Dear Mr. Mandawaria,

Please find attached final formatted RP in Word and PDF versions.

Also, the RP has been disclosed already in the ADB's website. Sharing with you the link below for your reference.

RSTDSP updated draft_RP-Ratangarh

Thank you very much!

Best regards,

Joanna

From: Saswati G. Belliappa <sbelliappa@adb.org>**Sent:** Friday, June 25, 2021 4:20 PM**To:** Joanna M. Navarro <jnavarro1.consultant@adb.org>; KALYAN MAL Mandawaria <kalyanmandawaria@gmail.com>**Cc:** Na Won Kim <nawonkim@adb.org>; Gladys A. Agbu <gagbu.consultant@adb.org>; ANIRBAN CHATTOPADHYAY <chattopadhyayanirban08@gmail.com>**Subject:** RSTDSP: Updated RP Ratangarh (No Objection)

Dear Joanna,

Please do minor formatting of the attached RSTDSP RP Ratangarh (Updated Draft), run IRIS and disclose. Please delete all comments/responses and send a clean Word version, PDF version as well as the disclosed document link to Mr. Mandawaria.

Dear Mr. Mandawaria,

We have No Objection to the attached version of the updated draft RP Ratangarh. Joanna will send the final formatted version – we will then request you to disclose that version and send us the disclosed document link.

Thanks and regards,

Saswati Belliappa

EXECUTIVE SUMMARY

Background. The Rajasthan Secondary Towns Development Sector Project (RSTDSP), is the fourth phase of investment projects financed by Asian Development Bank (ADB) and implemented by the Rajasthan Urban Drinking Water Sewerage and Infrastructure Corporation Limited-Externally Aided Projects (RUDSICO-EAP), previously known as Rajasthan Urban Infrastructure Development Project (RUIDP). RSTDSP will support the ongoing efforts of the Government of Rajasthan (the government) towards improving the water and wastewater services in about 14 towns, each with population between (50,000 and 100,000, in the state) or which are district headquarters (irrespective of population) or having heritage, cultural or other importance and irrespective of population. The project will invest in (i) the rehabilitation and expansion of water supply network through a district metering approach for management of nonrevenue water (NRW) and aiming for 24x7 water supply, (ii) the rehabilitation and expansion of sewerage network, (iii) modernization and new construction of water supply and waste water treatment plants, as required, (iv) construction of faecal sludge management treatment plant, and (v) decentralized waste water management systems in the project towns. The project also aims for wastewater reuse and a city-wide, inclusive sanitation approach to improve sanitation for all, including below poverty line households. The project is expected to increase operational efficiency, improve service delivery, and result in positive impact on health and quality of life for the residents of project towns in the state. Ratangarh, a town in Churu district of Rajasthan, is one of the project towns selected under RSTDSP for sewerage works.

Subproject Description: Subproject components include (i) Construction of 2 sewage treatment plants (STP) - STP-1 of 3.80 MLD at Johari near NH-11 and STP-2 of 6.10 MLD near Gaushala (a cattle care centre), based on Sequencing Batch Reactor (SBR) Technology; (ii) Construction of 2 sewage pumping stations (SPS); SPS-1 (4.60 mild) - near Main Gianni pond and SPS-2 near BSNL office (3.80 mild); (iii) Laying of 158 km. (HDPE DWC SN8 -146 km and RCC pipes NP4 - 1.9 km,) including 10.18 km by trenchless technology) of sewer lines; (iv) House service connection -14300 units; (v) Electrical and mechanical works; (vi) Rising main for pumping the sewage from a) SPS near Main Gianni to STP near Gianni (Gaushala, ward no.1) and b) SPS near BSNL office to STP near NH-11 (Johari); (vii) Treated effluent reuse works; (viii) Faecal sludge and septate management (FSSM); (ix) Instrumentation, automation and Supervisory Control and Data Acquisition (SCADA) works and stores etc. along with ancillary civil works; (x) CC/BT road restoration; (xi) Consumer relation management centre-2 nos.; (xii) Other related works; (xiii) Operation and maintenance of sewerage system (from inspection chamber to STP) for 10 Years; (xiv) Design, construction, execution, testing and commissioning of sewer pipe from STP effluent chamber to natural drain; (xv) Safe disposal of sludge.

Scope of Land Acquisition and Resettlement: No involuntary acquisition of private land is anticipated for this subproject. Construction of STP-1 of 3.80 MLD near Johari NH-11, is proposed to be taken up in an unproductive/vacant government land, earlier classified as pastureland. Land allotment has been made by the order of district collector as per Rajasthan land reforms act,1963 and as compensatory measure, the collector has set aside an equivalent land area from another Municipality owned land parcel and declared it as pasture land. Construction of STP-2 of 6.10 MLD near Gaushala (a cattle care centre) will be carried out in a vacant land owned by a Gaushala trust. The trust has agreed to provide land under a lease agreement which has been formalized (based on monthly payable rent and free supply of treated wastewater). The trust has also issued a no objection certificate for use of its land for STP construction. Third party certification of the process has been completed and a formal legal agreement has also been signed between Municipality (Nagar Palika) and Gaushala Trust for use of this site. Both sewage pumping stations (SPS) i.e., SPS-1 near main Ginani pond and SPS-2 near BSNL office will be constructed in the

unproductive/vacant land owned by Municipality. One Consumer Relation Management Centres (CRMC) will be constructed in the same premises where SPS-1 is proposed, while second CRMC will be constructed in the Municipality office premises. The location of CRMC which was earlier proposed in the premises of SPS near BSNL office has been changed after assessment of site feasibility and new location finalized in the premises of Municipality, Ratangarh; which is vacant and encumbrances.

Pipelines of sewer network are proposed within the existing available right of way (RoW) of government roads and no loss of structure, common property resources (CPRs) or relocation impact is envisaged. All proposed RoW of roads for laying pipelines are owned by government departments. However, transect walk and public consultations suggest that execution of pipeline work may cause temporary loss of livelihood/income due to access disruptions to 287 road side non-titled mobile vendors /transitory structure (pushcarts etc.). Based on data from the impact assessment and socio-economic survey, 76 affected persons (26%) belong to vulnerable category.

Consultation and Disclosure: Goals and objectives of the project have been disclosed to stakeholders (including, beneficiaries, affected persons, elected representatives and institutional stakeholders) during preparation of detailed project report and preparation and updating of this resettlement plan through consultation meetings. Stakeholders have been briefed about technical details of the project, implementation cycle and project benefits. It also included discussion over adverse impacts envisaged and concerns related to traffic disruption, impacts on livelihood; environmental and social safeguards, gender inclusion, community participation aspects built into the project etc. Consultation with stakeholders including local communities shall be continued throughout the project cycle. A summary of resettlement framework and resettlement plan in local language will be disclosed to representatives of all key stakeholders through a city level stakeholder workshop. A hard copy of summaries will also be made available at government offices and complete documents will be uploaded at PMU, PIU and ADB websites.

Grievance Redress Mechanism: GRM has been established under this sub-project. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns linked to the Project. Office order of PMU also issued to all PIUs/CMSC to follow project grievance mechanism.

Resettlement Budget and Financing Plan: The estimated resettlement budget¹ is estimated as ₹ 2,899,598 /-. PIU will issue sanction order to release payment to affected persons and transfer funds electronically. Community awareness and public participation (CAPP) consultant will be involved in facilitating the disbursement process and opening bank accounts for the affected persons who do not have accounts.

Institutional Setup: The Local Self Government Department (LSGD), Government of Rajasthan (GoR) is the executing agency (EA) of the Project and responsible for overall strategic approvals, guidance and monitoring the project. Rajasthan Urban Drinking Water Sewerage and Infrastructure Corporation Limited (RUDSICO) is the Implementing Agency (IA) for the project. The Project Management Unit (PMU) is housed in the Externally Aided Projects division of RUDSICO (RUDSICO – EAP). Resettlement plan implementation will be closely monitored by PIU/PMU. Monitoring reports prepared by PIU will be compiled by PMU on a semi-annual basis for its due submissions to ADB.

¹ Entire alignment yet to be finalized, survey was undertaken on both side of the road and accordingly budget has been calculated.

I. INTRODUCTION

A. Project Description

1. The Rajasthan Secondary Towns Development Sector Project (RSTDSP), is the fourth phase of investment projects financed by Asian Development Bank (ADB) and implemented by the Rajasthan Urban Drinking Water Sewerage and Infrastructure Corporation Limited-Externally Aided Projects (RUDSICO-EAP), previously known as Rajasthan Urban Infrastructure Development Project (RUIDP). RSTDSP will support the ongoing efforts of the Government of Rajasthan (the government) towards improving the water and wastewater services in about 14 towns² each with population between (50,000 and 100,000, in the state) or which are district headquarters (irrespective of population) or having heritage, cultural or other importance and irrespective of population. The project will invest in (i) the rehabilitation and expansion of water supply network through a district metering approach for management of nonrevenue water (NRW) and aiming for 24x7 water supply, (ii) the rehabilitation and expansion of sewerage network, (iii) modernization and new construction of water supply and waste water treatment plants, as required, (iv) construction of faecal sludge management treatment plant, and (v) decentralized waste water management systems in the project towns. The project also aims for wastewater reuse and a city-wide, inclusive sanitation approach to improve sanitation for all, including below poverty line households. The project is expected to increase operational efficiency, improve service delivery, and result in positive impact on health and quality of life for the residents of project towns in the state.

2. Ratangarh is a town in Churu district of Rajasthan in India. It is part of the Shekhawati region. Ratangarh is situated 200 km off Jaipur in the north on national highway -52. There are several temples in the area, to an extent that Ratangarh has earned the nickname "the Varanasi of Rajasthan". Salasar Balaji, the most famous and widely popular religious spot in the district, is situated 45 km south-east of Ratangarh. It has the only fossil museum in Asia (national highway -11, Bharpalsar Rly Gate, Near: Ichchhapurn Manshapurn Balaji Temple). Ratangarh is located at 28.08°N 74.6°E. It has an average elevation of 312 meters (1023 feet). As per 2011 India census, Ratangarh has a population of 71,124. Males constitute 36,355 of the population and females 34,769. Population of children within age group of 0-6 years is 10041 which is 14.12% of total population of Ratangarh. In Ratangarh municipality, female sex ratio (per 1000 male) is 956 as against state average of 928. Literacy rate of Ratangarh city is 75.76%, which is higher than state average of 66.11%. In Ratangarh, male literacy is around 86.70% while female literacy rate is 64.48 %.

Table 1: Details of decadal population growth rate of Ratangarh town

	Population				Sewage Generation (MLD)		
	2011	2021	2036	2051	2021	2036	2051
Ratangarh	71124	79358	89799	97946	9.0	10.18	11.10

Source: Preliminary Detailed Project Report, Ratangarh, 2020

B. Proposed Subproject Components

²The project towns under consideration for the sector loan are: Abu Road, Banswara, Didwana, Fatehpur, Khetri, Kuchaman, Ladnu, Laxmangarh, Makrana, Mandawa, Pratapgarh, Ratangarh, Sardarshahar and Sirohi. Of these towns, Khetri and Mandawa are heritage towns.

3. The draft resettlement plan which was prepared in March 2020 for the Ratangarh Sewerage subproject was based on the preliminary project report.³ The contract of this subproject has already been awarded and contractor mobilized on dated 22 June 2020. During the service improvement plan (SIP)⁴ stage, the location of consumer relation management centre (CRMC) which was earlier proposed in the premises of sewage pumping station (SPS) near BSNL office has been changed after assessment of site feasibility by the design-built operator (DBO) contractor. New location has been finalized in the premises of Municipality. The details of the proposed sewerage subproject components are provided in the table below:

Table 2: Proposed Subproject Components

S. No	Components	Details
1	Construction of sewage treatment plants (STP)	STP-1 of 3.80 MLD capacity near Johari National Highway (NH-11), and STP-2 of 6.10 MLD capacity at Gaushalla (a cattle care centre).
2	Construction of Sewage Pumping stations (SPS)	SPS-1- near Main Ginani of 4.60 MLD and SPS -2 of 3.80 MLD near BSNL office.
3	Treated effluent reuse works including construction of Treated Effluent Elevated Reservoirs (TEER), Treated Effluent storage Reservoirs (TESR) and Effluent Pumping station (EPS)	Same premises where STPs are proposed
4	Pipe laying for wastewater collection	Laying of 158 km of sewer lines (HDPE DWC SN8 -146 km and RCC pipes NP4 -1.9 km), including 10.18 km by trenchless technology)
5	Rising Main	a) Rising Main for Pumping the Sewage from SPS near Main Ginani to STP near Ginani (ward no.1) Approximate Length = 3,200 m, Dia=450 mm DI K9 pipe and Supply, Laying, Testing and Commissioning of Rising Main for Pumping Sewage. b) From SPS near BSNL office to STP near NH-11 Approximate Length = 2,300 m, Dia=400 mm DI K9 pipe.
6	House service connection	14,300 No.
7	Faecal sludge and Septage management (FSSM)	Faecal sludge and Septage management (FSSM) proposed as low-cost solution where sewer network is not an immediate requirement, e.g., for population on the outskirts of the town and for scattered habitations until laying of sewer lines.
8	Instrumentation, automation and SCADA works and stores etc. along with ancillary civil works	
9	Road Restoration	CC/BT road restoration, full width road restoration in CC (upto 4 m) and BT (up to 7m) depending on site condition
10	Consumer relation management centre	One Consumer Relation Management Centres (CRMC) will be constructed in the same premises where SPS-1 is proposed, while second CRMC will be constructed in the Municipality office premises.
11	Other related works	Manholes, PVC-U pipes (SN 8) as per IS 15328 sewer property lines – from property chamber to manhole

³ This subproject is based on design-build-operate (DBO) modality, where in which the detail design will be carried out by the selected bidder based on the feasibility/preliminary project report prepared prior to bidding. The contract of this subproject has been awarded.

⁴ SIP preparation includes finalization of Designs/ coverage area/alignment.

S. No	Components	Details
		including construction of property chamber, house sewer connection (including 10% in future development) inside properties, erecting precast RCC (M20) vent shaft with cowl, ordinary/drop manhole connection, near upstream of sewerage pumping station, as per quantity specified in BOQ with bid conditions
12	Operation and Maintenance	10 Years operation and maintenance of Sewerage System (from inspection chamber to STP) including collection and intermediate Pumping stations and STPs with performance guarantee of collection system laid under this project
13	Design, construction, execution, testing and commissioning of sewer pipe from STP effluent chamber to natural drain identified by employer representative, including (but not limited to) all ancillary civil works

C. Objectives of Resettlement Plan

4. The draft resettlement plan was prepared for the sewerage subproject of Ratangarh Town under RSTDSP. The document is being updated to indicate the final components and location of such components of this subproject based on SIP, confirmatory survey and 100% socio economic surveys of potential affected persons. It addresses the potential involuntary resettlement impacts of the proposed subproject components and is consistent with the agreed resettlement framework for the Project, prepared in accordance with national laws and ADB SPS (2009).

5. This resettlement plan is prepared in accordance with ADB SPS 2009 requirements for involuntary resettlement Category B projects and to meet the following objectives:

- (i) To describe the identified scope and extent of land acquisition and involuntary resettlement impacts because of identified project components, and address them through appropriate recommendations and mitigation measures in the resettlement plan;

- (ii) To present the socio-economic profile of the population in the project area, identify social impacts, including impacts on the poor and vulnerable, and the needs and priorities of different sections of the population, including women, poor and vulnerable;
- (iii) to describe the likely economic impacts and identified livelihood risks of the proposed project components;
- (iv) to describe the process undertaken during project design to engage stakeholders and the planned information disclosure measures and the process for carrying out consultation with affected people and facilitating their participation during project implementation;
- (v) to establish a framework for grievance redressal for affected persons that is appropriate to the local context, in consultation with stakeholders;
- (vi) to describe the applicable national and local legal framework for the project, and define the involuntary resettlement policy principles applicable to the project;
- (vii) to define entitlements of affected persons, and assistance and benefits available under the project;
- (viii) to present a budget for resettlement and define institutional arrangements, implementation responsibilities and implementation schedule for resettlement implementation; and
- (ix) to describe the monitoring mechanism that will be used to monitor resettlement plan implementation.

II. SCOPE OF LAND ACQUISITION AND INVOLUNTARY RESETTLEMENT

A. Land Acquisition and Involuntary Resettlement

6. **Construction of two Sewage Treatment Plants:**⁵ No land acquisition is envisaged for the proposed subproject component. Summary table on the status of land availability, ownership etc. is attached in **Appendix 1**. Construction of STP-1 of 3.80 MLD capacity, near Johari national highway is proposed in an unproductive and vacant land (owned by government). Proposed land, though earstwhile classified as pasture land, has been lying vacant and not used in any form by community. Site visits further confirm that this land currently serves as the collection point for wastewater discharge from the town. District collector has approved change of land use and allotment of proposed land parcel to Municipality (Nagar Palika) as per provisions under Rajasthan Land Reforms Act 1963. Total land required for STP (3.80 MLD) will be around 3500 m² and sufficient land (8093.6 m²) is available at identified site. Land revenue records, khasra map of proposed site, google map are attached in **Appendix 2 (a) & 2 (c)**. Copy of Order of land allotment by District Collector is attached in **Appendix 2(b)**. STP-2 of 6.10 MLD capacity, will be constructed in a vacant, unused and unproductive land owned by a Gaushala (cattle care) trust. The land required for the STP will be around 4800 m² and sufficient land (6000 m²) is available. The trust has agreed to provide land under a lease agreement which has been formalized and third-party validation has been completed as well. Gaushala Trust has also provided a no objection certificate (NOC) for use of its land for this sub project component. Lease agreement made between Municipality (Nagar Palika) and Gaushala Trust, land revenue records, khasra map of proposed sites, layout plan and google map, and third-party validation are provided in **Appendix 3 (a) to 3 (d)**.

7. **Construction of sewage pumping stations and consumer relation management centres (CRMC):** Two sewage pumping stations of capacity 3.80 MLD and 4.60 MLD near BSNL

⁵ The two STPs will serve as co-treatment units for sewage and fecal sludge.

office and near main Ginani pond respectively are proposed under the subproject. Both sites are owned by municipal body. Both land parcels currently serve as collection point for local wastewater discharge and are not under any other use by local community, institution or government. CRMC-1 nos will also be constructed in the premises of proposed SPS site at main Ginani pond. Sites are lying vacant (free of encumbrances) and are not in use for any other purpose. Total land required for SPS will be around 400 m² and 500 m² each and sufficient land is available at proposed sites. Summary table on the status of land availability and ownership is provided in **Appendix 1** and land revenue records, khasra map of proposed SPS sites, layout plan and Google Maps, are provided in **Appendix 4**.

8. During the service improvement plan (SIP) stage, the location of CRMC which was earlier proposed in the premises of SPS near BSNL office has been changed after assessment of site feasibility by the DBO contractor. New location finalized in the premises of Municipality. The Municipality has the ownership of this land. Due diligence/field visit/transect walk were also conducted by a team including Safeguard staff of CMSC/PMCBC, PIU and, Project contractor and it was confirmed that the land is under the possession of Municipality (Layout Plan, NoC and Google Maps, are provided in **Appendix 5**).

Table 4: Subproject Components and their Land Acquisition and Resettlement Impacts

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
Sewerage				
1	Construction of Sewage Treatment Plant -1 3.80 MLD at Johar NH 11 and Treated Effluent Elevated Reservoirs (TEER), Treated Effluent storage Reservoirs (TESR) and Effluent Pumping station (EPS)	None	None	The two STPs will serve as co-treatment units for sewage and fecal sludge. STP will be constructed in the unproductive and vacant land, earlier classified as pastureland. This government owned land is not under any use by community and currently serves as the collection point for wastewater discharge from town. Land use has been converted by the district collector as per Rajasthan land

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
				reforms act 1963 and required land has been allotted to Municipality (Nagar palika) ULB for this project. In lieu of this allotment, the collector has set aside an equivalent area from another municipality-owned land parcel and declared the alternate land as pastureland. No involuntary resettlement impact is envisaged. Land records is attached in Appendix 2 (a) to 2 (c).
2	Construction of Sewage Treatment Plant – 2 (6.10 MLD) near Gaushala and Treated Effluent Elevated Reservoirs (TEER), Treated Effluent storage Reservoirs (TESR) and Effluent Pumping station (EPS)	None	None	Proposed site is a vacant land which is under the possession of Goshala Committee. Land records, google map depicting location of site and NOC from Gaushala Committee are attached. Lease agreement, NOC and third party ⁶ certification have been obtained. A monthly rent of ₹20,000 and free supply of treated wastewater as a mitigation measure, are among the key agreement terms. No involuntary resettlement impact is envisaged. Refer to Appendix 3 (a) to 3 (d).
3	2 Nos of Sewage Pumping stations: (SPS -1 4.60 MLD) near main Ginani and SPS-2 (3.80 MLD near BSNL office).	None	None	This will be constructed on the vacant available land which is under possession of Nagar Palika. Proposed land parcels being low-lying, areas the natural collection point for untreated wastewater discharge leading to unhygienic conditions. The land is not under use by local community or government. No involuntary resettlement impact is envisaged. Refer to Appendix4 (b).
4	Sewer network (158 Km),	Temporary income loss	None	Impacts are limited to temporary economic impact on 287 businesses.
5	Rising mains (5.5 Km)	None	None	No involuntary resettlement impact envisaged.
6	2 Nos of CRMC near main Ginani and Municipal office)	None		This will be constructed on the vacant available land which is under possession of Municipality (Nagar Palika). Refer to Appendix

⁶ Third- party certification issued in the presence of Swastik Jan Sewa Sansthan, a Ratangarh based NGO and the chairman of the municipal body.

S N	Name of the Components	Permanent Impact on Land Acquisition and Resettlement	Temporary Impact	Remarks
				4(b) and 5. No involuntary resettlement impact is envisaged.
7	House service connections	None	None	No involuntary resettlement impact is envisaged.

Source: Transect walks, census surveys and site observations of Ratnagarh subproject area, December 2020.

9. **Pipeline Works:** Being Design Build and Operation (DBO) contracts, even though the DPR are being prepared by consultants, the final design/alignment has to be provided/ prepared by the project contractor. As per contract, contractor should have to carry out the execution activities in all respects for that particular zone and after completing the particular zones, contractor shall focus for remaining zones on priority basis. Presently the final alignment is being provided by the contractor zone- wise. As it was mandatory to revise this resettlement plan including 100% socioeconomic survey before start of civil work, joint visit and transect walk was undertaken by the officials of PIU, CMSC and contractor in all the areas where pipeline will be laid and it was confirmed that rising main of dia (450 mm) is proposed from SPS to STP will be laid in the boundaries of RoW of government roads will not have any involuntary resettlement impact. No commercial establishment- permanent shops or mobile vendors exist along the route and no economic impact is anticipated. The required trench width for trunk main⁷ will be vary from 0.7 m to 0.75 m. Details of main pipes and photographs of alignment of main pipes are appended in **Appendix 6**.

Table 5: Details of main pipes proposed

Details of Network	Length in km	Road Width (in m)	Dia of Pipe in mm
Sewer Network			
Total Sewer Network in town	158	3-7.5	200-500
Rising Main			
SPS (BSNL office to STP near NH (6.10 MLD)	2.3	3-7.5	400
SPS Ginani to STPGaushala (6.5 MLD)	3.2	3-7.5	450

Source: Preliminary Detailed Project Report, Ratangarh, 2020

⁷ The depth of sewer line depends on natural ground terrain of the town, therefore the value given may change during execution.

Figure 7: Proposed alignment from SPS Ginani to STP near Gaushala

Figure 8: Proposed alignment from SPS (BSNL) to STP near NH

Source: Detailed Project Report, Ratangarh, 2020

10. Sewer lines will be laid in the middle of the roads, as width of the road in some stretches is not sufficient, hence there would be temporary livelihood disruption on mobile/ambulatory vendors who are earning their livelihood by using public land and considered non-titleholders.

The diameter of pipeline ranges from 150 to 200 mm in areas where such impacts are anticipated. Trenchless pipe laying works of 10.18 km are proposed where sewer depth is more than 3.5 m, in the congested areas, and important road/junctions of the city to reduce inconvenience to the public and commercial establishments and also to minimize temporary impacts. Based on transect walks along the alignment it is confirmed that there will be no loss of structure, common property resources (CPRs)⁸ or other relocation impacts during laying of pipelines. All proposed RoW of roads for laying pipelines are owned by government departments. Transect walks confirm that the impacts of the proposed subproject are temporary in nature. The majority of affected persons comprise non-titled movable /transitory structures (push carts etc.) within RoW of roads, who face temporary economic impacts during construction due to access disruption. There will be no temporary economic impacts or other impacts on permanent shops.

11. Anticipating the possibility of changed alignment after trial pit, 100% socioeconomic survey was conducted for all the vendors/hawkers in both side of the road where sewerage networks pipeline to be laid. During actual pipe laying, only one side/front will be utilized. **Prior** to conducting inventory loss survey, project area was categorized based on level of commercial activities/structures (high, medium and low density). 100% socioeconomic survey conducted in high and medium density areas. The subproject is expected to cause temporary loss of access/disruption to livelihood during civil works to 287 non-titled movable /transitory structure (pushcarts etc.)⁹ vendors/traders located at both sides of the road. After finalization of exact alignment, joint re-confirmatory survey is conducted by the officials of PIU, CMSC and contractor to finalize the list of affected persons likely to be impacted due to civil works. During finalizing the alignment, efforts are being made to avoid the impacts, and accordingly, the affected persons present in such section will be included in the mitigated list having no impacts. Those who will be impacted will be paid assistance as per agreed entitlement matrix. All the progress will be reported to ADB through the semiannual social monitoring report. Based on data from the socio-economic survey, 76 of the affected persons belong to vulnerable category (33 scheduled caste, 3 below poverty line¹⁰ and 11 female-headed households). Based socioeconomic survey, no affected persons belonging to scheduled tribe community, hence, in accordance with the IPPF, no Indigenous Peoples Plan is required for this subproject. The overview of subproject area with High, Medium and Low density commercial activities/structures are attached in **Appendix 7** and the socio-economic profile of temporarily affected persons, photographs taken during survey are attached in Appendix 8. Photographs of inventory loss survey is attached in **Appendix 9**.

⁸ Common property resources include public resources, community-owned facilities or cultural property such as temples, shrines, public utility posts, etc, that the landless poor and vulnerable depend on for survival.

⁹ Resettlement impacts based on the detailed survey.

¹⁰ Government of Rajasthan has in recent times been using the indicators of National Food Security Act (NFSA, 2013) for estimation of poverty in the state. Under NFSA, the state has set the inclusion and exclusion criteria. Based on these, poor and deprived have been identified by village/urban local general body through participatory approach. So far, about 53% of the beneficiaries in the urban areas have been identified using this method. For urban areas, inclusion criteria includes BPL families already identified under 2003 urban BPL census, all state BPL families, Antyodaya and Annapurna beneficiaries, families not included in preceding category but are beneficiary under schemes (7 schemes are mentioned) such as chief minister senior citizen yojana, Indira Gandhi national old age pension scheme, Indira Gandhi widow pension schemes and other listed national/state social assistance schemes or if they are- surveyed families from slums, rag pickers, registered construction labour, rickshaw pullers, vendors and others (13 such groups are identified). Similarly, 7 exclusion parameters such as income tax payee in the family, family member in government/semi government employment, assets such as four-wheeler (unless it constitutes source of livelihood), pucca (concrete) house of size greater than 1000/1500 ft² (as per type of urban area) etc are mentioned. Source: <https://niti.gov.in/writer/adddata/files/rajasthan.pdf>. During survey respondents were inquired about their official BPL status. This information is reflected in the document.

Table 6: Overview of Sub-Project Area with High, Medium and Low-Density Commercial Activities/structures

Start Point	End Point	Zone Number	Type of Area (High/Medium)	Die Proposed (In mm)	Trench Width (In meter)	Total APs	Total Vulnerable APs

Source: Socio-economic survey, February 2021.

12. The last date of the 100% socio-economic survey (along probable corridor of impact based on detailed design) is considered as the cut-off date which is 28 February 2021 for this subproject. Persons who settle in the affected areas after the cut-off date will not be eligible for compensation and assistance. High and medium density areas marked on Figure/s 9 to 11 below.

Table 7: Summary of Temporary Impact on Hawker, Vendor

Street Stretch	No. of Affected Persons	Average Income Range (Rs)	Types of businesses
A. High Density			
a. Mobile/Street vendor	123	200-500	Fancy, Footwear, Fruit and Vegetable, Hotel /Dhaba, Juice, Pan/Cigarette, Repairing Tea and Toys
b. BPL	20	200-400	Fruit and vegetables, Fancy, Barber, Kirana, Repairing, Snacks, Tea and Toys
c. WHH	5	300-450	Fancy, Fruit and Vegetable and Tea
d. SC	12	200-400	Flowers, Fancy, Juice, Kirana, Footwear and Tea
B. Medium density			
a. Mobile/Street vendor	154	Rs 200-500	Dishes, Fruit and Vegetable, Plastics, Fancy, Kirana, Readymade garments, Snacks, Tea Repairing and Toys
b. BPL	12	Rs 250-500	Fancy, Fruit and Vegetable, Repairing and Tea
c. WHH	06	Rs 200-400	Cobbler, Kirana and Fruit and Vegetable
d. SC	21	Rs 300-500	Cobbler, Fancy, Footwear, Fruit and Vegetable, Kirana, Pan/Cigarette, Readymade Garments, Repairing, Snacks and Tea
C. Low density			No hawkers and vendors on road/existing pipeline RoW. Access to businesses, residences and institutions will be provided

Figure 10: Map showing high density commercial activity areas

Source: Detailed Project Report, Ratangarh, 2020

Figure 11: Map showing medium density commercial activity areas

Source: Detailed Project Report, Ratangarh, 2020

13. As far as impacts on permanent shops in high density areas are concerned, contractor, CMSC and PIUs have already visited in the high-density areas and have ensured that to avoid any inconvenience to permanent shops, an engineering solution will be adopted and civil work can be done on convenient hours/night time/non-peak hours/trenchless method¹¹ after required consultations with the shopowners (Visit note is attached in **Appendix 10**). Work will be carried out in small patches with proper planning of traffic. Decision taken by PIU and Contractors also communicated to permanent shop owners and they have ensured their support to implementation agency for smooth execution of the subproject (Consent of permanent shopowners are attached in **Appendix 11**). The contractor will also be required to maintain access to shops and residences or other buildings along pipe alignments and to institutions located close to proposed sites. Safety will also be ensured through hard barricading of excavated alignments/sites, in line with EMP provisions.

14. The contractor will ensure that noise levels are within limits and do not exceed 55 dB (A) as per Noise Pollution (Regulation & Control) Rules 2000 (Refer to the detailed plan given in environment management plan for this project).

15. Pipelaying with the use of trenchless technology is preferred approach for roads with narrow width and dense traffic. The trenchless technology has also been proposed at important circles in the town where traffic density is more, in the streets where traffic diversion is not feasible, highway crossing, railway crossing etc. In general, trenchless pipelaying technology will be adopted in sections that are characterized by inadequate RoW, alignment passing at a depth of 3.5 m or more and site conditions favouring use of the technology in that section.

16. To further minimize construction impacts, work will be executed during the night and early (morning) hours of the day in order to avoid inconveniences to the public as well as traders and vendors. All safety norms would strictly be adhered to, taking into consideration the magnitude of work and the sensitivity of the location. The Project Implementation Unit (PIU) will also ensure that all the necessary rules related to safety and security of the public and residents are followed by the contractor. The actual dates of construction schedule with respect to rush hour, festival time, and special business days will be discussed with vendors, squatters, market committee members, and residents, and accordingly construction activities will be planned. After laying pipes, the lane/road will be restored to its original condition (including bitumen, cement concrete (CC) and CC interlocking tiles as applicable).

17. The contractor will also be required to maintain access to shops and residences or other buildings along pipe alignments and to institutions located close to proposed sites and will ensure safety through hard barricading of excavated alignments/sites. Specific provisions related to impact avoidance will be undertaken for pipe laying activities including construction work near schools, health centers, Anganwadi centers (ICDS), etc.

18. Measures to be taken up by contractor to avoid/mitigate economic impacts include: (a) announcement of proposed civil works in advance (to enable shop owners to stock up and remain unaffected if goods vehicles are unable to reach them during construction), (b) provision of planks to ensure pedestrian access; (c) careful timing of implementation to avoid peak sale hours/days or school timings; (d) use of trenchless pipe laying technology, major civil work during night hours,

¹¹ As a general practice, trenchless pipe laying technology will be adopted in sections where proposed pipe excavation depth is more than 3.5 m; unless available right of way (RoW) is adequate and site conditions favourable for open cut excavation. The Contractor will maintain the noise levels within permissible limits.

maximum use of precast materials particularly for manhole will be used in commercial areas and narrow roads, where possible; (e) minimizing construction period to the extent possible; (f) assistance to mobile vendors if any present during construction, to shift nearby; (g) signage with project details and contact details for grievance redress; (h) proper coordination of civil works pertaining to both water supply and sewerage, such that the period of disruption along a particular road section is minimized; and (i) proper traffic management. These measures will be part of the contract and will be implemented with careful monitoring by the concerned PIU.

19. Viable construction practices will be ensured by the contractor to avoid/mitigate impacts through the following measures: (a) announcement of proposed civil works in advance (to enable shop owners to stock up and remain unaffected if goods vehicles are unable to reach them during construction, (b) provision of access planks to ensure pedestrian access; (c) careful timing of implementation to avoid peak sale hours/days or school timings; (d) night work in commercial areas, where possible; (e) minimizing construction period to the extent possible; (f) assistance to mobile vendors if any present during construction, to shift nearby; (g) signages with project details and contact details for grievance redress; and (h) proper traffic management. These measures will be part of the contract and will be implemented with careful monitoring by the concerned PIU.

Table 8: Summary of Involuntary Resettlement Impact

Sl.No.	Details	Affected Persons	Remarks
1.	Permanent land acquisition	None	Not required.
2.	Structure loss/permanent relocation	None	Not anticipated
3.	Permanent and significant livelihood impact (landowners)	None	Not anticipated
4.	Loss of crops (farming by non titleholders)	None	Not anticipated
5.	Permanent loss of livelihood	None	Not anticipated
6	Temporary loss of access/disruption to livelihood	Yes	287-mostly non-titled movable /transitory structures (push carts etc.).
7.	Potential temporary income loss to employees of affected shops/ businesses	None	Not anticipated.
8	Number of vulnerable affected persons*	Yes	Out of total 287 persons), 76 affected persons are estimated to fall under vulnerable category persons. Out of the 76 vulnerable affected persons, 33 persons belong to scheduled caste community, 11 are FHH, 32 from BPL category.
9.	Affected Indigenous People	None	Not anticipated.

Source: Income loss survey February, 2021

*Vulnerable households comprise below poverty line households, female-headed households, households with out of school/working children, disabled person-headed household, elderly headed household, landless household, household with no legal title/tenure security, and schedule caste and scheduled tribe households.

B. Indigenous People

20. As per ADB SPS, indigenous peoples safeguards are triggered if a project directly or indirectly affects the dignity, human rights, livelihood systems, or culture of indigenous peoples or affects the territories or natural or cultural resources that indigenous peoples own, use, occupy, or claim as their ancestral domain; no such impacts are anticipated in Ratangarh.¹² Ratangarh has 0.25% population classified as scheduled tribe, however, this population however, this population is scattered (does not stay in cohesive tribal communities/tribal groups), is well assimilated in urban society and does not retain the defining characteristics of scheduled tribes including primitive traits, distinctive culture, shyness, geographical isolation and social and economic backwardness. Ratangarh does not fall in a scheduled area, and no particularly vulnerable tribal groups are reported in project areas.¹³ Based socioeconomic survey, no affected persons belonging to scheduled tribe community, hence, in accordance with the IPPF, no Indigenous Peoples Plan is required for this subproject.

III. SOCIO-ECONOMIC INFORMATION AND PROFILE

21. The following sections present socioeconomic profile of the households likely to be affected by the proposed works. Based on census and a socio-economic survey, about 287 non-titled movable structure vendors and traders will be affected under the subproject. The survey provides information on the socio-economic conditions of affected households. A wide range of data including social category, type of losses, type of occupation, sources of income, choice of resettlement etc. have been collected. About 26.48% of the affected persons belong to vulnerable category.

22. **Occupation:** A majority of affected businesses (43%) are fruit and vegetable sellers, 4% are general stores, about 5% readymade clothes sellers, 13% are snacks sellers, 11% have tea stalls, and the remaining (24%) include cobblers, flower toys sellers, cosmetics sellers, etc.

¹² ADB SPS 2009 uses the term indigenous peoples in a generic sense to refer to a distinct, vulnerable, social and cultural group possessing the following characteristics: (i) self-identification as members of a distinct indigenous cultural group and recognition of this identity by others; (ii) collective attachment to geographically distinct habitats or ancestral territories in the project area and to the natural resources in these habitats or territories; (iii) customary cultural, economic, social or political institutions that are separate from those of the dominant society and culture; and (iv) a distinct language, often different from the official language of the country or region.

¹³ As per the Constitutional provision under Article 244 (1) of the Constitution of India, the 'scheduled areas' are defined as "such areas as the President may by order declare to be scheduled areas"- as per paragraph 6(1) of the Fifth Schedule of the Constitution. The specification of "Scheduled Areas" in relation to a State is by a notified order of the President, after consultation with the State Government concerned. The same applies in the case of any alteration, increase, decrease, incorporation of new areas, or rescinding any Orders relating to "Scheduled Areas". Criteria for declaring any area as a "Scheduled Area under the Fifth Schedule are: • Preponderance of tribal population, • Compactness and reasonable size of the area, • A viable administrative entity such as a district, block or taluk, and • Economic backwardness of the area as compared to the neighbouring areas.

Source: <https://tribal.nic.in/declarationof5thSchedule.aspx> <https://tribal.nic.in/DivisionsFiles/clm/ScheduledAreas.pdf>

23. **Income:** 5% of the affected persons reported daily income of Rs. 100- 200. 61 % have reported their income between Rs. 201 to 300 per day ,30 % of them have reported it to be in Rs. 301-400 range and 4 % of them have reported it to be in Rs. 401-500 range.

24. **Vulnerability:** 26.48% of surveyed persons were found to be belonging to vulnerable category. Of the total 76 affected persons, 43 % are from scheduled caste category 15 % are female-headed households (FHH), 42% are BPL and.

Table 10: Summary Profile of Affected Persons (based on extrapolation of survey data)

Impact	Number of affected persons
1. Loss of land	
Permanent land acquisition	0
Temporary land acquisition	0
2. Loss of structures/permanent relocation	
Residential	0
Commercial	0
3. Loss of livelihood	
Permanent	0
4. Temporary Impact	287
Temporary loss of land	0
Temporary loss of access/disruption to livelihood	287- majority are non-titled movable/transitory structures (pushcarts etc.)
Average income/day (shops)	₹ 324 /day ^{14*} (Daily income ranges from ₹ 100-500/ day)
5. Vulnerable affected persons (facing temporary impact)	76
Female Headed Households	11(15%)
Scheduled caste	33 (43%)
Schedule Tribe	0
Persons with disability	0

¹⁴ Total income per day, summed up for all surveyed affected persons (287 nos) comes to ₹92975 and accordingly an average of ₹324 per day per affected person has been arrived. The average income arrived (₹ 324 appr), is much above the current minimum wage (Rs 225 per day for unskilled labour, 237 per day for semi-skilled and 249 per for skilled labour) notified by government of Rajasthan. Refer **Appendix 12**.

Impact	Number of affected persons
BPL ¹⁵	32(42%)

Source: Income loss survey, February 2021

IV. CONSULTATION, PARTICIPATION AND INFORMATION DISCLOSURE

A. Public Consultation

25. This preparation of the updated resettlement plan involved meaningful consultations¹⁶ with stakeholders. The key stakeholders consulted during resettlement plan preparation and updating include (i) affected persons, including vulnerable households, (ii) program beneficiaries, (iii) elected representatives, community leaders, and representatives of community-based organizations, (iv) local NGOs, (v) local government and relevant government agency representatives, and (vi) Program staff, PMU, PIU, and consultants. Meetings and individual interviews were held involving stakeholders particularly, potentially temporarily affected persons; and transect walks, survey and interviews were conducted to determine the potential impacts of subproject. During meetings, stakeholders were briefed about the technical details of project and project implementation cycle; project benefits as well as adverse impacts envisaged during construction; environmental and social safeguards, gender inclusion; community participation aspects built into the project etc. Consultations covered issues such as awareness and scope of the subproject components, benefits of project, envisaged impacts such as traffic disruptions and temporary loss of income. It was informed to surveyed affected persons that appropriate measures will be undertaken during construction to minimize impacts (including scheduling of activities and reducing construction activities during the rush hour). It was also informed that if, despite mitigation measures, there would be any temporary impacts on livelihood, these would be compensated in accordance with the agreed entitlement matrix. Further consultations will also include focus group discussions (FGDs) and structured census surveys before project implementation. Details of consultation are attached in **Appendix 13**. During updating of the draft resettlement plan, goals and objectives of the project have been disclosed to stakeholders (including, beneficiaries, affected persons, elected representatives and institutional stakeholders) through consultation meetings. Details of consultation done during updating of resettlement plan are attached in **Appendix 13(a)**. Leaflet also distributed to the households for aware about the works and its advantages (Refer to **Appendix 14**).

¹⁵ Government of Rajasthan has in recent times been using indicators of National Food Security Act (NFSA, 2013) for estimation of poverty in the state. State has set criteria for inclusion and exclusion in BPL list. For urban areas, BPL inclusion criteria requires a family to qualify under any of these- BPL families already identified under 2003 urban BPL census, all state BPL families, Antyodaya and Annapurna beneficiaries, families not included in preceding category but are beneficiary under schemes (7 schemes are mentioned) such as chief minister senior citizen yojana, Indira Gandhi national old age pension scheme, Indira Gandhi widow pension schemes and other listed national/state social assistance schemes or if they are- surveyed families from slums, rag pickers, registered construction labour, rickshaw pullers, vendors and others (13 such groups are identified). A family is excluded if it fails under any of the 7 exclusion parameters that include- income tax payee in the family, family member in government/semi government employment, other asset based parameters such as four wheeler ownership (unless it constitutes source of livelihood), house ownership (of specified built and size) Source: <https://niti.gov.in/writereaddata/files/rajasthan.pdf>. During survey, respondents were inquired about their officially recognized poverty status (BPL or APL). This information is reflected in the table 10, above

¹⁶ ADB SPS requires meaningful consultation to be a process that (i) begins early in the project preparation stage and is carried out on an ongoing basis throughout the project cycle; (ii) provides timely disclosure of relevant and adequate information that is understandable and readily accessible to affected people; (iii) is undertaken in an atmosphere free of intimidation or coercion; (iv) is gender inclusive and responsive, and tailored to the needs of disadvantaged and vulnerable groups; and (v) enables the incorporation of all relevant views of affected people and other stakeholders into decision making, such as project design, mitigation measures, the sharing of development benefits and opportunities, and implementation issues

B. Information Disclosure

26. This updated RP will be uploaded in ADB and local government's websites and will also be available in key local/state government offices. Construction schedules have been disseminated to all residents prior to the commencement of pipe laying through signboards. The signboards displayed at site contains start and end dates of construction work, contact information for questions/grievances.

27. During updating of resettlement plan, the cut-off date for temporary impacts was communicated in the entire affected area at the start of the census survey and also list of potential affected persons was displayed area wise on dated 28 February 2021 and at the same time for the entire city to prevent duplication in identification of affected persons specifically those moving into a new area during project planning and implementation phase. Copy of cut-off date and photographs of cut-off date displayed is attached in Appendix 15 & 16. Such information sharing will facilitate affected persons to have access to lists in their area and resolve issues around any duplication, missing/absentee person from the list. RP/IEC materials translated in Hindi and are being disclosed/discussed with APs and beneficiaries.

C. Continued Consultation and Participation

28. Consultation and disclosure have been a continuous process since from the beginning of the project. Information dissemination is being carried out throughout project circle to affected persons including the vulnerable affected persons. The project management consultants have conducted training of contractors (engineers as well as safeguards personnel) (refer to **Appendix 17**) and community groups was consulted and information disseminated about the civil works and project activities, anticipated impacts and mitigation measures, grievance redress process. The PMU, with the support of CAPPC, will design and conduct a public awareness campaign which shall target all citizens including scheduled tribe communities during project implementation. A consultation and participation consultant will be mobilized for preparation and implementation of community awareness activities and include schedule tribe communities in such activities.

V. GRIEVANCE REDRESS MECHANISM

29. A project-specific, three-tier grievance redress mechanism (GRM) covers both environment and social issues. The GRM will be established to receive, evaluate, and facilitate the resolution of affected persons' concerns, complaints, and grievances about the social and environmental performance at project level. The GRM will aim to provide a time-bound and transparent mechanism to voice and resolve social and environmental concerns related to the project. Assessment of the GRM designed and implemented for Rajasthan Urban Sector Development Program (RUSDP)¹⁷ shows that the system was effective in timely resolution of

¹⁷ The procedures followed for grievance redress during implementation of RUSDP Phase III included the project GRM and the pilot GRM software application (Smart Check) in Pali, the Sampark portal of Government of Rajasthan, and the Chief Minister's helpline. Complaints received through various channels were mostly minor and pertained to damage to existing water supply pipelines and disruption of water supply during construction, delays in road restoration, and pending new connections. Complaints related to damage to private property (compound walls/steps, etc.) were less in number. The grievances were mostly possible to resolve in coordination with the contractors. Complaints received were immediately referred by the CAPC/PMDSC supervision staff to the PIU Nodal officer (safeguards) and concerned engineer at PIU, who advised them on further action. Follow up with the contractor on complaint resolution was undertaken by PIU Nodal officer CAPC and PMDSC and final feedback sought from complainant upon resolution. Complaints requiring inter-departmental coordination were referred to the PMU for

grievances in a transparent manner.¹⁸ The multichannel, project-specific, three-tier GRM is functional at RUSDP, hence the design of GRM for RSTDSP takes into account the proposed institutional structure for RSTDSP and the positive features and learnings from the previous GRM.¹⁹

30. **Common GRM.** A common GRM will be in place for social, environmental, or any other grievances related to the project. Implementation of the resettlement plans/RIPPs/DDRs/IEEs will follow the GRM described below. The GRM will provide an accessible and trusted platform for receiving and facilitating resolution of affected persons' grievances related to the project.

31. Public awareness campaigns within entire ULB/Municipal area will ensure that awareness on grievance redress procedures is generated. The nodal officer- safeguards and gender supported by ASO at zonal level, will oversee the conduct of ULB/project coverage area-based awareness campaigns by the town-level safeguards and safety officers, through the CAPPC. The awareness campaigns will ensure that poor and vulnerable households are made aware of grievance redress procedures and entitlements. Contractors will provide pamphlets to communities prior to start of works and billboards during construction. The pamphlets and billboards will include relevant environmental and social safeguards, GRM information, and contact details of key personnel from PIU and contractors.

32. Affected persons will have the flexibility of conveying grievances/suggestions by dropping grievance redress/suggestion forms (refer to **Appendix 18**) for template of grievance redress form) in complaint/suggestion boxes that will be installed by project PIUs or by e-mail, by post, or by writing in a complaints register in ULB offices/complaints register at contractor's work site²⁰ or by sending a WhatsApp message to the PIU²¹ or by dialing the phone number of town level PIU/CAPPC or by dialing a toll-free number.²² Any aggrieved person can also avail the facilities of online grievance monitoring system 'Rajasthan Sampark' portal to register their grievances which is a parallel mechanism of grievance registration, in addition to the project GRM²³. Careful documentation of the name of the complainant, date of receipt of the complaint, address/contact details of the person, location of the problem area, and how the problem was resolved will be undertaken and feedback provided to the complainant on action/decision taken. The SSO of town/city level PIU will have the overall responsibility for timely grievance redressal on environmental and social safeguards issues and for registration of grievances, related disclosure,

resolution, and feedback provided to complainant. The PMU kept regular track of grievances through WhatsApp and email alerts, ensuring registration and follow-up until resolution.

¹⁸ Town-level grievance registration data indicates that a large number of grievances were registered, pointing to the effectiveness of the multi-channel GRM. No major grievance was received for RUSDP Phase III. The GRM helped smoothen the process of project implementation, hence the proposed architecture for the RSTDSP GRM remains similar, with some refinement, taking into account the changes in institutional setup proposed for project implementation.

¹⁹ Continued logistics support at field level will be key to successful management of grievance redress under RSTDSP. The target date for establishment of the first level (PIU level) and second level (Zonal level) of GRM is before loan negotiation.

²⁰ RUSDP piloted an online application based live GRM counter for resolution of public grievances over and above the usual process of grievance registration and redressal. This app based GRM - "RUIDP Smart Check" is available at Google play store (free of cost) and is operational. The RUIDP Smart Check "app" was launched in Pali town in July 2017 and is proposed to be scaled up in RSTDSP project towns. For persons without access to the application, the traditional channels will continue to be available.

²¹ It is suggested for each PIU to have a dedicated WhatsApp group for registration of grievances and receipt of quick feedback, to be followed by more formal communication.

²² Project contractors in all project towns will have a toll-free number with specific working hours for registration of grievances related to RSTDSP.

²³ <http://www.sampark.rajasthan.gov.in/RajSamWelcome.aspx>

with the assistance of project consultants. In case of grievances that are immediate and urgent in the perception of the complainant, the contractor, and officials of PIU with assistance from CMSC and CAPPC on-site will provide the most easily accessible or first level of contact for quick resolution of grievances. Contact numbers and names of the concerned PIU safeguard and safety officer, contractors, CAPPC and CMSC personal will be posted at all construction sites at visible locations.

- (i) **1st level grievance.** The contractors, PIU executive engineer /assistant engineer designated as SSO (social and environment), CMSC (safeguard staff) and CAPPC can immediately resolve issues on-site, in consultation with each other and will be required to do so within 7 days of receipt of a complaint/grievance. If required, city level monitoring committee (CLMC)²⁴ will be involved in resolution of grievances at the 1st level;
- (ii) **2nd level grievance.** All grievances that cannot be redressed within 7 days at field/PIU level will be brought to the notice of Zonal PIU headed by Additional Chief Engineer (ACE). The ACE at zonal PIU will resolve the grievance within 7 days of receipt of complaint/grievance in discussion with the assistant safeguard officer (ASO), field level PIU, CMSC, CAPPC and the contractor;
- (iii) **3rd level grievance.** All the grievances that are not addressed by Zonal PIU within 7 days of receipt will be brought to the notice of the PMU. Depending on the nature of grievance, the Project Officer (Social/Environment) at PMU will resolve the grievance within 15 days of receipt of grievance with necessary coordination of Zonal PIU and CMSC and guidance/instruction of additional project director (APD-PMU);
- (iv) Grievances not redressed through this process within/at the project level within stipulated time period will be referred to the CLC/grievance redress committee (GRC), which has been set up.²⁵ In its role as a GRC, the CLC will meet whenever there is an urgent, pending grievance. Other grievances can be discussed during its regular meetings. Zonal PIU will inform the CLC regarding any grievances required to be resolved urgently. The GRC will resolve the grievance within 15 days of receiving the complaint. In case of any indigenous peoples impacts in subprojects, the CLC/GRC must have representation of the affected indigenous people community, the chief of the tribe or a member of the tribal council as traditional arbitrator (to ensure that traditional grievance redress systems are integrated) and an NGO working with indigenous people groups; and
- (v) The multi-tier GRM for the project is outlined below (Figure 12), each tier having time-bound schedules and with responsible persons identified to address

²⁴ The CLMC has been formed at the town/city level for planning and monitoring of work, resolve issues related to departmental coordination etc. It is headed by Commissioner/Executive Officer ULB (Chairman) and city engineer of public health engineering department (PHED), public works department (PWD) and head of PIU acting as Member Secretary.

²⁵ City Level Committee (CLC)/grievance redress committees (GRCs) has been constituted for each town/city under the Chairmanship of District Collector to provide overall subproject guidance and "to sort out issues and remove hindrances, if any". CLC formed at city-level/district level with members composed of: District Collector as Chairperson and following as members: ULB Commissioner/Mayor/Chairman; Deputy Mayor/Vice Chairman ULB; Chairman / Secretary Urban Improvement Trust (UIT); Head of Zonal/field level PIU as Member Secretary; one representative each from relevant government departments as appropriate (PWD/PHED/Town Planning Department etc.). All CLCs in their role as GRCs will have at least one-woman member/chairperson. In addition, for project-related grievances, representatives of affected persons, community-based organizations (CBOs), and eminent citizens will be invited as observers in GRC meetings. The concerned Member of Parliament (MP) and Member of Legislative Assembly are also part of the CLC.

grievances and seek appropriate persons' advice at each stage, as required. The GRC will continue to function throughout the project duration.

Figure 12: Grievance Redress Mechanism-RSTDSP

Note: APD = additional project director, ASO = assistant safeguards officer, CAPPC = community awareness and public participation consultant, CMSC = construction management and supervision consultants, CLC = city level committee, CLMC = city level monitoring committee, GRC = grievance redress committee, PIU = project implementation unit, PMU = program management unit, PMCBC = project management and capacity building consultant.

33. The project GRM notwithstanding, an aggrieved person shall have access to the country's legal system at any stage and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM. In case of grievance related to land acquisition, resettlement and rehabilitation, the affected persons will have to approach a legal body/court specially proposed under the RFCTLARRA, 2013.²⁶

34. People who are, or may in the future be, adversely affected by the project may submit complaints to ADB's Accountability Mechanism. The Accountability Mechanism provides an independent forum and process whereby people adversely affected by ADB-assisted projects can voice, and seek a resolution of their problems, as well as report alleged violations of ADB's operational policies and procedures. Before submitting a complaint to the Accountability Mechanism, affected people should make an effort in good faith to solve their problems by working

²⁶ The Authority admits grievance only with reference to the Land Acquisition and R&R issues under the RFCTLARRA, 2013.

with the concerned ADB operations department. Only after doing that, and if they are still dissatisfied, should they approach the Accountability Mechanism.²⁷

35. **Record-keeping.** The PIU of each town/city will keep records of grievances received, including contact details of complainant, date the complaint was received, nature of grievance, agreed corrective actions and the date these were affected and final outcome. The number of grievances recorded and resolved, and the outcomes will be displayed/disclosed in the PMU office, PIU offices, and on the web, as well as reported in monitoring reports submitted to ADB on a semi-annual basis.

36. **Periodic review and documentation** of lessons learned. The PMU project officers (Social and Environment) will periodically review the functioning of the GRM in each town and record information on the effectiveness of the mechanism, especially on the project's ability to prevent and address grievances.

37. **Costs.** Contractors are required to be allocated budget for pamphlets and billboards as part of the EMP. Costs involved in resolving the complaints (meetings, consultations, communication and reporting/information dissemination) will be borne by the concerned PIU at town level while costs related to escalated grievances will be met by the PMU. Cost estimates for grievance redress are included in resettlement cost estimates.

38. Office order of PMU also issued to all PIUs/CMSC to follow the grievance redress mechanism (refer to **Appendix 19**). Contractor also shared toll free number with the households through their social outreach team for lodging of complain/grievance, if any during execution of works.

VI. POLICY AND LEGAL FRAMEWORK

39. The policy framework and entitlements for the RSTDSP are based on:

- (i) The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act (RFCT in LARR), 2013;²⁸
- (ii) ADB's Safeguard Policy Statement (SPS), 2009. The salient features of Government and ADB policies are summarized below. The resettlement principles and procedures to be followed for social safeguards under RSTDSP are detailed out in the resettlement framework document and project implementation shall be carried out in its full compliance.

40. The key involuntary resettlement principles of the ADB Safeguards Policy Statement (2009) are:

- (i) Screen the project early on to identify past, present, and future involuntary resettlement impacts and risks. Determine the scope of resettlement planning through a survey and/or census of displaced persons, including a gender analysis, specifically related to resettlement impacts and risks.
- (ii) Carry out meaningful consultations with affected persons, host communities, and concerned nongovernment organizations. Inform all displaced persons of their entitlements and resettlement options. Ensure their participation in planning, implementation, and monitoring and evaluation of resettlement programs. Pay

²⁷ Accountability Mechanism. <http://www.adb.org/Accountability-Mechanism/default.asp>.

²⁸ Ministry of Law and Justice. The Act received the assent of the President on the 26 September 2013.

particular attention to the needs of vulnerable groups, especially those below the poverty line, the landless, the elderly, women and children, and Indigenous Peoples, and those without legal title to land, and ensure their participation in consultations. Establish a grievance redress mechanism to receive and facilitate resolution of the affected persons' concerns. Support the social and cultural institutions of displaced persons and their host population. Where involuntary resettlement impacts and risks are highly complex and sensitive, compensation and resettlement decisions should be preceded by a social preparation phase

- (iii) Improve, or at least restore, the livelihoods of all displaced persons through (i) land-based resettlement strategies when affected livelihoods are land based where possible or cash compensation at replacement value for land when the loss of land does not undermine livelihoods, (ii) prompt replacement of assets with access to assets of equal or higher value, (iii) prompt compensation at full replacement cost for assets that cannot be restored, and (iv) additional revenues and services through benefit sharing schemes where possible.
- (iv) Provide physically and economically displaced persons with needed assistance, including the following: (i) if there is relocation, secured tenure to relocation land, better housing at resettlement sites with comparable access to employment and production opportunities, integration of resettled persons economically and socially into their host communities, and extension of project benefits to host communities; (ii) transitional support and development assistance, such as land development, credit facilities, training, or employment opportunities; and (iii) civic infrastructure and community services, as required.
- (v) Improve the standards of living of the displaced poor and other vulnerable groups, including women, to at least national minimum standards. In rural areas provide them with legal and affordable access to land and resources, and in urban areas provide them with appropriate income sources and legal and affordable access to adequate housing.
- (vi) Develop procedures in a transparent, consistent, and equitable manner if land acquisition is through negotiated settlement to ensure that those people who enter into negotiated settlements will maintain the same or better income and livelihood status.
- (vii) Ensure that displaced persons without titles to land or any recognizable legal rights to land are eligible for resettlement assistance and compensation for loss of non-land assets.
- (viii) Prepare a resettlement plan elaborating on displaced persons' entitlements, the income and livelihood restoration strategy, institutional arrangements, monitoring and reporting framework, budget, and time-bound implementation schedule.
- (ix) Disclose a draft resettlement plan, including documentation of the consultation process in a timely manner, before project appraisal, in an accessible place and a form and language(s) understandable to affected persons and other stakeholders. Disclose the final resettlement plan and its updates to affected persons and other stakeholders.
- (x) Conceive and execute involuntary resettlement as part of a development project program. Include the full costs of resettlement in the presentation of project's costs and benefits. For a project with significant involuntary resettlement impacts, consider implementing the involuntary resettlement component of the project as a stand-alone operation.

- (xi) Pay compensation and provide other resettlement entitlements before physical or economic displacement. Implement the resettlement plan under close supervision throughout project implementation.
- (xii) Monitor and assess resettlement outcomes, their impacts on the standards of living of displaced persons, and whether the objectives of the resettlement plan have been achieved by taking into account the baseline conditions and the results of resettlement monitoring. Disclose monitoring reports.

VII. ENTITLEMENTS, ASSISTANCES AND BENEFITS

A. Types of Losses and Affected Person) Category

41. The anticipated types of losses due to the proposed subproject components under RSTDSP comprise (i) potential temporary income loss to mobile vendors/kiosks with permanent or movable structures and (ii) impacts to vulnerable persons (from amongst the temporarily affected persons).

42. According to ADB SPS 2009, in the context of involuntary resettlement with reference to economic impacts, affected persons (APs) are those who are economically displaced (loss of productive land, structures, assets, access to assets, income sources, or means of livelihood). Absence of formal and legal title to the land does not bar the affected person from receipt of compensation and resettlement assistance from the project. Vulnerable affected persons are eligible for additional compensation and assistance and are to be accorded priority in employment in project related construction activities.

B. Entitlements

43. As per agreed resettlement framework, all the affected persons will be eligible for compensation for loss of livelihood/income. Unavoidable livelihood disruption due to construction activities will be compensated. For this subproject, the maximum estimated period of disruption during pipe laying activities is 14 days. Compensation for lost income (temporary loss) will be paid for a minimum of 14 days or for the period of disruption, whichever is greater. In case the period of disruption is greater than 14 days, the affected persons will be compensated based on the actual days of disruption. All affected persons will also be compensated for the time lag (7% annual inflation in survey income is provided) between payment of compensation and the time of survey. 'Shifting assistance' (lumpsum ₹1500) will be paid to all affected persons irrespective of their business type. All affected persons who are identified as vulnerable will be eligible for special assistance amounting to ₹9,000 as one-time assistances under temporary impacts for livelihood restoration.

44. All affected persons who are identified in the subproject areas on the cut-off date²⁹ will be entitled to compensation for their loss, and rehabilitation measures (as outlined in the entitlement matrix below) sufficient to assist them to improve or at least maintain their pre-project living standards, income-earning capacity and production levels. Affected persons who settle in the affected areas after the cut-off date **28 February 2021** will not be eligible for compensation and assistance. Affected persons will be provided 30 days' advance notice to ensure no or minimal disruption in livelihood. If required, they will also be assisted to temporarily shift for continued economic activity. For example, they will be assisted to shift to the other side of the road where

²⁹ Permanent land acquisition will follow the various cut-off dates as specified under RFCTLARRA, 2013 while for the temporary impacts the start date of census surveys will be considered as cut-off date.

there is no construction. Ensuring there is no income or access loss during subproject construction is the responsibility of contractors.

45. Work will be undertaken on one side of the road and temporarily affected person (APs) will be assisted in moving to the other side of the road and returning their structures after construction is completed. Where moving is not required, access will be ensured by the contractor through measures prescribed in bidding documents/environmental management plan (EMP). An alternate place in the vicinity will also be identified where more number of affected persons are affected at one place (e.g. vegetable market) so that they can continue with their livelihood activities.

Table11: Entitlement Matrix³⁰

Sl. No	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
1	Temporary disruption of livelihood	Temporary impacts	Legal titleholders, non-titled affected persons	30 days advance notice regarding construction activities, including duration and type of disruption. - Cash assistance based on the minimum wage/average earnings permonth for the loss of income/livelihood for the period of disruption Contractor's actions to ensure there is no income/access loss consistent with the IEE.³¹ - Assistance to vendors/hawkers to temporarily shift for continued economic activity (₹1,500 as one time assistance)³² - For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance will be paid as per average daily income arrived at from census and socio-economic survey or as per applicable minimum wage, whichever is greater. This assistance shall be paid for a minimum of 14 days or the actual period of disruption, whichever is higher	Identification of alternative temporary sites to continue economic activity. Contractor's actions to ensure there is no income/access loss consistent with the initial environmental examination. This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time.	Valuation Committee will determine income lost. Contractors will perform actions to minimize income/access loss. For temporary impacts during construction activities, Safeguard Support Staff (CMSC) with the help of CAPPC will assess/verify impacts through structured surveys. Payment will be made by PIU through Treasury.

³⁰ All entitlements in rupees (other than those provided under RFCTLARRA) will be adjusted for inflation till the year of compensation payment.

³¹ This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time.

³² For example, assistance to shift to the other side of the road where there is no construction. Such assistances will be given only to non-movable businesses (which are not on wheels).

Sl. No .	Type of Loss	Application	Definition of Entitled Person	Compensation Policy	Implementation Issues	Responsible Agency
2	Impacts on vulnerable affected persons	Temporary impacts	Vulnerable affected persons ³³	• Livelihood. Vulnerable households will be given priority in project construction employment and provided with income restoration support. • Vulnerable persons/businesses will receive ₹ 9,000 as one-time assistances under temporary impacts.	Vulnerable households will be identified during the census.	CMSC will verify the extent of impacts through 100% surveys of affected households and determine assistance, verify and identify vulnerable households. PIU and CMSC will monitor and ensure this entitlement.
3	Any other loss not identified	-	-	• Unanticipated involuntary impacts will be documented and mitigated based on ADB's Safeguard Policy Statement (SPS), 2009/RSTDSP resettlement framework.	-	CAPPC will ascertain the nature and extent of such loss. PMU will finalize the entitlements in line with ADB's SPS, 2009/RSTDSP resettlement framework.

³³Vulnerable households comprise below poverty line households, female-headed households, households with out of school/working children, disabled person-headed household, elderly headed household, landless households, households with no legal title/tenure security, and schedule caste and scheduled tribe households.

46. If construction activities result in unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater will be provided. Vulnerable affected persons will be given priority in project construction employment and provided with additional special assistance for income restoration support. Compensation and assistance to affected persons must be made prior to possession of land/assets and prior to the award of civil works contracts. Since most affected households have moveable stalls, identity cards should be distributed 30 days before compensation. In summary, temporarily affected persons will be provided with:

- (i) 30 days' advance notice regarding construction activities, including duration and type of disruption.
- (ii) Contractor's actions to ensure there is no income/access loss consistent with the initial environmental examination. This includes: leaving spaces for access between mounds of soil, providing walkways and metal sheets to maintain access across trenches for people and vehicles where required, increased workforces to finish work in areas with impacts on access, timing of works to reduce disruption during business hours, phased construction schedule and working one segment at a time and one side of the road at a time
- (iii) Assistance to mobile vendors/hawkers to temporarily shift for continued economic activity. For example, assistance to shift to the other side of the road where there is no construction.
- (iv) For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance for the period of disruption whichever is greater.

VIII. RESETTLEMENT BUDGET AND FINANCING PLAN

47. The resettlement budget for Ratangarh Sewerage subproject includes resettlement assistance calculated as per the entitlement matrix and contingency provision amounting to 10% of the total cost and is given in Table 12. Community awareness and public participation consultants (CAPPC) will be involved in facilitating the disbursement process and will facilitate opening bank accounts for the affected persons who do not have bank accounts. The costs are conservative estimates and will be confirmed during detailed project preparation and planning. The total resettlement cost for the subproject is ₹2,899,598/- PIU will issue order for release of payment to affected persons, which shall be released through electronic clearance service/National Electronic Fund Transfer (ECS/NEFT) transaction from bank, through concerned treasury of the state/district administration.

48. Details of resettlement plan budget estimation

- (i) **Total number of affected persons** – A total of 287 persons were identified as a project affected persons during inventory loss of income survey. Temporary livelihood losses are estimated for 14 days for the 287 temporarily affected persons under this subproject.
- (ii) **Total number of vulnerable affected persons** – Vulnerability assistance has been budgeted for 76 affected persons identified during inventory loss survey. Out of surveyed affected persons (287) around 15% are female headed households (FHH), 42% are BPL and 43% are from scheduled caste category. Vulnerability assistance for RSTDSP has been budgeted as ₹9000 per person, in accordance with the entitlement matrix.

- (iii) **Compensation against daily income loss**—as per census and socioeconomic survey, the total of daily income for all surveyed affected persons (287 in number) is ₹ 92975 and accordingly the average of this total figure i.e., ₹324 has been considered as average daily income of affected persons. This average has been applied for all 287 affected persons in budget estimation.
- (iv) **Shifting assistance has been considered for all affected persons**—Based on the nature of the affected businesses, shifting assistance of ₹1500 is proposed for all the affected persons.
- (v) **Contingency amount** of 20% is also included in budget provision for any unforeseen impacts during execution of civil work.

Table12: Resettlement Budget³⁴

S. No	Item	Unit Nos (affected persons)	Unit Rate* (₹)	Amount (₹)
A	Resettlement Costs			0
1	Assistance for temporary livelihood impacts for 14 days ³⁵	287 APs	₹324 per day ³⁶	1301832
2	Shifting Assistance (lump sum)	287 APs	₹1,500 one time	430500
3	Assistance for the temporary disruption of livelihood to vulnerable households identified as per extrapolated survey data	76 APs	₹9,000 one time	684000
	Sub-Total A			2416332
B	Contingency (20%)			483266
	Grand Total (A+B)			2,899,598

*All entitlements and compensation to affected persons will be adjusted for inflation and compensation payment determined accordingly.

IX. INSTITUTIONAL ARRANGEMENTS AND IMPLEMENTATION SCHEDULE

A. Institutional Arrangements

49. The implementation arrangements include Local Self Government Department (LSGD), Government of Rajasthan is the executing agency of the Project. The department is responsible for overall strategic guidance and for ensuring compliance with ADB's loan covenants. RUDSICO is the implementing agency for the RSTDSP responsible for technical supervision and project implementation. The RUDSICO Board under the Chairmanship of the Minister for Urban Development, and members comprising of the Chief Secretary, Secretaries of LSGD, Finance, Planning, Public Works Department (PWD), public health engineering department (PHED) and

³⁴ Grievance redress costs are part of the contractor's budget and PMU/PIU budgets hence not presented in budget table; and consultation costs are included in consultancy costs and hence not included in this budget.

³⁵ For construction activities involving unavoidable livelihood disruption, compensation for lost income or a transitional allowance will be paid as per average daily income arrived at from census and socio-economic survey or as per applicable minimum wage, whichever is greater. This assistance shall be paid for a minimum of 14 days or the actual period of disruption, whichever is higher.

³⁶ Total income per day, summed up for all surveyed affected persons (287 no.) comes to ₹ 92,975 and accordingly an average of ₹324 per day per affected person has been arrived. The average income arrived (₹ 324 appr), is much above the current minimum wage (Rs 225 per day for unskilled labour, 237 per day for semi-skilled and 249 per for skilled labour) notified by government of Rajasthan. However, the average amount of ₹324 per day per affected person; as determined based on the socio-economic survey on 28 February 2021 has been/will be considered as the base price. Hence, actual rate will be adjusted for inflation (if required), and compensation payment determined accordingly considering ₹324 per day as base price.

the project director, RUIDP as member secretary. It shall have full powers to decide on matters related to RSTDSP. The Board will take needful policy decisions, provide administrative and financial approvals, expedite clearances of project matters, ensure inter-departmental coordination and provide guidance to the PMU. As per GO dated 21 Feb 2018, all powers and responsibilities of earlier state level empowered committee (SLEC, under RUIDP Phase III) have now been transferred to RUDSICO Board.

50. RUDSICO established a state-level PMU, headed by dedicated project director, and housed in EAP division of RUDSICO. For the purpose of project implementation, 2 zonal PIUs, at Jaipur and Jodhpur, headed by ACE has been established. At field level, town-level PIUs has been established for project implementation on ground.

B. Safeguard Implementation Arrangement

51. **Project management unit.** RUDSICO established a state-level PMU, headed by dedicated project director, and housed in EAP division of RUDSICO. For the purpose of project implementation, 2 zonal PIUs, at Jaipur and Jodhpur, headed by ACE has been established. At PMU, there are 2 dedicated project officers: (i) project officer (Environment); and (ii) project officer (Social and Gender), who is responsible for compliance with the environmental, social safeguards and gender in project implementation. Project officer (social and gender) have an overall responsibility in implementation of the RSTDSP as per the social safeguards frameworks (resettlement framework and indigenous people planning framework [IPPF]) and gender equality and social inclusion (GESI) Action Plan agreed between ADB and the government, including appropriate monitoring and reporting responsibilities. Project Officer (Social and Gender) at the PMU is supported by the SSS and the gender specialist of PMCBC. Key safeguard and gender mainstreaming related tasks and responsibilities at the PMU level are as follows:

52. Social Safeguards and Gender

- (i) Ensure subprojects conform to the agreed subproject selection criteria for the project;
- (ii) Review and finalize subproject involuntary resettlement and indigenous people category;
- (iii) Oversee preparation of resettlement plans, DDRs, and indigenous people plans (IPPs); confirm existing resettlement plans, DDRs, and IPPs are updated based on detailed designs, and that new subproject resettlement plans, DDRs are prepared in accordance with the resettlement framework and IPPF prepared for the project;
- (iv) Liaise with district administration for land acquisition, transfers; ensuring land availability;
- (v) Ensure that resettlement plans, DDRs, and IPPs are included in the bidding documents and civil works contracts;
- (vi) Provide oversight on social safeguard management aspects of subprojects and facilitate and follow-up to ensure that any delays in land procurement are addressed;
- (vii) Ensure and monitor the provision in the contract to include the indigenous people to benefit from the facilities constructed under the project;
- (viii) Facilitate and ensure compliance with all government rules and regulations regarding no objection certificates, third party certificates for negotiated settlement or donation, land ownership, and transfer details for each site, as relevant;

- (ix) Supervise and guide the zonal PIUs and city level PIUs to properly carry out the social safeguard monitoring;
- (x) Review, monitor, and evaluate the effectiveness with which the resettlement plans, IPPs, and provisions of DDRs are implemented, and recommend corrective actions to be taken as necessary;
- (xi) Consolidate monthly social safeguard and gender monitoring reports from PIUs and the CMSCs and submit semi-annual social safeguard monitoring reports to ADB;
- (xii) Ensure timely disclosure of final resettlement plans, DDRs, and IPPs in locations and form accessible to the public and affected persons;
- (xiii) Address any grievances brought about through the grievance redress mechanism promptly;
- (xiv) Oversee the assessment of training needs of affected persons and vulnerable persons by PIUs and/or PMCBC, coordinate training activities and convergence with the livelihood programs of the government;
- (xv) Ensure effective implementation of GRM at all levels;
- (xvi) Coordinate database management for social safeguards implementation and monitoring;
- (xvii) Coordinate public awareness campaigns by the PIUs including resettlement provisions with the help of print and electronic media; and
- (xviii) Serve as Gender Focal Point at PMU, which would involve overseeing - with the support of PMCBC, the implementation, monitoring and reporting on the GESI action plan.

53. The PMU is being supported by three institutional consultants under the supervision and control of project director, PMU: (i) the PMCBC is supporting the PMU; (ii) 2 CMSC are supporting the 2 zonal PIUs and town-level PIUs; and (iii) community awareness and public participation (CAPP) Consultants, will support the zonal PIUs and town-level PIUs.

54. **Zonal Project implementation units.** 2 zonal level PIUs at Jaipur and Jodhpur has been established. Under each zonal PIU, there are city/town level PIUs, for ease of day-to-day monitoring and management at local level. The Additional Chief Engineer at each Zonal PIU are serving as the Nodal Officer, Safeguards and Gender. Each Zonal PIU have an assistant ssafeguards oofficer (ASO Eenvironmental and Ssocial Ssafeguards) who are assisting PMU project officer (eenvironment/social) in implementation of the environmental/social safeguards and GESI Action Plan in PIUs under its jurisdiction. Zonal PIUs undertaking internal monitoring and supervision and record observations throughout the project period to ensure that the safeguards and mitigation measures are provided as intended.

55. The zonal level ASO will oversee safeguards implementation by the city/town level PIUs, coordinate public consultations, information disclosure, regulatory clearances and approvals, implementation of resettlement plans, EMP implementation, and grievance redressal.

56. The Zonal PIUs will oversee and support social safeguards and gender equality and social inclusion action plan implementation by the PIUs at town/city level, through the following key tasks:

- (i) fill up involuntary resettlement and indigenous people impact checklist and classify the project;
- (ii) supervise CMSC to coordinate with PIUs and safeguards field staff for conduct census and socio-economic surveys, detailed measurement surveys, and

- verification surveys of affected persons, conduct consultations with affected persons, finalize the list of affected persons, prepare and/or update the resettlement plan, DDR, RIPP/IPP with the assistance of CMSC and submit to PMU for review and approval and submission to ADB;
- (iii) supervise PIUs to inform affected persons about (a) the project cut-off date; (b) public notice for the schedule of land acquisition and/or occupation; (c) entitlement matrix; and (d) compensation packages against different categories of loss and a tentative schedule of land clearing and/or acquisition for the start of civil works activities;
 - (iv) coordinate valuation of assets, such as land and trees of various species. Finalize compensation packages based on proper due diligence and assessment;
 - (v) facilitate land acquisition and compensation processes in consultation with the district administration; coordinate, supervise, and monitor the disbursement of compensation;
 - (vi) Support PIUs to obtain no objection certificates, land documents, and third-party certifications as required for the subproject, in coordination with PIUs;
 - (vii) support PMU to include resettlement plans, IPPs, RIPPs and DDRs in bidding documents and civil works contracts;
 - (viii) guide PIUs to oversee implementation of avoidance and mitigation measures in the resettlement plans, DDRs, RIPPs and IPPs by contractors, including compliance with all government rules and regulations; take necessary action for obtaining ROW;
 - (ix) guide and monitor PIUs to oversee resettlement plans, DDR, RIPP and IPP, and gender equality and social inclusion action plan implementation and maintenance of data for monitoring by contractors;
 - (x) ensure listing of town wise BPL households;
 - (xi) assist in conducting needs assessment to list skills relevant to the sector;
 - (xii) assist to identify participants for livelihood and skilling training for women and members of other vulnerable groups;
 - (xiii) ensure that the project maintains sex disaggregated data on staff, consultants, construction workforce participation, labor and project related trainings;
 - (xiv) ensure that gender focal points are nominated in town level PIUs;
 - (xv) ensure and monitor the provision in the contract to include the indigenous people to benefit from the facilities constructed under the project;
 - (xvi) to ensure that corrective actions are taken when necessary to ensure compliance with SPS and loan covenants;
 - (xvii) submit monthly social monitoring reports to PIUs and PMU;
 - (xviii) guide PIUs to conduct continuous public consultation and awareness;
 - (xix) address any grievances brought about through the grievance redress mechanism promptly;
 - (xx) organize an induction course for the training of contractors, preparing them on RPs, DDR, IPP, and gender equality and social inclusion action plan implementation, social safeguard, and gender monitoring requirements related to mitigation measures, grievance redress mechanism and on taking immediate action to remedy unexpected adverse impacts or ineffective mitigation measures found during implementation;
 - (xxi) liaise with the district administration, and line departments for dovetailing government's schemes for income generation and development programs for affected people, as and when required; and
 - (xxii) assist in the implementation, monitoring, and reporting progress of gender equality and social inclusion action plan.

57. **Town/City Level Project Implementation Unit.** The town-level PIUs is responsible for the quality of works executed under the project and guided by the zonal PIUs. The city/town PIUs is responsible for implementation of the IEE/resettlement plan/IPP/RIPP/GESI action plan. The town-level PIUs headed by a project manager (executive engineer or assistant engineer) and supported by CMSC field staff. Environment specialist of CMSC assisting PIU in implementation of environmental safeguard. Social and gender specialist of CMSC assisting PIU in implementation of social safeguard and GESI related tasks. At each PIU, the assistant project manager has been given additional responsibilities of safeguard tasks and he has been designated as SSO. The SSO assisted by the social and gender specialist and environment Specialist of CMSC in reviewing updated/revised IEEs, conducting surveys for updating of resettlement plan/due diligence report, public consultation and disclosure, assessment of entitlement and computation of compensation other than those covered under the RFCTLARRA, 2013, etc. The SSO, with the support of CMSC Social safeguards and Gender Specialist and CMSC field support staff, assisting Zonal ASO and PMU project officer (social) in implementation of the following key tasks. They are also responsible for coordination of field level activities related to safeguards conducted by the DBO contractor and CMSC. Key role and tasks of town/city level PIU will be:

- (i) Provide field data to fill up IR/IP impact checklist and classify the project;
- (ii) Conduct census and socio-economic surveys, detailed measurement surveys, and verification surveys of affected persons, conduct consultations with affected persons, prepare list of affected persons, provide all data required to prepare/update resettlement plans/DDR/RIPPs/IPPs with the assistance of CMSC field support, and ensure updated information is submitted to zonal PIU for preparation/updating of documents with CMSC and DBO contractor's support;
- (iii) Inform affected persons about tentative schedule of land acquisition/occupation, entitlement matrix and compensation packages against different categories of loss, and cut-off date;
- (iv) Coordinate valuation of assets, such as land, trees of various species, etc. Based on proper due diligence and assessment, prepare compensation packages;
- (v) Coordinate, supervise and monitor disbursement of compensation;
- (vi) Obtain no objection certificates (NOCs), land documents, third party certifications as required for the subproject;
- (vii) Support Zonal PIUs to prepare/update RPs/RIPPs/IPPs/DDRs;
- (viii) Oversee day-to-day implementation of impact avoidance and mitigation measures in resettlement plans/DDRs/RIPPs/IPPs and EMP by contractors, including compliance with all government rules and regulations particularly health and safety, take necessary action for obtaining ROW;
- (ix) Oversee maintenance of data for monitoring, by consultants and contractors;
- (x) Implement corrective actions when necessary to ensure no adverse social impacts;
- (xi) Submit monthly social monitoring reports to zonal PIU;
- (xii) Conduct continuous public consultation and awareness;
- (xiii) Set up GRM at field/site/PIU level and ensure it is fully functional. Address any grievances brought about through the grievance redress mechanism in a timely manner;
- (xiv) Ensure that induction course for the training of contractors is conducted regularly. Prepare contractors (with consultants' support) on resettlement plans/DDR/RIPP/IPP/GAP implementation, social safeguard and gender monitoring requirements related to mitigation measures, health and safety and on

- taking immediate action to remedy unexpected adverse impacts or ineffective mitigation measures found during the course of implementation;
- (xv) Liaise with the District Administration and line departments for dovetailing Government's schemes for income generation and development programs for affected persons, as and when required;
- (xvi) Supervise the work of all consultants at town level (CMSC, CAPPC).
- (xvii) Undertake day-to-day implementation of final resettlement plans and GESI action plan;
- (xviii) Provide field level information required to prepare periodic safeguard monitoring reports in a format acceptable to ADB and quarterly GESI action plan updates in the format provided in PAM;
- (xix) Ensure relevant data on implementation of GESI action plan is collected and a gender-sensitive communication strategy and information, education and communication (IEC) materials are designed, illustrating key social and behavioural messages related to hygiene, sanitation, and health jointly with the communication specialist and in accordance with the GESI action plan; and
- (xx) Extend support in carrying out awareness campaigns in project towns.

58. **Design-build-operate Contractor.** The contractor is required to update the IEE and responsible for providing final design (including pipe alignments) to the supervision consultant for finalization/updating of resettlement plan. The contractor appointed an environment, health and safety (EHS) engineer who are responsible on a day-to-day basis for (i) ensuring implementation of EMP, (ii) coordinating with the town-level PIUs and environment specialists of project consultant teams; (iii) community liaison,³⁷ consultations with interested/affected people, (iv) field-level grievance redress; and (iv) reporting.

59. The contractor will be required to submit to RUDSICO, for review and approval, a site-specific environmental management plan (SEMP) including (i) proposed sites or locations for construction work camps, storage areas, hauling roads, lay down areas, disposal areas for solid and hazardous wastes; (ii) specific mitigation measures following the approved EMP; (iii) monitoring program per SEMP; (iv) budget for SEMP implementation. No works can commence prior to approval of SEMP.

60. A copy of the EMP or approved SEMP will be kept on-site during the construction period at all times. Non-compliance with, or any deviation from, the conditions set out in the EMP or SEMP constitutes a failure in compliance and will require corrective actions. The EARF and the IEEs specify responsibilities in EMP implementation during design, construction and operation and maintenance (O&M) phases.

61. The DBO Contractor have a dedicated social outreach team (SOT) and designated social supervisor, who hold a Master's degree in social science and would have at least 5 years of experience in resettlement planning and implementation and engage with the PIU, CAPPC and CMSC on social safeguards, health and safety, and core labor standards. The key role of the Contractor's Social Supervisor related to social safeguards will be to:

³⁷ Reasonable size social outreach team (SOT) to be appointed by contractor to facilitate community liaison, consultations and R&R implementation (including resolution of grievances). Requirement of SOT will be included in bid document.

- (i) Work in close coordination with the PIU, CMSC and PMCBC engineers and social safeguards personnel to finalize detailed design keeping the safeguard principles adopted for the project in view;
- (ii) Ensure that all design-related measures (e.g., special considerations for the vulnerable related to facility locations or design, mitigation measures for affected persons etc.), are integrated into project designs before approval;
- (iii) Conduct joint walk-throughs with PIU, design engineers and social safeguards personnel of CMSC in sites/sections ready for implementation; identify the need for detailed measurement surveys, and support CMSC to jointly conduct detailed measurement surveys and census surveys to arrive at the final inventory of loss;
- (iv) Support project consultants in updating the draft resettlement plan/due diligence report/IPP/RIPP for submission to PIU/PMU and ADB for review and approval;
- (v) Ensure strict adherence to agreed impact avoidance and mitigation measures in the resettlement plan/DDR/RIPP/IPP during implementation;
- (vi) Assist with grievance redressal and ensure recording, reporting and follow-up for resolution of all grievances received; and
- (vii) Submit monthly progress reports including safeguards, health and safety and gender-disaggregated data as required for monitoring

62. **Civil works contracts.** The resettlement plans /IPPs are to be included in bidding and contract documents and verified by the PIUs and PMU. All contractors will be required to designate an Environment, Health and Safety (EHS) supervisor to ensure implementation of EMP/resettlement plan social safeguard provisions in the agreed resettlement framework for the Project during civil works and O&M, who will also have the responsibility for communication with the public under the guidance of PMU/PIUs and grievance registration. Contractors are to carry out all mitigation and monitoring measures outlined in their contract.

63. The PMU and PIUs will ensure that bidding and contract documents include specific provisions requiring contractors to comply with: (i) all applicable labor laws and core labor standards on (a) prohibition of child labor as defined in national legislation for construction and maintenance activities; (b) equal pay for equal work of equal value regardless of gender, ethnicity, or caste; and (c) elimination of forced labor; and with (ii) the requirement to disseminate information on sexually transmitted diseases, including HIV/AIDS, to employees and local communities surrounding the project sites.

Figure 13: Safeguard Organogram – RSTDSP

*Zonal PIU will be led by a nodal officer of the rank of assistant chief engineer who will also be the nodal person for safeguards and gender compliances in project implementation by town level PIUs. S/he will be supported by ASO in execution of these responsibilities.

64. Further details on agencies responsible for social safeguard implementation during different project phases are given in Table 13 below:

Table 13: Institutional Roles and Responsibilities

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
PMU Project Officer; (Social),	(i) Review IR/IP impact categorization checklists, and assign categorization based on SPS 2009 (ii) Review and approve RPs/RIPPs/DDR/PPs and submit to ADB for approval and disclosure in ADB website (iv) Ensure approved RPs/RIPPs/DDR/PPs are disclosed in RSTDSP/PMU websites and summary posted in public areas accessible and understandable by local people. (v) Ensure social safeguard	(i) Over-all social safeguards compliance of the project (ii) Monitor and ensure compliance of RPs/RIPPs/PPs as well as any other provisions and conditions. (iii) Review monthly monitoring report. (iv) Prepare and submit to ADB semi-annual monitoring reports. (v) If necessary, prepare Corrective Action Plan and ensure implementation of corrective actions to	(i) Compliance monitoring to review the social safeguard performance of project component, if required and as specified in RPs/RIPPs/PPs. (ii) Coordinate for external monitoring reports if necessary.

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
	documents are included in bid documents and contracts (vi) Organize an orientation workshop for PMU, PIU, ULB and all staff involved in project implementation on ADB SPS, relevant national and/or state laws, RP/IPP preparation implementation and monitoring, timely payment of compensation before start of civil work, mitigation measures, public relations and ongoing and meaningful consultations, grievance redress, etc. (vii) Assist in timely redressal of grievances (viii) Organize an induction course for the training of contractors on social safeguards. (ix) Ensure compliance with ADB SPS and all government rules and regulations regarding impacts to IP (scheduled tribe) community. (x) Assist PMU, PIUs to document and develop good practices case studies as per the RP implementation process and schedule. (xi) Monitor the grievance redress process and ensure grievances redress within prescribed timeframe.	ensure no impacts are mitigated; (vi) Organize capacity building programs on social safeguards (vii) Coordinate with national and state level government agencies (viii) Assist in addressing any grievances brought about through the Grievance Redress Mechanism in a timely manner as per the GRM (ix) Coordinate PIUs, consultants and contractors on mitigation measures involving the community and affected persons and ensure that social concerns and suggestions are incorporated and implemented.	
Zonal PIU, Assistant Safeguard Officer	(i) Coordinate updating/preparation of RPs/RIPPs/IPP/DDR with CMSC's support and ensure the documents are included in bid documents and contract agreements. (ii) Disclose approved RPs/RIPPs/IPP/DDRs. (iii) Obtain all necessary agreements, sale deeds, transfers of title, consents/ NOCs, third party certification etc. as applicable. Ensure compliance to the provisions and conditions in such documents. (iv) Guide town/city level PIUs	(i) guide PIUs to oversee implementation of avoidance and mitigation measures in by contractors. (ii) Take necessary action for obtaining rights of way; (iii) Oversee implementation of RPs/RIPPs/IPP., (iv) Take corrective actions when necessary. (v) Ensure monthly reports contain relevant sections on social safeguards	(i) Conducting social monitoring, as specified in the RPs/RIPPs/IPP.

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
	in RP/RIPP/IPP implementation including payment of compensation prior to civil work, encumbrance free sites for construction work, dissemination of information/notice prior to start of construction etc. (v) Organize an induction course for the training of contractors, preparing them on site situations and local sensitivities, scheduling of work as per local community's requirements, if any, monitoring requirements and taking immediate actions to mitigate unanticipated impacts. (vi) Consolidate monthly social and GESI monitoring reports by town-level PIUs and submit to PMU; (vii) Continued consultation activities with stakeholders.	implementation. Consolidate and submit monthly social monitoring reports to PMU, (vi) Conduct public consultation and awareness raising during the entire project cycle. (vii) Formulate time bound corrective actions for non-compliances (viii) Address any grievances brought about through the grievance redress mechanism in a timely manner as per the GRM.	
Town/City Level PIU Safeguard and Safety Officer	(i) Provide necessary data for IR/IP categorization. (ii) Conduct sample socio-economic surveys, data analysis during RP/RIPP/IPP preparation and detailed measurement surveys for RP/RIPP preparation and updating; submit updated information to zonal PIUs for updating of RPs/DDR/RIPPs with CMSC's support. (iii) Liaise with affected persons and district administration regarding land acquisition, payment of compensation. (iv) Coordination with departments/individuals regarding consent/NOCs/land records/agreements/transfers and third-party certification.	(i) Oversee day-to-day implementation of impact avoidance and mitigation measures proposed RPs/DDRs/IPPs including compliance with all government rules and regulations. (ii) Take corrective actions when necessary to ensure no adverse social impacts. (iii) Submit monthly monitoring reports with social safeguards compliance to PMU. (iv) Conduct public consultation and awareness activities throughout the project cycle. (v) Address any grievances brought about through the grievance redress mechanism in a timely	(i) Ensure coordination with the stakeholders including APs/IP to ensure project benefits as envisaged. (ii) Prepare case studies/ good practices for the project.

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
Consultants – 1.PMCBC-Social Safeguard Specialist – 1	(i) Assist PMU to review IR/IP checklists and categorization; (ii) Assist PMU to review and ensure RPs/RIPPs/IPPs are prepared/updated based on detailed design as per agreed RF/IPPF and submit to PMU for approval (iii) Assist PMU/PIUs in coordination with different departments, obtaining all necessary inter-departmental transfers, permits, consents, NOCs, etc. Ensure provisions and conditions are incorporated in the RPs/RIPPs/IPPs and detailed design documents. (iii) Assist in ensuring RPs/RIPPs/IPPs are included in bid documents and contract agreements. Assist in determining adequacy of cost for RPs/RIPPs/IPPs implementation. (iv) Assist in addressing any grievance. (v) Assist PMU in setting up monitoring systems for social safeguards and GESI. (vi) Assist PMU in the design and conduct training and capacity building programs and workshops. (vii) Assist PMU to guide all project entities (zonal PIUs, PIUs, CMSCs) in social safeguards and GESI implementation, monitoring and reporting.	manner (i) Assist PMU to monitor RP/RIPP/IPP implementation as per the approved document. (ii) Recommend corrective action measures for non-compliance by contractors, if any. (iii) Assist in the review of monitoring reports submitted by contractors. (iv) Assist in the compilation / preparation of semi-annual social monitoring reports. (v) Assist in the preparation of quarterly progress reports, including reporting on social safeguards and GESI implementation. (vi) Assist PMU to supervise and conduct public consultation and awareness activities throughout the project cycle. (vi) Assist in addressing any grievances brought about through the Grievance Redress Mechanism in a timely manner.	(i) Assist PMU in monitoring of socioeconomic status of affected persons, post RP/RIPP implementation.

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
2.CMSC-2 Social Safeguards Professional and field support staff	(i) Assist zonal PIUs and town/city level PIUs to prepare/update RPs based on detailed design and detailed measurement surveys; (ii) Guide CMSC field staff and contractor's social supervisor to conduct joint surveys and collect all information and conduct site-specific consultations required for preparing/updating RPs/DDRs/RIPPs and for preparing IR/IP checklists (iii) Guide CMSC field staff in supporting PIUs to announce cut-off dates, and disclose RPs/RIPPs to affected persons and implement RPs/RIPPs (iv) Support zonal and town-level PIUs in RP/RIPP and GESI implementation, monitoring and reporting, and grievance resolution and reporting.	(i) Support zonal PIUs to ensure (through field staff) that PIUs and contractors implement impact avoidance and mitigation measures; (ii) Assist town level PIUs (though field staff) to ensure RPs/RIPPs are implemented and all compensation paid prior to start of civil works (iii) Assist in monitoring and reporting, preparation of quarterly and semi-annual reports. (iv) Assist in grievance resolution and reporting.	(i) Supervise contractors to ensure any land required temporarily during construction, is restored to original condition, post construction. (ii) Assist zonal PIUs in monitoring of socioeconomic status of APs, post RP implementation.
Contractors (Officer)	(i) Review the RPs/RIPPs/IPPs and provide information about changes needed as per revised design and scope of works to PIU/CMSC/PMCBC for final revision of documents. (ii) Identify the need for detailed measurement surveys, and conduct detailed measurement surveys to arrive at the final inventory of loss (iii) Support project consultants in updating the draft resettlement plan / due diligence report for submission to PIU/PMU and ADB for review and approval. (iv) Assist with grievance redressal and ensure recording, reporting and follow-up for resolution of all grievances received. (v) Assist PIU in disclosing relevant information on social	(i) Ensure compensation is paid prior to start of work. Implement EMP. (ii) Implement corrective actions if necessary. (iii) Prepare and submit monitoring reports including pictures to PIU (iv) Brief staff, employees, and labor about the requirements of the good engineering practices to avoid / mitigate any impacts. (v) Bear the costs of any damages/compensation resulting from non-adherence to the provisions RPs/RIPPs/IPPs or written site instructions; (viii) Ensure that PIUs are timely informed of any foreseeable activities related to	(i) Ensure benefits are availed by citizens as envisaged. (ii) Request certification from PIU

Responsible Agency	Responsibility		
	Pre-Construction Stage	Construction Stage	Post-Construction
	safeguards. (vi) Ensure strict adherence to ADB and government policy on social safeguards.	RP/RIPP/IPP implementation.	

ADB = Asian Development Bank, CMSC= Construction Management and Supervision Consultant, CAPPC = community awareness and participation consultant, FGD = focus group discussion, PIU =project implementation unit, IPP= Indigenous people plan, PMCBC = project management and capacity building consultant, PMU =project management unit, RP= resettlement plan, ULB= urban local body.

C. Institutional Capacity and Development

65. RUSIDCO-EAP has experienced project staff for social safeguards, with knowledge and experience of ADB social safeguard policies and their implementation. However, retirement of existing staff during project implementation, transfer of candidates or recruitment/designation of new candidates as safeguards officers at zonal or town level will require training of the new staff and officers who will be involved in project preparation and implementation of this Project. The PMCBC Social Safeguard Specialist is responsible for training the PMU's safeguards officers (environmental and social), and PIUs' engineers and social safeguards officers. The resettlement framework includes indicative training modules on safeguards. The PMCBC are coordinating with PMU and PIUs on specific capacity development program.

- (i) sensitization on ADB's Policies and guidelines on social and indigenous people safeguards (ADB's Safeguard Requirement 2 and 3: Involuntary Resettlement and Indigenous Peoples) including meaningful consultation, GRM and accountability mechanism;
- (ii) introduction to the assessment of involuntary resettlement and indigenous peoples impacts and mitigation measures, including best practices, in the design, construction, operation and maintenance of water supply, sewerage, roads, and drainage subprojects;
- (iii) preparation and review of RPs/RIPPs/IPPs/DDRs based on preliminary design, and updating of the documents based on the final design;
- (iv) improved coordination within nodal departments;
- (v) disbursement of compensation, consultation; and
- (vi) monitoring and reporting requirements.

66. The project management consultants have conducted training of contractors (engineers as well as safeguards personnel) (Refer to Appendix 17) and community groups was consulted and information disseminated about the civil works and project activities, anticipated impacts and mitigation measures, grievance redress process.

67. PMU safeguards and gender officer and PIUs' safeguards focal persons will be trained by PMCBC's social resettlement experts on safeguards issues of the projects and the project GRM. The targeted participants of the briefings would be PMU and PIUs' staff, design engineers, and contractors. Typical modules would be as follows: (i) introduction and sensitization to ADB SPS on involuntary resettlement and indigenous people policies and requirements resettlement framework and indigenous peoples planning framework; (ii) review, updating and preparation of the resettlement plans and IPPs (as required) upon the completion of project detailed design; (iii) improved coordination within nodal departments; (iv) monitoring and reporting system; and (v) project GRM. Briefings on safeguards principles and GRM will also be conducted to the

contractors upon their mobilization by PIU safeguards focal persons supported by Safeguard Consultant of CMSC.

68. 14 provides the indicative training needs assessment. The cost of trainings will be borne under the Project's capacity building program by PMU. The detailed cost and specific modules will be customized for the available skill set after assessing the capabilities of the target participants and the requirements of the project by the SSS of PMCBC.

Table 14: Indicative Training Needs Assessment

Description	Target Participants and Venue	Source of Funds
1. Introduction and Sensitization to Social/Resettlement Issues (1 day) - ADB Safeguards Policy Statement - Government of India and Rajasthan applicable social safeguard acts - Incorporation of social/resettlement components under EMP into the project design and contracts - Monitoring, reporting and corrective action planning	All staff and consultants involved in the project At PMU, Jaipur	PMU cost
2. Resettlement plan implementation (2 days; 2 times during implementation with interval of one year in-between) - Roles and responsibilities - Resettlement plan components and stages in implementation - Construction schedules and timelines - Public relations - Consultations - Grievance redress - Monitoring and corrective action planning - Reporting and disclosure - Timely documentation	All staff and consultants involved in the subproject All contractors prior to award of contract At each PIU	PMU cost
3. Experiences and best practices sharing (1 day) - Experiences on resettlement plan implementation - Issues and challenges - Best practices followed	All staff and consultants involved in the project All contractors At PMU Jaipur	PMU Cost

ADB = Asian Development Bank, EMP = environmental management plan, PIU = project implementation unit, PMU = project management unit.

D. Implementation Schedule

69. The project will be implemented over a period of 4 years. The resettlement plan implementation schedule will vary from subproject to subproject. In general, the project implementation will consist of the three major phases, namely project preparation, land acquisition (if required), and rehabilitation of affected persons. The implementation of the resettlement plan will include: (i) identification of cut off date and notification, (ii) verification of losses and extent of impacts, (iii) finalization of entitlements and distribution of identity cards, (iv) consultations with APs on their needs and priorities, and (v) resettlement, provision of compensation and assistance, and restoration for APs. The PMU and zonal PIU will ensure that no economic displacement of affected persons will occur until: (i) compensation at full replacement cost has been paid to each displaced person for project components or sections that are ready to be constructed; (ii) other entitlements listed in the resettlement plan are provided to the displaced persons. Public

consultation and monitoring will be continued on an intermittent basis as needed during the entire duration of the project. The implementation schedule for the subproject is given in Table 15.

Table 15: Implementation Schedule

Activity	Year-1				Year-2				Year-3				Year-4			
	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q	Q

Handover land to contractors		♦	♦			♦	♦			♦	♦					
Start of civil works			♦													
Rehabilitation of temporarily occupied lands													Immediately after construction			

ADB = Asian Development Bank, GRC = grievance redress committee, CAPPC= community awareness and public participation consultant, CMSC= construction and supervision consultant, PIU = project implementation unit, PMCBC = project management and capacity building consultant, PMU = project management unit, SSS = social safeguard specialist, TLMC = town level monitoring committee.

Notes: (i) The census will be the cut-off date for non-titled affected persons. For titled affected persons, the cut-off date is the date Declaration. (ii) The resettlement plan will be updated based on final detailed design and affected person census and surveys. (iii) Endorsement and disclosure of finalized resettlement plans consistent with the resettlement framework to be undertaken.

X. MONITORING AND REPORTING

70. Resettlement plan implementation will be closely monitored to provide the PMU with an effective basis for assessing resettlement progress and identifying potential difficulties and problems. Internal monitoring will be undertaken by the PIU (through the SSS) with assistance from the PMU SPO. The socio-economic status of the affected persons will be monitored to ensure that their living standards are restored to pre project level or improved. Monthly progress reports will be prepared and submitted to the PMU. PMU will consolidate the same and will submit semiannual monitoring reports to the ADB for approval and disclosure (refer sample monitoring template in **Appendix 20**).

XI. STATUS OF WORKS AND ITS DUE DILIGENCE

71. The contract of this subproject has already been awarded and contractor mobilized on dated 22 June 2020. Contractor was allowed to lay the pipeline in low density/outskirt areas. As it was mandatory to revise the draft resettlement plan prior to start of civil works, due diligence/field visit/transect walk were undertaken by a team including Safeguard staff of CMSC/PMCBC, PIU and, project contractor in all the areas where pipeline works has been laid or to be laid. It was envisaged that all the areas where pipeline works were allowed are mostly residential and outskirts areas of the town. No involuntary resettlement impact was envisaged during transect walk. Social outreach team are being provided advance information to the households prior to pipelaying works and pipelaying works are being executed after incorporating the suggestion from households (due diligence summary attached in **Appendix 21**).

Table 16: Status of pipelaying works as on Dec 2020

Area	Total Scope (in meter)	Total laid (in meter)	Proposed Dia
Zone-1	27918	2500	DWC-200,250,300; RCC 350; HDPE 315,400
Zone-2	47586	1500	DWC-200,250,300; HDPE 250,400
Zone-5	38415	1300	DWC-200,250,300; RCC 350; HDPE 250,400
Total		5300	

Source: Monthly progress report

XII. NEXT STEPS

72. Measures recommended in draft resettlement plan is now updated and attached in **Appendix 22**. During updating of resettlement plan, following points/issues were identified that will be updated and reported to ADB through social monitoring report.

- (i) Presently, the DBO Contractor is providing alignment zone wise. As per contract, contractor should have to carry out the execution activities in all respects for that particular zones/DMA's and after completing the particular DMA/Zones, contractor shall focus for remaining zones/DMA's on priority basis. Anticipating the possibility of changed alignment after trial pit, 100% socioeconomic survey has been done for all the vendors/hawkers in both side of the road where sewerage networks pipeline to be laid. After finalization of exact alignment, joint re-confirmatory survey will be conducted by the officials of PIU, CMSC and contractor to finalize the list of affected persons likely to be impacted due to civil works. While finalizing the

alignment, efforts will be made to avoid the impacts, and accordingly, the vendors present in that particular section will be included in the mitigated list having no impacts. Those who will be impacted will be paid assistance as per agreed entitlement matrix. Consultations with affected persons and those who benefited from avoided/mitigated impacts will be conducted and documented in the semi-annual social monitoring report. Photographs of avoided impacts and details of all progress including access provision during construction and road restoration will be reported to ADB through semi-annual social monitoring report.

- (ii) SIP is still under progress, if any changes will be encountered, due diligence will be conducted and will be reported to ADB.
- (iii) Mitigation measures as proposed in this draft resettlement plan will be taken by the contractor and robust monitoring plan will put in place by the PIU and PMU to ensure its compliance. All safety measures will be taken during civil work.
- (iv) Meaningful consultation will be carried out throughout the project cycle and same will be reported to ADB through semi-annual social monitoring report.

4/4/2019

Agreement was made between Nagar Palika and Ratangarh Pinjrapol Gaushala committee on dated 03.04.2019.

1. 6000 sq.m. land under khasra no-639 will be used by Nagar palika for the construction of STP. The lease period is 10 years.
2. Nagar palika will pay 20,000 per month to Ratangarh Pinjrapol Gaushala committee for the use of above land.
3. The amount of lease/rent will be increased by 5% every year.
4. Operation and maintenance of the facility will be undertaken by Nagar Palika.
5. Land should be demarcated by Nagar Palika
6. Treated wastewater will be provided free of cost to Gaushala for irrigation purpose.

आज दिनांक 06.11.2017 को प्रस्तावित सीवरेंज प्लान्ट,
~~नदी~~ गोशाला अत्रि, के पदाधिकारियों के साथ
 सीवरेंज प्लान्ट के बारे में तथा सीवरेंज से निकलने
 वाले पानी के अंश के बारे में बताया गया।
 पदाधिकारियों ने बताया कि जो भी
 पानी सीवरेंज से निकलेगी, गोशाला सोरे
 पानी को लेकर उसका व्यवस्थापन ^{342/11} करेगा। 831-वर्ष
 सोरे के बगानों के लिए करेगी। साथ-
 ही साथ ^{अपना} सफाई की जिम्मेदारी भी
 करेगी। ~~पानी~~ समस्त शीत पानी
 गोशाला के उपयोग के लिए होगा।

APPENDIX 9: PHOTOGRAPHS OF INCOME LOSS SURVEY

APPENDIX 10: JOINT SITE VISIT OF PIU/CMSC AND CONTRACTOR FOR ENSURE TO PROVIDE ACCESS TO PERMANENT SHOPS

Joint Transect Walk to identify Affected Person's area in Ratangarh

A joint transect walk was carried out on 4th Feb. 2021, in areas of commercial density of Ratangarh town to identify potential temporary effects on the livelihood of road side vendors due to the proposed pipe laying works. In which Mr. Sajal Srivastava (Gender and Social Safeguard Professional) from CMSC II, Jodhpur; Mr. Deepak Mandan (AEN, PIU Ratangarh) Mr. Lokesh K (ACM, Ratangarh), Mr. Amit Bhardwaj (ASO, CMSC II, Ratangarh), Mr. Bhanu Pratap Raghuvanshi (Project Manager, L&T) and Support engineers were present along with NGO (Dr. BR. Ambedkar Prashikshan) representatives. Transect walk included visit along the major supply lines and sewer trunk lines and also supply distribution and office areas, core city/old city areas, extension areas, areas near bus stand, old bus stand, Nagar Palika, major junctions, main roads, residential areas and etc. Visual screening, conducted for all roads / pipe line alignments in the project area, confirms that no impacts to permanent/semi permanent structures and common property resources are anticipated. Both visual screening and transect walks confirm that the proposed sub project impacts are temporary in nature. The majority of affected persons will include vendors operating from non-title movable / transitory structures (push carts etc.) within the Right of Way (RoW), which may face temporary economic impacts during pipe laying. During the transect walk, it was also decided that -

- Any permanent / semi-permanent structure, common property resources in these density areas of the town will be protected from damage, as well as title holder businessman's livelihood earning will not be hinder, and customer's proper access to them will be ensured. They will be informed one month before starting the pipe laying work, so that they can store necessary materials for their business. Laying of pipelines in narrow roads and commercial areas will be carried out in phased manner, upon due consultation with shop owners. Works in such areas will be executed in small stretches, section by section.
- The actual dates of construction schedule with respect to rush hour, festival time and special business days will be discussed with vendor's squatters, market committee members, and residents, and accordingly construction activities will be planned.
- The alignment for the proposed pipeline work had not been decided yet, however it was told during discussion that looking to site feasibility during excavation, pipelines may be laid in central portion by keeping appropriate distances (as per contract agreement) between the sewage & water line where ever exists both. In this case the temporary impact will also minimise.

APPENDIX 11: CONSENT TAKEN FROM PERMANENT SHOPOWNERS

स्थानीय व्यापारियों से सहमति पत्र

रतनगढ़ शहर में जल प्रदाय योजना सुदृढीकरण एवं जल गल निस्तारण (सीवरैज) प्रणाली के विकास कार्य के सन्दर्भ में स्थानीय व्यवसाय करने वाले लोगों से चर्चा की गयी। चर्चा के दौरान इस बात से अवगत कराया गया कि जब बाजार क्षेत्र में पाइप लाइन का कार्य शुरू होगा तो व्यवसाय पर नकारात्मक प्रभाव नहीं पड़े इस बात को ध्यान में रख कर कार्य सम्पादित होगा।

व्यापारी वर्ग ने यह आश्वासन दिया कि उक्त परियोजना को सफल क्रियान्वयन के लिए उनका पूर्ण सहयोग रहेगा और उक्त अवधि के लिए जो असुविधा रहेगी उससे हमलोगों को कोई ऐतराज नहीं है। हम लोग इस कार्य से सफल क्रियान्वयन के लिए विभाग के साथ हैं।

Transcript

Consultation was done with local businessmen and it was informed that efforts will be made by the contractor and PIU to avoid impacts during laying of pipeline in market areas. Businessmen ensured that they will provide full support to the department for smooth execution of the project. If temporary inconveniences will be happended, we will bear it.

APPENDIX 13: SUMMARY OF PUBLIC CONSULTATIONS

Photographs of Public Consultation at proposed SPS site near Ginani pond

Summary of all public consultations

S. No	Number of Person consulted	Male	Female	Issues Discussed	Outcome
1	45	30	15	Present sewerage system of the town, Project components, sewerage system, property connection, Willingness to pay	Public in general were satisfied with the components identified and assured for required support. People are willing to pay for the improved quality of water.

Details of public consultations

S. No	Date of Consultation	Name of Persons	Location	Topic Discussed	Outcome	Photographs
1	28.07.2018	Female Groups	Near Kothi Ratangarh	Status of Sewerage system, Information about project components, willingness to pay for improved services, concerns and feedback about the project, any gender specific concerns and suggestions	There is no sewerage system in the town and they are generally exposed to untreated sewage collected in their area. Participants expressed their happiness that the project will ensure better health and hygiene in their neighbourhood. They believe that this will reduce incidences of water borne diseases. People are willing to pay for improved services.	
2	29.07.2018	Female Groups	Near Surya Cunema	Status of Sewerage system, Information about project components, willingness to pay for improved services, concerns and feedback about the project, any gender specific concerns and suggestions	People are supportive of the project and indicated their willingness to participate in the project to make it successful (especially women). People understand direct benefits along with latent benefits of the project. Women believe that disease burden will reduce and also this will also help them rid of foul smell coming from unhygienic emanating from	

S. No	Date of Consultation	Name of Persons	Location	Topic Discussed	Outcome	Photographs
					pools of wastewater collected locally, overflowing drains etc. They also feel that this also help them maintain better hygiene within their houses. Indirectly this will help them save money on expenses which they have to incur due to water borne diseases. They also expressed thei willingness to pay for improved services if needed.	
3	28.07.2018	Local Public	Holidhora	Status of Sewerage system, Information about project components, willingness to pay for improved services, concerns and feedback about the project	People are in favour of the project and indicated their willingness to participate in the project to make itsuccessful. People expressed their understanding about project benefits and how they have been waiting for sewerage project come to their town.	
4	26.07.2018	Local Public	Near STP site ward no-1	Status of Sewerage system, Information about project components, willingness to pay for improved services, concerns and feedback about the project	People are supportive of the project and indicated their willingness to participate in the project to make it successful. People also expressed hope that they will get rid of dirty sewage that often makes way in to the near by pond and help it rejuvenate.	

S. No	Date of Consultation	Name of Persons	Location	Topic Discussed	Outcome	Photographs
5	26.07.2018	Staff, BSNL	Near BSNL Office	Status of Sewerage system, Information about project components, willingness to pay for improved services, concerns and feedback about the project	People are willing to support the project and also pay for improved services so that it can sustain itself. However, they insisted that project must ensure that it is functional and efficient and O&M of the entire system is properly managed.

APPENDIX 13(A): CONSULTATION DURING UPDATING OF DRAFT RESETTLEMENT PLAN

S. No	Date of Consultations	Location	Topic Discussed	Outcome	Photographs
1.	December 18th, 2021	Near Ginani Pond, Zone-2, Ratangarh	1. Is prior information given by contractor? 2. Grievance redressal mechanism under the project. 3. Present Status of Waste Water facility in the town 4. Willingness to pay for improved services 5. Access to water supply and waste water services in town 6. Project components under RSTDSP and the benefits to the community	It was informed by nearby habitation that pamphlet distributed prior to works and also informed that proper sewerage facility is not available in the town and households having their own Septic tanks. Drinking water is providing by PHED but it's intermittent on alternate days People are willing to pay for the improved quality of water and sewerage facility. Grievance mechanism and process of lodging complaints was also briefed with participants. Participants are happy with proposed project and are willing to pay for improved waste water services in the town.	

2.	December 18th, 2021	Near Makdinath School, Zone-1, Ratangarh	1. Is prior information given by contractor? 2. Grievance redressal mechanism under the project. 3. Present Status of Waste Water facility in the town 4. Willingness to pay for improved services 5. Access to water supply and waste water services in town 6. Project components under RSTDSP and the benefits to the community	People are supportive of the project and indicated their willingness to participate in the project to make it successful and are willing to pay for improved quality of water and sewerage services in the town. It was also informed by participants that Water supply is intermittent on alternate days and structured sewerage facility is not available in town. Grievance mechanism under the project and process of lodging complaints also briefed with participants.	
3.	February 3 rd , 2021	Gogamedi, Zone-1, Ratangarh	1. Project components under RSTDSP and the benefits to the community 2. Is prior information given by contractor? 3. Grievance redressal mechanism under the project. 4. Present Status and access of Waste Water service in town 5. Willingness to pay for improved water and sewerage services	Informed by nearby habitation that pamphlet for prior information is distributed by contractor. People are concerned about the poor supply (intermittent on alternate days) of water supply and quality of water. Proper sewerage facility is not available in the town and most of households having their own Septic tanks or soak pits. People are willing to pay for improved quality of water and	

				structured sewerage services. Grievance mechanism and process of lodging complements was also briefed with participants. Participants are happy with proposed and are willing to pay for improved water supply and sewerage services.	
4.	February 7 th , 2021	Kanji Guest House, Zone-3, Ratangarh	1. Is prior information given by contractor? 2. Grievance redressal mechanism under the project. 3. Present Status of Water Supply and Waste Water in town 4. Willingness to pay for improved services 5. Access to water supply and waste water services 6. Project components under RSTDSP and the benefits to the community	During the consultation, It was informed by habitations that a pamphlet regarding advance information is distributed by contractor. It was also informed by participants that Water supply is intermittent on alternate days and sewerage facility is not available in town. People are supportive of the project and indicated their willingness to participate in the project to make it successful and are willing to pay for the improved quality of water and sewerage services. Grievance mechanism under the project and process of lodging complaints also briefed with participants.	

				People understand direct benefits along with tenant benefits of the project.	
--	--	--	--	---	---

5.	February 11 th , 2021	Reediwal Kuwan, Zone-5, Ratangarh	1. Project components under RSTDSP and the benefits to the community 2. Is advance information given by contractor? 3. Grievance redressal mechanism under the project. 4. Present Status of Water Supply and Waste Water services in town 5. Willingness to pay for improved services of water supply and waste water	It was agreed by participants that pamphlet for prior information is distributed in the town by contractor. Grievance mechanism and process of loading complaints briefed with participants. It was also informed by habitations that water supply is being provided by PHED but it's intermittent on alternate days and quality of water is also not good. Sewerage facility is not available in the town; most of households having their own Septic tanks or soak pits. People are supportive of the project and indicated their willingness to participate in the project to make it successful. Participants are happy with proposed project and are willing to pay for improved quality of water and sewerage services.	 
----	----------------------------------	-----------------------------------	--	---	---

6.	February 17 th , 2021	Pachi Ki Chakki, Zone-2, Ratangarh	1. Is advance information given by contractor? 2. Grievance redressal mechanism under the project. 3. Present Status of Water Supply and Waste Water in town 4. Access to water supply and waste water services and willingness to pay for improved services 5. Project components under RSTDSP and the benefits to the community	During the consultation, It was informed by participants that pamphlet for prior information is given in town by contractor. It was also informed by participants that water supply is being provided by PHED of GoR but it's intermittent on alternate days and quality of water is also not good. Sewerage facility is not available in the town; mostly households having their own Septic tanks or soak pits. Participants are happy with proposed project and are willing to pay for the improved quality of water and sewerage services. Three tier grievance mechanisms briefed with participants and process of lodging complaints also discussed.

APPENDIX 13(B): MINUTES OF CLC MEETING

Government of Rajasthan
Office of the Executive Engineer, IPIU,
Rajasthan Urban Sector Development Investment Program (RUIDP – Phase – II)
PMC Campus, Bhaleri Road, Churu

Tel No.: 01562-252804
email : churu.ruidp@rajasthan.gov.in

Fax No.:01562-252804
web site : www.ruidp.org

No.EE/RUIDP/CHURU/CLC/18-19/ 241

Date: 20.07.2018

Minutes of CLC meeting held on dated 13.07.2018 for Sewerage works at Ratangarh and Water supply & Sewerage works at Sardarshahar town (CHURU) under RUIDP Phase-IV.

A City Level Committee (CLC) meeting was held under the chairmanship of District Collector, Churu on dated 13.07.2018 to discuss the Sewerage works proposed for Ratangarh and Water supply & Sewerage works proposed for Sardarshahar Town under RUIDP Phase-IV. List of members/officers attended the meeting is enclosed as **Annexure-A.**

RATANGARH TOWN

1. It was apprised that the Detailed Project Report (DPR) of Sewerage project is prepared by the Consultant **M/s Creative Technocrate Services Pvt. Ltd. Jaipur** engaged by the Municipal Board Ratangarh (Churu), which will be considered under RUIDP Phase-IV. RUIDP has scrutinized the Draft DPR and suggestions have already been conveyed to consultant for modifications & revised the estimate as per RUIDP SOR- 2017.
2. The basic scope of works & provision in DPR were briefed to the committee. The estimated cost of DPR is of about **Rs 279 Cr** for works proposed under waste water sector including 10 years O&M cost. The capital cost for execution of works will be borne by State Government financed by ADB under RUIDP Phase-IV. The O&M cost for Sewerage works (STP, SPS & sewer line) is to be borne by Municipal Board as per actual basis along with power charges. The brief scope of works are as follows:

Sewerage Works: The scope under project to provide sewer network of about 219 Km length with 15872 nos. house sewer connections, three STPs (4.5 MLD, 3.5 MLD and 2.5 MLD capacity) & one Sewage Pumping Station (SPS) to pump sewage of low laying area to STP by 2180 mtr rising main. It was informed that STP is proposed on latest Sequential Batch Reactor (SBR) technology to meet out the latest effluent parameters. To reduce inconvenience to public deeper depth (3.5 mtr above) & crossing of NH & circles where traffic is more, trenchless technology for laying of sewer is proposed. CC/BT road restoration up to 4 mtr is proposed in full width. FSM generation for scattered areas at Ratangarh outskirts shall be taken.

Page 1 of 3

Scanned by CamScanner

3. Municipal Board has informed that land is available for construction of STP and Sewage Pumping Station within town and permission and land papers also submitted as required from competent authority.
4. It was also deliberated that for public complaint redressal, provision of toll free number along with set up of a control room should be taken in the provision.
5. It was also suggested to enhance the roles and responsibilities of local bodies during the construction period. It was suggested to include the sewer jetting machine under the contract. After completion of project works, whole town will be benefited from sewerage facility.

SARDARSHAHAR TOWN

1. It was apprised that the Detailed Project Report (DPR) of Water supply & Sewerage project is prepared by the Consultant **M/s STUP Consultants Pvt. Ltd., New Delhi** engaged by RUIDP, which will be considered under RUIDP Phase-IV. RUIDP has scrutinized the Draft DPR and suggestions have already been conveyed to consultant for modifications & revised the estimate as per RUIDP SOR- 2017.
2. The basic scope of works & provision in DPR were briefed to the committee. The total tentative cost of DPR is **Rs 226 Cr** (for water supply sector Rs. 86 Cr and for waste water sector Rs. 140 Cr) including 10 Years O&M cost. The capital cost for execution of works will be borne by State Government financed by ADB under RUIDP phase-IV. The O&M cost for Water supply works is to be borne by the PHED and for Sewerage works (STP, SPS & sewer line) by Municipal Board as per actual along with power charges. The brief scope of works are as follows:

Water Supply Works: - The scope under the project is to develop water supply system of Sardarshahar town. About 19.71 Km transmission mains (15.86 km existing & 3.85 Km new) are proposed to feed storage reservoirs and approx. 207 Km distribution network to supply water to consumer end including 22000 nos. house service connections with domestic water meters for continuous pressurized water supply. One new Clear Water Reservoir (CWR) of 2000 KL is proposed at existing CWR campus at Hanumangarh road.

Sewerage Works:- The scope under project to provide sewer network of about 82 Km length including 11 Km trenchless pipe with 9966 nos. house sewer connections, three new STPs (2.5 MLD, 5 MLD & 2.5 MLD capacity) & two Sewage Pumping Station (SPS) to pump sewage of low laying area to main sewer are proposed under the sewerage system. Up-gradation of existing STPs are also proposed under the project. It was informed that STP is proposed on latest Sequential Batch Reactor (SBR) technology to meet out the latest effluent parameters. To reduce inconvenience to public deeper depth (3.5 mtr above) where

Page 2 of 3

traffic is more, trenchless technology for laying of sewer is proposed. CC/BT road restoration up to 4 mtr is proposed in full width. FSM generation for scattered areas at Sardarshahar outskirts shall be taken.

3. The Operation & Maintenance payment will be performance based under the contract.
4. It was informed that land is available for construction of CWR's and Pump House's at near existing CWR at Hanumanagarh Road. It was instructed to Municipal board to provide the land for the construction of one STP (0.25 Hectare land in Ward 18) and two SPS (25m x 20m land near Navjeevan hospital Bikaner road and near railway station). Municipal officials assured for the same.
5. It was informed that sufficient space has been kept for laying sewer and water supply lines within the ROW of the town's Major roads. It was also deliberated that for public complaint redressal for customer relation centers will be taken under the contract. It was also deliberated that work shall be done in planned manner to avoid any inconvenience to public.
6. After completion of project works, whole town will be benefited from water supply and sewerage facility. It was suggested to include the sewer jetting machine under the contract.

Suggestions and directions of the City level committee will be incorporated in the detail project report. The project was agreed by the committee for further course of action at RUIDP level. Meeting ended with vote of thanks to the chair.

APPENDIX 14: PHOTOGRAPH OF LEAFLET DISTRIBUTION

	Format A: leaflet for Disclosure of Cut off Date
राजस्थान मध्यम नगरीय क्षेत्र विकास परियोजना (RSTDSP), RUIDP	
चरण- IV	
परियोजना का नाम — राजस्थान मध्यम नगरीय क्षेत्र विकास परियोजना रतनगढ़, शहर जल—मल निस्तारण (सीवरेज) प्रणाली के विकास का कार्य (Sewerage Works)	
परियोजना के उद्देश्य :-	
आपके शहर में सीवरेज परियोजना को शुरू किया जा रहा है। इस परियोजना के सफलतापूर्वक संचालन के लिए आप सब शहरवासियों से सहायता की आवश्यकता है। इस योजना के संचालन से शहर के लोगों की सीवरेज से संबंधित समस्याओं का निश्पादन होगा। सीवरेज परियोजना से पूरे शहर को स्वच्छता के नये आयाम मिलेंगे और पूरा शहर साफ— सुथरा और स्वच्छ नजर आयेगा।	
सीवरेज कार्य :-	
(अ) पर्यावरण की गुणवत्ता में सुधार तथा स्वच्छता के लिए योजना का क्रियान्वयन करना जिसके तहत सीवरेज की विस्तृत प्रणाली स्थापित की जाएगी तथा घरों से होने वाले सभी प्रकार के निस्तारित जल को सीवर लाईन से जोड़ा जायेगा। (ब) सीवरेज ट्रीटमेंट (जल मल निस्तारण) संयंत्र का निर्माण किया जायेगा।	
परियोजना घटक एवं सुधार के प्रस्ताव :-	
सीवरेज कार्य :-	
(अ) लगभग 145.32 किमी. सीवर लाईन नेटवर्क (ब) 6.1 एमएलडी और 3.8 एमएलडी सीवरेज ट्रीटमेंट प्लांट (जल मल निस्तारण संयंत्र) लगाए जाएंगे।। (स) 4.6 एमएलडी और 3.8 एमएलडी सीवरेज पम्प स्टेशन (एस पी एस)	
परियोजना की लागत — राशि रूपये 170.60 करोड़ लगभग	
निर्माण कार्य के दौरान संभावित अल्पावधि प्रभाव :-	
जो लोग रोड़ के किनारे थड़ी—ठेला फल —सब्जी,चाय कि थड़ी,फेरी अस्थाई दुकान लगाकर अपना व्यवसाय कर जीवन यापन करते हैं ,कार्य के सफल क्रियान्वयन के लिए उन लोगों को अल्पावधि के लिए अन्यत्र स्थानान्तरित की आवश्यकता पड़ेगी। यदि व्यवसायियों को किसी भी तरह की हानि पहुँचेगी तो उन्हें प्रभावित मानते हुये एडीबी राजस्थान सरकार के मानकों के अनुसार उचित क्षतिपूर्ति का प्रावधान किया जायेगा। इस कार्य हेतु सर्वे कार्य दिनांक 21.01.2021 से शुरू किया जा रहा है। जिसमें हम आपसे सहायता की अपेक्षा करते हैं।	
अधिसाशी अभियन्ता आर.यू.आई.डी.पी. पी.आई.यू. , रतनगढ़	
हमारी सहायता करें —स्वयं की सहायता करें राजस्थान मध्यम नगर विकास क्षेत्र परियोजना (RSTDSP), RUIDP चरण —IV जल का संरक्षण बदलेगा जीवन। गंदगी एक भयंकर बीमारी है। इससे होती महामारी है।	

Sub-project Information	Description
Name of the sub-project	Ratangarh Sewerage works
Proposed sub-project technical details and project benefits	Project Cost (expected) – 170.60 crore Sewerage Works ➤ 2 no. of sewerage treatment plant of 6.1 and 3.8 MLD and 2 no. of pumping station shall be constructed ➤ Sewerage Network-158 km Implementation of program for ensuring qualitative improvement in environment and effective and large sewerage system shall be established. All drainages and waste water shall be linked with sewerage system.
Summary of sub-project impacts	Some street and mobile vendors are engaged in road side business. Pipe will be laid in such road/s sides and they may be affected temporarily during the proposed construction and may have to move at other place. If any loss of business or livelihood is envisaged, shall be considered as affected person and compensated as per ADB/GOR parameters. For this purpose, survey work is going to start from 21 January 2021 and your cooperation is expected.

APPENDIX 15: COPY OF CUT-OFF DATE

राजस्थान मध्यम नगरीय क्षेत्र विकास परियोजना (RSTDSP), RUIDP धरण- IV

परियोजना का नाम - राजस्थान मध्यम नगरीय क्षेत्र विकास परियोजना (RSTDSP), RUIDP धरण- IV

शहर में जलप्रदाय योजना के सुदृढीकरण एवं जल-मल निस्तारण (सीवररेज) प्रणाली के विकास का कार्य (Water Supply and Sewerage Works)

परियोजना के उद्देश्य

जलप्रदाय योजना

(अ) वर्तमान क्षमताओं का पूर्ण उपयोग करना तथा जहाँ भी आवश्यक हो उत्पादन एवं वितरण व्यवस्था में अगिवृद्धि ।

(ब) परियोजना के तहत नई पाइप लाईन डाली जाएगी जिससे वितरण में वृद्धि होगी।

सीवररेज कार्य

(अ) पर्यावरण की गुणवत्ता में सुधार तथा स्वच्छता के लिए योजना का क्रियान्वयन करना जिसके तहत सीवररेज की विस्तृत प्रणाली स्थापित की जाएगी तथा घरों से होने वाले सभी प्रकार के निस्तारित जल को सीवर लाईन से जोड़ा जायेगा।

(ब) सीवररेज ट्रीटमेन्ट (जल मल निस्तारण) संयंत्र का निर्माण किया जायेगा।

परियोजना घटक एवं सुधार के प्रस्ताव

जलप्रदाय योजना

(अ) आवश्यक जल परिवहन पाईप लाइनें व वितरण पाईप लाईनों के कार्य ।

(ब) पानी के अपव्यय को नियंत्रित करने हेतु जोन वाईज बल्क मीटरिंग व्यवस्था ।

(स) हाउस कनेक्शन ।

सीवररेज कार्य 145.32

(अ) लगभग किमी. सीवर लाईन नेटवर्क

(ब) 6.11.3.6 एमएलडी सीवररेज ट्रीटमेन्ट प्लांट (जल मल निस्तारण संयंत्र) लगाए जाएंगे ।

परियोजना की लागत - राशि रुपये 178.40 करोड़

निर्माण कार्य के दौरान संभावित अल्पवधि प्रभाव

जो लोग रोड के किनारे अपना व्यवसाय कर जीवन यापन करते हैं उनका व्यवसाय अल्पवधि के लिये प्रभावित होने की संभावना है। इसलिये उन्हें अल्प समय के लिये अपना व्यवसाय दूसरे स्थान पर स्थानान्तरित होने की संभावना है। इसी को ध्यान में रखते हुये ऐसे लोगों की पहचान के लिये एक सर्वे किया गया जो लोग इस आर.ओ.डी. के बायरे में / किनारे पर अथवा नजदीक रहते हैं। जो लोग इस बायरे में आते हैं उन्हें प्रभावित मानते हुये एडीबी / राजस्थान सरकार व भारत सरकार के मानकों के अनुसार मुआवजा दिया जायेगा।

पुनर्वासित व्यक्ति

APPENDIX 16: CUT-OFF DATE LIST PASTING PHOTOGRAPHS

APPENDIX 17: ORIENTATION PROGRAM FOR SAFEGUARD REQUIREMENT

Orientation program with Project Contractor, CMSC Engineer, Safeguard team of CMSC and Social Outreach team of contractor was done and Safeguard issues were deliberated in details.

- Introduction to SPS 2009
- Introduction to Agreed Resettlement Framework
- Type of Impact envisaged and Mitigation Measures
- Resettlement plan and its components
- Contractor's role in minimization of involuntary resettlement during finalization of design and during execution
- Requirement of updating Resettlement plans (RP) by CMSC and requirement of contractor to intimate about final scope/alignment/change of scope and mitigation plan for congested areas including liaison with concerned department
- Requirement of 100% Socio Economic Survey as per finalized alignment / scope
- Grievance Redress Mechanism/Grievance Redress Committee /City Level Committee
- Requirement of Coordination between the agencies involved in execution works.

It was informed that as per initial design and preliminary report, impact assessment was done earlier by the ADB team and this subproject comes under Category B as per ADB impact categorization. Temporary livelihood impact was anticipated on movable/transitory businesses during impact assessment and draft RP was prepared by ADB. **(Ref resettlement plan attached in Bidding document)**. It was suggested by ADB that transect walk data/analysis will be updated road wise after finalization of detailed design, before start of civil works. A 100% census and inventory of loss surveys will be undertaken after finalization of detailed design to register and document the status of all affected persons (APs) within subproject impact areas and resettlement plan will be updated based on involuntary impacts identified during the census survey exercise.

It was deliberated that RP implementation is contractual obligation. It is the responsibility of CMSC to update RP. Contractor will facilitate Social Safeguard Person of CMSC for conducting detailed socio economic survey. Being a Design Build Operate contract, the final design/alignment will be provided/ re-confirmed by the contractor. If exact alignment still not finalized, it is suggested that the vendors/hawkers/ squatters on both sides of the road(Where pipeline is proposed) will be covered during Survey. Videography of entire areas should be done to avoid any claim/grievances of Non titleholders. During implementation, payment will be disbursed to only those who will be impacted, other will be considered under mitigated category.

It was also informed that (i) The work should be executed in planned/ phased manner so that temporary inconvenience is avoided (ii) Assess to the households to be maintained during laying of pipeline.(iii) Access to CPRs to be maintained. (iv) Natural Drains should not be disturbed (as far as possible) (v) Advance intimation need to be provided to the household prior to start of pipe laying works.

Suprintending Egnleer/Executive Engineer
PIU- Abu Road, Sirohi, Ratangarh,
Fatehpur, Laxmangarh, Sardarsahar,
Kuchaman, Ladnu, Makrana, Didwana,
Khetri, Mandawa, Pratapgarh and
Banswara.

Subject:- Nomination of Safeguard and Safety Officer (SSO) of each PIUs for proper monitoring of Environmental and Resettlement issues and addressing of safeguard related Grievances through Grievance Redress Mechanism.

Reference:- Agreed Environmental Resettlement framework and EARF of RSTDSP.

All PIUs are directed to issue an office order to nominate one engineer from PIU to works as Safeguard and Safety Officer (SSO). It will be additional responsibility of Safeguard and Safety Officer (SSO), PIU to ensure day to day monitoring of implementation of Environmental Management and Monitoring Plan (EMMP) provisions, implementation & Monitoring Resettlement Plan (RP) and ADB Safeguard Policy& Safety compliance in concern town.

Further it is directed that all the PIU should maintain proper separate records of safeguard related Grievances received in their town and ensure that the safeguard related Grievances received are resolved as per Grievance Redress Mechanism (GRM) prescribed in EARF/RF which is summarized as under (for ready reference)

Methodology of multi-tier GRM	Responsibility/Action to be taken	Time Frame	Record Keeping
1st level: Grievances that are immediate and urgent in the perception of the complainant, the contractor, and supervision personnel from PIU and CMSC on-site will provide the most easily accessible or first level of contact for quick resolution of grievances	EE, PIU will resolve issues in consultation with supervision personnel (ACM), Safeguard and Safety Officer (SSO) PIU, Contractor, and Safeguard staff of CMSC. If required, city level monitoring committee (CLMC) will be involved in resolution of grievances at the 1st level.	PIU will resolve issues within 7 days of receipt of a complaint/ grievance.	Safeguard Support of CMSC will oversee the matters and prioritize / follow up the issues with PIU/Contractor. Safeguard and Safety Officer of PIUs, Safeguard Support of CMSC will record Grievances timely in the format enclosed as Annexure 1. Contractor/ Safeguard Support of CMSC will enter the general Grievance received (in a summarized manner) in Grievance Register (format enclosed as Annexure 2) on receipt form public forwarded to head of PIU or Safeguard and Safety Officer (SSO) for resolve in time and provide summarized information as and when require. The grievance register will be endorsed by all field agencies involved in implementation of EMP and

Methodology of multi-tier GRM	Responsibility/Action to be taken	Time Frame	Record Keeping
2nd level: All grievances that cannot be redressed within 7 days at field/PIU level will be brought to the notice of Zonal PIU headed by Additional Chief Engineer (ACE).	The ACE at zonal PIU will resolve issues in consultation with SE/EE PIU, assistant safeguard officer (ASO), field level PIU, CMSC, and the contractor.	The ACE at zonal PIU will resolve the grievance within 7 days of receipt of complaint/grievance.	RP. Environmental and Social Safeguards Personal of CMSC will keep all the records referred to zonal PIU and after compilation, all the details will be submitted to PMU.
3rd level: All the grievances that are not addressed by Zonal PIU within 7 days of receipt will be brought to the notice of the PMU.	Project Officer (Social/Environment) at PMU will resolve the grievance with necessary coordination of Zonal PIU and CMSC and guidance/instruction of additional project director (APD-PMU).	PMU will resolve the grievance within 15 days of receipt of grievance.	Safeguard Support of PMCBC will keep all the records referred to PMU.
4th level: Grievances not redressed through this process within/at the project level within stipulated time period will be referred to the CLC/grievance redress committee (GRC).	Zonal PIU will inform the CLC regarding any grievances required to be resolved urgently.	The GRC will resolve the grievance within 15 days of receiving the complaint.	Environmental and Social Safeguards Personal of CMSC will keep all the records.
Please note that an aggrieved person shall have access to the country's legal system at any stage, and accessing the country's legal system can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM.			

PIU Safeguard and Safety Officer (SSO) will monitor the entire process and all decisions taken by the PIU, zonal officers, PMU and GRC and will be communicated to the APs by Safeguard Support of CMSC.

It is also directed that names and contact number of the concerned Safeguard and Safety Officer (SSO) of PIU, contractors, safeguard support staff of CMSC will be posted at all construction sites at visible locations.

All PIUs will ensure timely issuance of order with a copy to Project Officer (Social & Environment), PMU. Further PIUs will be responsible to ensure redressal of grievances as per GRM procedures summarized above.

APPENDIX 20: SAMPLE MONITORING TEMPLATE

A semi-annual monitoring report shall be prepared on resettlement plan implementation and submitted to ADB by the PMC. It will include: (1) **the list of affected persons**, with compensation, if any due to each and details of compensation paid with signed receipts annexed to the report, socio-economic status and satisfaction levels of affected persons with the resettlement plan implementation process, compensation and mitigation measures; (2) **the list of vulnerable affected persons** and additional compensation / special protection measures planned/implemented for them (e.g. assistance to obtain project construction related jobs); socio-economic status and satisfaction levels of affected persons with the resettlement plan implementation process, compensation and mitigation measures; (3) **list of roads for closure** and actions planned / taken to minimize disturbance; (4) **details of consultations held with affected persons** (with number of participants by gender, issues raised, conclusion / agreement reached, actions required/taken); (5) **details of grievances** registered, redressed, outstanding complaints, minutes of GRM meetings held; (6) **details of information disclosure** and awareness generation activities, levels of awareness among target population and behavior change, if any; and (7) **any other relevant information** showing resettlement plan implementation progress. The following checklist may be used for overall monitoring of resettlement plan implementation.

S. N.	resettlement plan Activities	Completed Y/N	Remarks
A. Pre-Construction Activities and resettlement plan Activities			
1	Approval of final resettlement plan by ADB prior to contract award		
2	Disclosure of final resettlement plan on ADB and EA websites		
3	Circulation of summary resettlement plan in local languages to all stakeholders		
A. resettlement plan Implementation			
1	Grievance Redress Mechanism established at different levels		
2	Entitlements and grievance redress procedure disclosed		
3	Finalization of list of affected persons, vulnerable affected persons and compensation due		
4	Finalization of list of roads for full or partial closure; mitigation measures proposed and implemented (with photographic documentation)		
5	Affected persons received entitlements as per EM in resettlement plan		
6	Payment of compensation, allowances and assistance (No. of affected persons)		
7	Additional assistance (project-related construction jobs, if willing and able) for vulnerable households given (No. of vulnerable affected persons assisted)		
8	Grievances No. of grievances registered No. of grievances redressed Outstanding complaints Disclosure of grievance redress statistics		
9	Consultation, participation and disclosure as per Plan		
C. Monitoring			
10	Survey on satisfaction levels of affected persons with resettlement plan implementation completed		
D. Labor			

S. N.	resettlement plan Activities	Completed Y/N	Remarks
11	Implementation of all statutory provisions on labor like health, safety, welfare, sanitation, and working conditions by Contractors. Ensuring no child labour used		
12	Equal pay for equal work for men and women		

NOTE: Where applicable, the information provided in the table should be supported by detailed explanatory report, receipts and other details.

APPENDIX 21: DUE DILIGENCE DETAILS OF THE AREAS WHERE PIPELINE WORKS LAID

ANNEXURE 22: STATUS OF RECOMMENDATION SUGGESTED IN DRAFT RP

S. No	Measures recommended in the previous document	Status as on date
1	This draft resettlement plan will be updated with road wise detailed measurement and census surveys and where pipelines will be laid during detailed design and before start of civil works by CMSC social safeguard specialist and support staff. The updated/revised resettlement plan will be submitted to the ADB for approval. A 100% census and socio-economic survey will be undertaken to register and document the status of affected people (APs) within subproject impact areas. Detailed measurement survey will be jointly conducted by safeguard specialist and staff of CMSC and contractors prior to implementation at each site/stretch of alignment.	Joint site visit in each stretches has been undertaken by PIU/CMSC/Contractors engineers and tentative alignment was provided by the DBO contractor. As per contract, contractor should have to carry out the execution activities in all respects for that particular zones/DMA's and after completing the particular DMA/Zones, contractor shall focus for remaining zones/DMA's on priority basis. As it was mandatory to update RP before start of civil works and anticipating the possibility of changed alignment after trial pit, 100% socio economic survey has been done for all the vendors/hawkers in both side of the road where water supply and sewerage networks pipeline to be laid.
2	Project will establish involuntary resettlement impacts, if any, because of compensatory pastureland declared by the district collector for STP-1 (near NH 11). If such impacts are identified, this safeguard document will be updated accordingly which shall be completed and ADB approval obtained prior to start of civil work at STP site. Further information will also be collected on location of this site, distance from existing pastureland (now allotted to the subproject).	No involuntary resettlement impacts envisaged on allotted pasture land for STP.
3	ADB approval of the updated resettlement plan based on the final assessment at detailed measurement survey stage needs to be obtained by the PMU, before start of civil works.	Works was allowed for laying pipeline in low density areas, due diligence undertaken and reported to ADB. This is to ensure that no pipelines will be allowed in project impacted areas prior to approval of this updated RP.
4	During resettlement plan updating, census/socio-economic surveys for temporary impacts should include specific questions on place of business, its seasonal variation and affected persons migrant nature. A separate list of such affected persons should be made available in the updated resettlement plan	During census/socio-economic surveys of potential APs, all the details like type of occupations, seasonal variation, business hours etc has been taken to prepare benchmark for monitoring and evaluation.
5	Cut-off-date for temporary impacts will be communicated to affected persons and others in the affected area during census survey (and not in much advance) and also by putting up printed information in project affected area at some common meeting place and a copy of the same to be added to the updated resettlement plan.	Cut-off-date for temporary impacts was communicated to all the potential APs and list of potential APs was displayed road wise, included in this updated document.
6	Public consultations and engagement will be carried out through the entire project planning and implementation phase. Another round of consultations will specifically be carried out during detailed census survey (100 % affected persons survey) stage, upon finalization of design. Formal and informal consultative methods will be carried out	Goals and objectives of the project have been disclosed to stakeholders (including beneficiaries, affected persons, scheduled tribe community, elected representatives and institutional stakeholders) during updating of draft RP attached in this document.

	including, but not limited to: focus group discussions (FGDs), public meetings, community discussions, and in-depth and key informant interviews; An intensive information dissemination campaign for affected persons will be conducted and details will be appended in the Updated resettlement plan.
