. The bidder firm shall supply, install, test and commission all hardware and software as per the requirement of the tender with the system. Bidder firm shall supply Technical documents (hard and soft copy one set each) at Ultimate User consignee site with each Equipment. The system shall be commissioned after successful completion of SAT approval, operational & maintenance training and all the works under the scope of the tender.
- ii. **Completion Certificate:** Completion Certificate shall be recorded by RSIC, on completion of the work in all respect and the same shall be issued to the contractor on request. The completion certificate shall specify the date of successful completion and completion cost of work, with other details.

#### 9 INSTALLATION AND COMMISSIONING STANDARDS:

- a Installation shall be carried out by technically well qualified and certified personnel as per the requirements.
- b Liability, if any, arising out of such third party contracts to any other vendor by contractor shall be to contractors account.
- c In no case RSIC shall be liable on behalf of contractor to any other third party

	21	
	contractor/Government of India/State/Regulatory Authorities.	
d	Any liabilities arising out of such third party contracts by contractor or its	
u	men working at site shall be only to contractors account and shall be deducted	
	out of its running bills.	
10		
10	Deviations / Variations Extent And Pricing  The time for completion of the great shell in the great of any deviations	
(i)	The time for completion of the work shall, in the event of any deviations resulting in additional cost over the tendered value sum being ordered, be	
	extended, if requested by the contractor, as follows.	
	extended, if requested by the contractor, as follows.	
	I. In the proportion which the additional cost of the altered, additional or	
	substituted work, bears to the original tendered value plus	
	II. In case of extra deviation substitute items, which are required to be	
	imported from out of country, the contractor shall be given additional time	
	of four weeks to deliver items at site.	
(ii)	Deviation, Extra Items and Pricing	
	In the case of extra item (s) (items that are completely new, and in additional	
	to the items contained in the contract) the contractor may within fifteen days	
	of receipt of order or occurrence of the item(s) claim rates, supported by	
	proper analysis, for the work and the RSIC, ACC In-Charge shall within Six	
	weeks of the receipt of the claims supported by analysis, after giving consideration to the analysis of the rates submitted by the contractor,	
	determine the rates on the basis of the market rates and the contractor shall be	
	paid in accordance with the rate so determined.	
11	Carrying out part work at risk & cost of contractor	
	If contractor:	
	a. At any time makes default during currency of work or does not	
	execute any part of the work with due diligence and continues to do	
	so even after a notice in writing of 7 days in this respect from the	
	RSIC,ACC In charge or	
	b. Commits default in complying with any of the terms and conditions	
	of the contract and does not remedy it or takes effective steep to	
	remedy it within 7 days even after an notice in writing is given in that	
	behalf by the RSIC,ACC In-Charge; or Fails to complete the work(s)	
	or items of work with individual dates of completion, on or before the	
	date(s) so determined, and does not complete them within the period specified in the notice given in writing in that behalf by the Engineer-	
	in-Charge. The RSIC,ACC In-Charge may, without prejudice to any	
	other applicable contract clause right or remedy against the contractor	
	which have either accrued or accrue thereafter to Government, by a	
	notice in writing to take the park work / part incomplete work of any	
	item(s) out of his hands and shall have power to:	
	<u>^</u>	
	(a) Take possession of the site and any materials, constructional	
	plant, implements, stores etc., thereon, and/or	
	(b) Carry bout the part work /part incomplete work of any item(s) by	
	any means at the risk and cost of the contractor.	
	The DOIC ACC In Channe shall detain ' d ' ' '	
	The RSIC, ACC In-Charge shall determine the amount, if any, is recoverable from the contractor for complete of the part work/part incomplete work of	
	from the contractor for complete of the part work/part incomplete work of any item(s) taken out of his hands and execute at the risk and cost of the	
	contractor, the liability of contractor on account of loss or damage suffered by	
	contractor, the natural of contractor on account of loss of damage suffered by	

າາ

Government because of action under this clause shall not exceed 10% of the tendered value of the work.

In determining the amount, credit shall be given to the contractor with the value of work done in all respect in the same manner and at the same rate as ifit had been carried out by the original contractor under the terms of his contract, the value of contractor's materials taken over and incorporated in the work and use of the plant and machinery belonging to the contractor. The certificate of the RSIC,ACCIn-Charge as to the value of work done shall be final and conclusive against the contractor provided always that action under this clause shall only be taken after giving notice in writing to the contractor. Provided also that if the expenses incurred by the department are less than the amount payable to the contractor at his agreement rates, the difference shall not be payable to the contractor.

In the event of above course being adopted by the Engineer-in-Charge the contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials or entered into any engagements or made any advance on any account or with a view to the execution of the work or the performance of the contract."

#### 12 Special Conditions of contract

i. In case the contracting firm is found indulging in acts inimical to India's national security, the license/tender/ contract will be terminated.

## TECHNICAL SPECIFICATIONS COMPLIANCE

# (A)Dual View X-RayBaggage Scanner/Inspection System (XBIS)

#### NOTE

TheBiddershallsubmitonlyoneproposalthatmeetsthespecificationofthistender document, indicating clearly the make and model of each item of equipment being offered. Other product or alternative offer shall not be accepted or considered for evaluation. In respectof differentitems of equipment required for the system, only the offered item of each type of equipment shall be submitted in the technical bid. Any Bidder who submits complete range of models for each individual item of equipment or offers multiple

alternatives as a choice for individual item without clearly indicating the model that is a ctually offered for this work, shall have his tender out-rightly **rejected without any correspondence.** 

- i) For stating **compliance**: Write "C" in the third columnbelow.
- ii) For stating **Non-compliance**: Write "**NC**" in the third columnbelow.
- iii) For stating **Partial compliance** or **conditional compliance**: Write "**PC**" in the third columnbelow.
- iv) Againsteach compliance statement, write specific Para and page of supporting technical documentation (from which the stated compliance could be verified in fourth column below).

#### Specifications of the equipment better than those mentioned below shall be accepted.

The specifications detailed hereunder are the minimum requirements. Bidders may offer System/Equipment/Accessories/Software of better specifications as per system design proposed by the bidder. However, no preference or weightage shall be given to bidder for offering such System/Equipment/Accessories/Software of specifications higher than the tender specification.

Sl.	Requirement	Statement
No.		of
		compliance
1.	General Requirement:	
1.1.	The equipment shall be compact, fully solid state, highly reliable and shall use latest state of the art technology.	
1.2.	The system has to be designed to operate for 24 hours per day, 365 days in a year.	
1.3.	Hot standby arrangement should be provided for Control Circuits, Servers, Network components, storage, UPS power etc.	
1.4.	The design and selection of equipment shall be consistent with the requirements of long term trouble free operation with highest degree of reliability and maintainability.	
1.5.	All equipment shall be continuously operate safely without undue heating, vibration, wear, corrosion, electromagnetic interference or any similar problems.	
1.6.	The system shall be designed for continuous operation. The design life of the equipment shall be a minimum of <b>SEVEN</b> years.	
1.7.	This life shall be achievable through normal and regular maintenance and without major dismantling or overhauling, etc.	

Signature of Bidder

	24	
1.8.	All types of spares and spare modules shall be made available	
	by the bidder during life time of the equipment for maintenance,	
	repair and up keep of the equipment.	
1.9.	The OEM shall undertake and ensure implementation of its	
	offered solution and shall keep in view safety and protection of	
	personnel during normal operation and maintenance.	
1.10.	Safety and protection of personnel during normal operation and	
1.10.		
	maintenance or during malfunctioning of any equipment shall be	
	ensured as an integrated feature of design, manufacture and	
	installation. Adequate protection shall be included for ensuring	
	safety of personnel from any possible hazards, including EMI	
	radiation, high voltages, etc. The bidder shall furnish the details	
	of EMI and Safety Standards met by offered equipment's and	
	built in safety features.	
1.11.	The equipment shall be constructed on a modular basis, using	
	plug-in type units and components to the extent possible. Parts	
	subject to failure, wear, corrosion or other deteriorations or	
	requiring occasional inspection, adjustment or replacement shall	
	be made accessible and capable of convenient inspection and	
	removal. All plug in units and modules shall fit on slide rails	
	and shall be removable from front of cabinet. Connectors shall	
	be provided with keys to prevent insertion so furnishing the	
1.12.	wrong way or into a wrong slot.	
1.12.	Input/output termination cables shall be properly labeled to	
4.40	permit ready identification of the incoming/ outgoing wiring.	
1.13.	All interconnecting cables shall also be appropriately labeled to	
	facilitate convenient interconnection and minimize chances of	
	incorrect connection.	
1.14.	All interconnecting cables required to inter connect the	
	equipment shall be supplied. All cables shall be fully assembled,	
	connector pre- terminated and factory tested at the time of	
	supply as part of overall system check.	
1.15.	The contractor shall furnish all equipment, parts, materials,	
	cables, conduits and any other supplies required, to satisfactorily	
	effect the complete installation of the proposed	
	system in a professional manner.	
1.16.	The work herein specified shall be performed by fully	
	competent workmen in a thorough professional manner. All	
	materials furnished by the contractor shall be new, and shall	
	conform to applicable Indian standards or any international	
	standard.	
1.17.	All equipment except portable equipment shall beheld firmly in	
	place except to the extent that proper performance criterion	
	dictates the use of a resilient shock absorbing mounting. All	
	fastening and supports shall be adequate to support their loads.	
	All switches, connectors, outlets etc. shall be clearly, logically	
	and permanently marked. Adhesive Tape Markers and screen	
	printed Markers liable to erasure during use will not be	
	acceptable.	
	1	nature of Bid

	20	
1.18.	The contractor must take such precautions as are necessary to	
	guard against electromagnetic and electrostatic interference, to	
	provide adequate ventilation, and to in stall the equipment to	
	ensure maximum safety to the operators and other personnel in	
	the area.	
1.19.	Care shall be taken in wiring so as to avoid damage to cables	
1.15.	and equipment all joint sand connections shall be made with	
	resin cored solder or with suitable connectors. All wiring shall	
	conform to the code of practice for electrical	
	wiring/installations.	
1.20.	The contractor has to ensure that while installation of the	
	system, the Airport operation is not disrupted.	
1.21.	All cables shall be marked and colour-coded for easy	
	recognition. Proper cable ends or plugs/sockets/multi-pin	
	connectors shall be used for ending of each cable. Cable ends &	
	terminating points shall be marked in such a way that it can be	
	connected without referring to the Technical Manual every time.	
1.22.	Cost of connectors and other accessories required for completion	
1.44.		
4.00	of work is deemed to be included in the quoted prices.	
1.23.	While designing the system, particular attention should be given	
	to the maintenance part. Mechanical designs shall be such that	
	all the inside components of different units of the system are	
	clearly visible & easily approachable for the purpose of testing	
	&servicing the units. Modular concept using Plug-in type of	
	modules shall be used. Wires used for interconnecting these	
	PCBs shall be neatly bunched and routed. These wires shall be	
	connected to the PCBs through multi-pin, plug-in type of	
	connectors to facilitate easy removal of PCBs for servicing.	
1.24.	Test points are to be provided & marked at all the required	
1.27.	points in the equipment units. Voltages/data flow chart etc. shall	
4.0-	be given in the technical manual.	
1.25.	RELIABILITY, AVAILABILITY, MAINTAINABILITY	
a)	The equipment design shall employ the most suitable	
	engineering techniques, materials and components and rigorous	
	inspection during manufacturing to ensure a very high MTBF	
	(Mean Time between Failures) of equipment.	
	The statistical estimated MTBF figures shall be indicated and	
	supported by calculation.	
b)	All systems to be provided shall be designed and constructed to	
ĺ	operate continuously between scheduled maintenance	
	shutdowns for the Operational Lifetime.	
c)	Bidders shall describe the methodology, techniques and	
5,	processes used to conduct the Reliability, Maintainability, and	
	Availability (RMA)analysis. Maintainability is expressed as a	
	probability that a system shall be restored to a specified	
	condition within a given period of time when the maintenance is	
	performed in accordance with prescribed procedures and	
	resources.	

	26	
	The Mean Time to Restore (MTTR) the equipment specified	
	herein shall not exceed 40 minutes except in case of failure of X	
	Ray generators.	
	Availability is the probability expressed as a percentage, that a	
	system, under the combined aspects of its reliability, maintain	
	* · · · · · · · · · · · · · · · · · ·	
	ability and maintenance support, shall perform its required	
	function at random point in time.	
e)	The bidder shall provide the figures of operational availability	
	and reliability for the system.	
f)	The bidder shall also provide all availability	
	and reliability figures for each sub-system proposed under this	
	project.	
2.	The Scope of work includes Supply, Installation, Testing and	
	Commissioning of Dual View X-RayBaggage	
	Scanner/Inspection System (XBIS)at RSIC, ACC Sanganer	
	airport, Jaipur	
2.1	Tunnel size (W X H): (1000-1100 mm ) X (1000-1100 mm)

2.5	Outputdropchutelength:1600mm-1800mm	
2.6	I/P motorized conveyor belt with necessary guards shall be	
	provided with each registered baggage machine to ensure that	
	the baggage doesn't fall during operation of the machine.	
	Inputheightofmotorizedconveyershallbe400 mm from floor level	
	&output eights hall match with the machine conveyor level.	
2.7	, · ·	
2.1	Contractor shall provide Output Drop Chute with each machine.	
	One side of drop chute shall match with machine conveyor and	
	other side shall be up to the maximum level of 400- mm height	
	from the floor level. Each drop chute shall have necessary guard	
	stoen sure that baggage does not fall during the operation	
2.8	Supply of two nos. minimum 22" LED full HD colour monitors	
	of 1920 X 1080 pixels, UPS, Power distribution panel and other	
	essential accessories with each system and combined test piece	
	as specified, within the cost of the system.	
2.9	Bidder shall in consultation with RSIC carry out all activities at	
	each site, survey before start of works, carry out complete	
	Design & System Engineering, conduct FAT, conduct Factory	
	and Onsite Training, supply items at each site as per schedule of	
	quantity, install, test with internal & external interfaces &	
	commission each system hardware & software sub- components,	
	after successful SAT at each site, & documentation required for	
	upkeep and maintenance, in consultation with OEM as per	
	requirements/ specifications set in the tender, Five years	
	Comprehensive Maintenance with spares.	
3.0	All the offered RB & HB XBIS shall be manufactured later than	
	September' 2018.	
3.1	X-Ray machines shall be equipped with Two Individual	
	Independent X-Ray Generators with Dual View Image	
		inature of Rid

3.2	The system should be able to produce clear Dual image on colour monitor(s) with minimum of 1280 X 1024 pixels (Full High Definition)	
3.3	Allmachinesshouldoperateon230VAC50Hz power supply and should be able to withstand voltagefluctuations in the range of 170Vto280 V and Frequency fluctuations +/- 5 %	
3.4	Tunnel size of the machine should conform to the purpose for which the machine is used.	
3.5	Bag orientation: lying flat or standing up	
3.6	Penetration: should be of 30 MM thickness of Steel or more	
3.7	<b>Resolution</b> : The machine should be able to display single uninsulated tinned copper wire of <b>40 SWG</b> or better.	
3.8	The system should be able to produce clear images on colour monitors [22" LED Colour monitor] with minimum of 1280 X 1024 pixels.	
3.9	<b>Zoom facility</b> should be available to magnify the chosen area of an image of our times(16X) or more. Image feature shall be key board controllable.	
3.10	The machine should be <b>Film-safe</b> . In other words photographic films must not be damaged due to X-Ray examination	
3.11	The machine should have features of multi energy X-Ray imaging facility where materials of different atomic number will be displayed in different colours to distinguish between organic and inorganic materials. With this method it should be possible to distinguish high-density organic materials including	
3.12	explosives.	
3.12		
3.12	explosives.  Machine should have variable colour or material stripping to facilitate the operator to monitor images of organic materials for closer scrutiny.  All suspicious items (Explosives, High density material, narcotics)should be displayed in one mode and that should be online.	
	explosives.  Machine should have variable colour or material stripping to facilitate the operator to monitor images of organic materials for closer scrutiny.  All suspicious items (Explosives, High density material, narcotics) should be displayed in one mode and that should be	
3.13	explosives.  Machine should have variable colour or material stripping to facilitate the operator to monitor images of organic materials for closer scrutiny.  All suspicious items (Explosives, High density material, narcotics) should be displayed in one mode and that should be online.  The radiation level should not exceed accepted health standards	
3.13	explosives.  Machine should have variable colour or material stripping to facilitate the operator to monitor images of organic materials for closer scrutiny.  All suspicious items (Explosives, High density material, narcotics)should be displayed in one mode and that should be online. Facility for Variable Contrast must be incorporated to allow enhancement of lighter and darker portion of image.  If the machine fails to penetrate a particular item then an alarm (visual and audio both) should be generated to notify the operator.	

3.22	The operator personal identification number can be entered	
2.22	through keyboard.	
3.23	Facility of <b>image enhancement</b> should be available.	
3.24	Conveyorbeltspeedshouldbebetween 0.18 and 0.3	
	meters/second for both hand and registered baggage x-ray	
2.25	baggage inspection system	
3.25	All software features of machine should be <b>online</b> and <b>password</b>	
2.26	protected.  In case of defective diode arrays, scanning should be disabled	
3.26	and error message should be displayed on the screen.	
3.27	System should work with one software only. All software	
	features should be controlled from Key-board of machine only.	
	Keyboard function should be user friendly. To enable/disable	
	the software features, system should not be rebooted	
3.28	All models should have software controlled diagnosis report	
	facility and system should give printout if printer is connected.	
	i. XBIS make / Model / Sr.No	
	ii. Software / Firmware / Algorithm Version Number	
	iii. Status / Values of major Power supply voltages	
	iv. Generator Voltages (X-Ray ON / X-Ray OFF	
	v. Generator Anode Current(X-RayON/X- Ray OFF	
	vi. Generator Heater Current(X-RayON/X- Ray OFF	
	vii. Diode Array(Raw/Calibrated) response(X-Ray ON / X-	
	RayOFF	
	viii. Grand Total Number of Bags Scanned	
	ix. XBIS fault log	
	x. XBIS Photoelectric Light Barrier (Tunnel Entry /	
	Exit)status Emergency switches status	
3.29	All models should have <b>online recording facility</b> and images can	
3.27	be recorded in Hard disk/USB Disk/Optical Drive	
3.30	Theoperatingtemperatureshouldbe0 Cto	
3.30	$40\Box$ Candstoragetemperatureshouldbe- $20\Box$ C to $50\Box$ C.	
3.31	Anti-rodent and dust-proof cover must be provided with each	
	XBIS.	
3.32	The company manufacturing the equipment should have ISO	
	<b>certification</b> for manufacturing and servicing of X-Ray	
	screening machines.	
3.33	The machine should be so designed that <b>software enhancement</b>	
	can be easily implemented to take care of new technique in	
	image processing and pattern recognition.	
3.34	Throughput shall be 400 bags per hour for hand and checked	
3.35	baggage XBIS.  Safety: The offered machines must comply with requirements of	
3.33	health and safety regulations with regard to mechanical,	
	electrical and radiation hazards.	
	Before installation of machine, the supplier/ manufacturer should	
	furnish NOC from Atomic Energy Regulatory Board of India	
	regarding Radiation safety.	
3.36	One <b>operator manual</b> shall be provided with each machine.	
5.50	one operator manager state of provided with each machine.	

	29	
3.37	Machine should be capable of <b>recalling</b> 15-20 previous images.	
3.38	Itshouldhavethecapabilityofarchiving3000-4000images.	
3.39	XBIS Computer Unit shall be provided with an	
	independent UPS of appropriate capacity to support backup time	
	of minimum 30 minutes.	
3.40	The XBIS should be mounted on <b>Heavy Duty Castors</b> for ease of	
2.11	movement.	
3.41	X-Ray Generators: Each XBIS shall be equipped with Two X-	
	Ray generator, with Sealed oil bath and forced air Cooling.	
	Generator shall produce fan shaped diagonal	
3.42	X-Ray beam.  Bidder shall provide following information in respect of the X-	
3.42	Ray generator provided with offered XBIS.	
	Parameters	
	i. Rated Voltage (Generator1 and 2)	
	ii. Operating Voltage (Generator1 and 2)	
	iii. Anode Current (Generator1 and 2)	
	iv. Make & Model (Generator1 and 2)	
3.43	Detector Array: XBIS shall have TwoL-shaped array	
	X-Rayconverter.	
3.44	COMBINED TEST PIECE (CTP)	
3.44.1	The manufacturer shall provide one set of CTP	
	per machine for checking serviceability of the machine by the	
2 11 2	operator.	
3.44.2		
	tender document and should be approved by Government	
	accredited Test Laboratory/Organization. Test report of the	
	Government accredited Test Laboratory/Organization certifying	
	dimensions and material composition of Test Pieces shall be submitted by the bidder.	
3.45	COMBINED TEST PIECE REQUIREMENTS	
3.45.1	SINGLE WIRE RESOLUTION (TEST No. 1)	
3.10.1	The requirement is to display 40 SWG wire not covered by	
	<b>step-wedge</b> . A set of un-insulated tinned copper wire of size 26,30,	
	35,38,40and42SWGareplacedonPerspex sheet. The wires are	
	laid out in 'S" shaped curves. The wires are placed behind	
	varying thickness of aluminum. Metallic marker should be	
	provided using high-density material, so that SWG numbers in	
	the image displayed on VDU /Monitor are clearly visible	
3.45.2	USEFUL PENETRATION (TEST No. 2)	
	The test defines what level of details can be seen behind a	
	thickness of known material. The CTP has different gauges of	
	wire behind varying thickness of aluminum.	
	The requirement for this test is that the <b>30 SWG</b> wire is seen	
	under second step wedge (5/16").	

#### MATERIAL DISCRIMINATION (TEST No. 3) The requirement is that different colours be allocated to the sample of organic and inorganic substances. With multi-energy X-Ray it should be possible to distinguish between materials of different average at omic number. This means that organic and inorganic substances can be differentiated. The use of sugar and salt samples encapsulated on the test piece and various materials used in the construction of CTP will check the material discrimination facility. 3.45.4 SIMPLE PENETRATION (TEST No. 4) The requirement is that the lead he visible beneath30mmofSteel.Thistestdefineswhat thickness of steel the machine should be able to penetrate. The steel step wedge on the CTP has steps of 2 mm from 16 mm to 30 mm with a lead strip to check that the machine is above or below their equipment. 3.45.5 SPATIAL RESOLUTION (TEST No. 5) The requirement is that a vertical and horizontal grating to be seen. This test defines the ability of the system to distinguish hand display objects which are close together. The CTP has 16 copper grating sat right angle to each other. 3.45.6 THIN METAL IMAGING (TEST No. 6) Therequirementistoimagesteel0.1mmthick. This tests the machine's ability to image thin metal. A number of thin metals strips of various thicknesses are placed in a row. 3.45.7 **METHOD:** The CTP is to be used as a quick routine test carried out daily to ensure that equipment is working properly and satisfactory image is obtained. The results of the tests should be recorded. **b.** The CTP should be placed on the belt and passed through the belt at least once in a day before the baggage is screened or after the X-Ray equipment is switched on to ensure that the equipment is working properly. If the image is satisfactory the equipment may be used. c. The CTP may be viewed by using image enhancing facility till the operator is satisfied that the machine is working properly. The optimum position of CTP on the belt will depend on X-Ray source and detector arrangements. In case of Dual View systems at least one viewshould pass CTP. This may be ascertained from the service engineer, if need arises.

	31	
3.45.8	RESULTS:	
	a. The results of the test should be recorded giving in formation like date, time, machine number and type, supervisors name and other remarks.	
	b. Supervisory officer should carry out the tests once in a week and compare the results with daily test sheets. In case the	
	images are not upto the standard, service engineer must be asked to rectify the fault. The machine may not be used when its performance is in doubt or not satisfactory in the	
	opinion of the supervisor. c. The record must be kept by the operator for one year after	
3.46	final entry.	
3.40	THREAT IMAGE PROJECTION (TIP)	
	a. General:  TIP Software facility shall be incorporated in the offered X-Ray machines to assist supervisors in testing the operator alertness and training X-Ray screeners to improve their ability in identifying specific threat object. The system will create a threat object and the same will be super-imposed on monitor screen while a bag is being screened.	
	To acknowledge that the operator has seen the false object, operator must press the control Panel key that will cause the computer generated threat object to disappear from x-rayed bag image on the VDU screen. Each operator's action shall be recorded in the hard disc of the computer for the auditing purpose by the supervisor or other authorised person.	
	b. Design of the system	
	i) TIP software should be compatible with other X-Ray technologies such as Automatic Reject Unit, <b>Dual</b> View X-Ray screen technologies, Automatic Threat Recognition System etc. All X-Ray image functions must be available at the same time along with the TIP.	
	ii) Image Library	
	1. The TIP facility should have an image library. The system shall have facility to expand the library to incorporate additional images by user without assistance of the manufacturer as and when required.	
	2. The image library should contain images of threats at different orientations-both plane and end-on orientation should be used. Although these will be assigned different file names and references, it must be possible to cross-reference these as the same threat. All threat Image Projection images must	
	be realistic, representative and non-distinguishable from real threat items.	
	iii) Time Interval	
	1. Programming facility shall be available to project threat images in different intervals. The time period for threat image as well as image mix in percentage shall be user programmable e.g. software shall select	
	40%imagesofexplosivedevices,35%of	

firearms&25%ofknivesorRandometc.	
2. Once the screener has responded to identity the computer generated threat image, it should remain on the screen for apre-defineduserprogrammabletime for analyses. The image should be highlighted, upon identification, and feedback message shall be visible to the screener.	

Signature of Bidder

iv) SystemAdministration 33	
1. The threat image projection facility shall have details of user	
data-base such as Airport name, Screener name,	
Organization, user ID number.	
2. Access to start-up Menu should be restricted only to the	
authorized individuals. A log-in procedure by means of	
'Password" or "security key' could achieve restricted access	
to each of the comment. Thelog-inprocedure should not	
take longer than 20 seconds. The system should have	
facility to bypass the TIP facility, if programmed so by the	
System Administrator. It is to be ensured that the TIP	
software shall not be hindrance to normal functioning of X-	
Ray Machines.	
3. When the operator logs-in or logs-out, message should be	
displayed on XBIS Display Monitor Screen to confirm that	
he/she has been correctly logged-in or logged out.	
v) Feed Back Report	
1. The Threat Image Projection should be capable of giving	
feedback "HIT, MISS or FALSEALARM" message. Nomes	
sage will be presented if a screener correctly passed as clear	
bag.	
2. A "HIT" message to be presented when a screener has	
correctly identified a Threat Image Projection image.	
A"MISS" message shall be presented when screener fails to	
identify the Threat Image Projection Image. A "False Alarm"	
message shall be given when screener incorrectly indicate	
Threat Image Projection image when in fact no Threat Image	
Projection is present. The feedback should clearly indicate in a screen that a TIP object has been correctly identified/ TIP	
object has been missed/no TIP object was present. The	
information should be recorded in the database.	
3. Different colour coding shall be used for feedback to the	
Screener. It is recommended that Colour Code "Red for	
MISS", Green for HIT' and "Yellow to False Alarm or	
interrupt" be used.	
4. The system shall automatically prepare the daily log of events	
for each shift and for each Screener performance. TIP log	
shall include particulars of Airport, XBIS, Name of Screener,	
Time & date of threat image, whether threat image was	
successfully identified or missed etc.	
5. The report on Threat Image Projection system may have date	
and time (From-To) as per requirement, Screener particulars,	
and decision/outcome i.e. MISS, HIT or False alarm in	
percentage as well in absolute numbers, number of bags	
screened, categories such as explosive devices knife or	
weapon etc.	
6. As a standard practice, daily/ weekly/ monthly report shall be	
retrieved. Report shall be for any given time and period, as	
per command.	

	34	
	7. All data should be stored on the system for a minimum of two	
	months after it has been downloaded. No individual, regardless of	
	access rights to the Threat Image Projection components would	
	delete or amend any of Threat Image Projection data or time i.e.	
	Threat Image Projection data on the actual X-Ray machine will	
	be read only file.	
3.47	Miscellaneous Specifications	
	a. X-BIS shall have automated online framing of suspicious material	
	(eg. Explosives, High density material, Narcotics etc.) for operator.	
	This feature should be in real time requiring no operator	
	involvement	
	b. All the system should be maintained by the OEMs or entities	
	certified by them.	
	c. The system should not be connected or accessed through internet by	
	the OEM for any purpose including remote diagnosis.	
	d. A non-disclosure agreement (NDA) is to be signed by OEM	
	with AAI to affect the confidentiality of the information	
	pertaining to the system	
	e. Service engineers of Indian Origin will only be deputed by the	
	OEM or entities authorized by them to maintain the system.	
	Non-Indian engineers may be deputed for major breakdowns	
3.48	under supervision.  UPS & POWER DISTRIBUTION PANEL	
3.40		
3.48.1	Provision of 3 KVA & 5 KVA UPS for HB &RB XBIS with 30	
	Min. battery back up on full load as per specifications:	
	(Preferred Make: EMERSONS/APC/APLA/NUMERIC/DELTA/BORRI)	
3.48.2	3 KVA & 5 KVA Floor Mounted On-Line UPS (single Phase AC	
3.70.2	Input & single Phase AC Output) and Individual SMF Battery Bank to	
	provide 30 minutes Battery back-up with all accessories, options and	
	one set of hard and soft copy of documentation shall be supplied with	
	the each X- BIS.	
3.49	General Specifications of UPS:

# **TECHNICAL SPECIFICATIONS COMPLIANCE**

# (B) Explosive Trace Detector (ETD)

The Explosive Trace Detector (ETD) is designed to detect Nano gram (ng) level of explosive traces. The swipe or vapormode may be used for collection of samples and analysis. The equipment shall meet the minimum specification as given below. The specification is applicable for both marked and unmarked explosives. The RSIC may opt for a better technology and equipment as per their requirement.

S. No.	Requirement	Statement of
	D 1: 14 11 T 11	compliance
1	Desktop Model, Trolley mounted	
2	Detection Capacity:	
	The offered ETD shall detect explosive such as RDX, PETN, TNT,	
	Dynamite, SEMTEX, C4, HMX, and Ammonium Nitrate, etc. with	
	programmable detection capability.	
3	Detection Technology: The offered ETD shall be based on the latest technology for explosive detection.	
4	Sensitivity: The offered ETD shall be capable of detection Explosive	
4	minimum of 100ng in operational/laboratory condition.	
5	Sensitivity: <2% typical false alarm rate.	
6	Analysis Time: Approximate 10 Sec. per sample.	
7	Sample collection:	
,	i) Surface wipe for trace particle/using	
	Filter /Vacuum pump unit.	
	ii) Air collection for vapour.	
8	Warm up time: Approx. 20-30 minutes.	
9	Power: 110/220V. 50/50Hz.W, Auto Sensing 12 volt DC.	
10	Detection mode: Explosive mode. Optional- narcotic.	
11	Signal processing:	
	i) Variable integration time	
	ii) Plasmagram component	
	iii) Recognition of multiple explosives in	
	particulate/vapour mode	
12	Weight (Hand Unit): Less than 40 Kg (Portable unit)	
13	Calibration: Automatic calibration	
14	Stages Of evaluation :	
	The test shall be conducted in different stages starting from checking	
	data on technical parameters, system calibration, data collection etc.	
	The proper record of details should be maintained. These stages are:	
14.1	Configuration details – checking of technical parameters	
14.2	Operational and environment data	
14.3	System calibration	
14.4	Threshold verification	
14.5	Test article selection	
14.6	Pre-test activities	
14.7	Data collection	
14.8	Problem reporting	
14.9	Post-test activities	
15	Configuration Details	

	27	
A	The detailed unique and complete identification of the ETD system.	
	The detailed unique and complete identification of the ETD system	
A 1	including major components shall be recorded	
A-1	Principal of operation	
A-2	Model number(s) equipment tested	
A-3	Firmware version(s), if any	
A-4	Software version(s)	
A-5	Serial number(s) of equipment tested	
В	The Test Team will check the details of the technical parameters	
	claimed by the Bidder are in conformity with the specification	
	issued by the BCAS. The equipment shall meet the specification	
D 1	as given below.	
B.1	Explosives detected i.e. RDX, PETN,TNT, PEK, Sheet explosives,	
D 4	LTPE, Ammonium Nitrate, Gelatine, etc.	
B.2	Susceptibility to interference (i.e. including	
	specific interference's tending to mask the explosive):	
D 2	Minimum	
B.3	Sensitivity/ sensitivity loss:	
D 4	Nano gram level of explosive	
B.4	Response(s) time of explosives:	
D 5	6 seconds

B.6	False alarm rate:	
D.0	Less than 2 %	
B.7	Time taken for recalibration :	
D. /	Note more than 2 minutes	
B.8	Warm up time :	
<b>D</b> .0	20 to 30 minutes (from cold Start)	
B.9	Environmental limits:	
<b>D</b> .)	Operating temperature :- 20 to +50° C	
	Relative Humidity: 95% non-condensing	
B.10	Safety Factors and regulations:	
	Should meet National Safety Regulations	
B.11	Human intervention requirement:	
	Minimum	
B.12	System Design Overview: As per specification	
B.13	Response time and processing rate of the	
	equipment: 10 sec.	
B.14	Physical requirements; and weightless	
	than 40 Kg (portable).	
B.15	Functional and performance capabilities:	
	Detect service and commercial explosive as given in specifications.	
B.16	Supporting data regarding training	
	maintenance and availability of spares.	
	Instruction manuals, operation manuals, circuit diagram, and the	
	engineering documents must be included to assist the test and	
	evaluation team in its evaluation of the equipment.	
2	ETD Trolley:	
	Contractor shall provide a Trolley with ETD, of suitable dimension	
	to accommodate offered ETD with cover, UPS, Consumables, &	
	basic tools. Construction shall be proper so that it provides required	
L	1 Property of the provided the provided to the	<b>.</b>

	20	
	38	
-	service during complete warranty & AMC period.  COMMISSIONING AND TESTING	
3	Testing & Commissioning shall be carried out by trained engineer as	
	per Manufacturer (OEM) recommendation and guidelines in true	
	professional manner. Any accessories or part items required to	
	complete the installation satisfactorily shall be included.	
4	MAINS POWER SUPPLY	
4.1	Complete offered equipment shall operate with an interrupted AC	
7.1	power 230 Volts ( $\pm 10\%$ ) single Phase 50Hz $\pm$ 5%. Reliable over	
	voltage and over current protection circuits shall be provided in the	
	power supply units of solution. The power supply units in complete	
	offered solution shall be self protecting, and protect connected	
	equipment against conducted interference, noise, voltage dips and	
	surges& impulses.	
4.2	Mains power supplies used in offered solution /equipment shall be	
	rugged enough to withstand variation in main voltage and frequency	
	over a long period of time so that the failures in the equipment due to	
	power supply are minimized.	
4.3	The system shall have protection device and equipment of suitable	
	capacity such as Isolation Transformer/ CVT/ Automatic Voltage	
	Stabilizer or combination, to guard against heavy fluctuation of	
	voltage or any other transients.	
5	RELIABILITY	
5.1	To ensure high availability and high reliability, the offered	
	equipment design by the bidder and its OEM partner shall employ	
	the most suitable engineering technique, materials and dependable components, field proven design and rigorous inspection during	
	manufacturing to ensure a very high MTBF (Mean Time between	
	Failures) of equipment.	
5.2	The offered equipment by the bidder and its OEM partner shall	
3.2	indicate the MTBF. The basis of these shall be clearly defined.	
6	INSTALATION STANDARDS	
6.1	Contractor shall depute suitable technically qualified and certified	
0.1	personnel for installation of the ETD and accessories, as per the	
	OEM recommendations and requirements.	
6.2	Contractor shall not out source any part of the contract to any other	
	vendor/third party contractor, without prior permission of RSIC.	
6.3	Liability, if anything, arising out of such third party contracts to any	
	other vendor by contractor shall be to contractors account.	
6.4	In no case RSIC shall be liable on behalf of contractor to any other	
	third party contractor	
	/Government of India/State/Regulatory Authorities.	
6.5	Any liabilities arising out of such third party contracts by contractor	
	or its men working at site shall be only to contractors account and	
	shall be deducted out of its running bills.	
7	TESTING AND COMMISSIONING STANDARDS  Testing and commissioning shall be corried out tochnically well	
7.1	Testing and commissioning shall be carried out technically well	
	qualified and contractor's certified personnel as per the OEM	
7.2	guidelines and requirements.  All Bidder firms are required to submit the Standard Operating	
1.2	Procedures (SOP) prescribed by the manufacturer (OEM) to RSIC	
	along with this bid.	
	aiong with this old.	

8.	39	
0.	QUALITY ASSURANCE STANDARD	
8.1	The contractor shall use Quality Assurance procedure compliant with	<del></del>
	ISO 9001 Quality Management and Assurance standards, for System	l
	Design, Development, Manufacturing, Testing and Servicing.	l
9.	TECHNICAL MANUALS/DOCUMENTATION	
9.1	All manuals and documents shall be in English language and in such	
	a way that a qualified engineer/technician is able to fully understand	l
	and do the preventive as well as breakdown maintenance with the	l
	help of these manuals.	
9.2	The Operation and Technical manuals of offered ETD and	l
	Accessories should also be supplied along with the technical bid for	l
0.2	technical evaluation.	
9.3	The contractor shall provide one <b>complete set</b> (Hard Copy & Soft	l
	Copy on CD/DVD/USB) of the following documents with each	l
	system to be supplied.	
	<ul><li>a. Block diagram of the system with brief descriptions.</li><li>b. Working diagram of the complete system</li></ul>	
	c. Servicing/Maintenance Instructions including preventive Maintenance schedule, Indicated type of test equipment to be	l
	used for maintenance.	l
	d. Trouble shooting chart with proper test sequence, Voltage and	
	data at various test points.	l
9.4	Contractor shall provide one set of operation manual for ETD at	
	the time of testing & commissioning.	l
10	TRAINING	- 
10.1	Operation Usage Training	
	a) The bidder shall provide Operation Usage Training to the	
	nominated officials.	
	b) The Operation Training shall be designed and structured to	l
	that on successful completion of the training the participants	l
	shall be able to perform:	l
	i. Basics of ETDs.	l
	ii. Understanding system is functional or not.	l
	iii. Basic fault/fault log monitoring iv. Operation	l
10.2	Operation, Technical and Maintenance Training:	
10.2	The bidder firm along with OEM Partner Firm shall provide	
	Technical and Maintenance Training to the nominated officials.	l
	a) Basics of ETDs	
	b) System setting up and Configuration of offered system	
	c) Preventive maintenance of system	
	d) Configuration, calibration and operation of the system with the	
	help of the documents and software supplied along the ETD	l
	e) Fault isolation up to Card/Module level using diagnostic tools	
	and general purpose test equipment	
	f) Installation procedures for system hardware & Software,	
	configuration recovery, reloading of software drivers/ modules	1
	of operating system and application software.	
10.3	The bidder and OEM firm shall identify the prerequisite for the	1
	trainees for each of the training program. Complete training	1
	syllabus shall be submitted by the bidder in consultation with	1
	OEM in the technical bid.	

10.4	40	
	TRAINING MATERIALS	
	It is mandatory that all the necessary training documentation and	
	materials (e.g. software documentations equipment handbooks,	
	training materials ) shall be made available to RSIC undergoing the	
	relevant training conduct by contractor.  All training instructions and documentation shall be in English	
	language.	
	Complete training syllabus along with recommended duration for training programs shall be submitted by the bidder in the Technical Bid.	
11	PROCEDDURE TO BE FOLLOWED BY THE TENDERER	
	AFTER AWARWD OF WORK	
11.1	Contractor on award of work shall contact the RSIC & sign agreement on non-judicial stamp paper format of agreement of appropriate amount.	
11.2	A work- schedule chart/bar-chart indicating the time schedule for	
	commencement of various activities of work like inspection &	
	delivery of materials, commencement of work, completion of work	
	etc. Required for the execution &timely completion of work shall	
	be submitted by the Bidder to RSIC for approval within fifteen	
11.3	days of the date of acceptance of the tender.  It shall be the responsibility of the contractor to adhere to this	
11.5	work-schedule and complete the work in the specified time. Any	
	deviation from this schedule for any reason shall be brought to the	
	RSIC immediately to enable the RSIC take corrective action.	
	Failure to submit the work-schedule chart within the specified time	
	or meeting the various committed deadlines shall be treated as	
	delay on the part of the Bidder and shall be dealt as per the	
	Conditions of contract unless thesaid work is completed in the	
11.4	scheduled time.	
11.4	The Contractor shall at all times, during the period of execution of works keep in mind the specified completion time and other	
	terms& condition of contract as specified in NIT which is, and shall	
	remain the essence of the contract. On completion of the	
	installation, the Bidder shall conduct a system acceptance test.	
11.5	The Contractor shall rectify any deficiencies encountered during	
	the acceptance tests, at no additional cost to RSIC.	

# 12. ANNUAL MAINTENANACE CONTRACTCOMPLIACE:-

The AMC will be renewed every year after reviewing the performance and services provided by successful bidder in previous year.

- 1. For starting compliance: Write "C" in the third column below.
- 2. For starting Non-compliance: Write "NC" in the third column below.
- 3. For starting Partial compliance or conditional compliance: Write "PC" in the third column below.

S. No.	Requirement	Statement of compliance
12.1	The work herein specified shall be performed by competent workmen in a through professional manner. All material s furnished by contractor shall conform to the standard, recommendations and guidelines of the original equipment manufacturer.	•
12.2	The contractor shall be inclusive of maintenance during the Warranty and AMC period. All services including spares and consumable required for operation and maintenance of the entire system, during this period shall be responsibility of contractor. Cost for the same is deemed included in the contractor's prise Bid offer.	
12.3	Contractor shall carry out the following maintenance on the offered system with all accessories in addition to (OEM) manufacturer's prescribed normal preventive and corrective maintenance schedules during the Warranty And AMC period.	
	Preventive and corrective/breakdown maintenance including provision of required spares and consumables to ensure 100% serviceability of the ETD &Dual View X-RayBaggage Scanner/Inspection System (XBIS)and associated accessories (Hardware & Software) shall be carried out by the contractor during the Warranty and AMC period.(Time taken for scheduled preventive maintenance shall not be considered as downtime)	
12.4	Contractor shall carry out Preventive maintenance at least once in 03(three) Calendar months for each ETD &Dual View X-RayBaggage Scanner/Inspection System (XBIS). It shall be done as per maintenance procedure prescribed by the respective OEM.	
12.5	As part of preventive maintenance Contractor shall carry out periodic replacement of Parts and Consumables of the Equipment as recommended by the OEM.	
12.6	Corrective/Breakdown maintenance, shall be provided as per RSIC requirements, during all working days and hours.	
12.7	Contractor shall visit RSIC premises as many times as Breakdown calls in respect of ETD & accessories are received and repair& restore the ETD. Repair/replacement of all the faulty& functionally not acceptable components/parts/PCBs/ display / batteries/ consumables/software etc. OfETD & accessories are included in scope of this work.	
12.8	Contractor shall maintain the equipment as per the standards recommendations and guidelines of the original equipment manufacturers.	
12.9	Contractor shall replace any parts, including the supplied software found defective during Warranty and AMC period within the quoted	

	42	
	42	
	cost. The services of contractor or his principals, if required during this period for such work shall also be made available without any	
	additional cost to RSIC.	
12.10	Spares: Contractor shall maintain sufficient inventory of spares	
12.10	required for repairs and maintenance of the complete system.	
12.11	Consumables: Contractor shall provide consumables required for	
12.11	operation and maintenance of the ETD &Dual View X-	
	RayBaggage Scanner/Inspection System (XBIS) for each ETD	
	&Dual View X-RayBaggage Scanner/Inspection System (XBIS),	
	every month in advance.	
12.12	Contractor shall provide consumable (Sampling Wand, Vacuum	
	Pump, sampling Swabs. Cleaning, Calibration & Verification	
	Samples, Printers Consumables (Paper, ink) Gloves etc. Required as	
	per offered equipment design for necessary operational and	
	maintenance requirements.	
12.13	Bidder shall access the consumables requirements as per BCAS	
	guidelines and type & quantity of consumable required for the offered	
	equipment	
12.14	All spare parts, consumables etc. for the equipment shall strictly	
	conform to the OEM specifications and shall be identical and fully	
	interchangeable with the corresponding main equipment/	
	parts/consumables.	
12.15	Contractor shall ensure that all components and spares utilized for the	
	maintenance of the equipment shall be free from defects in design,	
10.16	material and workmanship.	
12.16	Contractor shall not change the original specifications/ system	
12.17	characteristics without prior written permission of RSIC.  Contractor shall prepare and maintain detailed records of Preventive/	
12.17	Corrective/ Breakdown maintenance performed on each equipment.	
	For every maintenance visit/ activity service Engineer of the	
	contractor shall prepare equipment-wise Service Report indicating	
	Location, S/N of equipment, Type of Service/Repairs carried out, List	
	of Parts replaced. Performance Test Results after completion of the	
	maintenance activity, Remarks, etc. And get it countersigned by	
	RSIC representative at site.	
12.18	One copy of the Service Report shall be handed over to RSIC	
	representative, for preservation of maintenance records and another	
	copy shall be retained by the contractor. RSIC may request copy of	
	maintenance records from the contractor before payment of AMC	
	charges as per schedule	
12.19	Contractor shall deploy adequate and competent Technical	
	staff(Specialist for maintenance of offered ETD &Dual view X-	
	RayBaggage Scanner/Inspection system (XBIS) and associated	
	equipment) so that the preventive and breakdown maintenance can be	
12.20	carried out efficiently with minimum down time.	
12.20	Contractor shall maintain sufficient inventory of spares consumables, tools, etc. To ensure that the preventive and breakdown maintenance	
	can be carried out efficiently with minimum downtime.	
12.21	Contractor shall confirm in writing the contact details of their	
12.21	maintenance setup(Postal Address, Telephone & Fax Nos. E-mail)	
	and names of the Service Engineers with complete address and	
	mobile number. The office shall be operational from 0930IST to	
	1730IST to receive complaints on Telephone/Fax/E-Mail. Contractor	

shall be responsible for advanced intimation to RSIC regarding changesin any of the officer/ Engineer contact details.  12.22 Complaint shall be lodged at the Contractor's maintenance setup by RSIC representative indicating location, S/N of equipment, Nature of fault, Details of un serviceability, etc. The complaint shall be acknowledged by contractor by issuing Complaint Registration No.  12.23 Contractor shall report at site within time limit Within 48 Hours from the time of the call received.  12.24 Contractor shall normally replace Batteries provided with the equipment and UPS, after every two years within the Warranty and AMC period. Cost of the same shall be included in Equipment/AMC quote.  12.25 Provision of required Test equipment, tools, cleaning material, etc. Shall be the responsibility of the contractor.  12.26 In case of corruption or damage to the Programme/Data due to any reason, the replacement, reprogramme and restoration of ETD &Dual view X-RayBaggage Scanner/Inspection system(XBIS)shall be the responsibility of the contractor.  12.27 The preventive maintenance is to be carried out independently during the lean period without affecting the Air Cargo operation and in consultation with the RSIC officer in-charge.  12.28 The repairs/maintenance of equipment/its accessories, necessitating major repairs at the Service Centre of the contractor, the same may be taken to Service Centre underwritten intimation to the officer in-charge. In such cases, repair and return of the equipment/sub-assembly shall be borne/carried out by the contractor.  Penalty shall be levied delay beyond the prescribed time in setting right the equipment. The original equipment has to be reinstated at site after the repairs have been carried out at Service Centre at the earliest.  12.29 Component level/Card level maintenance shall have to be carried out by the contractor. It is therefore necessary that sufficient stock of spares is kept with the maintenance engineer of the contractor, so that un serviceability can be attended

# Compliance with the Code of Integrity and No Conflict of Interest

Any person participating in a procurement process shall -

- (a) not offer any bribe, reward or gift or any material benefit either directly or indirectly in exchange for an unfair advantage in procurement process or to otherwise influence the procurement process;
- (b) not misrepresent or omit that misleads or attempts to mislead so as to obtain a financial or other benefit or avoid an obligation;
- (c) not indulge in any collusion, Bid rigging or anti-competitive behavior to impair the transparency, fairness and progress of the procurement process;
- (d) not misuse any Information shared between the procuring Entity and the Bidders with an intent to gain unfair advantage in the procurement process;
- (e) not indulge in any coercion including impairing or harming or threatening to do the same, directly or indirectly, to any party or to its property to influence the procurement process;
- (f) not obstruct any investigation or audit of a procurement process;
- (g) disclose conflict of interest, if any; and
- (h) disclose any previous transgressions with any Entity in India or any other country during the last three years or any debarment by any other procuring entity.

#### **Conflict of Interest:-**

The Bidder participating in a bidding process must not have a Conflict of Interest. A Conflict of Interest is considered to be a situation in which a party has interests that could improperly influence that party's performance of official duties or responsibilities, contractual obligations, or compliance with applicable laws and regulations.

A bidder may be considered to be in Conflict of interest with one or more parties in an bidding process if, including but not limited to;

- (a) have controlling partners/shareholders in common; or
- (b) receive or have received any direct or indirect subsidy from any of them; or
- (c) have the same legal representative for purposes of the Bid; or
- (d) have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the Bid of another Bidder, or influence the decisions of the Procuring Entity regarding the bidding process; or
- (e) the bidder participates in more than one Bid in abiding process. Participation by a Bidder in more than one Bid will result in the disqualification of all Bids in which the Bidder is involved. However, this does not limit the inclusion of the same subcontractor, not otherwise participating as a Bidder, in more than one Bid; or

- (f) the Bidder of any of its affiliates participated as a consultant in the preparation of the design or technical specifications of the Goods, Works or Services that are the subject of the Bid; or
- (g) Bidder or any of its affiliates has been hired (or is proposed to be hired) by the procuring Entity as engineer-in-charge/consultant for the contract.

#### **Grievance Redressal during Procurement Process**

The designation and address of the Appellate Authority

First appellate authority is Managing Director, R.S.I.C.

Second appellate authority is Board of R.S.I.C.

(1) Filling an appeal

If any Bidder or prospective bidder is aggrieved that any decision, action or omission of the Procuring Entity is in contravention to the provisions of the Act or the Rules or the or the Guidelines issued there under, he may file an appeal to Appellate Authority, as specified in the Bidding Document within a period of ten days from the date of such decision or action, omission, as the case may be clearly giving the specific ground or grounds on which he feels aggrieved:

Provided that after the declaration of a bidder as successful the appeal may be filed only by a Bidder who has participated in procurement proceedings:

Provided further that in case a procuring Entity evaluates the Technical Bids before the opening of the financial Bids, an appeal related to the matter of Financial Bids may be filed only by a bidder whose technical bid is found to be acceptable.

- (2) The officer to whom an appeal is filed under Para (1) shall deal with the appeal as expeditiously as possible and shall Endeavour to dispose it of within thirty days from the date of the appeal.
- (3) If the officer designated under Para(1) fails to dispose of the appeal filed within the period specified in Para(2), or if the Bidder or prospective bidder of the Procuring Entity is aggrieved by the order passed by the first Appellate Authority, the Bidder or prospective bidder or the Procuring Entity, as the case may file a second appeal to second appellate authority specified in the bidder document in this behalf with in fifteen days from the expiry of the period specified in Para (2) or of the date of receipt of the order passed by the first appellate authority as the case may be.
- (4) Appeal not to lien in certain cases

No appeal shall lie against any decision of the Procuring Entity relating to the following matters, namely:-

- (a) Determination of need of procurement;
- (b) Provisions limiting participation of Bidders in the Bid process;
- (c) The decision of whether or not to enter into negotiations;
- (d) Cancellation of a procurement process;
- (e) Applicability of the provisions of confidentiality
- (5) Form of Appeal
  - (a) An appeal under Para(1) or (3) above shall be in the annexed Form along with as many copies as there are respondents in the appeal.
  - (b) Every appeal shall be accompanied by an order appealed against, if any. Affidavit verifying the facts stated in the appeal and proof of payment of fee.
  - (c) Every appeal may be presented to first appellate authority or second Appellate Authority, as the case may be, in person or through registered post or authorized representative.
- (6) Fee for Filling Appeal
  - (a) Fee for filling appeal shall be rupees two thousand five hundred, and for second appeal shall be rupees ten thousand which shall be non-refundable.
  - (b) The fee shall be paid in the form of ban demand draft of banker's cheque of a Scheduled Bank in India payable in the name of Appellate Authority concerned.
- (7) Procedure for disposal of appeal
  - (a) The first Appellate Authority or second appellate authority as the case may be, upon filing of appeal, shall issue notice accompanied by copy of appeal, affidavit and documents, if any, to the respondents and fix date of hearing.
  - (b) On the date fixed for hearing, the first Appellate Authority, as the case may be, shall,-
    - (i) Hear all the parties to appeal present before him; and
    - (ii) Peruse or inspect documents, relevant records or copies there of relating to the matter.
  - (c) After hearing the parties, perusal or inspection of documents and relevant records or copies there of relating to the matter, the Appellate Authority concerned shall pass an order in writing and provide the copy of order to the parties to appeal free of cost.
  - (d) The order passed under sub-clause(c) above shall also be placed on the State Public Procurement Portal.

#### **Additional Conditions of Contract**

#### 1. Correction of arithmetic errors.-

Provided that Financial Bid is substantially responsive, the Procuring Entity will correct arithmetical errors during evaluation of Financial Bids on the following basis, namely: -

- (a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Procuring Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;
- (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

If the Bidder that submitted the lowest evaluated Bid does not accept the correction of errors, its Bid shall be disqualified and its Bid Security shall be forfeited or its Bid Securing Declaration shall be executed.

#### 2. Procuring Entity's Right to vary Quantities.-

- (a) At the time of award of contract, the quantity of Goods, works or service originally specified in the Bidding Document may be increased or decreased by a specified percentage, but such increase of decrease shall not exceed twenty percent, of the quantity specified in the Bidding Document. It shall be without any change n the unit prices or other terms and conditions of the Bid and the conditions of contract.
- (b) If the procuring Entity does not procure any subject matter of procurement or procures less than the quantity specified in the Bidding Document due to change in circumstances, the Bidder shall not be entitled for any claim or compensation except otherwise provided in the Conditions of Contract.
- (c) In case of procurement of Goods or services, additional quantity may be procured by placing a repeat order on the rates and conditions of the original order. However, the additional quantity shall not more than 25% of the value of Goods of the original contract and shall be within one month from the date of expiry of last supply. If the suppliers fails to do so, the Procuring Entity shall be free to arrange for the balance supply by limited bidding or otherwise and the extra cost incurred shall be recovered from the Supplier.

#### 3. Dividing quantities among more than one bidder at the time of award.-

As a general rule all the quantities of the subject matter of procurement shall be procured from the bidder, whose Bid is accepted. However, when it is considered that the quantity of the subject matter of procurement to be procured is very large and it may not be in the capacity of the Bidder, whose Bid is accepted, to deliver the entire quantity or when it is considered that the subject matter of procurement to be procured is of critical and vital nature, then in such cases, the quantity may be divided between the Bidders, whose Bid is accepted and the second lowest Bidder or even more bidders in that order, in a fair, transparent and equitable manner at the rates of the Bidder, whose Bid is accepted.

#### NOW THIS DEED OF AGREEMENT WITNESSES AS UNDER:

- 1. That in consideration of covenant for the payment, the contractor hereby covenants with the corporation to render all services in relation to transportation of import and export containers including all other incidental operations/services mentioned in the order and also undertakes to fulfill all its contractual obligation in time to the entire satisfaction of the Corporation.
- 2. The contractor further agrees to fulfill all the responsibilities of the contractor. The Contractor agrees to provide all incidental services and to discharge responsibly as per the direction of the Corporation without any objection.
- 4. That the corporation has agreed to award the work on the assurances given by contractor and in the belief that they have sufficient experience and capacity/ means to fulfill the works of the awarded contract and all the information provided is correct and nothing is false and misrepresented. In case any information is found incorrect by the Corporation, the Corporation will be free to terminate the contract forthwith without any prior notice and to recover all the damages from the Contractor. The Contractor further undertakes to submit on demand any further proof with regard to the information provided.

That the Contractor will provide and discharge their all contractual obligation in a time manner to the entire satisfaction of the Corporation and in the event of failing to do so. The Corporation will be free to terminate the contract immediately even without notice and the Corporation will be free to get the work done or part of the work at the cost, risk and responsibility of the Contractor from any other party.

- 5. That the contractor will be solely responsible for the safe and proper transportation and responsible for all the damages caused to the container.
- 6. That the contractor is to compensate and indemnity the Corporation as against all the claims of the owners of the container.
- 7. That the contractor will have to complete all the formalities in a timely manner and in case the contractor fails to complete all the formalities in time and consequently fine, penalties are imposed or any action is taken, the contractor shall be solely responsible there for.
- 8. That the contractor has agreed to all terms and condition Supply, Installation, Integration, Testing & Commissioning of Dual View X- Ray Baggage Inspection systems & Explosive Trace Detector (ETD)at Air Cargo Complex, Airport, Jaipur, including terms in the letter vide no. ..........dated.........issued by the Corporation is part of the agreement and all the terms and conditions mentioned therein, which are not inconsistent with the specific terms of the agreement also form part of the present agreement. In token of acceptance of all the documents mentioned herein above, parties have signed the documents.
- 9. That this agreement will remain in force for a period of 7 years with effect from the date of installation of X -Ray Baggage Scanner System and Explosive Trace Detector (ETD) at Air Cargo Complex, Airport, Jaipur.
- 10. The contractor shall be solely and completely responsible for any delay while rendering services under the agreement as well as for any damage caused to any container however while transportation of the same. No claim in this behalf shall be made against the Corporation.
- 11. No claim in respect of under payment of contractor shall be considered valid or shall be entertained unless a claim in writing is made within three months from the date on which payment of original claim thereof was made. Any claim for such under payment not received within the stipulated three months period shall be liable to be summarily rejected by RSIC whose decision shall be final in this respect.
- 12. In case of any dispute, the decision of the manager, Air Cargo Complex, Airport, Jaipur and on his reference, the decision of the Managing Director shall be final.

13. All disputes and differences arising out of or in any way concerning this contract, shall be referred to the Managing Director himself, herself or his or her nominees for the sole arbitration. There will be no objection to any such appointment on the ground that the person so appointed is an employee of the Corporation that he has dealt with the matters to which the contract relates and that in the course of his duties.

As such arbitration shall be final and binding on the parties to the contract. If the person to whom the matter was originally referred to for arbitration becomes unable to function on account of vacation of office, transfer, resignation, the Managing Director shall nominate another person to take over this function as soon as possible. Such person shall proceed further from the stage where the matter was left by his predecessor. The arbitration shall given reasons for the award.

- 14. Any demand for arbitration in respect of any claim(s) of the contractor shall be in writing and made within one year of the date of termination or expiry of the contract or the arising of disputes or differences failing which the claims of the contractor shall be deemed to have been waived and absolutely barred and the Corporation shall be discharged and released of the liabilities under the contract.
- 15. The venue of arbitration shall be Jaipur.
- 16. The work under the contract shall if not impossible to continue during the arbitration proceedings and no payment due or payable to the contractor shall be withheld on account of such proceedings.
- 17. The provision of Arbitration and Conciliation Act, 1996 shall apply to the Arbitration proceedings under this clause.
- 18. The cost of arbitration shall be borne by the parties as per the decision of the arbitration

IN WITNESSES whereof the parties herein have executed thesepresence and the day, month and year first hereinabove written.
