

Land Acquisition and Involuntary Resettlement Due Diligence Report

PUBLIC

Document status: Draft for Consultation
Project Number: 42267-034
March 2024

India: Rajasthan Secondary Towns Development
Sector Project – Additional Financing

Nawalgarh Storm Water Drainage

Package No.: RSTDSP/NAW-RAT/DR/01

Prepared by Rajasthan Urban Drinking Water Sewerage and Infrastructure Corporation Limited-
Externally Aided Projects for the Asian Development Bank (ADB).

CURRENCY EQUIVALENTS

(as of February 2024)

Currency Unit – Indian rupees (₹)

₹1.00 - \$0.01

₹1.00 - ₹83.02

ABBREVIATIONS

ADB	– Asian Development Bank
CAPPC	– Community Awareness and Public Participation Consultant
CLC	– City Level Committee
CPR	– common property resources
CRO	– Complaint Receiving Officer
CMSC	– Construction Management and Supervision Consultant
DB	– Design and Built
DDR	– due diligence report
DPR	– detailed project report
EHS	– environment, health and safety
EMP	– environmental management plan
FGD	– focus group discussion
GESI	– gender equality and social inclusion
GOI	– Government of India
GOR	– Government of Rajasthan
GRM	– grievance redress mechanism
HDPE	– high-density polyethylene
IEE	– initial environmental examination
LSGD	– Local Self Government Department
NGO	– non-governmental organization
O&M	– operation and maintenance
OBC	– other backward castes
PIU	– Project Implementation Unit
PMU	– Project Management Unit
PMCBC	– Project Management and Capacity Building Consultant
RFCTLA	– Right to Fair Compensation and Transparency in Land
RRA	– Acquisition, Rehabilitation and Resettlement Act of 2013
ROW	– right-of-way
RSTDSP	– Rajasthan Secondary Towns Development Sector Project
RUIDP	– Rajasthan Urban Infrastructure Development Project
SEMP	– specific environmental management plan
SIP	– service improvement plan
SWCC	– Storm Water Collection Chamber
SWCC	– Storm Water Collection Chamber
SWPS	– Storm Water Pumping Station

GLOSSARY

Term	Definitions
Bakra Mandi	- Large market where goats and other animals are sold
Johad	- Johad in Rajasthani and haryanvi language are also called sarovar, taal and talab in Hindi language, and pond or lake in English
Swamiyon Ka Jav	- Areas dominated by Swami community (general caste)
Gair Mumkin Johad	- Uncultivable waste land reserved for pond

NOTE

In this report, "\$" refers to United States dollars.

This land acquisition and involuntary resettlement due diligence report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or Staff, and may be preliminary in nature. Your attention is directed to the "terms of use" section of ADB's website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, ADB does not intend to make any judgments as to the legal or other status of any territory or area.

I. INTRODUCTION

A. Project Overview

1. **Background:** The Rajasthan Secondary Towns Development Sector Project (RSTDSP), is the fourth phase of investment projects financed by Asian Development Bank (ADB) and implemented by the Rajasthan Urban Drinking Water Sewerage and Infrastructure Corporation Limited-Externally Aided Projects (RUDSICO-EAP), previously known as Rajasthan Urban Infrastructure Development Project (RUIDP). RSTDSP seeks to improve water supply sewerage and other infrastructure services in secondary towns of Rajasthan with populations ranging from 20,000-110,000 through a sector loan modality. The project is aligned with the following impact(s): (i) access to potable, affordable, reliable, equitable, and environmentally sustainable drinking water supply in all urban areas of Rajasthan improved; and (ii) health status of urban population, especially the poor and under-privileged improved through improvements in sewerage systems of sub-project towns (iii) improvements in other infrastructure services of some towns. Under RSTDSP, work is in progress in 14 projects. RSTDSP will support the ongoing efforts of the Government of Rajasthan towards improving the sewerage conditions of 13 towns through undertaking Faecal Sludge and Septage Management (FSSM) works. Government of Rajasthan (GoR) has decided to take up implementation of Water Supply, Sewerage, Drainage, Faecal Sludge and Septage Management (FSSM) and other city improvement works by about 23 subprojects under additional financing of US \$200 million from Asian Development Bank (ADB). The Department of Economic Affairs (DEA), Government of India has agreed for additional financing of these new projects. Nawalgarh town drainage subproject is one of the subprojects proposed under the investment component of RSTDSP-additional financing.

B. Objectives and Scope of this Report

2. The proposed Nawalgarh town storm water drainage subproject is assessed to have no involuntary resettlement impacts. The main objective of due diligence exercise is to confirm that the subproject is free of involuntary resettlement impact such as land acquisition, physical displacement, economic displacement, adverse impact on livelihood, community properties or any other impacts, based on a review of land records, stakeholder consultations and field visits to proposed project locations. This document describes the findings and provides copies of relevant documents, minutes of meetings and photographs.

3. The land acquisition and resettlement due diligence was carried out for the proposed subproject components that include: (i) one storm water pumping station of 18.68 mld near Fire Brigade office; (ii) 3 storm water collection chambers of 11.77 mld, 20.09 mld and 9.10 mld at Swamiyon ka Jav,¹ Bakra Mandi² and Bhakton Ka Johad;³ (iii) one collection pond at Derena Johad; (iv) rising main-1.75 km of diameter 600 mm; (v) gravity main-3.4 km of diameter 500-600 mm; (vi) road restoration.

4. Due diligence involved site visits and discussion with relevant local government offices for land records, ownership details and permissions/approvals required, if any, for use of land. This was followed by a detailed public consultation to inform the public / stakeholders on the project components and to ascertain if there are any potential involuntary resettlement impacts. Site visits and consultations were conducted by the team comprising, technical team of detailed project

¹ Swamiyon ka Jav means areas dominated by Swami community. The community belongs to general caste. In context of this report and subproject it denotes the name of a place/area.

² Bakra Mandi means a market for buying and selling goats and other animals.

³ *Johad* means pond or lake .

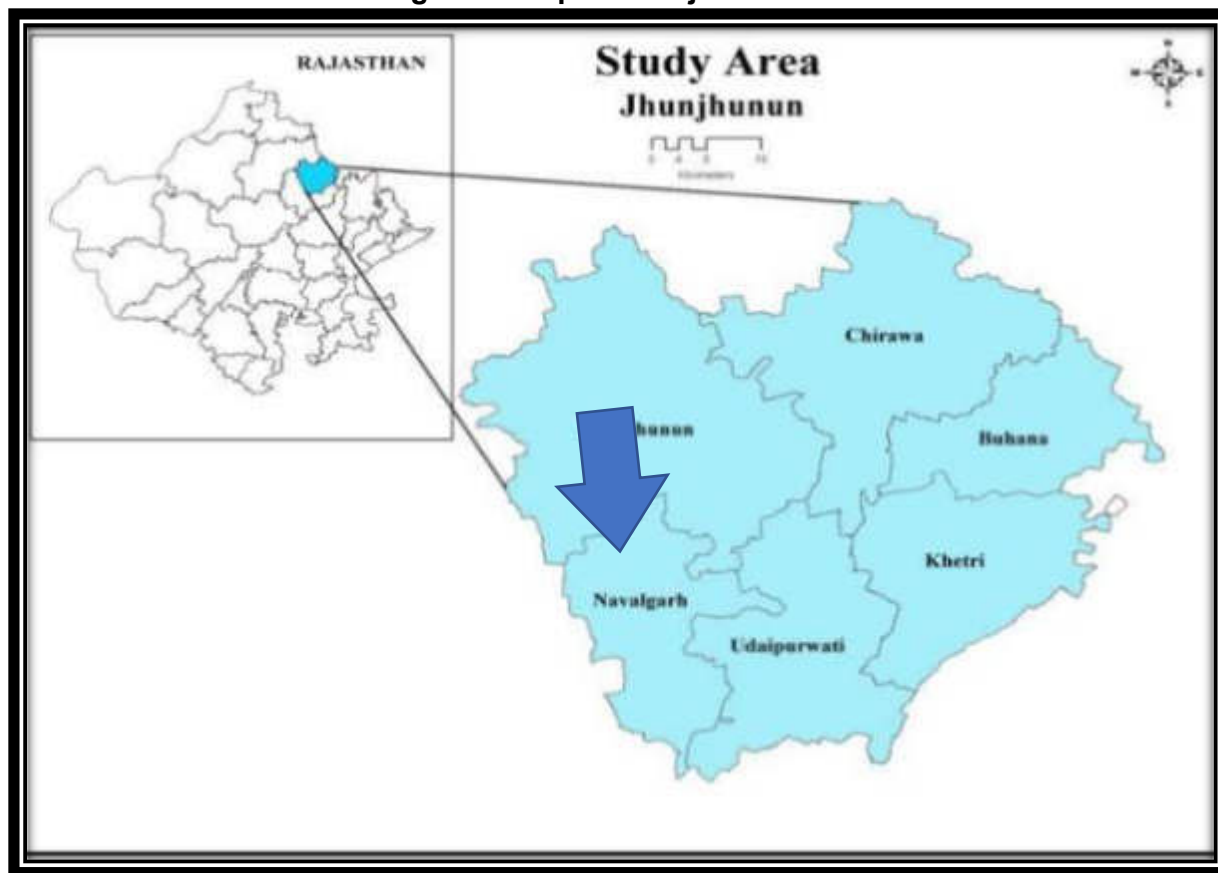

report consultant, social safeguard consultant of RSTDSP and staff from the urban local body (ULB).

5. This draft due diligence report (DDR) has been prepared by assimilating the details of the detailed project report (DPR), findings from the field visits and discussions with relevant government officials and information gathered during public consultation which is aligned with ADB's safeguards requirements. The proposed works have been thoroughly assessed to not involve any temporary or permanent involuntary resettlement impacts or involuntary land acquisition. The lands are currently under the possession of the Municipal Board which will be utilized for the project. Nonetheless, the subproject will also require a portion of land owned by the Thakur Bihari temple trusts and Goenka trust. This DDR documents the specific land requirements for each subproject component and provides comprehensive details on the assessment conducted.

II. DESCRIPTION OF SUBPROJECT AREA

6. Nawalgarh is a municipal town in Jhunjhunu district of Rajasthan state and approximately 9 km away from district head quarter. It is located 200 km. away from Jaipur. As of 2011 Census of India, Nawalgarh had a population of 94,487. Males constitute 48,745 of the population and females 45,742. Nawalgarh has an average literacy rate of 64% which is lower than the state average of 66.11%, male literacy is 74%, and female literacy is 53%.

Figure 1: Map of Jhunjhunu District

Source: District map (Rajasthan portal)

III. SUBPROJECT DESCRIPTION

A. Existing condition of Drainage System in Nawalgarh Town

7. Presently, the roads in Nawalgarh town are provided with open drains, but most of the drains are silted resulting in overflow and flooding in monsoon (refer to Figure 2). As reported by Nawalgarh Municipal Board, the total length of drains is approximately 16 km., which are mostly domestic drains. An efficient network of storm water drains and outfall system is required to drain out storm water runoff. Deficiency of the existing system, i.e., water logging and lack of disposal arrangement prompt immediate need of upgrading / revamping existing drainage system.

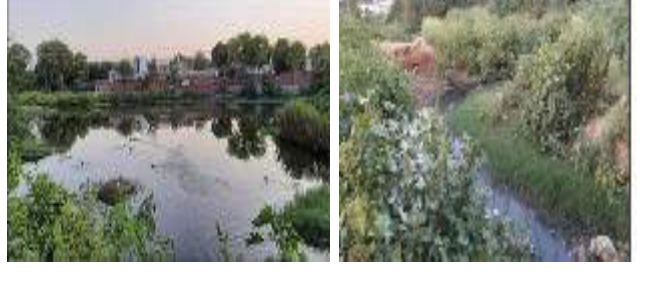

Figure 2: Photographs of Existing Drains

Source: Detailed Project Report-Nawalgarh and Transect walk, May 2022

8. As per discussion with Nawalgarh Municipal Board and as per preliminary survey, the following locations namely Fire Brigade, Bakra Mandi, Swamiyon ka Jav and Bhakton ka Johad are majorly flood affected areas in the town. It is causing considerable inconvenience to general public and economic losses as no business/marketing activity can be carried out in and around these areas during water logging period. This is a recurring problem for which a suitable surface drainage system needs to be developed. Presently, the Municipal Board of Nawalgarh is managing the flooding situations with temporary arrangements by pumping the received runoff from this location to other low-lying areas at the outskirts of the town. Details are presented below. Google map of water logging areas/flood affected areas is presented in Figure 3.

Table 1: Details of Areas Prone to Water Logging

Fire brigade water logging area: Water logged in the low-lying area behind fire brigade building and sewage treatment plant (STP) land. Temporary arrangement (pump sets) to pump storm water received at this point to open land at outskirts of municipal areas.	
Bakra mandi water logging area: Water logged in the low-lying area. Temporary arrangement (pump sets) to pump storm water received at this point to open land at outskirts of municipal areas.	
Bhakton ka johad water logging area: Existing drain filled with storm water/ sewage at lowest points. Temporary arrangement (pump sets) to pump storm water received at this point to open land at outskirts of municipal areas	
Swamiyon ka jav water logging area: Water logged in the low-lying area at Swamiyon ka jav. A large area flooded during the rainy season.

B. Subproject Components

9. The drainage subproject in Nawalgarh town is proposed under the investment component of RSTDSP-additional financing. The key components are: (i) one storm water pumping station of 18.68 mld near fire brigade office; (ii) 3 storm water collection chambers of 11.77 mld, 20.09 mld and 9.10 mld at Swamiyon ka Jav, Bakra Mandi and Bhakton Ka Johad; (iii) one collection pond at Derena Johad, (iv) rising main-1.75 km of dia 600 mm; (v) gravity main-3.4 km of dia 500-600 mm; (vi) road restoration. Details of works proposed are presented in Table 2 to Table 5.

10. Based on the natural topography and orientation of the natural depression/low lying areas, the whole town has been divided into four zones, i.e., Zone-1, Zone-2, Zone-3 and Zone-4. Zone-1 is located in the north west of the town. The catchment is generally naturally inclined towards the lowest point of the zone i.e., Swamiyon ka Jav. Total catchment of this zone is around 68 hectares. Zone-2 is located in the south east direction of the town. The catchment is generally naturally inclined towards the lowest point of the zone i.e., Bakra Mandi. Total catchment of this zone is around 90 hectares. Zone-3 covers geographical area of 48 hectares and is located in the north west of the town. The catchment is generally naturally inclined towards the lowest point of the zone i.e., behind the fire brigade office. Zone-4 is located in the north east of the town. The catchment is generally naturally inclined towards the lowest point of the zone i.e., Bhakton Ka Johad water logging area. Total catchment of this zone is around 84 hectares.

Table 2: Proposed Storm Water Pumping Station and Collection Chamber

Zone No.	Components	Location of SWPS and SWCC	Peak Discharge (Q) in MLD
Zone-3	Storm Water Pumping Station	Near Fire Brigade office	18.68
Zone-1	Storm Water Collection-1	Swamiyon Ka Jav	11.77
Zone-2	Storm Water Collection-2	Near Bakra Mandi	20.09
Zone-4	Storm Water Collection-3	Bhakton Ka Johad	9.10

11. The storm water from SWPS, fire brigade will be disposed into the Derena Johad location near Sikar Road outside the Nawalgarh town. Presently, the Derena Johad is on open land. In present proposal digging of Derena Johad, stone pitching and fencing is proposed. Contour map, key plan of storm water, layout of pumping station, sump and collection chamber and rising main are shown in Figure 4 to Figure 13.

IV. FIELD SURVEYS AND PUBLIC CONSULTATIONS

12. Field visit and transect walks were carried out in the subproject area jointly by detailed project report (DPR) consultants, safeguard consultant, and staff from Municipal Board, Nawalgarh on 06.05.2022 for assessment of involuntary resettlement impacts around proposed sites, current land use and issues related to environmental and social safeguard. Proposed storm water pumping station, storm water collection chambers, collection pond, rising main and gravity mains works will have no involuntary resettlement impact either temporary or permanent. A series of public consultations as well as meetings and discussions were held with key informants and local community in order to collect information for this due diligence report.

13. The public expressed their concern regarding the nuisance and disturbance due to present conditions of drains. During consultation the participants sought three key actions (i) improvement

in existing drainage system in the town; (ii) for prompt action to address water logging issues and (iii) an appropriate operation and maintenance system should be in place (Site specific individual consultations/stakeholder consultations/meetings held during Preliminary and Detailed Design including summary of consultations, photographs and attendance sheets are attached in **Appendix 2(a), 2(b), 2(c), 2(d), 2(e)**). City Level committee (CLC) meeting was also held and requirement and necessity of drains for Nawalgarh town was discussed. The minutes of city level committee meeting are attached in **Appendix 4**.

14. In addition, consultations were conducted with the officers of Municipal Board, Nawalgarh and existing drainage system and sewerage facilities in the town was discussed in detail. Land ownership of proposed sites and requirement of no-objection of Municipal Board, Nawalgarh for proposed works was conveyed to the officials of Municipal Board, Nawalgarh.

15. Officials of Municipal Board, Nawalgarh had telephonic discussion/consultation with the Trustee of Thakur Bihari Temple Trust, and Mr. Vijay Kumar Bhagat⁴ (who have provided their lands to Municipal Board, Nawalgarh for construction of stormwater collection chambers with 11 MLD and 9 MLD, respectively) and the Goenka Trust regarding proposed works (collection chamber, disposal point) of drainage subproject in Nawalgarh under RSTDSP. That the collection chambers will be constructed under this subproject in their respective land was conveyed. Since, the proposed works (collection chamber, disposal point) will be executed in the same land for which they have already provided consent to Municipal Board, hence the respective land owners have agreed to the same. Outcome of consultation is attached in Appendix 2(a). As the trustee of Thakur Bihari Temple Trust is presently not residing in the town, detailed consultation will be conducted once the trustee is back in the town. During initial interaction, the Goenka Charitable Trust has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipality. Formal consultation will also be undertaken with the Trustee(s) of Goenka Trust, and such consultations will be captured and appended in the updated DDR.

V. LAND AVAILABILITY AND RESETTLEMENT IMPACTS

16. **Construction of storm water pumping station (SWPS) of 18.68 mld near Fire Brigade office:** No involuntary acquisition of private land is anticipated for this project. Storm water pumping station (SWPS) of 18.68 mld capacity will be constructed in the adjacent land near existing sewage treatment plant (constructed under government scheme called Urban Infrastructure Development Scheme for Small and Medium Towns Scheme - UIDSSMT). The proposed site is located near Fire Brigade office, which is owned by state government and presently under the possession of Municipal Board, Nawalgarh. Presently storm water is already getting disposed near the proposed site where there is already a pond, in the same khasra number, which belongs to the state government. As the existing site of disposal is flooded, hence, under the proposed scheme, through pumping main, all the storm water of Zone. 3 will be disposed in the collection pond proposed at Derena Johad. Total land required for SWPS -18.68 mld is 600 m² and available land is about 2,501,400 m². No objection certificate (NOC) of Municipal Board, Nawalgarh is attached in **Appendix 5** and revenue record of proposed SWPS

⁴ The original location for the storm water collection of 9.10MLD is proposed in the land owned by Mr. Vijar Kumar Bhagat. 2,116 m² of land was provided by the landowner to the Municipal Board, Nawalgarh for the construction of sewerage treatment plant (STP). However, as per latest field visit, the land of Mr. Vijar Kumar Bhagat will no longer be utilized for the subproject. The proposed collection chamber will be constructed on/along the existing drain. The new identified land is under the possession and ownership of *Nagar Palika*. Details are provided in Chapter V: Land Availability and Resettlement Impacts.

site is attached in **Appendix 6**. Photographs of proposed site is shown in Figure 14 and location of SWPS on google map is shown in Figure 20. Details of Derena Pondare provided in para 20.

Figure 14: Photographs of Proposed Location of Pumping Station- Near Fire Brigade Office

17. **Construction of 03 storm water collection chamber of 11.77 mld, 20.09 mld and 9.10 mld at Swamiyon Ka Jav, Bakra Mandi and Bhakton Ka Johad. Collection Chamber at Swamiyon Ka Jav (11.77 MLD)** - Storm water collection chamber of 11.77 mld at Swamiyon ka Jav is proposed in a small land parcel of 90m² built up area in the adjacent vacant land of sewage pumping station (refer Figure 15) that was donated by Thakur Bihari Temple Trust to Municipal Board earlier. The Thakur Bihari Temple Trust has already provided their concurrence (letter of consent for construction of the sewage pumping station (SPS) to the Municipal Board for 400 m² of land under khasra no.1334 and 1335 to construct the SPS. Municipality has utilized about 250 m² for construction of the SPS and 150 m² land is still available.⁵ Out of 150 m² land parcel, the proposed storm water collection chamber requires about 90 m² of donated land parcel for proposed Collection Chamber beside the existing SPS (refer to figure 14). Since, the proposed work (collection chamber) will be executed in the same land parcel for which the trust has already provided consent to Municipal Board. Land record of proposed site is attached in **Appendix 7** and concurrence of temple trust (consent letter) for the construction of SPS is attached in **Appendix 8**. Municipality Nawalgarh has issued a letter/NOC stating the follow up with the trustee's consent about the proposed construction of the collection chamber (refer **Appendix 1**). A written confirmation will be obtained from the trustee once he is back in Nawalgarh (refer Next Steps for timeline). Photographs of proposed site are presented in Figure 15 and location marked on google map is shown in Figure 21. Due diligence has been conducted and it was confirmed that the land was previously a low laying area where wastewater was disposed and accumulated. The land was not used for any productive purpose by the temple authority. The land did not contribute to the income source of the temple trust, was unproductive and filled with wastewater. Hence, the temple trust provided their consent to Municipal Board for construction of sewage pumping station⁵. Consultation with the trustee will be held in the presence of third party and details of such consultation will be captured and reflected in the updated DDR, prior start of civil works. Storm water of this zone (Zone-1) will be collected in this chamber and will be disposed in the pond/Johad at Badrana. Badrana pond/Johad is under the possession of Goenka Trust, and

⁵ The temple is located inside the town faraway from this location.

Since member of Trust are not residing in Nawalgarh town and it has been regularly being tried to contact the members of Trust by Nagar Palika (Municipality), Nawalgarh, as soon as the trust people are contacted or after returning of member of Trust in city, a written consent/NOC will be taken from him, consultation and third party will be carried out and the same will be submitted through updated DDR (Refer Appendix-1(a)).

they have agreed to provide/donate the land for the same. No-objection and letter of consent from the Goenka Trust will be obtained and same will be appended to the updated DDR. The Goenka Charitable Trust⁶ has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipality. Land records of Badrana pond are attached in **Appendix 10**. Consultation with the trustee will be held in the presence of third party and details of such consultations will be captured and presented in the updated DDR. Gift deed and third-party validation will be undertaken to document the entire land donation process and same will be reported through updated DDR (refer Next Steps for timeline). It is to state that proposed land of Samiyon Ka Jav, Badrana Johad (Pond) are not handed over/transferred yet for civil works. After transfer of the same, third party validation formalities will be carried out with the donor and it will be appended in updated DDR. Please refer to **Appendix-1(a)**.

Figure 15: Photographs of Proposed Location of Collection Chamber- Swamiyon ka Jav

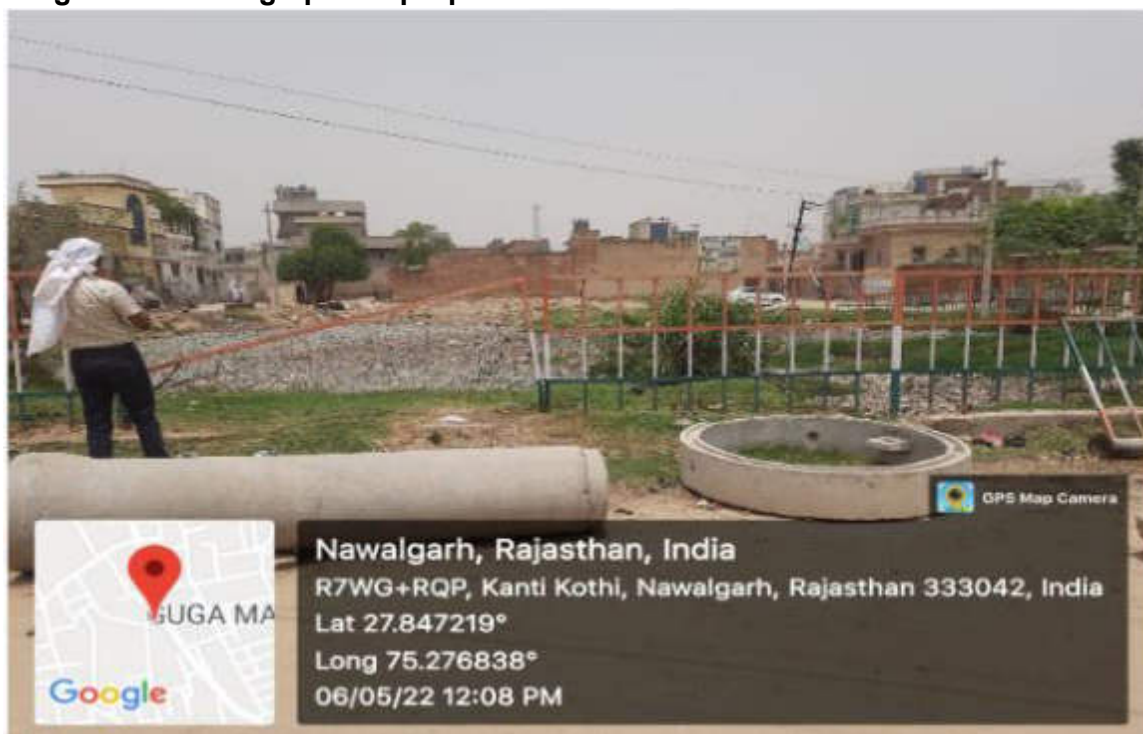

Proposed Collection Chamber

Existing Collection Point- Badrana Johad

18. **Storm water collection chamber at Bakra Mandi of 20.09 mld** is proposed in the adjacent land near Bakra Mandi, which is owned by state government and presently under the possession of Municipal Board, Nawalgarh. Land parcels currently serve as collection point for local wastewater discharge and are not under any other use by local community or government. Sites are lying vacant, filled with storm and wastewater (free of encumbrances) and are not in use for any other purpose. This collection chamber will be constructed in the same parcel of land where storm water pumping station is proposed. Land required for storm water collection chamber is approximately 500m² and available land is about 2,501,400 m². Confirmation letter of Municipal Board, Nawalgarh is attached in **Appendix 5** and revenue records of proposed sites are attached in **Appendix 6**. Photographs of proposed site are depicted in Figure 16 and location marked on google map is shown in Figure 22. During impact assessment, it was noticed that some structures are present around the proposed site. Distance of these structures is far from the proposed site for collection chamber and It is confirmed through field visits and design review that there will be no impact on the structures during construction activity and all the safety measures as per the project EMP will be ensured by contractor as per contract clause. Under this scheme, storm water of (Zone -2) will be collected in this chamber and through pumping main, it will be disposed in the existing collection pond near Fire Brigade office.

⁶ It is ensured by Nagar Palika (Municipal Board), Nawalgarh for Badrana Pond that members of GoenkaTrust are not residing in Nawalgarh town and it has been regularly being tried to contact the members of Trust by Nagar Palika (Municipal Board), Nawalgarh, as soon as the trust people are contacted or after returning of member of Trustee in city, a written consent/NOC will be taken from him, consultation and third party will be carried out and the same will be submitted to ADB by updated DDR (refer Appendix 1(a)).

Figure 16: Photographs of proposed location of collection chamber-Bakra Mandi

19. **Storm water collection chamber of 9.10 mld at Bhakton Ka Johad** – Based on site inspection the location of proposed Collection Chamber at Bhakton Ka Johad has been changed and the land belongs to Vijay Kumar Bhagat will not be utilized.⁷ The proposed collection chamber will be constructed at on/along existing drain. The new identified land is under the possession and ownership of Nagar Palika (Municipal board), Nawalgarh. The earlier proposed location for construction of storm water collection chamber was under Khasra number 721 land type Johad and newly identified land for collection chamber is under Khasra number 744 land type Gair Mumkin Sadak (Road). For more details refer **Appendix- 11** for land record and **Figure-17** for proposed location.⁸

⁷ Footnote 4

⁸ Nawalgarh Nagar Palika has issued recently a letter and/or certification cancelling the name of Mr. Bhagat in the NOC and/or Land Confirmation (see Appendix 15).

Figure 17: Photographs of Proposed Location of Collection Chamber-Bhakton Ka Johad

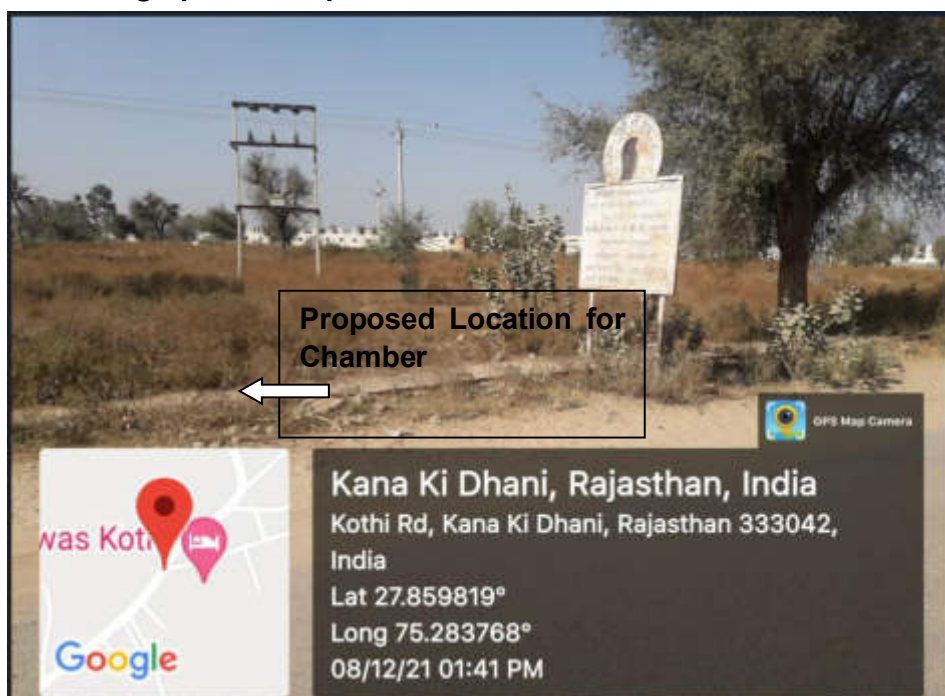

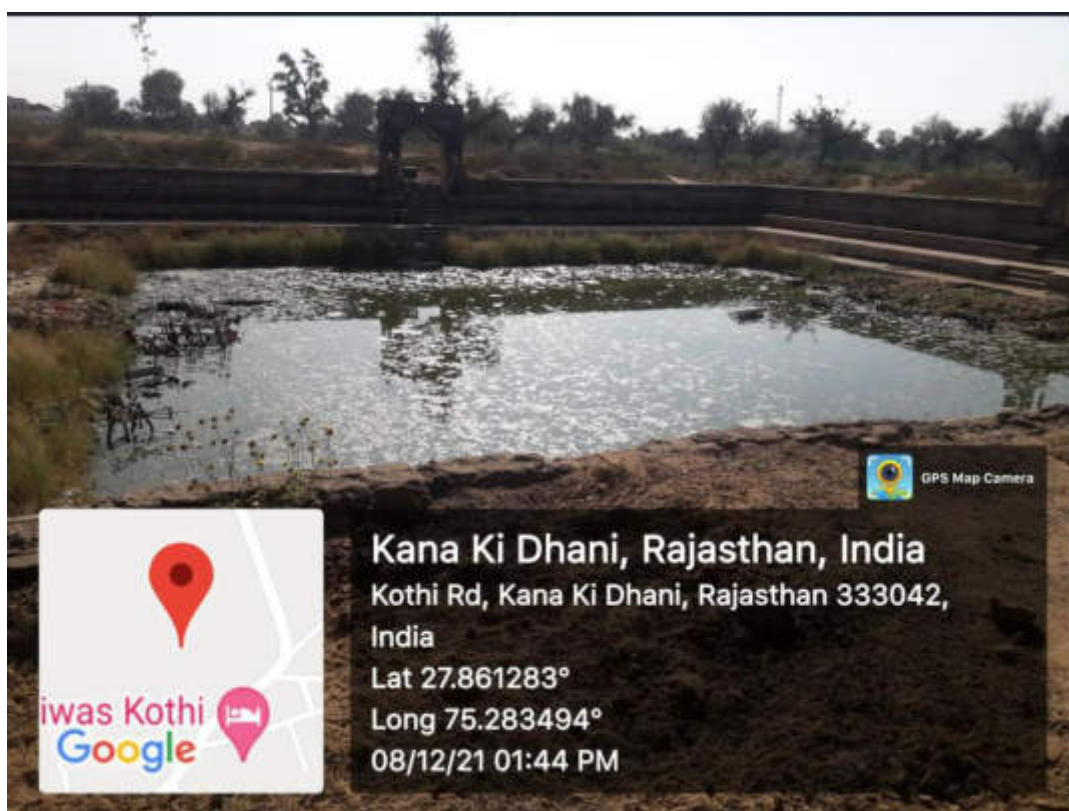

Figure 18: Photographs of Proposed Location of Disposal Point of Drains under Zone-4 – Bhakton Ka Johad

20. **Collection Pond at Derena Johad:** Storm water collection pond is proposed at Derena Johad. The name of the proposed land is aJohad, and by land type, it is also a Johad land. There are six Khasra land parcels existing at Derena Johad and land type of all Khasra are “Johad” (**Refer Appendix-12**). Proposed land is also classified in revenue records (khasra no. 479/390) as a Johad and owned by state government and under the jurisdiction of Nagar Palika and presently under the possession of Municipal Board, Nawalgarh. It is also confirmed by Project Implementation Unit (PIU), Nawalgarh. In this case, land conversion for proposed Derena Johad is not required because it is Johad land and not a pasture land. In addition to this, however the proposed land comes under Johad category nevertheless a letter of land allotment will be required to Nagar Palika (Municipal Board) from district collector, Jhunjhunu. A proposal letter or request for land allotment has been sent to district collector by Nagar palika (Municipal Board) and copy of the same is attached refer appendix-1(a) point 5 and appendix- 1(b). During recent field visit and document review, it was confirmed jointly by PIU and Nagar Palika, Nawalgarh, that Derena Johad land is not a pasture land, type/Khasra number of this land is “Johad” (refer Appendix- 12) and this type of land belongs to government and ownership of this land belongs to Nagar Palika and it comes under the jurisdiction of Nagar Palika, Nawalgarh. This was also discussed during ADB itinerary visit in Nawalgarh with ADB Consultant and Contractor on dated 23.08.2023. No Objection of Nagar Palika (Municipal Board), Nawalgarh is obtained and they stated their willingness by allocating proposed land/NOC through letter that is attached in **Appendix-1(a) and Appendix-14**. Proposed site is lying vacant (free of encumbrances) and is not in use for any productive or other purpose. The land (refer to figure 19) is not used for grazing cattle. Total land available is approximately 28,100 m² which is adequate for the collection pond. Land revenue records of proposed sites is attached in **Appendix 12**. Photographs of proposed site are in Figure 19 and location marked on google map is presented in Figure 24.

21. Due diligence/field visits conducted by a team including safeguard consultant, Department of Urban Local Body (ULB), and project consultant. During the site visits and ground verification conducted, it was confirmed that proposed drainage works will not involve any land acquisition and resettlement impact, including livelihood impacts to titleholders and/or non-titleholders. No impact either temporary or permanent is envisaged on common property resources. As the trustee of Thakur Bihari Temple Trust is presently not residing in the town, officials of Municipal Board, Nawalgarh had telephonic discussion and consultation with both the persons on 1 September 2022. Although officials of Municipal Board, Nawalgarh had telephonic discussion with the trustee of Thakur Bihari Temple Trust dated 1 September, 2022 and the concurrence for the construction of collection chamber in the same lands has been obtained (**Refer Appendix 6**); they have assured to provide written confirmation stating the components proposed under this subproject; once they return to the town.

22. **Rising/Gravity Mains:** Rising and gravity main pipelines are proposed in the right of way (ROW) of government road, which is owned by Municipal Board, Nawalgarh. Transect walk conducted along the proposed rising/gravity main alignment has confirmed that no commercial establishments - permanent shops or mobile vendors are present along the route and no economic impact or physical relocation and impact is anticipated. The pipelines will be laid mostly on the center of the roads/either of left- or right-hand side on the road in some cases. The existing drains will not be disturbed and the residences situated along the road alignment will not be affected due to laying of the pipelines. The staircases and access ramps of the residences constructed over the existing drains will not be dismantled as pipelines will be laid through road cutting on the center of the road in all such sections. Access to the residences will be ensured during construction. The project will adopt measures that include traffic management during pipe laying work, provision of advance information to residents prior to start of work, ensuring access to residences and pedestrians through planks. The contractor will also be required to maintain access to residences or other buildings along pipe alignments and to institutions located close to proposed sites and will ensure safety through hard barricading of excavated alignments/sites. No-objection of Municipal Board, Nawalgarh is attached in **Appendix 5** and photographs the areas where rising /gravity mains will be laid is presented in **Appendix 13**. Location of rising mains marked on google map is presented in Figure 25 to Figure 29.

23. **Road restoration:** Rising/gravity mains of dia (500-600 mm) will be laid on ROW of roads/ on roads. This will involve road cutting (mostly cement concrete roads) at certain locations and the same will be restored as per design specifications or to pre-project condition. The contractor will carry out the final design and measurement / quantity of road restoration as required. Transect walk conducted along the proposed corridor of rising/gravity main alignment and it is confirmed that no commercial establishment - permanent shops or mobile vendors exist along the route and no economic impact or physical relocation or any other impact is anticipated.

Table 6: Summary of Rising and Gravity Main

From	To	Length (m)	Pipe diameter (mm)	Type	Material
Storm Water collection chamber 01 at Swamiyon ka Jav	Bardana Johad	1850.00	500	Gravity Main	NP4
Storm Water collection chamber 02 at bakra Mandi	Sump at SWPS-1 at Fire Brigade	1300.00	600	Gravity Main	NP4
Storm Water collection chamber at Fire Brigade	Sump at SWPS-1 at Fire Brigade	50.00	500	Gravity Main	NP4

From	To	Length (m)	Pipe diameter (mm)	Type	Material

24. Nawalgarh is a heritage town and is famous for its frescoes and *havelis*⁹ and is considered as the Golden City of Rajasthan. Some of the famous structures are Morarka Haveli, Poddar Haveli, Sheesh Mahal, Roop Niwas Palace etc. The proposed alignments of the rising main and gravity main pipelines are at a considerable distance from such structures (refer Figure 25 to Figure 29). No subproject activity will be conducted within the immediate vicinity of the heritage structures. Further, in general, the project has in place measures to ensure impact avoidance to common property resources. This includes: (i) unused, vacant government sites and existing project sites are preferred ensuring safe distance from the heritage structures, CPRs and other religious or cultural structures; (ii) project design ensures that excavation and other construction works will not entail structural damage to the CPRs; (iii) contractors with the supervision of PMU will ensure that construction works particularly alignment for the rising/gravity mains works will not cause disturbance or damages to the CPRs, (iv) providing proper signage, barricades etc. during construction works.¹⁰ Proposed location of rising main and main tourist location is presented in Figure 25 to Figure 29.

⁹ Haveli is usually multistory, organized around two courtyards in India.

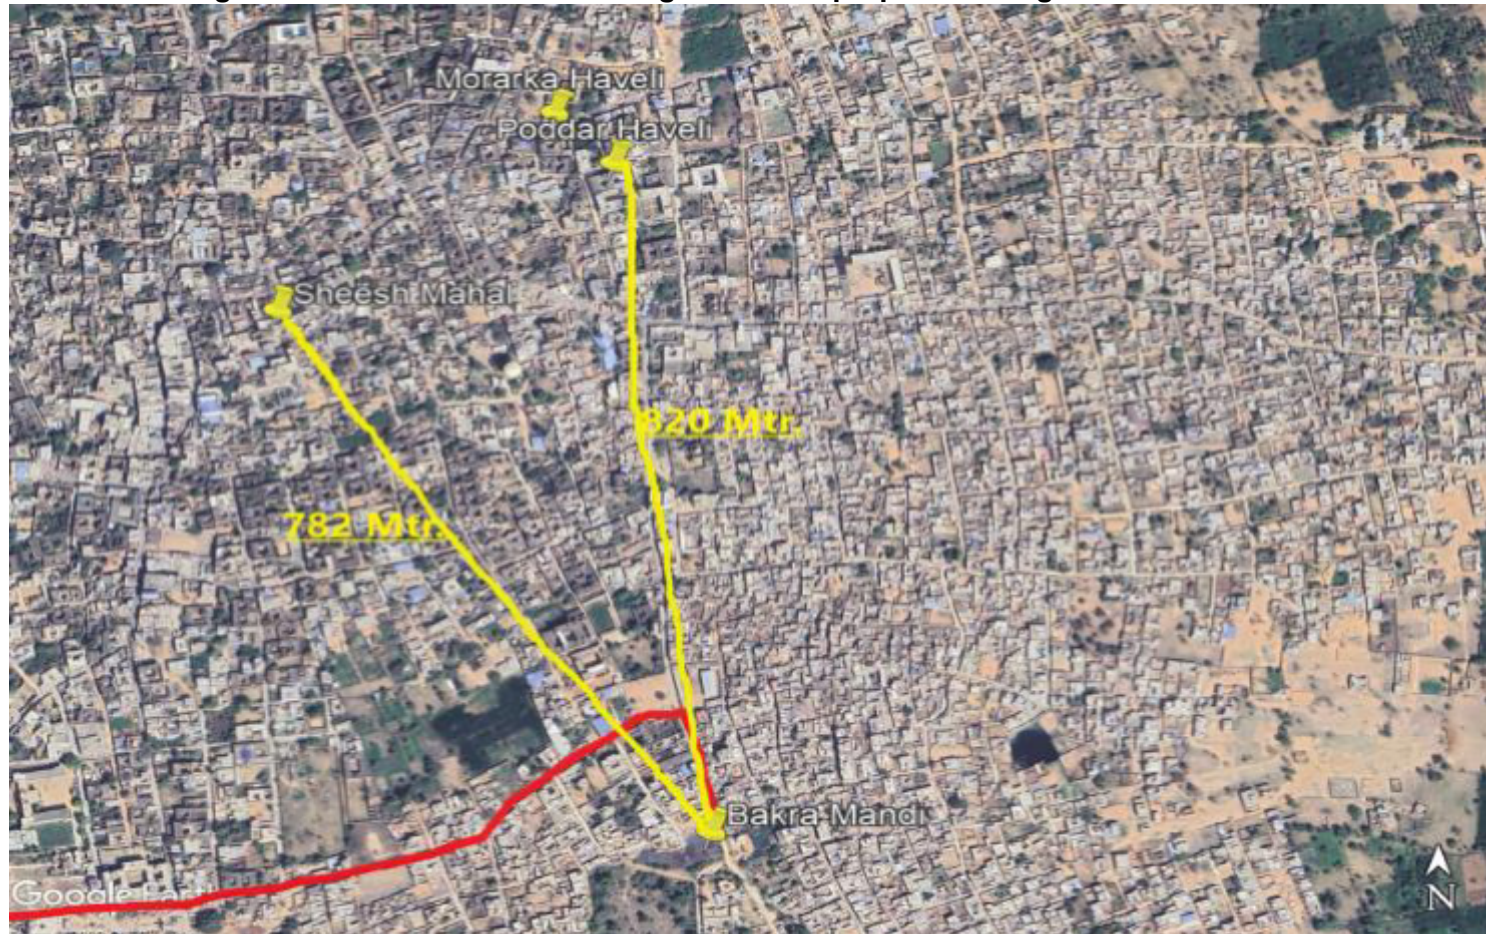

¹⁰ IEE includes information on dealing with the physical cultural resources located in the the subproject town.

Table 7: Subproject Components and their Land Acquisition and Resettlement Impacts

S. No.	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
1	Construction of Storm Water Pumping station – Near Fire Brigade office	No	No	Storm water pumping station (SWPS) of 18.68 mld capacity will be constructed in the the adjacent land near Fire Brigade office, which is owned by state government and presently under the possession of Municipal Board, Nawalgarh. The identified site is reported vacant, unused and without any settlement/ squatter or other use. No legacy Issue is reported. Therefore, no involuntary resettlement impact is anticipated. No objection of Municipal Board is attached in Appendix 5 .
2.	Construction of Collection Chambers (03 Numbers)			
a	Collection Chamber-1 (Swamiyon ka Jav)	No	No	The proposed land owned by Thakur Bihari Temple trust. Temple trust has already provided their concurrence for construction of sewage pumping station in 400 m² land under khasra no.1334-1335. Identified site is adjacent to the existing pumping station and is reported vacant, unused and without any settlement/ squatter or other use. No legacy issue is reported. Therefore, no involuntary resettlement impact is anticipated. Concurrence of temple trust has already been provided to Nagar Paliaka (Municipal Board) for construction activities for public benefits/ purposes under government scheme is attached in Appendix 8. Municipal Board, Nawalgarh has already discussed with the trustee about the proposal of construction of collection chamber in the same parcel of land for which they have agreed. Confirmation for the same has been provided by Municipal Board, Nawalgarh is attached in Appendix 9. As the trustee is presently not residing in the town, written confirmation will be obtained from the trustee once he will be in town. Consultation with the members of the trustee will be held in the presence of third party and details of such consultations will be captured and presented in

S. No.	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
				the updated DDR, prior to start of civil works.
B	Collection Chamber-2 (Near Bakra Mandi)	No	No	Collection chamber will be constructed in the same land where storm water pumping station is proposed. Identified site is reported vacant, untused and without any settlement/ squatter or other use. No legacy issue is reported. Therefore, no involuntary resettlement impact is anticipated. No objection of Municipal Board is attached in Appendix 5 .
C	Collection Chamber-3 (Bhakton Ka Johad)	No	No	A joint site inspection visit was carried out with member/representative of PIU, Nagar Palika (Municipality), ADB Consultant, CMSC-01 and Contractor on dated 23.08.2023 at proposed Bhakton Ka Johad (Collection and Disposal Point) in Nawalgarh Drainage subproject town. It was mutually decided during joint site inspection visit that Collection Chamber at Bhakton Ka Johad (Zone-4) will be constructed on government drain and ownership of this drain (passing along the Bhakton Ka Johad area, Zone-4) belongs to Nagar Palika (Municipality), Nawalgarh and storm water will be disposed of at a distance of 200m into Bawdi (Stepwell). Since the land type of Bawdi (stepwell) is Johad (pond) and Johad comes under government land, and ownership of this Johad belongs to Nagar Palika (Municipality), Nawalgarh and Nagar Palika has no objection for construction/storm water disposal. Refer – Appendix-I(a), point 3.
4	Collection Pond (Derena Johad)	No	No	Proposed land is classified in revenue records (khasra no. 479/390) as a pasture land / land reserved for other general purposes (Johad) and owned by state government and presently under the possession/under the jurisdiction of Municipal Board, Nawalgarh. As confirmed jointly by PIU and Nagar Palika, Nawalgarh

S. No.	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
				that Derena Johad land is not a pasture land, type/Khasra number of this land is "Johad" (refer Appendix- 12) and this type of land belongs to government and ownership of this land belongs to Nagar Palika and it comes under the jurisdiction of Nagar Palika, Nawalgarh. This was also discussed during ADB field visit in Nawalgarh with ADB Consultant and Contractor on dated 23.08.2023. The proposed land comes under Johad category; a letter of land allotment will be required to Nagar Palika (Municipal Board) by district collector, Jhunjhunu. A proposal letter for land allotment has been sent to district collector by Nagar palika (Municipal Board) and copy of the same is attached refer appendix 1(a) point 5 and appendix- 1(b). Proposed site is lying vacant unused and without any settlement/ squatter or other use.. The land (refer figure 19) is not used for grazing cattles by any community. No involuntary resettlement impact is anticipated.
5	Rising/Gravity Main	No	No	Rising and gravity main pipelines are proposed in the right of way (ROW) of government road, which is owned by Municipal board, Nawalgarh. No commercial establishment – permanent shops or mobile vendors exist along the route and no economic impact or physical relocation and impact is anticipated. The pipelines will be laid on the center of the roads/either of left or right hand side on the road. The stair cases and access ramps of the residences constructed over the existing drains will not be dismantled as pipelines will be laid through road cutting on the centre of the road. The roads will be restored to its original condition as was during pre-project phase. No objection for laying of pipeline has been received from Municipal
6	Road Restoration	No	No

							Board attached in Appendix-1(b).	
Laying of rising main/gravity main and road restoration	Rising and gravity main pipelines are proposed in the right of way (ROW) of government road, which is owned by Municipal board, Nawalgarh. No commercial establishment - permanent shops or mobile vendors exist along the route and no economic impact or physical relocation and impact is anticipated. There will be no impacts on existing drains and the access ramps of structures as pipe would be laid in the middle of the road in such sections. The roads will be restored to its original condition as was during pre-project phase.							

Source: Transect walks, technical documents, Nawalgarh Municipal Board and analysis.

25. Based on impact assessment of subproject facilities, it is noted that there will be no land acquisition or involuntary resettlement impacts as a result of the subproject implementation. No impacts to indigenous people/ communities due to the subproject involving direct or indirect impacts to the dignity, human rights, livelihood systems or territories or natural or cultural resources that are used, owned, occupied or claimed by indigenous peoples as their ancestral domain or asset, are anticipated. Nawalgarh does not fall in a scheduled area, has a small proportion (0.17%) of population classified as scheduled tribe, which is scattered (does not stay in tribal groups / community enclaves), is well assimilated in urban society, and does not retain the characteristics of scheduled tribes¹¹ or indigenous peoples groups.¹² There is no recorded presence of indigenous peoples' groups or communities, including particularly vulnerable tribal groups in Nawalgarh. The subproject is therefore classified as category C for involuntary resettlement and Indigenous Peoples impact.

VI. INFORMATION DISSEMINATION

26. The DDR will be made available in the offices of the Municipal Board, Nawalgarh, Project Implementation Unit, Project Management Unit and ADB website for easy access to all stakeholders including the local community of the town.

VII. GRIEVANCE REDRESS MECHANISM

27. A project-specific, three-tier grievance redress mechanism (GRM) covers both environment and social issues. The GRM has been established to receive, evaluate, and facilitate the resolution of affected persons' concerns, complaints, and grievances about the social and environmental performance at project level. The GRM aims to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns related to the project. Assessment of the GRM designed and implemented for Rajasthan Urban Sector Development Program (RUSDP) shows that the system was effective in timely resolution of grievances in a transparent manner.¹³ The multichannel, project-specific, three-tier GRM is functional at RUSDP, hence the design of GRM for RSTDSP takes into account the proposed institutional structure for RSTDSP and the positive features and learnings from the previous GRM.¹⁴

¹¹ As per the Constitution of India, criteria followed for identification of a community as a scheduled tribe are (i) tribes' primitive traits; (ii) distinctive culture; (iii) shyness with the public at large; (iv) geographical isolation; and (v) social and economic backwardness.

¹² ADB SPS 2009 uses the term indigenous peoples in a generic sense to refer to a distinct, vulnerable, social and cultural group possessing the following characteristics: (i) self-identification as members of a distinct indigenous cultural group and recognition of this identity by others; (ii) collective attachment to geographically distinct habitats or ancestral territories in the project area and to the natural resources in these habitats or territories; (iii) customary cultural, economic, social or political institutions that are separate from those of the dominant society and culture; and (iv) a distinct language, often different from the official language of the country or region.

¹³ Town-level grievance registration data indicates that a large number of grievances were registered, pointing to the effectiveness of the multi-channel GRM. No major grievance was received for RUSDP Phase III. The GRM helped smoothen the process of project implementation, hence the proposed architecture for the RSTDSP GRM remains similar, with some refinement, taking into account the changes in institutional setup proposed for project implementation.

¹⁴ Continued logistics support at field level will be key to successful management of grievance redress under RSTDSP. The target date for establishment of the first level (PIU level) and second level (Zonal level) of GRM is before loan negotiation.

28. **Common GRM.** A common GRM will be in place for social, environmental, or any other grievances related to the project. Implementation of the resettlement plans/RIPPs/DDR/IEEs will follow the GRM described below. The GRM will provide an accessible and trusted platform for receiving and facilitating resolution of affected persons' grievances related to the project.

29. Public awareness campaigns within entire ULB/Municipal area will ensure that awareness on grievance redress procedures is generated. The nodal officer- safeguards and gender supported by ASO at zonal level, will oversee the conduct of ULB/project coverage area-based awareness campaigns by the town-level safeguards and safety officers, through the CAPPC. The awareness campaigns will ensure that poor and vulnerable households are made aware of grievance redress procedures and entitlements. Contractors will provide pamphlets to communities prior to start of works and billboards during construction. The pamphlets and billboards will include relevant environmental and social safeguards, GRM information, and contact details of key personnel from PIU and contractors.

30. Affected persons will have the flexibility of conveying grievances/suggestions by dropping grievance redress/suggestion forms in complaint/suggestion boxes that will be installed by project PIUs or by e-mail, by post, or by writing in a complaints register in ULB offices/complaints register at contractor's work site¹⁵ or by sending a WhatsApp message to the PIU¹⁶ or by dialling the phone number of town level PIU/CAPPC or by dialling a toll-free number.¹⁷ Any aggrieved person can also avail the facilities of online grievance monitoring system 'Rajasthan Sampark' portal to register their grievances which is a parallel mechanism of grievance registration, in addition to the project GRM.¹⁸ Careful documentation of the name of the complainant, date of receipt of the complaint, address/contact details of the person, location of the problem area, and how the problem was resolved will be undertaken and feedback provided to the complainant on action/decision taken. The SSO of town/city level PIU will have the overall responsibility for timely grievance redressal on environmental and social safeguards issues and for registration of grievances, related disclosure, with the assistance of project consultants. In case of grievances that are immediate and urgent in the perception of the complainant, the contractor, and officials of PIU with assistance from CMSC and CAPPC on-site will provide the most easily accessible or first level of contact for quick resolution of grievances. Contact numbers and names of the concerned PIU safeguard and safety officer, contractors, CAPPC and CMSC personal will be posted at all construction sites at visible locations.

- (i) **1st level grievance.** The contractors, PIU executive engineer /assistant engineer designated as SSO (social and environment), CMSC (safeguard staff) and CAPPC can immediately resolve issues on-site, in consultation with each other and will be required to do so within 7 days of receipt of a complaint/grievance. If required, city

¹⁵ RUSDP piloted an online application based live GRM counter for resolution of public grievances over and above the usual process of grievance registration and redressal. This app based GRM - "RUIDP Smart Check" is available at Google play store (free of cost) and is operational. The RUIDP Smart Check "app" was launched in Pali town in July 2017 and is proposed to be scaled up in RSTDSP project towns. For persons without access to the application, the traditional channels will continue to be available.

¹⁶ It is suggested for each PIU to have a dedicated WhatsApp group for registration of grievances and receipt of quick feedback, to be followed by more formal communication.

¹⁷ Project contractors in all project towns will have a toll-free number with specific working hours for registration of grievances related to RSTDSP.

¹⁸ [HTTP://WWW.SAMPARK.RAJASTHAN.GOV.IN/RAJSAMWELCOME.ASPX](http://www.sampark.rajasthan.gov.in/RajSamWelcome.aspx)

- level monitoring committee (CLMC)¹⁹ will be involved in resolution of grievances at the 1st level;²⁰
- (ii) **2nd level grievance.** All grievances that cannot be redressed within 7 days at field/PIU level will be brought to the notice of Zonal PIU headed by Additional Chief Engineer (ACE). The ACE at zonal PIU will resolve the grievance within 7 days of receipt of complaint/grievance in discussion with the assistant safeguard officer (ASO), field level PIU, CMSC, CAPPCC and the contractor;²¹
 - (iii) **3rd level grievance.** All the grievances that are not addressed by Zonal PIU within 7 days of receipt will be brought to the notice of the PMU. Depending on the nature of grievance, the Project Officer (Social/Environment) at PMU will resolve the grievance within 15 days of receipt of grievance with necessary coordination of Zonal PIU and CMSC and guidance/instruction of additional project director (APD-PMU); and
 - (iv) Grievances not redressed through this process within/at the project level within stipulated time period will be referred to the CLC/grievance redress committee (GRC), which has been set up.²² In its role as a GRC, the CLC will meet whenever there is an urgent, pending grievance. Other grievances can be discussed during its regular meetings. Zonal PIU will inform the CLC regarding any grievances required to be resolved urgently. The GRC will resolve the grievance within 15 days of receiving the complaint. In case of any indigenous peoples impacts in subprojects, the CLC/GRC must have representation of the affected indigenous people community, the chief of the tribe or a member of the tribal council as traditional arbitrator (to ensure that traditional grievance redress systems are integrated) and an NGO working with indigenous people groups.

31. The multi-tier GRM for the project is outlined below (Figure 30), each tier having time-bound schedules and with responsible persons identified to address grievances and seek appropriate persons' advice at each stage, as required. The GRC will continue to function throughout the project duration.

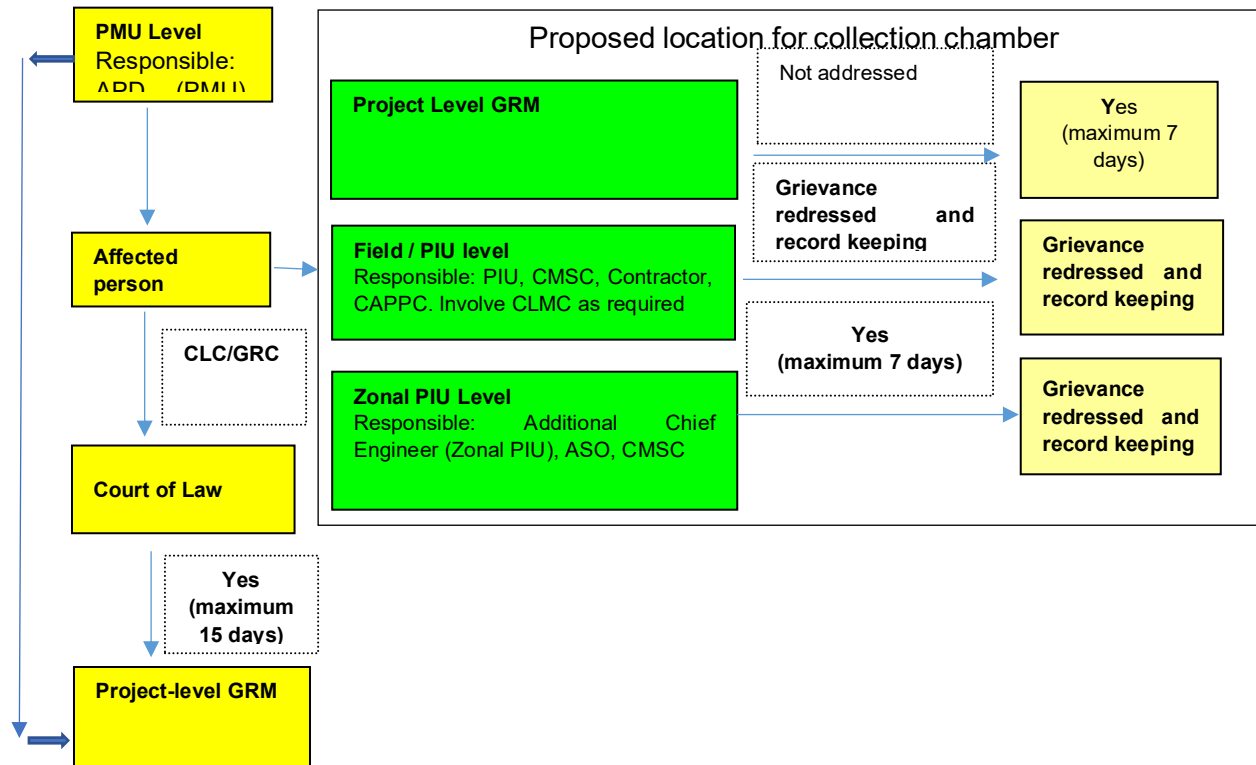

¹⁹ The CLMC has been formed at the town/city level for planning and monitoring of work, resolve issues related to departmental coordination etc. It is headed by Commissioner/Executive Officer ULB (Chairman) and city engineer of public health engineering department (PHED), public works department (PWD) and head of PIU acting as Member Secretary.

²⁰ In case the complainant is a vendor, the 1st level grievance redress committee will make effort to resolve the concern at this level, in his/her presence.

²¹ In case the complainant is a vendor, and the grievance is not resolved at the 1st level, the issue will be brought up to 2nd level grievance redress committee. The 2nd level grievance committee, if required, may invite a representative from the local Town Vendor Committee to resolve the matter.

²² City Level Committee (CLC)/grievance redress committees (GRCs) has been constituted for each town/city under the Chairmanship of District Collector to provide overall subproject guidance and "to sort out issues and remove hindrances, if any". CLC formed at city-level/district level with members composed of: District Collector as Chairperson, and following as members: ULB Commissioner/Mayor/Chairman; Deputy Mayor/Vice Chairman ULB; Chairman / Secretary Urban Improvement Trust (UIT); Head of Zonal/field level PIU as Member Secretary; one representative each from relevant government departments as appropriate (PWD/PHED/Town Planning Department etc.). All CLCs in their role as GRCs will have at least one-woman member/chairperson. In addition, for project-related grievances, representatives of affected persons, community-based organizations (CBOs), and eminent citizens will be invited as observers in GRC meetings. The concerned Member of Parliament (MP) and Member of Legislative Assembly are also part of the CLC.

Figure 30: Grievance Redress Mechanism-RSTDSP

Note: APD = additional project director, ASO = assistant safeguards officer, CAPPCC = community awareness and public participation consultant, CMSC = construction management and supervision consultants, CLC = city level committee, CLMC = city level monitoring committee, GRC = grievance redress committee, PIU = project implementation unit, PMU = program management unit, PMCBC = project management and capacity building consultant.

32. The project GRM notwithstanding, would ensure that an aggrieved person shall have access to the country's legal system at any stage and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. In case of grievance related to land acquisition, resettlement and rehabilitation, the affected persons will have to approach a legal body/court specially proposed under the RFCTLARRA, 2013.²³

33. People who are, or may in the future be, adversely affected by the project may submit complaints to ADB's Accountability Mechanism. The Accountability Mechanism provides an independent forum and process whereby people adversely affected by ADB-assisted projects can voice, and seek a resolution of their problems, as well as report alleged violations of ADB's operational policies and procedures. Before submitting a complaint to the Accountability Mechanism, affected people should make an effort in good faith to solve their problems by working with the concerned ADB operations department. Only after doing that, and if they are still dissatisfied, should they approach the Accountability Mechanism.²⁴

²³ The Authority admits grievance only with reference to the Land Acquisition and R&R issues under the RFCTLARRA, 2013.

²⁴ Accountability Mechanism. <http://www.adb.org/Accountability-Mechanism/default.asp>.

34. **Record-keeping.** The PIU Nawalgarh will keep records of grievances received, including contact details of complainant, date the complaint was received, nature of grievance, agreed corrective actions and the date these were affected and final outcome. The number of grievances recorded and resolved, and the outcomes will be displayed/disclosed in the PMU office, PIU offices, and on the web, as well as reported in monitoring reports submitted to ADB on a semi-annual basis. The sample grievance registration format is attached as **Appendix 16**

35. **Periodic review and documentation of lessons learned.** The PMU project officers (Social and Environment) will periodically review the functioning of the GRM in each town and record information on the effectiveness of the mechanism, especially on the project's ability to prevent and address grievances.

36. **Costs.** Contractors are required to allocate budget for pamphlets and billboards as part of the EMP. Costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by the concerned PIU at town level while costs related to escalated grievances will be met by the PMU.

VIII. CONCLUSION

37. Findings from field visit, public consultation and stakeholder consultations and initial screening for resettlement impacts and for impact on indigenous people, suggest that subproject is not anticipated to cause any involuntary resettlement impact. However, the impacts of subproject will be re-assessed (prior to start of civil work) upon finalization of detailed design. In case any involuntary resettlement impact is identified at any stage of the subproject implementation, this safeguard document will be revised (with appropriate revision of project category) in accordance with ADB's Safeguards Policy Statement 2009. Involuntary resettlement Impact and Indigenous Peoples Impact Screening Checklists attached in **Appendix 17 and 18**.

38. During civil work, a participatory approach will be pursued, and information dissemination requirements of the project will be adhered to. A Grievance Redress Mechanism will also be established in the project. The Executing Agency will ensure compliance to all applicable laws and the ADB SPS, 2009.

IX. NEXT STEPS

39. Lands of storm water pumping station near Fire Brigade office at collection chamber near Bakra Mandi belongs to state government and same will be allotted to Municipal Board, Nawalgarh prior to commencement of works. The updated land documents will be appended to updated DDR.

40. **Collection chamber proposed at Swamiyon ka Jav.** Storm water collection chamber is proposed on land parcel provided by Thakur Bihari Temple Trust. The trust has already provided written consent letter to Municipal Board, Nawalgarh for construction of SPS. In the same parcel of land, collection chamber is proposed under this subproject. As the trustee of Thakur Bihari Temple Trust is presently out of the town, they have provided their concurrence during telephonic discussion with the official of Municipal Board for construction of collection chamber in the same parcel of land. Extensive consultation, socio-economic profile and third-party validation will be done with the trustee and all the evidences will be appended in updated DDR, prior to commencement of civil works.

41. All the storm water of zone -1 will be disposed in **Badrana pond**. Badrana pond is under the possession of Goenka Trust. No objection certificate for disposal of storm water in the existing Badrana Johad (pond) from Goenka Trust will be obtained and same will be appended to the updated DDR. In principle during initial interactions, the Goenka Charitable Trust has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipality. Extensive consultation, socio-economic profile and third-party validation will be done with the trustee and all the evidences will be appended in updated DDR. As trustee of Goenka trust have planned to donate the Badrana pond to Municipal Board, Nawalgarh, a gift deed and third party certification will be obtained once the donation process will be completed. All these steps will be completed and documented in the updated DDR, prior start of civil works.

42. **Collection chamber proposed at Bhakton Ka Johad:** A joint site inspection visit was carried out with member/representative of PIU, Nagar Palika (Municipality), ADB Consultant, CMSC-01 and Contractor on dated 23.08.2023 at proposed Bhakton Ka Johad (Collection and Disposal Point) in Nawalgarh Drainage subproject town. It was mutually decided during joint site inspection visit that Collection Chamber will be constructed on government drain and ownership of this drain belongs to Nagar Palika (Municipality) and storm water will be disposed of at a distance of 200m into Bawdi (Stepwell). Since the land type of Bawdi (stepwell) is Johad (pond) and Johad comes under government land, and ownership of this Johad belongs to Nagar Palika (Municipality), Nawalgarh and Nagar Palika has no objection for construction/storm water disposal.). Refer **Appendix-1(a)**, Point-3.

43. **Collection pond:** As confirmed jointly by PIU and Nagar Palika, Nawalgarh that Derena Johad land is not a pasture land, type/Khasra number of this land is "Johad" (refer Appendix- 12) and this type of land belongs to government and ownership of this land belongs to Nagar Palika and it comes under the jurisdiction of Nagar Palika, Nawalgarh. This was also discussed during ADB itinerary visit in Nawalgarh with ADB Consultant and Contractor on dated 23.08.2023. In this case, land conversion for proposed Derena Johad is not required because it is Johad land not pasture land. In addition to this, however the proposed land comes under Johad category nevertheless a letter of land allotment will be required to Nagar Palika (Municipal Board) by district collector, Jhunjhunu. A proposal letter for land allotment has been sent to district collector by Nagar palika (Municipal Board) and copy of the same is attached refer appendix 1(a) point 5 and appendix- 1(b).

44. A timeline is proposed below for compliance of the above activities.

Table 9: Timeline of Activities for Compliance

S. No.	Activities	Timeline
1.	Written confirmation of Thakur Bihari Temple Trust regarding construction of storm water collection chamber at Swamiyon ka Jav	Prior to start of civil works Refer Appendix-1(a),
2.	Written confirmation of Goenka Trust regarding disposal point/collection pond at Badrana Pond	Prior to start of civil works Refer Appendix-1(a),
3.	Change in land use classification/transfer of pasture land at Derena Johad	Prior to start of civil work. As the land comes under Johad hence conversion is not required, and land allotment from DC office has been processed.

S. No.	Activities	Timeline
		Refer Para-20, Refer Appendix-1(a) (NoC) & Appendix-12 (Land Record), Appendix-14
4.	Third party validation of the land donation/ land transfer process for (i) Swamiyon ka Jav; (ii) Badrana Pond	Prior to start of civil work Refer Para-17, Refer Appendix-1(a),

45. Detailed consultation with land contributors for proposed collection chamber at Swamiyon Ka Jav will be conducted. Formal Consultation with Goenka Trust for Badrana Johad will be undertaken and same will be appended to the updated DDR. In principle, the Goenka Charitable Trust has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipal Board..

46. Formal and informal consultations will be carried out, including but not limited to focus group discussions (FGDs), public meetings, community discussions, and in-depth and key informant interviews through the implementation of the project and the same will be reported to ADB through a semi-annual social monitoring report. In case there is a change to project design or additional scope is proposed during implementation, the ADB will be promptly informed, and required documents will be updated before the start of work.

Appendix 1(a): Confirmation of Municipal Board Nawalgarh to provide Consent of Trustees and NOCs

	कार्यालय नगर पालिका मण्डल नवलगढ़ (झुन्झुनी) रेलवे स्टेशन रोड, प्रेमप्रकाश टॉकीज के पास नवलगढ़, कार्यालय e-mail-navalgarh.jaipur@gmail.com क्रमांक: न.पा.न./2023-24/11585 दिनांक: 06/03/2024
श्रीमान् मुख्य अभियंता आर.यू.आई.डी.पी. जयपुर।	
विषय: RUIDP-Phase IV (Additional Financing) के अंतर्गत नवलगढ़ शहर में प्रस्तावित ड्रेनेज परियोजना के लिए भूमि उपलब्धता एवं अनापत्ति पत्र जारी करने बाबत।	
महोदय, उपरोक्त विषयान्तर्गत यह अवगत कराना चाहता हूँ कि RUIDP- Phase IV के अंतर्गत नवलगढ़ शहर में प्रस्तावित ड्रेनेज परियोजना के तहत निम्न निर्माण कार्य किए जाने वांछित हैं, जिसके लिए चाही गई भूमि के आवंटन/अनापत्ति पत्र जारी करने हेतु निम्न प्रयास किए जा रहे हैं- 1- नवलगढ़ शहर में ड्रेनेज प्रोजेक्ट के अंतर्गत स्वामीयों का जाव भूमि नम्बर 1334-135 प्रस्तावित स्थल पर कलैक्शन चैम्बर (Collection Chamber) का निर्माण किया जाना है जिसका स्वामित्व ठाकुर बिहारी टेम्पल ट्रस्ट के पास है, और ट्रस्ट के लोग नवलगढ़ शहर से बाहर अन्य शहर में रहते हैं। चूंकि उक्त प्रस्तावित भूमि नगरपालिका क्षेत्र के अधीन है, इसलिए नगरपालिका द्वारा उपरोक्त ट्रस्ट के लोगों से निरंतर संपर्क करने का निरंतर प्रयास किया जा रहा है, तथा जैसे ही ट्रस्ट के लोगों से संपर्क होगा, नगरपालिका द्वारा उनसे लिखित में एनओसी (NoObjection Certificate) प्राप्त कर लिया जायेगा। 2- नवलगढ़ शहर में ड्रेनेज प्रोजेक्ट बदराना पॉण्ड प्रस्तावित स्थल पर डिसपोजल पॉइन्ट/ कलैक्शन पॉण्ड (Disposal point / Collection pond) का निर्माण किया जाना है जिसका स्वामित्व गोयन्का ट्रस्ट के पास है, और ट्रस्ट के लोग नवलगढ़ शहर से बाहर अन्य शहर में रहते हैं। चूंकि उक्त प्रस्तावित भूमि नगरपालिका क्षेत्र के अधीन है, इसलिए नगरपालिका द्वारा उपरोक्त ट्रस्ट के लोगों से निरंतर संपर्क करने का निरंतर प्रयास किया जा रहा है, तथा जैसे ही ट्रस्ट के लोगों से संपर्क होगा, नगरपालिका द्वारा उनसे लिखित में एनओसी (No Objection Certificate) प्राप्त कर लिया जायेगा। 3- नवलगढ़ शहर में भक्तो का जोहड़ प्रस्तावित स्थल पर कलैक्शन चैम्बर और डिस्पोजल पॉइन्ट (Collection Chamber and Disposal Point) का पीआईड्यू, नगरपालिका, एडीबीकन्सलटेन्ट, सीएमएससी-01 एवं कांटेक्टर के प्रतिनिधियों द्वारा दिनांक 23.08.2023 को संयुक्त मौका निरीक्षण किया गया। मौका निरीक्षण के दौरान आपसी विचार-विमर्श से यह तय किया गया कि कलैक्शन चैम्बर (Collection Chamber) का निर्माण सरकारी नाला पर किया जायेगा और जो नगरपालिका के क्षेत्राधिकार में आता है और स्ट्रॉम वाटर का डिस्पोजल पॉइन्ट (Disposal Point) लगभग 200 मीटर की दूरी पर बावडी (Stepwell) पर किया जायेगा। चूंकि बावडी का भूमि प्रकार (Land Type) जोहड़ है और जोहड़ सरकारी भूमि के अंतर्गत आता है, जो नगरपालिका के क्षेत्राधिकार में आती है तथा नगरपालिका को इस निर्माण से कोई आपत्ति नहीं है, इसलिए श्री विजय कुमार भगत से प्रस्तावित स्थल पर कलैक्शन चैम्बर और डिस्पोजल	

पोइन्ट (Collection Chamber and Disposal Point) के निर्माण हेतु भूमि की सहमति (Consent) लेने की कोई आवश्यकता नहीं है।

- 4- नगरपालिका फायर स्टेशन के पास पम्पिंग स्टेशन हेतु आरक्षित भूमि खसरा नं. 1332 (निवास या चारागाह के लिए नहीं) क्षेत्रफल 250.1400 हैक्टर किस्म गैर. मु. आबादी भूमि जिसके भूमिधारक राज. सरकार है जो नगरपालिका के स्वामित्व की भूमि है।
- 5- डेराना जोहड की भूमि खसरा नं0 479/390 रकबा 2.8100 हैक्टर तथा भूमि ख0नं0 391 रकबा 3.8300 हैक्टर किस्म गैर मु. की जोहड की भूमि है यह चारागाह भूमि नहीं है और जोहड कि भूमि सरकारी भूमि होती है और इसका विवरण भूमि दस्तावेजों में भी जोहड दर्शाया गया है जिसका नगरपालिका के लिए आवंटन हेतु श्रीमान् जिला कलेक्टर, झुन्झुनूं एवं श्रीमान् तहसीलदार, नवलगढ़ को प्रस्ताव भिजवाया जा चुका है। संयुक्त मौका निरीक्षण के समय भी इस पर दिनांक 23.08.2023 को एडीबीकंसलटेंट, पीआईयू, नगरपालिका एवं कांटेक्टर के साथ चर्चा हुई थी अतः इसे चारागाह भूमि के भूमि जगह जोहड कि भूमि माना जाय।

ड्रेनज कार्य हेतु भूमि अधिग्रहण की आवश्यकता नहीं है। प्रस्तावित ड्रेनेज नेटवर्क रोड के (मार्ग-अधिकार) में है जो नगरपालिका के स्वामित्व में आता है।

धन्यवाद

भवदीय

Letter No.N.P.N/2023-24/11077

15/02/2024

The Executive Engineer
PIU, Nawalgarh, RUIDP
(Phase-IV), Rajasthan

Subject: Regarding availability of land and to issue No Objection Certificate (NOC) for proposed drainage subproject in Nawalgarh town under RUIDP Phase-IV (Additional Financing).

Sir,

With reference to above mentioned subject under RUIDP Phase-IV in Nawalgarh town for proposed drainage subproject following works are desired, the following efforts are being made to issue NOC / allotment of land for desired works:

1. It is to be said that a collection Chamber is proposed in Sawamiyon Ka Jaav under drainage subproject in Nawalgarh town. The Trustee (Thakur Bihar Temple Trust/ Baanke Bihari Raadha Krishan Mandir Trust) issued their consent to Nagar Palika for the construction of STP for 400m² land parcel earlier. Since member of Trustee is not residing in Nawalgarh town and it has been regularly being tried to contact the members of Trustee by Nagar Palika (Municipality), Nawalgarh, as soon as the trust people are contacted or after returning of member of Trustee in city, a written consent/NOC will be taken from him and the same will be submitted to your department.
2. Construction of disposal point/collection pond has been proposed in Badrana Johad under drainage subproject in Nawalgarh town. Since the member of Goenka Trust is not residing in Nawalgarh town and it has been regularly being tried to contact the members of Trustee by Nagar Palika (Municipality), Nawalgarh, as soon as the trust people are contacted or after returning of member of Trustee in city, a written consent/NOC will be taken from him and the same will be submitted to your department.
3. A joint site inspection visit was carried out with member/representative of PIU, Nagar Palika (Municipality), ADB Consultant, CMSC-01 and Contractor on dated 23.08.2023 at proposed Bhakton Ka Johad (Collection and Disposal Point) in Nawalgarh Drainage subproject town. It was mutually decided during joint site inspection visit that Collection Chamber will be constructed on government drain and ownership of this drain belongs to Nagar Palika (Municipality) and storm water will be disposed off at a distance of 200m into Bawdi (Stepwell). Since the land type of Bawdi (stepwell) is Johad (pond) and Johad comes under government land, and ownership of this Johad belongs to Nagar Palika (Municipality), Nawalgarh and Nagar Palika has no objection for construction/storm water disposal. So there is no need to take consent of Shree Vijay Kumar Bhagat for the construction of (Collection Chamber and Disposal Point).
4. The land with Khasra Number 1332 (not for residence and pasture use) with a total area of 250.1400 hectare, land type Gair Mumkin residential land, situated near Fire Station, Municipal Board, is proposed for construction of Storm Water Pumping Station (SWPS).

The ownership of land belongs of State Government which is under the possession of Municipal Board, Nawalgarh.

5. The land of Derena Johad with Khasra number 479/390 Rakba 2.8100 hectare, land type Gair Mumkin is a Johad Land, and this land is not under pasture land. The Johad land comes under Government land, and its details are mentioned as Johad land in revenue records. This Johad land situated under the jurisdiction of Municipal Council and the land is under possession and ownership of Municipal Board, Nawalgarh. A proposal has already been sent to district collector and tehsildar for allotment of the land to Nagar Palika (Municipal Board), Nawalgarh. At the time of joint site visit (by ADB's consultant, PIU officials, Contractor team and representative of Municipal Board) was held on dated 23.08.2023, it was discussed and decided that proposed land is not under the pasture land category, while this land comes under Johad category.

Land acquisition is not envisaged for all works of proposed drainage subproject, the drainage network/alignment have been proposed within RoW (Right of Way) of Municipal Board, Nawalgarh and ownership possessed by Municipal Board, Nawalgarh.

Ram Ratan Choudhary
Executive Officer
Nagar Palika Nawalgarh

English Transcript**Shri District Collector
Jhunjhunu****Subject: Regarding allotment of land of Dedhana Johad situated in the municipal area.**

Reference:- In the context of this office letter number 3565 dated 24.09.2021.

Sir,

It is requested with reference to above letter, it is to say that a city level meeting was organized in the auditorium of this office on dated 16.09.2021 regarding the drainage work in Nawalgarh city under the fourth phase (Trench-II) of RUIDP for the recommendation of DPR amount of Rs.32.37 crore, for Derena Johad land (Khasra No.384, 388, 391, 401, 478/ 228, 479/390) which is situated in Durjanpura village in the periphery area of Nagar Palika (Municipal Board), total land area is 10.9500 hectare, will be developed and proposed for beautification. For this, an amount of Rs. 15.51 crore has been sanctioned by the state government. Earlier sanctioned order is also sought from you in this regard by reference letter that is still pending.

Therefore, you are requested kindly accord your approval for the allotment of said land in the favour of Nagar Palika (Municipal Board), Nawalgarh as per the land allotment policy.

(Anil Kumar)
Executive Officer
Municipal Board,
Nawalgarh

Most of the dirty water of households/storm water filled up with either sludge or mud resulting pondings. After knowing by the communities that proposed storm water drain will be laid with the assistance of funding agencies, local people are expecting this time storm water drain pipeline will be in a planned manner and laid in a proper way. Local communities/ shopkeepers were very happy during disclosure /consultation of ADB's policies and mitigation measures adopted by contractor during laying of pipelines.
31.05.2023 Near Bakra Mandi, Nawalgarh	Total-11 Male-11 Female 00	Project components under RSTDSP- additional financing and the benefits to the community. Process of logging grievance and its mechanism under the project.	Process of grievance redress mechanism was also briefed with participants for lodging of suggestions/complaints on toll free number. During consultation with local residents it was briefed that three collection chambers, one SWPS and three disposal pond will be constructed to cope with the present situation of water logging, lack of drainage system etc.
01.09.2022	Trustee of Thakur Bihari Temple Trust, Goenka Trust	Construction of collection chambers and disposal points and consent for the same	As the trustee of Thakur Bihari Temple Trust Goenka Trust is out of the town, Municipal board have telephonic discussion regarding the proposed works with the trustees. Trustee of Thakur Bihari Temple Trust have confirmed that as the proposed collection chamber is to be constructed in the same parcel of land for which they have provided their consent earlier, hence they have no objection. Trustee of Goenka Trust have also provided consent for disposal of storm water in the Badrana Pond/Johad. ²⁵

²⁵ Badrana Johad under the Goenka Charitable Trust has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipality.

Appendix 4: City Level Committee Minutes of Meetings on 08.02.2022

	Office of Superintending Engineer Project Implementation Unit (RSTDSP), RUIDP, PIU, Ratangarh	
No. RUIDP/PIU/RTG/PH-IV/Nawalgarh/2021-22/ <u>8084-88</u>		Date: 03-09-2021 <u>08-11-2021</u>
A city level Committee was held under the chairmanship of District Collector, Jhunjhunu at Nagar Palika Meeting Hall, Nawalgarh on 16.09.2021 to discuss the Storm Water and Heritage work under RUIDP Phase-IV for Nawalgarh town. List of members/officials attended the meeting is at Annexure-A.		
1. It was apprised that the DPR of the Storm Water and Heritage work is prepared by the Consultant M/S Exceltech Consultant private limited, Jaipur engaged by Municipal Board, Nawalgarh, which will be considered under RUIDP Phase-IV. The suggestions from state holders of city level Committee will be considered in the project. 2. The basic scope of works & provision in DPRs were briefed to the Committee by power point presentation. The estimated cost of DPR is of about Rs39.47Cr (capital cost) for works proposed under Storm Water and Heritage work. The capital cost for execution of works will be borne by the stake Government financed by ADB under RUIDP Phase-IV. The O & M cost for Storm Water is to be borne by Municipal Board. The O & M payment will be performance based under the contract. After completion of project works the whole town will be benefitted with Storm Water drainage system and Heritage work. 3. The brief scope of works are as follows: - Storm Water Works: - Four depression point where rain water filled are found out namely Swamiyo ka jav, Bakra mandi, Bhagto ka johad and near fire station. Storm water collected at Swamiyo ka jav will be taken to Badrana johad by gravity flow, storm water collected at Bakra mandi will be taken to fire station by gravity flow after this water will be pumping to Dedhana johad and storm water collected at Bhagto ka johad will be takne to Baori by gravity flow. One pumping station will be constructed at fire station and four depression area will be filled by soil and developed these areas estimated cost Rs. 12.95 Cr. Heritage Works: - A. Old dedhana johad will be developed and public facilities work estimated cost 8.43 Cr. B. Old Bhadrana johad will be developed estimated cost Rs. 1.25 Cr. C. Historical and religious place Baba Ramdev Temple area developed estimated cost 2.56 Cr. D. Heritage gate Nansa Gate, Podar Gate, Baori Gate and Mandi Gate & Heritage walk in Nawalgarh Town will be renovated estimated cost 7.26 Cr. E. Entry gate in heritage look near Krishi Upaj Mandi will be constructed estimated cost 1.50 Cr. F. Play ground near Mela ground will be developed and providing play facilities to public and players estimated cost 4.22 Cr. 4. The representative of the Municipal Council suggested to take up the excavation of trenches for Storm water work in such a way, that trench excavated for laying Drainage pipe should not be laying longer without restoration. 5. It was assured that suggestions and directions of the city level committee will be incorporated in the proposed detailed project report.		
After deliberation, the project was agreed by the committee for further course of action at RUIDP level. Meeting ended with vote of thanks to chair.

Office, Municipal Board Board, Nawalgarh

Letter no: N.P.N/2022/749

Date: 06.05.2022

To,
Chief Engineer,
RUIDP, Jaipur

Sub: Regarding land allotment for proposed drainage work for sort out the water logging problems in Nawalgarh town under RUIDP-Phase IV

Sir,

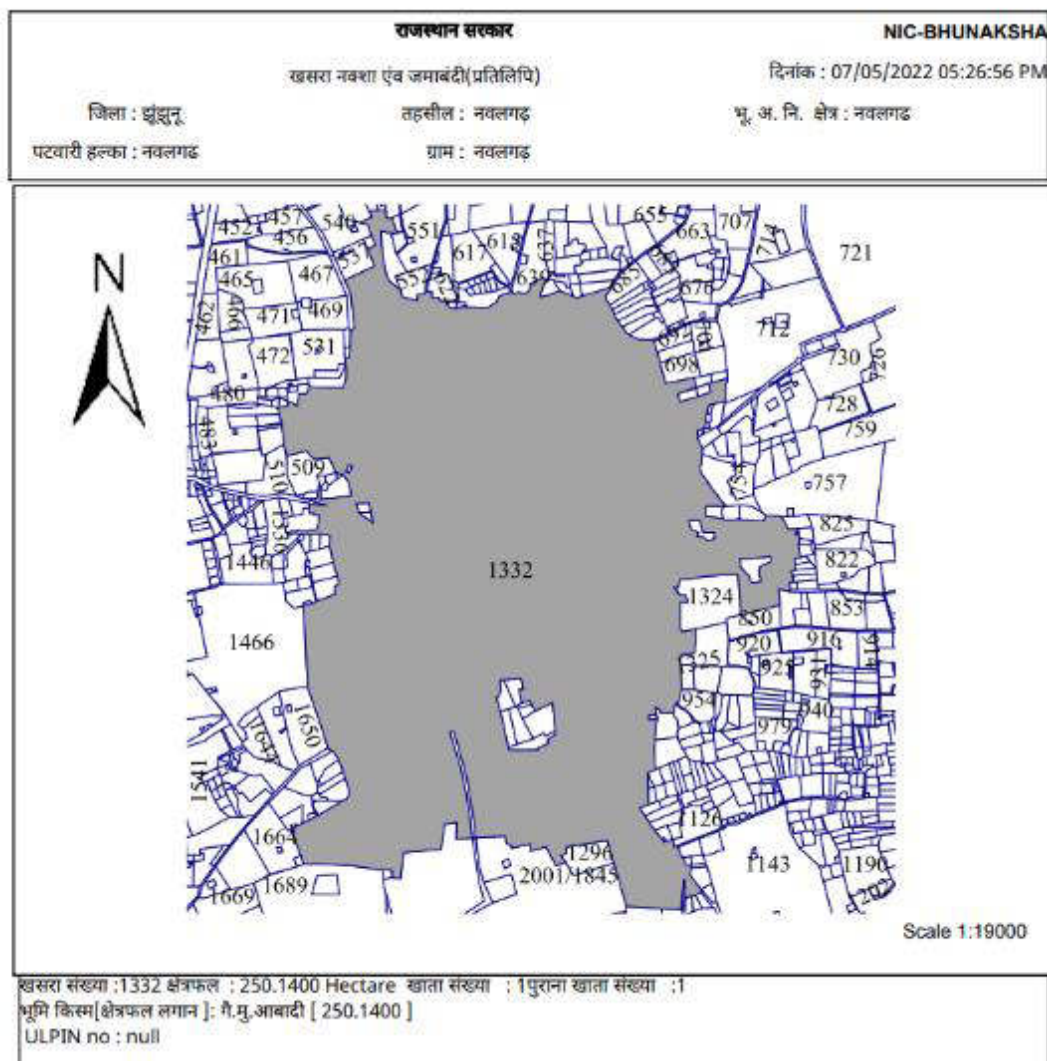

With reference to the above cited subject, a pumping station near Fire Brigade office and three storm water collection chambers at Swamiyaon Ka Jav, Bakra Mandi and Bahakto Ka Johad are proposed in drainage works under RUIDP-Phase IV. Along with these components, 6 km drain is also proposed near Swamiyon Ka Jav, Bakra Mandi and Near Fire Brigade office. Land ownership detail of following location is as under;

1. The land for pumping station near fire station of Khasra number 1332 (is non-populated areas and land is under possession of Rajasthan Government and the ownership of the land belongs to Municipal Board.
2. The land of Derana Johad of Khasra no 479/390 with 2.8100 hectare is reserved for Johad. A proposal has been sent to the district collector for allotment of such land to Municipal Board.
3. The land with Khasra Number 1334-1335 of Swamiyon Ka Jav is under possession of Mandir Trust of Shri Thakur Ji Bihari. Mandir trust has already given the approval/consent for providing 400 square meter land for construction of Sewage Pumping Station (SPS). In the same parcel of land, drainage works are proposed.
4. Badrana Johad under the Goenka Charitable Trust has already given their assurance through their trustee (Mr. Badridas Chowdhury) to transfer the land to Municipality.

In addition to the above, no other land acquisition is required for drainage networks works and proposed networks will be established along with the road which is under possession of Municipal Board.

Anil Kumar
Executive Officer
Municipal Board, Nawalgarh

I, Bhanwar Lal Swami S/o Shri. Bhagirathmal Swami , Caste- Swami, Resident- Ward no.-09 (New), Town-Nawalgarh, Tehsil-Nawalgarh, District-Jhunjhunu (Rajasthan) hereby inform that Banke Bihari, Radah Krishan temple is under possession of Swami family. Presently, this land is not in any use and local wastewater is getting accumulated in this land. If Municipal Board, Nawalgarh wants to construct a sewage pumping station (SPS) on 400 square meter at such land under a sewage project for which, we/temple trust doesn't have any objection. Pumping station is required as wastewater is getting accumulated in this land and creating problem to local habitation. I am in favor of providing 400 (20X20) square meter land for construction of proposed sewage pumping station (SPS) to mitigate the sewage related problem and construct sewage plant with automatic technology. In the remaining portion of land plantation may be carried-out. In that condition I am providing my consent to donate 400 square meter land for construction of SPS for benefit of the larger community.

The area surrounding the proposed land is as follows;

North Side: Bhanwarlal Swami's land

South Side: Road

East Side: Road

West Side: Land of Surendra Singh, Sanjay Kumar and Pintu Swami

Bhanwar Lal Swami
Resident- Ward no-9 , town- Nawalgarh,
Tehsil- Nawalgarh, District- Jhunjhnu

The Chief Engineer
RUIDP
Jaipur (Rajasthan)

Subject: Regarding availability of land for drainage work

Sir,

Following are point wise information regarding availability of land for drainage work:

6. It is to be informed that a Collection Chamber is proposed in Sawamiyon Ka Jaav. The consent was already issued by Baanke Bihari Raadha Krishan Mandir Trust for the construction of sewage pumping station in 400 m² land parcel by Swami (owner) / Caretaker / Pujaari (priest) and recently a collection chamber has been proposed in that 400 m² land parcel. If collection chamber is constructed in same land parcel then Mandir Trust have no objection for said work. Since the land owner (authorised representative of the Mandir trust) is not residing in Nawalgarh, after returning of land owner in city a written consent will be taken from him and the same will be submitted to your department.
7. Construction of disposal point has been proposed in Badrana Johad, land is under the possession of Goenka Trust. Nagar Palika had a telephonic consultation with the representative of the trust and made him aware about the proposed work and the land owner has given his consent regarding the proposed work and trust has ensured to send their consent to Nagar Palika by e-mail.

Anil Kumar
Executive Officer
Nagar Palika, Nawalgarh

प्रमाण पत्र

कस्बा नवलगढ़ में आर.यू.आई.डी.पी. के फेज 4 ट्रांच 2 के तहत ड्रेनेज प्रोजेक्ट के हेतु निम्नलिखित स्थानों की भूमि को सिन्हीकरण किया जाता है :-

1. स्वामियों का जांव (कलेक्शन चैम्बर)
2. फायर ऑफिस के पास (एस.डब्ल्यू.पी.एस.)
3. इकरा भण्डी (कलेक्शन चैम्बर)
4. डेडाना जोहड़ (डीसपोजल पोइन्ट)
5. भक्तों का जोहड़ (कलेक्शन चैम्बर)
6. बरडाना जोहड़ (डीसपोजल पोइन्ट)

उपरोक्त स्थानों के प्रस्ताव अनुसार ड्रेनेज प्रोजेक्ट के कार्य किये जाते हैं तो नगर पालिका नवलगढ़ को कोई आपत्ति नहीं है।

नोट :- क्रम सं. 4 पर वर्णित डेडाना जोहड़ की भूमि पैरा-फैरी क्षेत्र में स्थित होने के केवल बरसाती पानी की निकासी के उपयोग में ली जावे।

Certificate

The land at the following places is identified for the drainage project under Phase 4, Trench II of RUIDP in Nawalgarh town –

1. Swamiyon ki Jav (Collection Chamber)
2. Near Fire office (SWPS)
3. Bakara Mandi (Collection Chamber)
4. Derena Johad (Disposal Point)
5. Bhakton ka Johad (Collection Chamber)
6. Badrana Johad (Disposal Point)

Municipality - Nawalgarh has no objection if the drainage project work is carried out as per the proposal at the above mentioned places.

Note - Due to the land of Derena Johar mentioned at serial no. 4 being situated in periphery area, it should be used only for drainage of rain water.

विषय:- ड्रेनेज कार्य हेतु भूमि की उपलब्धता के संबंध में रिपोर्ट प्रेषित करने बाबत।

महोदय,

उपरोक्त विषयान्तर्गत ड्रेनेज कार्य हेतु भूमि की उपलब्धता के संबंध में बिन्दुवार रिपोर्ट निम्नानुसार पेश है :-

1. यह है कि स्वामियों का जांव में जो कलेक्शन चेम्बर प्रस्तावित है जो पूर्व में वाके बिहारी राधा कृष्ण मंदिर ट्रस्ट द्वारा सीवरेज योजनान्तर्गत सीवरेज पम्पिंग स्टेशन के निर्माण हेतु 400 वर्गमीटर भूमि के लिए भूखण्ड स्वामी/केयर टेकर/पूजारी द्वारा अपनी सहमति प्रदान की जा चुकी है एवं वर्तमान में उक्त 400 वर्गमीटर भूखण्ड में कलेक्शन चेम्बर का कार्य किया जाना प्रस्तावित है जिससे मंदिर ट्रस्ट को कोई आपत्ति नहीं है। चूंकि उक्त जमीन/भूखण्ड के स्वामी/मालिक नवलगढ़ शहर के बाहर निवासरत है तथा भूखण्ड स्वामी/मालिक की नवलगढ़ शहर में वापसी के पश्चात् लिखित रूप में सहमति प्राप्त कर ली जावेगी और उपयुक्त दस्तावेज आपके विभाग को सुपुर्द कर दिया जावेगा।
2. यह है कि भगतों के जोहड़ में कलेक्शन चेम्बर एवं डिस्पोजल पोईन्ट प्रस्तावित है। उक्त भूमि में पूर्व में सीवरेज ट्रीटमेन्ट प्लान्ट के निर्माण हेतु श्री विजय कुमार भगत द्वारा 2116 वर्गमीटर भूमि के लिए सहमति प्रदान की जा चुकी है, उक्त जमीन/भूखण्ड के स्वामी/मालिक नवलगढ़ शहर के बाहर निवासरत होने के कारण नगरपालिका द्वारा दूरभाष पर प्रस्तावित कार्य हेतु अवगत करवाया गया और इस सम्बन्ध में भूखण्ड स्वामीयों द्वारा अपनी सहमति प्रदान की गई। भूखण्ड स्वामी/मालिक की नवलगढ़ शहर में वापसी के पश्चात् लिखित रूप में सहमति प्राप्त कर ली जावेगी और उपयुक्त दस्तावेज आपके विभाग को सुपुर्द कर दिया जावेगा।
3. यह है कि बदराणा जोहड़ में डिस्पोजल पोईन्ट निर्माण कार्य प्रस्तावित है, उक्त भूमि गोयनका ट्रस्ट के अधीन है और नगरपालिका द्वारा दूरभाष पर ट्रस्ट के प्रतिनिधि द्वारा प्रस्तावित कार्य हेतु अवगत करवाया गया और इस सम्बन्ध में भूखण्ड स्वामीयों द्वारा अपनी सहमति प्रदान की गई एवं ट्रस्ट द्वारा अपना सहमति पत्र जरिये ई-मेल नगरपालिका को भिजवाना सुनिश्चित किया है।

अतः ड्रेनेज कार्य हेतु भूमि की उपलब्धता के संबंध में उपरोक्तानुसार बिन्दुवार रिपोर्ट पेश है।

विषय:-नवलगढ़ शहर की जल निकासी की समस्या एवं जल भराव के निराकरण हेतु आर.यू.आई.डी.पी. चतुर्थघरण के अन्तर्गत प्रस्तावित ड्रेनेज कार्य हेतु भूमि उपलब्धता बाबत में।

महोदय,

उपरोक्त विषयान्तर्गत निवेदन है कि प्रस्तावित ड्रेनेज कार्य हेतु एक पम्पिंग स्टेशन फायर ब्रिगेड-ऑफिस (अग्निशमन कार्यालय) में प्रस्तावित है एवं तीन जल संग्रहण जो स्वामियों का जांव, बकरामण्डी एवं भगतों का जोहड़ में प्रस्तावित है तथा साथ ही साथ 6 कि.मी. का ड्रेन जो स्वामियों का जांव, बकरा मण्डी एवं फायर ब्रिगेड ऑफिस (अग्निशमन कार्यालय) के पास प्रस्तावित है। उपरोक्त स्थलों के स्वामित्व के संबंध में सूचना निम्नानुसार है :-

1. नगरपालिका फायर स्टेशन के पास पम्पिंग स्टेशन हेतु आरक्षित भूमि खसरा नं. 1332 (निवास या चारागाह के लिए नहीं) क्षेत्रफल 250.1400 हैक्टर किस्म गैर मु. आबादी भूमि जिसके भूमिधारक राज. सरकार है जो नगरपालिका के स्वामित्व की भूमि है। 391 रकबा 3.83 h9
2. डेराना जोहड़ की भूमि ख0नं0 479/390 रकबा 2.8100 हैक्टर किस्म गैर मु. की जोहड़ की भूमि है जिसको नगरपालिका के लिए आवंटन हेतु श्रीमान् जिला कलेक्टर, झुन्झुनू को प्रस्ताव भिजवाया जा चुका है।
3. स्वामियों का जांव की भूमि मंदिर श्री ठाकुर जी बिहारी जी ख0नं0 1334-135 में से सीवरेज पम्पिंग स्टेशन हेतु आवश्यकतानुसार 400 वर्गमीटर भूमि उपलब्ध करवाने हेतु संबंधित द्वारा सहमति प्रदान की जा चुकी है। उपरोक्त में से पर्याप्त भूमि रिक्त है जो ड्रेनेज कार्य हेतु प्रस्तावित है। (प्रति संलग्न) है।
4. भगतों के जोहड़ में पम्पिंग स्टेशन हेतु आरक्षित भूमि के सम्बन्ध में राजस्व रिकॉर्ड में दर्ज खातेदारान् (विजय कुमार भगत) द्वारा उक्त भूमि पालिका के पक्ष में सीवरेज योजना हेतु सीवरेज ट्रीटमेन्ट प्लांट स्थापित किये जाने हेतु आवश्यकतानुसार 2116 वर्गमीटर भूमि के सहमति पत्र के जरिये सहमति प्रदान कर दी गई है। उपरोक्त में से पर्याप्त भूमि रिक्त है जो ड्रेनेज कार्य हेतु प्रस्तावित है। (प्रति संलग्न है)
5. बदराणा जोहड़ की भूमि में संबंधित बदरीदास चौधरी (गोयनका शेरीटेबल ट्रस्ट) जरिये गोकुलचन्द गोयनका में संबंधित खातेदारान् द्वारा भूमि नगरपालिका के नाम किये जाने हेतु सहमति प्रदान की जा चुकी है।

उपरोक्त के अतिरिक्त ड्रेनेज कार्य हेतु भूमि अधिग्रहण की आवश्यकता नहीं है। प्रस्तावित ड्रेनेज नेटवर्क रोड के (मार्ग-अधिकार) में है जो नगरपालिका के स्वामित्व में आता है।

Office, Nagar Palika, Nawalgarh (Jhunjhunu)

Letter no: N.P.N./2024-25/202

Date:24.04.2024

To,
Chief Engineer
RUIDP, Phase-IV
Jaipur, Rajasthan

Subject: Modified report on the availability of land for proposed Nawalgarh drainage sub-project
References:

- Letter number 749 on dated 06.05.2022 from Nagar Palika, Nawalgarh
- Letter number 5101 on dated 02.09.2022 from Nagar Palika, Nawalgarh

Sir,

In reference to the above-cited subject and letters, modified report regarding the availability of land for the proposed drainage sub-project is following;

1. This is to certified that the point number 04 from Nagar Palika's letter number 749 dated 06.05.2022 is now considered not valid/effective under the current circumstances.*
2. This is to certified that the point number 02 from Nagar Palika's letter number 5101 dated 02.09.2022 is now considered not valid/effective under the current circumstances.*

Therefore, as mentioned above, the modified report is presented for the same.

Ram Ratan Choudhary
Executive Officer
Nagar Palika, Nawalgarh

* The original location for the storm water collection of 9.10MLD is proposed in the land owned by Mr. Vijar Kumar Bhagat. However, as per latest field visit, the land of Mr. Vijar Kumar Bhagat will no longer be utilized for the subproject. Hence, this letter/certification has been issued to cancel Mr. Bhagat's name from the previously issued NOC and/or land confirmation issued by the Municipal Board.

Appendix 16: Grievance Registration Format
(to be translated and made available in local language/s)

The _____ Project welcomes complaints, suggestions, queries and comments regarding project implementation.

Aggravated persons may provide grievance with their name and contact information to enable us to get in touch for clarification and feedback.

In case, someone chooses not to include personal details and wants that the information provided to remain confidential, please indicate by writing/typing ***(CONFIDENTIAL)*** above Grievance Format.

Thank you.

Involuntary Resettlement Impact Categorization Checklist

Probable Involuntary Resettlement Effects	Yes	No	Not Known	Remarks
Involuntary Acquisition of Land				
1. Will there be land acquisition?		√		No involuntary acquisition of private land is anticipated for this subproject. Based on transect walk, site visits and consultation it is confirmed that proposed storm water pumping station, storm water collection chamber, collection pond, rising main and gravity mains works will have no involuntary resettlement impact either temporary or permanent.
				(i) Storm water pumping station is proposed on government land near Fire Brigade office.
				(ii) Storm water collection chamber at Swamiyon ka Jav is proposed in the same parcel of land for which temple trust has already provided their consent for construction of pumping station under government scheme. Trustee have also agreed for the proposed works and same has been confirmed by Municipal Board, Nawalgarh.
				(iii) Badrana pond is also proposed for disposal point, which is under the possession of Goenka Trust. Trustee of Goenka trust have agreed to provide the land for the proposed disposal pond. No objection for disposal of storm water in the existing Badrana Johad (pond) from Goenka Trust will be obtained.[1]
				(iv) A joint site inspection visit was carried out with member/representative of PIU, Nagar Palika (Municipality), ADB Consultant, CMSC-01 and Contractor on dated 23.08.2023 at proposed Bhakton Ka Johad (Collection and Disposal Point) in Nawalgarh Drainage subproject town. It was mutually decided during joint site inspection visit that Collection Chamber at Bhakton Ka Johad will be constructed on government drain in zone-4 (Khasra no. 744 Lat: 27°859819, Long: 75°283768) and ownership of this drain (passing along the Bhakton Ka Johad area) belongs to Nagar Palika (Municipality) and storm water will be disposed off at a distance of 200m into Bawdi (Stepwell). Since the land type of Bawdi (stepwell) is Johad (pond) and Johad comes under government land, and ownership of this Johad belongs to Nagar Palika (Municipality), Nawalgarh and Nagar Palika has no objection for construction/storm water disposal.

				(v) As per the original proposal, for the collection pond proposed on the pasture land at Derena Johad, the process of land conversion i.e. change in land use classification/transfer with the intervention of District Collector will be completed before start of civil work. As confirmed jointly by PIU and Nagar Palika, Nawalgarh that Dedana Johad land is not a pasture land, type/Khasra number of this land is "Johad" (refer Appendix-12) and this type of land belongs to government and ownership of this land belongs to Nagar Palika and it comes under the jurisdiction of Nagar Palika, Nawalgarh. This was also discussed during ADB itinerary visit in Nawalgarh with ADB Consultant and Contractor on dated 23.08.2023.
				(vi) Rising/gravity mains of dia (500-600 mm) is proposed in the right of way of government road, which is owned by Municipal board, Nawalgarh. Transect walk conducted along the proposed rising/gravity main alignment has confirmed that no commercial establishment - permanent shops or mobile vendors exist along the route and no economic impact is anticipated.
				All the land parcels proposed for the construction of subproject facilities are free of encumbrances, not used for any productive purpose by any individual or community. Third party certification will be undertaken for all sites that are proposed to be constructed on private/trust land.
2. Is the site for land acquisition known?		√		
3. Is the ownership status and current usage of land to be acquired known?		√		
4. Will easement be utilized within an existing Right of Way (ROW)?		√		
5. Will there be loss of shelter and residential land due to land acquisition?		√		

6. Will there be loss of agricultural and other productive assets due to land acquisition?		√		
7. Will there be losses of crops, trees, and fixed assets due to land acquisition?		√		
8. Will there be loss of businesses or enterprises due to land acquisition?		√		
9. Will there be loss of income sources and means of livelihoods due to land acquisition?		√		
Involuntary restrictions on land use or on access to legally designated parks and protected areas				
10. Will people lose access to natural resources, communal facilities and services?		√		
11. If land use is changed, will it have an adverse impact on social and economic activities?		√		
12. Will access to land and resources owned communally or by the state be restricted?		√		
Information on Displaced Persons: NOT APPLICABLE				

Any estimate of the likely number of persons that will be displaced by the Project?	☐ Yes ☐ No
☒ Not Applicable	
If yes, approximately how many? _____	
Are any of them poor, female-heads of households, or vulnerable to poverty risks?	☐ Yes ☐ No ☒ Not Applicable
Are any displaced persons from indigenous or ethnic minority groups?	☐ Yes ☐ No
☒ Not Applicable	

Appendix 18: Indigenous Peoples Impact Screening Checklist

KEY CONCERNS (Please provide elaborations on the Remarks column)	YES	NO	NOT KNOWN	Remarks
A. Indigenous Peoples Identification				
1. Are there socio-cultural groups present in or use the project area who may be considered as "tribes" (hill tribes, scheduled tribes, tribal peoples), "minorities" (ethnic or national minorities), or "indigenous communities" in the project area?		√		No impacts to indigenous people/communities due to the subproject involving direct or indirect impacts to the dignity, human rights, livelihood systems or territories or natural or cultural resources that are used, owned, occupied or claimed by indigenous peoples as their ancestral domain or asset, are anticipated. Nawalgarh does not fall in a scheduled area, has a 0.17% of population classified as scheduled tribe, which is scattered (does not stay in tribal groups / community enclaves), is well assimilated in urban society, and does not retain the characteristics of scheduled tribes ²⁶ or indigenous peoples groups. ²⁷ There is no recorded presence of indigenous peoples' groups or communities, including particularly vulnerable tribal groups
2. Are there national or local laws or policies as well as anthropological researches/studies that consider these groups present in or using the project area as belonging to "ethnic minorities", scheduled tribes, tribal peoples, national minorities, or cultural communities?		√		
3. Do such groups self-identify as being part of a distinct social and cultural group?		√		
4. Do such groups maintain collective attachments to distinct habitats or ancestral territories and/or to the natural resources in these habitats and territories?		√		
5. Do such groups maintain cultural, economic, social, and political institutions distinct from the dominant society and culture?		√		
6. Do such groups speak a distinct language or dialect?		√		
7. Has such groups been historically, socially and economically marginalized, disempowered, excluded, and/or discriminated against?		√		
8. Are such groups represented as "Indigenous Peoples" or as "ethnic minorities" or "scheduled tribes" or "tribal populations" in any formal decision-making bodies at the national or local levels?		√		

²⁶ As per the Constitution of India, criteria followed for identification of a community as a scheduled tribe are (i) tribes' primitive traits; (ii) distinctive culture; (iii) shyness with the public at large; (iv) geographical isolation; and (v) social and economic backwardness.

²⁷ ADB SPS, 2009 uses the term indigenous peoples in a generic sense to refer to a distinct, vulnerable, social and cultural group possessing the following characteristics: (i) self-identification as members of a distinct indigenous cultural group and recognition of this identity by others; (ii) collective attachment to geographically distinct habitats or ancestral territories in the project area and to the natural resources in these habitats or territories; (iii) customary cultural, economic, social or political institutions that are separate from those of the dominant society and culture; and (iv) a distinct language, often different from the official language of the country or region.

KEY CONCERNS (Please provide elaborations on the Remarks column)	YES	NO	NOT KNOWN	Remarks
B. Identification of Potential Impacts				in Nawalgarh Municipality.
9. Will the project directly or indirectly benefit or target Indigenous Peoples?		√		
10. Will the project directly or indirectly affect Indigenous Peoples' traditional socio-cultural and belief practices? (e.g. child-rearing, health, education, arts, and governance)		√		
11. Will the project affect the livelihood systems of Indigenous Peoples? (e.g., food production system, natural resource management, crafts and trade, employment status)		√		
12. Will the project be in an area (land or territory) occupied, owned, or used by Indigenous Peoples, and/or claimed as ancestral domain?		√		
C. Identification of Special Requirements <i>Will the project activities include:</i>				
13. Commercial development of the cultural resources and knowledge of Indigenous Peoples?		√		
14. Physical displacement from traditional or customary lands?		√		
15. Commercial development of natural resources (such as minerals, hydrocarbons, forests, water, hunting or fishing grounds) within customary lands under use that would impact the livelihoods or the cultural, ceremonial, spiritual uses that define the identity and community of Indigenous Peoples?		√		
16. Establishing legal recognition of rights to lands and territories that are traditionally owned or customarily used, occupied or claimed by indigenous peoples?		√		
17. Acquisition of lands that are traditionally owned or customarily used, occupied or claimed by indigenous peoples?		√		

D. Anticipated project impacts on Indigenous Peoples: NOT APPLICABLE

Project component/ activity/ output	Anticipated positive effect	Anticipated negative effect
1.Construction of Drain work- Nawalgarh town	Not Applicable
